It is more expensive for the Federal Government to finance education than for the individual States to do so, and the States have proven their ability and their willingness to meet their own educational needs.

What, then, is the real reason why Federal Aid to Education is being promoted by the left-wingers, the extreme Liberals, in both the Democrat and the Republican parties?

Congressman Noah Mason puts it this way:

> "Federal Aid for Education is not a temporary program to meet an immediate emergency. It is an effort to put our whole educational system under Federal control and to keep it there forever."

FEDERAL CONTROL OVER EDUCATION

Right-thinking Americans will not be misled by the propaganda put out by the promoters of Federal Aid to Education to the effect that Federal Aid will be given freely to the States and that no strings of Federal control will be attached.

Federal Aid without Federal Control is impossible! The U.S. Supreme Court has ruled that the Federal Government may control what it subsidizes.

The newsletter, FACTS IN EDUCATION, Inc.,* recently stated:

> "What the Federal Government finances, the Federal Government controls. We need not belabor the point. Our Constitution provides for it; every honest lawmaker admits it; and we would not have it otherwise. Indiscriminate handouts with no controls and with no accounting of funds would have meant national suicide long ago."

In discussing what Federal Aid and Control of Education would mean, Congressman Watkins Abbitt (D-Va.) has stated:

> "There is here demonstrated an all-out effort to federalize the schools and nationalize the lives of American citizens . . . . History teaches us that when the central authority gets control of the education of our youth, it is a long step toward a totalitarian government and dictatorship . . . Federal Aid means Federal Control."

Speaking in the House of Representatives in 1960, Congressman Robert Michel (R-Ill.) referred to the fact that the National School Board Association is opposed to Federal Aid. Congressman Michel at that time inserted in the CONGRESSIONAL RECORD an article by Ralph Monk, Vice-President of the Caterpillar Tractor Company. Mr. Monk, summing up his company's objections, touched, perhaps, the most sensitive spot of all when he said:

> "Eventually such Federal Control can be expected to include provisions regarding teachers' salaries, textbooks and courses, methods and facilities." (Note: Teachers' salaries are included in the Kennedy Administration's bill.)

Allen P. Burkhardt, School Superintendent of Norfolk, Nebraska, has had experience with Federal Aid – in vocational agriculture and home economics. Says Mr. Burkhardt:

> "To get this money we have to accept and adopt the course of study outlined and specified by the Federal Government through the state department (of education). We have to hire teachers whose qualifications are approved by the same groups."

The Kennedy Federal Aid and Control of Education bill is not a temporary measure (just as Congressman Noah Mason warned). During February, 1961, the weekly bulletin of the National School Public Relations Association, a department of the National Education Association (NEA) stated that the Kennedy three-year proposal **is only the first stage of permanent legislation,** and then continues:

> "There is no expectation that the Federal Government can abandon school support after three years."

FACTS IN EDUCATION, Inc., P. O. Box 2056-D Pasadena, Calif., Subscription Rate: $3.50 per yr.

And a functionary of the NEA recently spelled out in no uncertain terms that Federal Aid does mean Federal Control of Education. James E. Russell, Secretary of the Educational Policies Commission of the National Education Association states:

> "Legislation will have to be developed and passed which will define and assign responsibilities for planning, approving, administering and coordinating educational activities."

THE PURPOSE OF FEDERAL CONTROL OF EDUCATION

Federal Aid and Control of Education will centralize the control of all education in the hands of bureaucrats in the Health, Education and Welfare Department. The Socialist-minded bureaucrats in The HEW could then indoctrinate the youth of this nation in the alien ideologies of Collectivism, Socialism, and Welfarism.

The newsletter, FACTS IN EDUCATION, Inc., states:

> "Under our form of government, Socialism can advance only if and when the electorate is conditioned to accept the Welfare State, and so expresses itself at the polls. To achieve this objective it thus becomes imperative that education be centralized so that it can be more easily manipulated. And that can be accomplished only when the Federal Government assumes the responsibility of financing education."

A FREE OR A SOCIALIST AMERICA?

If Congress in 1961 bows to the wishes of the Liberals of both political parties and passes the Kennedy Federal Aid and Control of Education bill, it will mean that the Socialist masterminds in the U. S. Office of Education, and the Health Education and Welfare Department will take over all public education in the United States.

Teachers will become Civil Service employees; School Boards will eventually be replaced by local branches of the Federal Department of Health, Education and Welfare; parents will have no voice regarding the subject matter taught their children; any complaints regarding objectionable or pro-Communist textbooks will have to be directed to faceless bureaucrats in Washington; and, as the end result, America's youth will become educational wards of the Federal Government.

WHERE ARE TOMORROW'S LEADERS?

Our nation's freedom for all time to come is dangerously imperiled by the Kennedy program for Federal Aid and Control of Education. Under this program, Socialist educators will be financed by the unlimited funds of the Federal Government. If they can control the minds of America's youth, and can brainwash our youth into meek subservience to an all-powerful centralized government, America's heritage of individual liberty and the Free Enterprise system will be lost forever.

America has no other resource so precious, so vital to her future needs, as the leadership potential of today's American youth.

FOREIGN TRADE POLICIES AND UNEMPLOYMENT

10:30 A.M. to 12 Noon

TED O. TOON, management consultant, will speak on: "We're exporting our jobs – can we afford it?" Mr. Toon is chairman of the Trade Policy Congress of Washington, D.C. The TPC is an organization devoted to the protection of the jobs of American working men which are being destroyed by a combination of low tariffs and U.S. foreign aid funds used to build factories in low-wage foreign countries.

VIEWS OF A YOUNG CONSERVATIVE

Here are the views of a young Conservative, Roger W. Claus of the University of Wisconsin, who will be one of the Friday luncheon speakers:

"I, and many other young men like myself, are grooming ourselves to be the articulate exponents of the eternal verities which, we believe, the American people have forgotten. We reject the economic delusion of the New Deal. When the body politic wakes up from its dream of a Utopia-not-to-come and regains its moral equilibrium it may listen to us and learn again the principles that made this country great."

"OPERATION ABOLITION"

Saturday April 15, 1961 9 A.M. - 10:30 A.M.

After the showing of the sound film OPERATION ABOLITION, Congressman August E. Johansen, a member of the House Committee on Un-American Activities will attest to the authenticity of the film as he was present in San Francisco when the Communists incited the riots against the HCUA. Congressman Johansen will answer questions from the audience.

Hon. August Johansen

August E. Johansen, Republican Member of Congress from the Third Michigan District, was born in Philadelphia, Pennsylvania, July 21, 1905. He has been a resident of Battle Creek since infancy.

He is a graduate of Battle Creek High School in 1922 and the University of Chicago in 1926.

He is a former newspaperman and minister and from 1934 to 1944 was manager of industrial relations of the Kellogg Company in Battle Creek. He was editorial writer for the Battle Creek Enquirer & News from 1944 to 1948. He was editor of the Lakeview News (Battle Creek) and news editor of Radio Station WBCK from 1948 until 1951.

Mr. Johansen was named administrative assistant to the late Congressman Paul W. Shafer, February 1, 1951, serving until January 2, 1955.

He was selected August 24, 1954, as the Republican nominee for Congress in the Third District, to fill the vacancy on the ticket caused by the death of Congressman Shafer. He was elected to the 84th Congress on November 2, 1954, and re-elected to the 85th, 86th and 87th Congresses in 1956, 1958 and 1960 respectively.

He is a member of the House Committee on Post Office and Civil Service and of the House Committee on Un-American Activities.

INFORMATION CONCERNING
(INTERNAL SECURITY)

The 5/24/61 issue of the "New York Journal-American," page 31, contained an article captioned "Extremists Fight 'Metro' Planning - New Hate Group Spreads Venom in U.S." The above article stated that the existence of a nationwide extremist group loosely identified as Anti-Metro, dealing in hate campaigns ranging through religion, race, labor, et cetera, has been uncovered. The article further states that Anti-Metro is already spreading across the Nation since its inception in Dade County, Florida, three years ago. According to the article the central theme of Anti-Metro is that organizations of public officials and public agencies headquartered at 1313 East 60th Street, Chicago, Illinois, comprise a "giant Cell 1313" dedicated toward amalgamating divisions of free government into one super state. The theory of Anti-Metro appears to be that teams of "social engineers" in the field of public administration propose to create a "metro" or metropolitan state by abolishing elective offices, staffing vital offices of trust with political appointees, centralizing political power, creating confiscatory taxation, establishing Soviet-type central communications and "demagogic executive and administrative control."

The article also states the opponents of metropolitan government programs (in Los Angeles and Sacramento) were informed that Mimeographed rumor sheets in gross lots were available to "fight Metro." Apparently sources for these rumor sheets are "The Independent American," Box 4223, New Orleans, Louisiana,

and the Committee for Preservation of the Constitution, P.O. Box 27103, Hollywood, California. According to the article typical excerpts from the rumor sheet currently being circulated in San Francisco are to the effect that 1313 East 60th Street (sometimes referred to as "The Giant Cell") is communist headquarters for the training of urban renewal people, city planners, city managers for metro government, et cetra, and through the infiltration of these trained people the communists plan to gain control of the United States. Another typical excerpt is that at least 80% of city newspapers are controlled by communists and are working for urban renewal, metro government and other ways of abolishing free government.

—ATHEISTIC COMMUNISM IS SUBVERTING

It is ghastly to see the monster atheism being nourished in the churches which it seeks to destroy. Many Communist fronts have operated under the guise of some church commission or religious body.

— J. Edgar Hoover, Director, Federal Bureau of Investigation

In his book, *"Masters of Deceit,"* FBI Director J. Edgar Hoover stated: "A dedicated clergyman, being a man of God, is a mortal enemy of Communism. But if he can, by conversion, influence, or trickery, be made to support the Communist program once, or a few times, or many times, the Party gains. If, for example, a clergyman can be persuaded to serve as sponsor or officer of a Communist front, to issue a testimonial, or to sign a clemency petition for a Communist 'victim of persecution,' his personal prestige lends weight to the cause. The church, in Communist eyes, is an 'enemy institution' to be infiltrated, subverted, and bent to serve Party aims."

HOW MANY RED SYMPATHIZERS IN THE CHURCHES?

According to J. B. Matthews, former Chief Investigator for the House Committee on Un-American Activities, the Gallup Poll in 1951 made a nationwide canvass of the radical views of clergymen. According to this Gallup Poll, 88% of the clergy expressed the view that "it is impossible to be a good Christian and a member of the Communist Party."

Dr. Matthews then asked the question: "What about the 12%, or 30,000, of the Protestant clergy who were either unable, or refused to affirm the complete irreconcilability of Christianity on the one hand, and the Communist conspiracy on the other hand."

And Dr. Matthews continued: "I confess that I find something alarming in the situation that finds 30,000 confused Protestant clergymen ministering to the minds and morals of the more than 6½ million members of their congregations."

In July, 1953, testifying before the House Committee on Un-American Activities, Manning Johnson, a former member of the Communist Party, stated:

> It is an axiom in Communist organization strategy that if an infiltrated body has 1% Communist Party members and 9% Communist Party sympathizers, with well-rehearsed plans of action, they can effectively control the remaining 90% who act and think on an individual basis. In the large sections of the religious field, due to the ideological poison which has been filtered in by Communists and pro-Communists through seminaries, the backlog of sympathizers and mental prisoners of socialistic ideology is greater than the 10 percent necessary for effective control.[1]

COMMUNIST CLERGYMEN

During the hearings conducted by the House Committee on Un-American Activities in July, 1953, Joseph Zack Kornfeder, an ex-Communist, gave valuable information to the committee exposing Communist infiltration in the churches. Mr. Kornfeder estimated that there are up to 600 members of the Communist Party among the clergy in America. Mr. Kornfeder then testified that the Communist Party utilizes four means of infiltrating the field of religion:

(1) The planting of Communists among the clergy. . . .;
(2) The channeling of Communist clergymen into seminaries where they can train future clergymen who will preach to multiplied thousands;
(3) The reinterpreting of the Bible in such a way as to support the materialist philosophy of Communism. . .; and
(4) The organizing of "social action" groups of socialist-minded clergymen, who then lead segments of congregations into such political activity as will serve the ultimate purposes of the Communist Party.[1]

In 1960, Matt Cvetic stated: "Many American clergymen and church laymen are not aware that the Reds have a well worked-out plan for the infiltration of our churches and church organizations. This infiltration is planned by a secret group of high-level Red agents, labeled the 'Clergical Commission of the Communist Party.' This Red 'commission' is composed of Soviet agents and American Reds, posing as ministers, preachers and priests, who have fallen away from the church and joined the Communist Party. How do I know about the existence of this Red 'Clergical Commission'? I have reason to know only too well – because in 1945, while posing as a Communist for the FBI, I was a member of this Red Commission."

WHY ARE THE REDS AFTER OUR CHURCHES?

The churches of America have, in the past, formed an invulnerable bastion of morality, opposing atheism and all evil. As such, they were able to imbue moral courage and integrity in the citizens of this nation.

In this connection, Joseph Zack Kornfeder, former member of the National Committee of the Communist Party of the United States stated in 1952:

THE CHURCHES——

When the Communists invade religion, they invade, as Stalin once said, "the ideological fortress of the enemy." If they should succeed with their deceptive methods to confuse religion to such an extent that it, too, will be neutral in the fight between Capitalism and Communism, they will have scored a tremendous victory. Only two years ago, a great international association of churches adopted a resolution declaring the churches to be neutral in the struggle between Capitalism and Communism. If religion, as the very foundation of civilization, is made impotent to the extent that the church declares itself neutral in this, the biggest, most important struggle of our century, then indeed there is much to worry about.

THE STRANGE RECORD OF THE N.C.C.

The National Council of the Churches of Christ in the U.S.A. (referred to hereinafter as the NCC) was organized in 1950 as a merger of the old Federal Council of Churches of Christ in America and seven smaller religious organizations.

The *DAN SMOOT REPORT* of Feb. 29, 1960, in discussing the formation of the National Council of Churches in 1950, states: "The old Federal Council leaders became the leaders of the National Council. Indeed, the Federal Council Bulletin for Dec., 1950, officially announced that 'all the work of the Federal Council will continue under the new auspices.'"

And what is the background of the old Federal Council of Churches, which has now assumed the new name of "National Council of Churches"? The Office of Naval Intelligence of the United States Navy Department, in a report which was read into the *CONGRESSIONAL RECORD* on Sept. 10, 1935, stated:

> Organizations which, while not openly advocating the "force and violence" principles of the Communists, give aid and comfort to the Communist movement and party. Among the strongest of these organizations is the Federal Council of Churches of Christ in America. This is a large radical pacifist organization. It probably represents 20 million Protestants (as of 1961, 39 million) in the United States. However its leadership consists of a small, radical group which dictates its policies. It is always extremely active in any matter against national defense. [2]

Dr. J. B. Matthews, a leading authority on Communist infiltration of religion, has stated that when the Federal Council of Churches became the National Council of Churches on Nov. 29, 1950 in Cleveland, Ohio, "there were 358 clergymen who were voting delegates to the constituting convention. Of these clergymen, 123 (or 34%) have had affiliations with Communist projects and enterprises." [3]

DUPES OF THE REDS

A pamphlet entitled "*The Communist Party of the United States of America — What It Is and How It Works,*" published by the Senate Internal Security Subcommittee in 1956, states:

> A fellow traveler may be defined as an individual who, from time to time supports one or more organizations or campaigns operating under the indirect, and usually unpublicized initiative and control of the Communist Party, or its representatives.

Circuit Riders, Inc., of Cincinnati, Ohio, has published a compilation of public records listing the names of 2,109 Methodist ministers, 1,411 Protestant Episcopal rectors, and 614 Presbyterian Church, U.S.A., clergymen who have at one time or another been associated with activities which have benefited the Communists, or supported causes actively advocated by the Communists. The three church denominations mentioned above are among the 34 member organizations of the NCC. [4]

HOW MANY RED-FRONTERS IN THE N.C.C.?

One of the most salutary effects of the uproar in 1960 over the Air Force Training Manual which included a section dealing with Communism in religion was that it enabled the House Committee on Un-American Activities to again conduct hearings regarding the extent of Communist infiltration in the field of religion. On Feb. 25, 1960, Richard Arens, Staff Director of the HCUA, during questioning of Secretary of the Air Force Dudley C. Sharp, stated:

> ...the chairman (of the HCUA) issued a statement that the... National Council of Churches of Christ in the United States of America (the NCC) had. . . . over 100 persons in leadership capacity with either Communist front records or records of service to Communist causes. The aggregate affiliations of the leadership, instead of being in the hundreds, as the chairman first indicated, is now, according to our latest count, into the thousands, and we have yet to complete our check, which would certainly suggest, on the basis of the authoritative sources of this committee, that the statement that there was infiltration of fellow travelers in churches and educational institutions is a complete understatement.

One of the leading figures in the Federal Council of Churches, which became, in 1950, the National Council of Churches, was Dr. Harry F. Ward. The House Committee on Un-American Activities has identified Dr. Harry F. Ward as a member of the Communist Party. This identification was established on the basis of sworn testimony of numerous witnesses during the 1953 hearings. [5]

Space does not permit any lengthy discussion of the record of Methodist Bishop G. Bromley Oxnam, a member of the board of the Federal Council, one of the most active pro-

moters of the new National Council of Churches, and one of the 'board members.[5] However, Circuit Riders, Inc., lists Bishop G. Bromley Oxnam as having been associated with 43 organizations, petitions or campaigns which served the cause of Communism, according to public records.[6]

Another prominent figure in the NCC is its immediate past president, Rev. Edwin T. Dahlberg. Mr. Dahlberg, according to Fulton Lewis, Jr., was affiliated, as early as 1942, with the Citizens Committee to Free Earl Browder, an organization cited on the Attorney General's list as Communist and subversive.[8]

HUMAN EVENTS Newsletter of Dec. 14, 1957, quotes material from the files of *NATIONAL REPUBLIC* Magazine listing 11 organizations and activities serving the cause of Communism in which Mr. Dahlberg participated. Of these, 3 of the 11 have been officially cited as Communist fronts.

On the floor of the House, Mar. 3, 1960, former Congressman Donald L. Jackson of California read portions of the Air Force Training Manual dealing with the subject "Communism in Religion," in which it was stated:

> The National Council of Churches of Christ in the United States of America officially sponsored the Revised Standard Version of the Bible. Of the 95 persons who served in this project, 30 have been affiliated with pro-Communist fronts, projects, and publications. In its own brochure, the National Council of Churches listed the names of the Revision Committee and the Advisory Board. Among these were Walter Russell Bowie of Grace Church, New York; Henry J. Cadbury of Harvard University; George Dahl of Yale University; . . . and Leroy Waterman of the University of Michigan.

On Feb. 25, 1960, Richard Arens, Staff Director of the House Committee on Un-American Activities, inserted into the record of the hearings, the number of affiliations with Communist fronts and causes of the four NCC leaders named above: Walter Russell Bowie - 33, Henry J. Cadbury - 9, George Dahl - 18, and Leroy Waterman - 20.

N.C.C. UNDER ATTACK BY MEMBER CHURCHES

The National Council of Churches, which for many years had been considered above criticism, now finds itself faced with an increasing number of critical resolutions or actual resignations by member churches.

In February, 1960, according to the *DAN SMOOT REPORT*, the Special Study Committee of the First Baptist Church in Wichita, Kansas (one of the largest in the American Baptist Convention, which is a member of the NCC), recommended that the First Baptist Church withdraw financial support from the American Baptist Convention because of its affiliation with the National Council of Churches. The Committee's report expressed concern about the alleged Communist-front activities of various officials in the NCC. **It specifically criticized the National Council for advocating American diplomatic recognition of Red China.**

In February, 1961, Rev. Curtis M. Nims resigned from the board of directors of the Regional Council (of the NCC) for Northern California and Nevada. Dr. Nims stated that he resigned **because of the National Council of Churches' criticism of the anti-Communist film, entitled "Operation Abolition", of the 1960 San Francisco student riots.** (Dr. Nims was an eye-witness to the Communist-inspired student riots). Also Dr. Nims' church, the First Baptist Church of San Francisco, severed all connection with the NCC.[7]

On April 23, 1961, the Vestry of St. Marks Episcopal Church in Shreveport, La., passed a resolution calling for the withdrawal of the Protestant Episcopal Church of the United States from the National Council of Churches of Christ. In its report, the Vestry Committee stated:

> The NCC has far exceeded its rightful role in speaking out as the official voice of Protestantism in America on such controversial issues as Federal Aid to Education, the Right-to-Work laws, the ethical considerations of the steel dispute, the seating of Red China in the United Nations, etc. The NCC, although not Communistic, has been an aid to the Communist conspiracy . . . We conclude with firm conviction, and only after long study and prayer, that the National Council of Churches as it is presently constituted and operated, is a harmful and highly dangerous institution.

DOES YOUR CHURCH SUPPORT ANY OF THESE OBJECTIVES OF THE COMMUNIST PARTY?

1. **Peaceful coexistence with the Soviet Union.**
2. **Disarmament.**
3. **Ban nuclear testing.**
4. **Abolish loyalty oaths.**
5. **Abolish all investigative committees on Communism.**
6. **Recognition of Red China.**
7. **U. S. Foreign Aid to Communist satellite nations.**
8. **Destroy American patriotism.**

National Council of Churches spokesmen claim to represent 39 million Protestants. Is your church a member of the NCC? Does the NCC speak for you when they issue public statements endorsing Socialist-Communist objectives and support "soft-on-Communism" legislation?

WHAT YOU CAN DO

If your church is **not** a member of the NCC, buy copies of this pamphlet and distribute to friends whose churches belong to the NCC. Every citizen of the United States, regardless of religious affiliation, will be directly affected if the above Communist goals are achieved!

If your church is a member of the NCC, buy and distribute copies of this pamphlet to all of your lay officials and members of the congregation. Suggest that a fact-finding committee be appointed, made up of leading members of your local church to examine the "soft-on-Communism" pronouncements of the NCC. Help to inform members of other churches within the NCC.

Remember, Christianity is the strongest single bulwark against atheistic Communism. Defend your religion and your church by helping to root out Communist influence. It's up to you!

Are You A Liberal

There are two diametrically opposed political positions prevalent in the United States today. These are "Conservative" vs. "Liberal." However, the leaders of both the Democrat and the Republican parties talk so much in such general terms as: "progress", "dynamic approach", "enlightened self-interest", "challenging era", "New Frontiers", etc., that the real issues of vital concern to this nation have been hopelessly beclouded.

Therefore, let's first talk about issues. Where do you, as a voter, stand on these vital issues? Your answer to the questions in this pamphlet will show you whether you are a Conservative or a Liberal – regardless of whether you are presently registered as a Democrat, a Republican, or an Independent.

HERE ARE YOUR QUESTIONS

BIG SPENDING

It will be recalled that in 1952 one of Eisenhower's prime campaign promises which swept him into office was:

"We will stop wild spending of your money . . ." Below is a comparison between two **peace-time** administrations:

	Fiscal Yr.	Budget
Truman Admin.	1949-50	$46,567,000,000
Eisenhower Admin.	1960-61	$79,800,000,000
Increased Fed. Spending	1950-61	$33,233,000,000 (71% increase)

Tax Foundation, Inc., has pointed out that **NON**-defense (welfare) spending has increased 86% since the Korean War. Defense spending for the same period has increased only 1%.

Big Spending policies of both the Democrat and the Republican parties have added to the fires of inflation, and are destroying the value of the life savings of millions of Americans. Democrat and Republican Congressmen continue to raise their own salaries and expense accounts in order to keep up with the inflation that they cause by voting for Big Spending legislation – but the pensioner and white collar worker cannot vote himself a raise.

QUESTION: Are you in favor of Big Federal Spending which is creating more inflation and which will soon cause taxes to be increased?

No ☐ Yes ☐

FARM POLICY

The Farm Program cost $1.1 billion in 1950-51 under Truman. Under the Republicans, the cost of subsidizing America's farmers cost $6.5 billion, an increase of $5.4 billion per year. So great had become the Federal control that accompanied this Federal Aid to Agriculture that by 1955, 14,000 farmers had refused to accept the government subsidies, and were fined $8.5 million for refusing to let the Federal Government dictate and subsidize their farming operations.

QUESTION: Government handouts (or subsidies) and government controls over farms mean the nationalization of farms. Are you in favor of nationalizing America's farms?

No ☐ Yes ☐

RECIPROCAL TRADE POLICIES

The Reciprocal Trade Program inaugurated by the Democrats was carried forward and implemented by the Eisenhower Administration to such an extent that now the United States is being flooded with cheap-made foreign goods of all kinds.

In the first four months of 1960, imports of manufactured goods reached a record $1.8 billion. This figure, double the rate of imports in 1956, covers a wide range of products, such as: textiles, autos, machine tools, typewriters, sewing machines, farm machinery, steel, optical instruments, chinaware, watches, etc. This flood of foreign goods is causing increased unemployment in the United States.

In addition, U. S. taxpayers' dollars have been used via the Foreign Aid Program to build hundreds of new, modern factories in low-wage foreign countries. The products of these factories are then shipped to the U. S. to compete unfairly with American-made products.

QUESTION: Are you in favor of continuing the Reciprocal Trade Program which is flooding the United States with cheap foreign-made goods in competition with American-made products and thereby causing unemployment?

No ☐ Yes ☐

Or A Conservative?

LABOR

Both the Democrat and the Republican parties have aided and abetted the rise of the Big Labor Bosses and their growing political power. So great has become the political strength of these Labor Bosses that now the rights of individual laboring men are menaced. The Democrat Party has bowed to the demands of the Labor Bosses and has promised to take national action against the Right-to-Work laws of individual States. Statistics prove conclusively that the laboring man, whether or not a member of a union, fares better in States which have Right-to-Work Laws. Right-to-Work laws also curtail the power of the national Labor Bosses over the laboring man. The abolishment of State Right-to-Work laws advocated by the Democrat Platform of 1960 would deprive American citizens of the right to work unless they pay dues to a Labor Boss.

QUESTION: Do you believe workingmen, even though they may prefer not to join a Labor Union should be forced to join a Labor Union in order to get or keep a job?

No ☐ Yes ☐

FOREIGN AID GIVEAWAY

The Marshall Plan of the Democrat Party, following World War II, was the first step in the Foreign Aid Program which has now become a permanent part of American Foreign Policy. Foreign Aid has been "sold" to the American people as a method of fighting Communism, and yet statistics reveal that during the years between 1945 and 1957, $2.5 billion in Foreign Aid ("fight Communism") taxpayer dollars were given to Communist or Communist-dominated countries – including the Soviet Union. Over 76 countries in the world have been the recipients of our Foreign Aid giveaway dollars.

An amount exceeding 85 billion taxpayer dollars has been scattered overseas on Foreign Aid since the end of World War II. **This is the increase** in our national debt in the last 13 years. In other words, the U. S. **has borrowed money** in order to give it away to foreign countries, and to our enemy, the Soviet empire of slave nations. Also our Foreign Aid funds have been used by England, Japan, Communist-controlled Poland, and other nations in order to reduce their national debts or to reduce their own income taxes. Incidentally, the national debt of the United States is now far greater than the combined debts of all foreign nations receiving our Foreign Aid funds.

QUESTION: Do you wish your income tax dollars to be spent to aid Communist or Socialist nations overseas and to help reduce the income taxes and national debts of other nations? No ☐ Yes ☐

RED CONQUEST ADVANCES

Both the Democrat and the Republican parties advocate peaceful coexistence with the Soviet Union.

Let's see how it works: At the time of the signing of the United Nations Charter, in 1945 during the Truman Administration, 200 million people were behind the Iron Curtain. Today, 15 years later, under both Democrat and Republican administrations, 900 million people have been taken over by the Soviet Union.

When the Eisenhower Administration took office in 1953, the following nations were controlled by the Soviet Union:

Albania, Bulgaria, Red China, East Germany, North Korea, Outer Mongolia, Poland, Romania and Yugoslavia.

By 1961 the following additional nations have been completely taken over, or are ruled by Soviet-directed dictators:

Cuba, Czechoslovakia, Hungary, North Vietnam and Tibet.

Further, either by way of Communist sympathizers who run the government, or highly successful Communist agitation, the Communists have acquired almost complete control in the following countries.

Afghanistan, British Guiana, Cambodia, the Congo, Egypt, Ghana, Guinea, Iceland, Indonesia, Iraq, Laos, South Korea, Syria, Tunisia, Venezuela, and Yemen.

QUESTION: Do you think that the appeasement policies of the Democrat and the Republican parties have helped to stop the tide of Soviet conquest? No ☐ Yes ☐

RESTORE THE TWO PARTY SYSTEM

There is only one way that the two-party system can be restored in the United States and that is by the establishment of a NEW CONSERVATIVE PARTY . . . a **SECOND PARTY** – in opposition to the two "old" parties whose policies are now identical.

A PRELIMINARY STATEMENT OF PRINCIPLES FOR THE NEW PARTY

(1) A firm policy toward Communist Russia. No more craven appeasement. (The leaders of Communist Russia respect only strength).
(2) Eliminate Communist infiltration of our Government.
(3) Cease fantastic Foreign Aid Giveaway programs which help our enemy, and add to our inflation-and national debt.
(4) Drastically reduce taxes by cutting big, unnecessary, wasteful Federal Spending.
(5) Restore the nation to Constitutional principles and the States Rights guaranteed under the Constitution.

RED TAKEOVER OF CUBA

Although billions of American taxpayer dollars have been spent in Foreign Aid programs for the stated purpose of "saving the Free World from Communist aggression," the Soviet Union has succeeded in setting up a Red satellite nation only 90 miles from the American mainland. Chinese and Russian Communists have taken over, in large measure, the training of Cuba's army of revolution. There are reports of Soviet-directed construction of submarine bases and missile-launching pads in Cuba which pose an urgent and direct threat to the security of the United States.

The Senate Internal Security Subcommittee has heard testimony that the Cuban take-over by the Reds was facilitated by appeasers in the U. S. State Department.

QUESTION: Do you approve of the way the Democrat and Republican parties have handled the Cuba situation? **No** ☐ **Yes** ☐

DISARMING AMERICA

Nuclear weapons are America's best defense against the Communist hordes of Russia and China. And yet, the Democrat and Republican parties have agreed to stop testing and improving our nuclear weapons, even though experts are agreed that the Soviet Union continues to test and improve its nuclear weapons for ultimate use against the United States.

QUESTION: Are you in favor of **depriving** *the United States of the means of defending itself against any Soviet aggression?*

No ☐ **Yes** ☐

YOUR SCORE

Listed so far in this pamphlet have been 8 questions. If you answered "No" to 7 of the 8 questions, it means that you oppose the Liberal Socialist policies of both the Democrat and the Republican parties. Therefore, **you are a Conservative.**

PRINCIPLES OR POLITICIANS?

The Liberals and the Socialist-Internationalists would never have been able to infiltrate and take over the policy-making positions of both the Democrat and the Republican parties if politicians in high places had not compromised their pro-Constitution principles for political expediency or personal ambition.

Big Spending and Appeasement of Russia increased at a rapid rate under Eisenhower's Republican Administration.

QUESTION: Do you believe that the Republican Party is capable of furnishing effective opposition to the Big Spending and Appeasement-of-Communism policies of the Kennedy Administration? **No** ☐ **Yes** ☐

Political experts are agreed that if Nelson Rockefeller is re-elected Governor of New York in 1962, he will have an excellent chance of being nominated the Republican presidential candidate in 1964.

QUESTION: In view of Rockefeller's extreme internationalist and Socialist views, would you support Nelson Rockefeller for re-election as Governor of New York simply because he happens to be a Republican? **No** ☐ **Yes** ☐

WHERE YOU STAND

If you answered either of the two preceding questions with a "yes," you are a "party loyalist," placing party above Conservative principles. On the other hand, if your answer is "no" to both of these questions – you are a sincere Conservative.

Clarence Buddington Kelland, former Executive Director of the Republican National Committee, and National Committeeman from Arizona, as well as being a noted author, has stated:

> "The words Democrat and Republican are meaningless, outworn shibboleths. It is not common sense that a mere word should prevent the fusion of Southern and Northern citizens of like thinking. The South will not

rally under the despised name of Republican. Let us then confer and plan, ever mindful of our duty to unborn generations, and formulate a plan to unite and fight under some name and emblem acceptable to both sections of our land."

QUESTION: Do you agree with the above statement of Mr. Kelland? No ☐ Yes ☐

WHAT YOU CAN DO

If you wish to help in this movement to oppose the Liberal-Socialist policies of both old parties – if you believe that a new national Conservative party is the only way to restore fiscal sanity and Constitutional government to this nation, then please purchase and distribute as many copies of this pamphlet, TAX FAX #30, as you possibly can.

Send copies to all of your Congressmen and Senators, with a small personal note requesting a simple "yes" or "no" answer to all questions. Keep a record of those Congressmen and Senators who do not reply.

To those of your friends who do not yet know whether they are Conservative or Liberal in their views, perhaps this pamphlet will help them to make up their minds.

Use the information in this pamphlet and write a letter to the editor of your local paper asking readers to answer the questions in this pamphlet. (Each letter should be restricted to only one question, of course).

Buy and distribute as many copies of this pamphlet as you possibly can. Give them to businessmen in your community, club members and civic leaders.

CONSERVATIVE ALERT! - IMMEDIATE ACTION URGED!

NEW MOVE TO REPEAL CONNALLY AMENDMENT

On May 3, 1961, Senator Javits of New York introduced S. Res. 136. This Senate Resolution expresses the "sense of the Senate" that the President, in negotiating future treaties or international agreements, should include a provision for settlement of claims or disagreement resulting therefrom to be under the jurisdiction of the World Court. This is a bold attempt by the ultra-Liberal Internationalists to bypass the Connally Amendment. The Connally Amendment guarantees the United States the right to decide if an issue is a domestic matter and therefore not under the jurisdiction of the Communist-controlled World Court, which operates as the judicial arm of the United Nations.

In 1960, because of a tremendous Conservative protest throughout the United States, the ultra-Liberals were defeated in their attempt to repeal the Connally Amendment, which protects U.S. sovereignty. The Javits bill is a new attempt to repeal the Connally Amendment.

Write or wire your Senators today urging them to oppose S. Res. 136, and to preserve the Connally Amendment!

If you wish more information on the dangers presented by the Soviet-controlled World Court, order today copies of TAX FAX pamphlet No. 16, entitled "Beware World Court." Distribute these to your friends and members of your patriotic groups, urging that they also write their Senators urging defeat of S. Res. 136 which, if passed, would place the United States under the domination of the Red-controlled World Court.

THE CAMPAIGN AGAINST PRIVATE OWNERSHIP

The Communist manifesto calls for the abolition of private ownership of property. The Federal Government is now promoting a vast program which would achieve the same purpose - the destruction of the right to own private property. This Federal program is called "Urban Renewal." If an Urban Renewal program is being proposed for your community, find out today what such a program can mean to you and your property. Our TAX FAX #12, entitled "Urban Renewal" explains how and why Urban Renewal can be defeated in local elections. This pamphlet should be brought to the attention of home owners, apartment owners and building owners. It should be put in the hands of real estate agents, the realty officers of banks and all officials of banks, homesteads and savings and loan institutions.

THE CAMPAIGN AGAINST LOCAL SELF-GOVERNMENT

"Metropolitan Government" is a means by which the Communists hope to rule the big cities of America through persons who are not elected to office by the local citizens. It also seeks to erase State lines and State jurisdiction by combining areas into regional governments.

TAX FAX #13, entitled "METRO" which deals with the subject of metropolitan government should be put in the hands of sheriffs, mayors, police chiefs and local elected officials at all levels.

FOREIGN AID AIDS REDS

Since the end of World War II more than $3 billion in foreign aid has been sent to countries behind the Iron Curtain. These include Poland, Yugoslavia, East Germany and Soviet Russia itself. What a grim joke this is when the President of the United States each year since 1946 has asked the Congress to spend billions on Foreign Aid to defeat the onward rush of world Communism when in reality Foreign Aid has been used to support Socialist and Communist governments around the world!

For further details on Foreign Aid, send for TAX FAX #11 entitled "Is Foreign Aid a Fantastic Fraud?"

REPEAL INCOME TAX

Two national drives are now underway whereby Americans can participate in a counter-attack against the Communists.

The Communist manifesto calls for the adoption of a progressive income tax in order to destroy the independence and solvency of the middle classes which today are the backbone of those nations still not under Communist domination. By repealing the Federal personal income tax we can deprive the bureaucrats in Washington of the funds that they have been using to finance the world Communist conspiracy through Foreign Aid. By repealing the personal income tax we can deprive the bureaucrats in Washington of the funds that they have been using to finance their Socialistic experiments in bureaucratic empire-building here at home. The income tax can be repealed without cutting down on national defense. Our TAX FAX #15 entitled "The Income Tax Can Be Repealed" gives you the details of how and why the income tax can be repealed.

IMPEACH EARL WARREN

The national movement to impeach Earl Warren, sparked by the John Birch Society with the cooperation of hundreds of other organizations has reached such national proportions that some Communist-kept newspaper columnists have turned like a pack of wolves on Robert Welch, the founder of the John Birch Society. Not since the days when the Communists demanded the censure of Senator Joseph McCarthy has the left wing press shown such concerted fright and anger as they have because of the activities of Robert Welch and the John Birch Society. The main reason for the attack on Robert Welch is because of the effectiveness of the impeach Earl Warren movement. Our TAX FAX #27 entitled "Impeach Earl Warren?" has been purchased by thousands of patriotic Americans who have, in turn, distributed more than 100,000 of these fact-packed pamphlets throughout the nation.

TIME TO COUNTER-ATTACK

The hour is late! A quick glance at your daily newspaper gives ample evidence that the Big Spending, Socialist-Internationalist, "soft-on-Communism" policies now in operation are leading this nation to the verge of fiscal disaster and surrender to World Communism.

Will you do your part to help wake up America?

Dear Subscriber:

Because of the response from our subscribers to our last appeal letter (all contributions will, of course, be individually acknowledged) we now have sufficient funds to finance the mailing of the two enclosed new TAX FAX pamphlets to our more than 12,000 subscribers. These two new pamphlets graphically illustrate the tremendous scope of this fight for a return to Constitutional Government.

TAX FAX #30 deals with politics and the urgent need to halt the "one-partyism" which now grips this nation.

TAX FAX #31 is concerned with the tremendous threat now facing this nation because of Communist infiltration of our churches.

AMERICA NEEDS A CONSERVATIVE PARTY - TAX FAX #30

The majority of our TAX FAX pamphlets are written in response to numerous requests we receive from our subscribers for more information on a given subject. During the past few years we have received numerous requests asking for a clear-cut definition of the words "Liberal" and "Conservative." Of course, there have been a number of erudite articles written on this subject in Conservative journals. There is nothing we can add to these highly-esteemed views, except a "you" approach. Rather than defining "Liberal" and "Conservative" philosophies, we decided to state the crucial issues of the day and let the reader discover from his own answers to the questions whether he is a Liberal or a Conservative. Therefore, TAX FAX #30, entitled "America Needs a Conservative Party," is actually a Conservative quiz, where the reader, by marking the squares provided, reaches his own decision as to whether he is a Liberal or a Conservative. This pamphlet should prove an excellent tool for convincing your friends and neighbors that there is now no difference between the two old parties. Also, it will prove useful in helping you to convince others of the need for a new national Conservative Party in order to restore the two-party system. The wide variety of vital issues covered in this TAX FAX pamphlet is actually a "study outline" for NEW PARTY groups who wish to acquaint their friends with the Conservative position on these issues.

HOW TO USE TAX FAX #30 TO BEST ADVANTAGE

Our TAX FAX pamphlets provide the ideal answer to the question which is so often asked of us - "What can one person do to help return this country to Constitutional Government and fiscal sanity?"

Study the NEW PARTY pamphlet, TAX FAX #30. If you find that you are a Conservative, if you are convinced of the need for a NEW PARTY, set the ball rolling for a NEW PARTY organization in your own community. Buy and distribute copies of TAX FAX #30. Discuss it with your friends. When you find you have a total of four to ten interested persons, start a NEW PARTY group to study the issues. Arrange that each of these persons obtain a supply of TAX FAX #30, and have each of them undertake to find four to ten more prospective members for the NEW PARTY group in your community. From this point on - you're "in business." You're ready to reach out to neighboring communities for additional support. Just as a pebble dropped in a pool sends out ever-widening

ripples - from your small start can grow a State-wide NEW PARTY organization! The first step is to obtain information from your Secretary of State regarding details of getting your NEW PARTY on the ballot for the next elections.

And - as your influence grows - be on the lookout for likely candidates for public office on your NEW PARTY ticket. Run NEW PARTY candidates for as many offices as possible - such as Sheriff, Mayor, State Legislators, and Congressmen and Senators. Each person you interest in NEW PARTY work, each candidate you can put in office, strengthens the influence of your NEW PARTY group and brings new people into this vital work.

If you are unable to actively participate in NEW PARTY work, and personally distribute copies of TAX FAX #30, "America Needs a Conservative Party", then we hope you will send us a contribution so that we may send copies of this pamphlet, in bulk, to NEW PARTY groups and Conservative political groups throughout the country for their distribution.

COMMUNIST INFILTRATION IN RELIGION - TAX FAX #31

This TAX FAX is, of course, not concerned in any way with politics! It deals solely with the Communist influence in the churches of America, particularly those churches which adhere to the policies of the National Council of Churches.

This TAX FAX has also been published because of "public demand," especially since Robert Welch, founder of the John Birch Society made public statements regarding Communist infiltration in churches. Many of our subscribers who are also members of the John Birch Society have requested further documentation of Mr. Welch's charges. This new TAX FAX #31, entitled "Communist Infiltration in Religion", provides, we believe the documentation requested.

The international Communist conspiracy is based on a system of tyrannical government and militant atheism. The atheistic Communist conspirators are dedicated to wiping out every vestige of religion and morality in our everyday lives. Our churches must not and cannot remain neutral or apathetic concerning the onslaught of the Communist enemy which has murdered millions of defenseless people merely because they had religious faith. Our church members must not stand idly by while Communists who have infiltrated positions of power in our national church organizations use the pulpit to propagandize defeat, coexistence and surrender. The church-goers of America have a duty to expose the Communists and the "fellow-travelers" in our national church organizations who have aligned themselves with the international Communist conspiracy, which is determined to outlaw religion. We cannot coexist with an enemy who has sworn that our grandchildren will live under their godless system of government. True religion, of whatever denomination, cannot coexist with atheistic barbarism.

Because there is documented evidence to prove that Communists have established themselves in key positions in some of America's churches, we here at THE INDEPENDENT AMERICAN have been deluged with requests to put out a pamphlet that outlines in simple terms these dangers, and at the same time suggest additional sources for those who are deeply concerned.

The purpose of TAX FAX #31, entitled "Communist Infiltration in Religion," is to help you alert your friends, neighbors, and fellow church-members to the very real danger that exists because of the "soft-on-Communism" positions advocated by such organizations as the National Council of Churches.

HOW TO USE TAX FAX #31 TO BEST ADVANTAGE

If your church is a member of the National Council of Churches, read carefully TAX FAX #31 and ask yourself if the NCC, which claims it speaks for 39 million Protestants, speaks for you when it issues public statements promoting defeatism, surrender and "softness-on-Communism". Then ask

(Please see page 3.....)

your minister if he agrees with the policies promulgated by the Socialist-minded hierarchy of the National Council of Churches.

Many members of individual churches which belong to the NCC are unaware of the danger and America-defeating policies of the NCC. You can help to alert the members of your congregation by buying and distributing as many copies of the enclosed pamphlet, "Communist Infiltration in Religion" as you possibly can. Once in possession of the full facts concerning the NCC, the majority of members of your church may elect to direct their church to resign from the National Council of Churches, as have several churches in recent months (see TAX FAX #31 for details). However, the first step is to spread the information contained in the enclosed TAX FAX pamphlet regarding the NCC. If your church is not a member of the National Council of Churches, your church may have some sort of "working arrangement" with the NCC, such as using NCC Sunday School literature, or using the Revised Standard Version of the Bible. If, however, your church has absolutely no connection with the NCC, then perhaps you will wish to buy copies of TAX FAX #31 and distribute them to your friends who are members of churches which belong to the National Council of Churches.

On the other hand you may not be in a position to personally distribute or mail out TAX FAX #31. If such is the case we hope that you will send us a contribution for our TAX FAX Distribution Fund. This will help to finance our mailing of this new pamphlet, "Communist Infiltration in Religion" to mailing lists we have on hand of key individuals associated with churches belonging to the National Council of Churches. For example, a $10 contribution will mean that we can mail 100 of these pamphlets to ministers -- a $50 contribution will enable us to alert 500 ministers -- a $100 contribution, 1,000 ministers, etc.

The atheistic forces of the Communist conspiracy must be destroyed at home and abroad. Will you help?

Please place your order and your remittance to cover in the enclosed air mail envelope which will speed your order to us.

For God and Country,

Kent Courtney

NOTE CONTINUED: which correspondent has made short notations (illegible). This publication is a report disseminated by "The Independent American," Post Office Box 4223, New Orleans 18, Louisiana, published by Kent Courtney. Neither Courtney nor his publication has been investigated by the Bureau. This newspaper sponsored an "Independent American Forum and New Party Rally" at the Morrison Hotel, Chicago, Illinois, on October 23 and 24, 1959. It is reported that the purpose of the rally was the formation of a new political conservative party called "Independent American Party." Courtney entered this party on a Michigan ballot in the 1960 election. Legat, Paris, advised that this newspaper was one of several in the United States which receive the publication of the Neo-Nazi Movement entitled "L 'Europe Reele." In connection with a racial matters investigation concerning a Ku Klux Klan meeting on 7-7-61, an allegation was made that one Kent Courtney had reportedly served time for treason in World War II and was to buy a newspaper around the latter part of 1960 or early 1961. No arrest record located on Kent Courtney in Identification Division.

THE CHURCHES—

When the Communists invade religion, they invade, as Stalin once said, "the ideological fortress of the enemy." If they should succeed with their deceptive methods to confuse religion to such an extent that it, too, will be neutral in the fight between Capitalism and Communism, they will have scored a tremendous victory. Only two years ago, a great international association of churches adopted a resolution declaring the churches to be neutral in the struggle between Capitalism and Communism. If religion, as the very foundation of civilization, is made impotent to the extent that the church declares itself neutral in this, the biggest, most important struggle of our century, then indeed there is much to worry about.

THE STRANGE RECORD OF THE N.C.C.

The National Council of the Churches of Christ in the U.S.A. (referred to hereinafter as the NCC) was organized in 1950 as a merger of the old Federal Council of Churches of Christ in America and seven smaller religious organizations.

The *DAN SMOOT REPORT* of Feb. 29, 1960, in discussing the formation of the National Council of Churches in 1950, states: "The old Federal Council leaders became the leaders of the National Council. Indeed, the Federal Council Bulletin for Dec., 1950, officially announced that 'all the work of the Federal Council will continue under the new auspices.'"

And what is the background of the old Federal Council of Churches, which has now assumed the new name of "National Council of Churches"? The Office of Naval Intelligence of the United States Navy Department, in a report which was read into the *CONGRESSIONAL RECORD* on Sept. 10, 1935, stated:

> Organizations which, while not openly advocating the "force and violence" principles of the Communists, give aid and comfort to the Communist movement and party. Among the strongest of these organizations is the Federal Council of Churches of Christ in America. This is a large radical pacifist organization. It probably represents 20 million Protestants (as of 1961, 39 million) in the United States. However its leadership consists of a small, radical group which dictates its policies. It is always extremely active in any matter against national defense. [2]

Dr. J. B. Matthews, a leading authority on Communist infiltration of religion, has stated that when the Federal Council of Churches became the National Council of Churches on Nov. 29, 1950 in Cleveland, Ohio, "there were 358 clergymen who were voting delegates to the constituting convention. Of these clergymen, 123 (or 34%) have had affiliations with Communist projects and enterprises." [3]

DUPES OF THE REDS

A pamphlet entitled *"The Communist Party of the United States of America — What It Is and How It Works,"* published by the Senate Internal Security Subcommittee in 1956, states:

> A fellow traveler may be defined as an individual who, from time to time supports one or more organizations or campaigns operating under the indirect, and usually unpublicized initiative and control of the Communist Party, or its representatives.

Circuit Riders, Inc., of Cincinnati, Ohio, has published a compilation of public records listing the names of 2,109 Methodist ministers, 1,411 Protestant Episcopal rectors, and 614 Presbyterian Church, U.S.A., clergymen who have at one time or another been associated with activities which have benefited the Communists, or supported causes actively advocated by the Communists. The three church denominations mentioned above are among the 34 member organizations of the NCC. [4]

HOW MANY RED-FRONTERS IN THE N.C.C.?

One of the most salutary effects of the uproar in 1960 over the Air Force Training Manual which included a section dealing with Communism in religion was that it enabled the House Committee on Un-American Activities to again conduct hearings regarding the extent of Communist infiltration in the field of religion. On Feb. 25, 1960, Richard Arens, Staff Director of the HCUA, during questioning of Secretary of the Air Force Dudley C. Sharp, stated:

> ...the chairman (of the HCUA) issued a statement that the... National Council of Churches of Christ in the United States of America (the NCC) had..., over 100 persons in leadership capacity with either Communist front records or records of service to Communist causes. **The aggregate affiliations of the leadership, instead of being in the hundreds, as the chairman first indicated, is now, according to our latest count, into the thousands, and we have yet to complete our check, which would certainly suggest, on the basis of the authoritative sources of this committee, that the statement that there was infiltration of fellow travelers in churches and educational institutions is a complete understatement.**

One of the leading figures in the Federal Council of Churches, which became, in 1950, the National Council of Churches, was Dr. Harry F. Ward. The House Committee on Un-American Activities has identified Dr. Harry F. Ward as a member of the Communist Party. This identification was established on the basis of sworn testimony of numerous witnesses during the 1953 hearings. [5]

Space does not permit any lengthy discussion of the record of Methodist Bishop G. Bromley Oxnam, a member of the board of the Federal Council, one of the most active pro-

movers of the new National Council of Churches, and one of the board members.[5] However, Circuit Riders, Inc., lists Bishop G. Bromley Oxnam as having been associated with 43 organizations, petitions or campaigns which served the cause of Communism, according to public records.[4]

Another prominent figure in the NCC is its immediate past president, Rev. Edwin T. Dahlberg. Mr. Dahlberg, according to Fulton Lewis, Jr., was affiliated, as early as 1942, with the Citizens Committee to Free Earl Browder, an organization cited on the Attorney General's list as Communist and subversive.[6]

HUMAN EVENTS Newsletter of Dec. 14, 1957, quotes material from the files of *NATIONAL REPUBLIC* Magazine listing 11 organizations and activities serving the cause of Communism in which Mr. Dahlberg participated. Of these, 3 of the 11 have been officially cited as Communist fronts.

On the floor of the House, Mar. 3, 1960, former Congressman Donald L. Jackson of California read portions of the Air Force Training Manual dealing with the subject "Communism in Religion," in which it was stated:

> The National Council of Churches of Christ in the United States of America officially sponsored the Revised Standard Version of the Bible. Of the 95 persons who served in this project, 30 have been affiliated with pro-Communist fronts, projects, and publications. In its own brochure, the National Council of Churches listed the names of the Revision Committee and the Advisory Board. Among these were Walter Russell Bowie of Grace Church, New York; Henry J. Cadbury of Harvard University; George Dahl of Yale University; . . . and Leroy Waterman of the University of Michigan.

On Feb. 25, 1960, Richard Arens, Staff Director of the House Committee on Un-American Activities, inserted into the record of the hearings, the number of affiliations with Communist fronts and causes of the four NCC leaders named above: Walter Russell Bowie - 33, Henry J. Cadbury - 9, George Dahl - 18, and Leroy Waterman - 20.

N.C.C. UNDER ATTACK BY MEMBER CHURCHES

The National Council of Churches, which for many years had been considered above criticism, now finds itself faced with an increasing number of critical resolutions or actual resignations by member churches.

In February, 1960, according to the *DAN SMOOT REPORT*, the Special Study Committee of the First Baptist Church in Wichita, Kansas (one of the largest in the American Baptist Convention, which is a member of the NCC), recommended that the First Baptist Church withdraw financial support from the American Baptist Convention because of its affiliation with the National Council of Churches. The Committee's report expressed concern about the alleged Communist-front activities of various officials in the NCC. **It specifically criticized the National Council for advocating American diplomatic recognition of Red China.**

In February, 1961, Rev. Curtis M. Nims resigned from the board of directors of the Regional Council (of the NCC) for Northern California and Nevada. Dr. Nims stated that he resigned **because of the National Council of Churches' criticism of the anti-Communist film, entitled "Operation Abolition", of the 1960 San Francisco student riots.** (Dr. Nims was an eye-witness to the Communist-inspired student riots). Also Dr. Nims' church, the First Baptist Church of San Francisco, severed all connection with the NCC.[7]

On April 23, 1961, the Vestry of St. Marks Episcopal Church in Shreveport, La., passed a resolution calling for the withdrawal of the Protestant Episcopal Church of the United States from the National Council of Churches of Christ. In its report, the Vestry Committee stated:

> The NCC has far exceeded its rightful role in speaking out as the official voice of Protestantism in America on such controversial issues as Federal Aid to Education, the Right-to-Work laws, the ethical considerations of the steel dispute, the seating of Red China in the United Nations, etc. The NCC, although not Communistic, has been an aid to the Communist conspiracy . . . We conclude with firm conviction, and only after long study and prayer, that the National Council of Churches as it is presently constituted and operated, is a harmful and highly dangerous institution.

By letter dated July 17, 1961, Mr. Courtney enclosed a copy of "The Independent American" newspaper and advised that he has been sending his paper to us since he established the paper so that we would have a complete file on his activities. He goes on to say he has seen press releases appearing in the Nation's press which for one reason or another do not get printed in the New Orleans "Times-Picayune" and therefore would appreciate it if we would put his newspaper on our list to receive all releases which we send to the press services and to the newspapers in the country. He thanks the Director for the wonderful work he is doing in exposing the nature of the communist conspiracy and advises that the Director has his wholehearted support.

Bufiles show that this publication is allegedly dedicated to the defeat of socialist and communist influences and to promote individuals and organizations which believe that a political party based on constitutional states rights is the answer to socialism. Neither Courtney nor his publication has been investigated by the FBI. This newspaper sponsored an "Independent American Forum and New Party Rally" at the Morrison Hotel, Chicago, Illinois, on October 23 and 24, 1959. It is reported that the purpose of the rally was the formation of a new political conservative party called "Independent American Party." RE: Mr. Kent Courtney

Courtney's paper indicates he is a rabble rouser and a hate monger. He urges the impeachment of Chief Justice of the Supreme Court, Earl Warren, because of his voting record which correspondent alleges is still on the side of the International Communist Conspiracy. He urges his readers to "Order your "IMPEACH EARL WARREN" TAX FAX TODAY" It is strongly felt that the Bureau should in no way either by implication or direct action be associated with this individual.

RECOMMENDATIONS:

Enclosed please find the latest issue of THE INDEPENDENT AMERICAN Newspaper. Please note that our paper is Conservative in tone and we seek to expose the softness-on-Communism of all officials in our Government, regardless of their political party affiliation.

Our policy is anti-Communist and we seek the freedom of all people from the godless tyranny of the International Communist Conspiracy.

We have been sending our paper to you since we established the paper so that you would have a complete file on our activities.

But many times we see press releases appearing in the nation's press which for one reason or another do not get printed in the New Orleans TIMES-PICAYUNE. An Obituary To "Pro-Blue"

By a "Pro-Blue" Soldier

(Note: Below is a letter from a soldier serving in Major General Edwin A. Walker's former division, who gives the "inside story" of General Walker's "Pro-Blue" patriotic training program for troops of his division. This heart-breaking letter is, we feel, an indictment of every citizen of the United States who has permitted the Armed Services to be led so far astray that patriotism is now considered a "crime").

Well, it has happened. Thursday, 31 May 1961, will go on the calendars in Moscow as a victory for world Communism. To some people, it may seem a minor victory, but to those who know, the ramifications of this defeat for America may be so far-reaching, so terrible, that in days to come, this day may be mourned by the slaves of a Communist world as the day Freedom lost the war. Ten o'clock in the morning, 31 May 1961, the Pro-Blue program of the 24th Division was disbanded. This neucleus of an Army to win for liberty was broken up and scattered; the foundations for Freedom they had built were undermined and knocked down.

What a pity! How frightening that a publication such as the Overseas Weekly should be able to wield such influence over the actions of free men as to force the downfall of a program whose only vice was the teaching of Americanism to Americans.

How is it that a nation and the army of that nation can comply so completely with the wishes of their enemy? That this country would not only tolerate, but invite and encourage subversion of its ideals.

Pro-Blue...For God and County; Pro-Blue...Dedicated to developing Americanism; Pro-Blue...Voice of free men speaking; Pro-Blue...Action where there was little action; Victim of a misinformed public, and a misguided policy. Pro-Blue, now in exile; outcast by the witch-head of ignorance, and destroyed by the death's-head of Communism. Why?

How does this move in policy effect the overall picture? 16,000 men who were not only beginning to understand their obligations as members of the greatest republic in history, but were beginning to act on those obligations and appreciate the fruit of their labors; the right to believe and act on their ideals.

16,000 men who did not fully understand the reason for their presence in a foreign country were beginning to realize the vastness of the battle they were fighting [illegible]

Straight Talk

FRIED SNOWBALLS

By TOM ANDERSON

(Reprinted from the MISSISSIPPI FARMER. Mr. Anderson is also publisher of FARM AND RANCH.)

All our other policies depend on our foreign policy. Unless we come to grips with Communism, unless we build a foreign policy based on American strength and U.N. weaknesses, unless our foreign policy is for America first -- we are sunk.

When Karl Marx died, only eight people attended his funeral. (Most of our present State Department people were too young to go.) Communism started from scratch 44 years ago. And now 33 million followers of Marx form a deadly Fifth Column in every nation and have enslaved 900 million people--40% of the world's people and 1/4 of the land mass--the most people and land mass ever under one control in human history. This conquest of body and soul by force, intrigue, and subversion is engineered and enforced by a hard core of less than 5% of the population of the enslaved nations. Was this an accident? Was this inevitable? Or was it planned that way by traitors, fatheads and fools?

Our leaders have been going to Moscow for years to see how Stalin thinks, how Khrushchev thinks. All they needed to do was to go to the library. The same leaders and the same eggheads who screamed against negotiating with Hitler, who cried that all we had to do was read "Mein Kampf, evidently don't believe "The Communist Manifesto" and the count[illegible]s Communist writings which reassert their unswerving dedication to our destruction. The Communists can't renounce world conquest until they renounce themselves. "Co-existence is as nonsensical as fried snowballs," said Russian General Zhukov.

How does this move in policy effect the overall picture? 16,000 men who were not only beginning to understand their obligations as members of the greatest republic in history, but were beginning to act on those obligations and appreciate the fruit of their labors; the right to believe and act on their ideals.

16,000 men who did not fully understand the reason for their presence in a foreign country were beginning to realize the vastness of the battle they were fighting, and the enormity of the war they were in.

16,000 men, soldiers, and their families were well on their way to fully comprehending the threat of Communism

But now? An article by a paper of doubtful, to say the least, quality and morals; unfavorable comments from an English-language scandal sheet; and all the truths taught by Pro-Blue become "lies"; all that was real and sure, only short hours ago, is now "false"; all that was black is miraculously now "white"; all that was good, "bad"; all that was free, now "tyrannical". For 16,000 disillusioned men, these are the results of the destruction of Pro-Blue.

Someone once said, "When good men do nothing, tyranny must prevail." We now see the outcome of what happens when some men do good and are not supported by all good men.

Where do we, the men who tried to uphold and teach the obligations of liberty, go now? What will tomorrow bring for those who were deeply engaged in the fight against Communism? One, you already know of. He was a General with a fine war record who believed in the ideals he had fought in two wars to preserve. He was relieved of command and publicly humiliated. As for myself, I will probably go to a line unit, where I can be watched and not be able to spread my blasphemous lies that Communism is evil. My boss will go back to his old job as a first sergeant where he too may be watched. Two will be returned to their units where they will serve the army as, respectively, a clerk and a radio operator. (What of their other talent, indeed it almost is a talent today, of being a true American?) The rest of the office will be scattered throughout the division filling slots where they cannot continue with the fight against Communism on an organized basis.

But what of 16,000 men who are still wondering just exactly what did happen? And what of 160 million Americans who are (by virtue of the recent move) left with the impression that we were witch-hunting and that there is no real threat after all. Who will take the place of the Pro-Blue program in teaching the men in uniform what they are supposed to be doing?

Me? As a private soldier in the service of the United States, one time member of the "notorious" Special Warfare Section, an American who did not lay aside the Citizen when I assumed the Soldier, I must continue my search for the battle-field where I can again join the fight against Communism.

Of the 16,000 men of the 24th Victory Division, I can only hope that they will continue their search for the truth in this matter, and again join us on the road to Americanism.

But what of you? One of 160 million free Americans who may or may not understand what you have seen and take arms against this sea of troubles"?

To paraphrase the lines of the poet of the line soldier, Rudyard Kipling, when speaking of another time and another war for survival:

A latern hangs where our Regiment go'ed,
And free men are left to carry their load."

In our letter of transmittal to the above Senators and Congressmen, we urged full protection for this young soldier against any possible reprisal from Kennedy appointees in the Defense Department who may seek thus to "hush up" revelation that such patriotic training is being stifled in the Armed Services.

FRIED SNOWBALLS

Stalin said, "Sincere diplomacy is no more possible than dry water or wooden iron." Russia never negotiates. Russia is never honest when it serves her purpose to be dishonest. With no belief in God, with no morals, why be truthful? To negotiate with the Communists is to surrender. Coexistence with these Communist tyrants is an immoral, gutless, impossible fraud.

Adlai Stevenson, like Tennyson's babbling brook, keeps babbling on. He wants "a grand strategy for peace." That's a fancy phrase for surrender. Wonder why he doesn't ask for a grand strategy for freedom? Freedom for all the enslaved of the world?

"Treason," says the Constitution, "involves giving aid and comfort to the enemy." In determining what is treason, then, one must decide what is "aid and comfort" and who is "the enemy." Bishop Pike calls segregation treason. The view from Pike's peak is clouded by unreality. "In the realm of the blind the one-eyed man is king."

Some believe that the only answer to nuclear destruction is to level ourselves off into a Socialist world brotherhood. Of course, anyone who hasn't yet been given a lobotomy should know the only possible "One World" in our time is a slave world. Thousands of political, church, educational and business leaders in America today are doing all possible to deliver us into a One-World Socialist brotherhood. Few of them are Communists. And few Communists are as dangerous as an influential dupe who is following the Communist line.

Where does internationalism end and treason begin? Joe McCarthy, a Republican, charged the Democrats with "twenty years of treason." That statement should now be up-dated and made bipartisan. McCarthy exposed treason while it was still treason. As

FASCISM ON THE FARM

Herewith, too, our disrespects to the Freeman-Cooley bill (H. R. 6400), so called because it is backed by Agriculture Secretary Orville L. Freeman and was introduced by Rep. Harold D. Cooley (D-N. C.).

Secretary Freeman

This measure purports to be designed to make the U. S. farmer prosperous and happy forevermore, and to do it by democratic methods.

The farmers are to have so-called advisory committees, to ride herd on price supports, production restrictions and marketing schemes proposed by the Agriculture Department.

The catch is, though, that the Secretary of Agriculture would select, in effect, the members of these committees, and could dissolve any or all of them when in his wisdom he decided that they were "no longer needed."

In actual operation of this proposed new farm law, the Agriculture Secretary would be the czar of U. S. farms and farmers. He alone would be authorized "to support prices through commodity loans, commodity purchases, compensatory payments, incentive payments, and any other operation which he deems appropriate."

The farmer would be left free to do just one thing; namely, sell his farm or give it away, betake himself and family to some town or city, and look for a job in which he could call his own the part of his soul that was not mortgaged to some labor union's boss.

All this adds up to Fascism (kissing cousin of Communism) on the American farm; or, as the Washington newsletter Human Events puts it, "Shades of Hitler, Mussolini, Stalin and Castro!" Costs would be enormous, and you'd help pay them.

It may be that the Freeman-Cooley bill has merits which we know not of. But ex-Agriculture Secretary Henry A. Wallace, who should know and certainly is no diehard reactionary, said that a similar scheme

Here again, we think, is a clear call for the taxpayers to do some hot writing, wiring or phoning to their lawmakers in Washington.

WHO SAID CRIME DOESN'T PAY?

U.S. Ships Machine Tools To Communist Russia

By Fulton Lewis, Jr.

WASHINGTON, June 7 -- The Commerce Department has approved for export to the Soviet Union precision machine tools which the Defense Department termed "clearly of military value" only three months ago.

California's Congressman Glen Lipscomb has protested mightily to Administration officials, but his cries appear to have fallen upon deaf ears.

The story began last year when the Commerce Department

Don't Be Fooled By Recent Supreme Court Rulings

By Kent Courtney

On June 5 newspaper headlines read "COMMUNIST PARTY DEALT TWO BLOWS". The stories in the papers seemed to indicate that the Communist Party would now be under the complete control of the Subversive Activities Control Board which was set up in 1950 to administer the Subversive Activities Control Act of that year.

The Supreme Court has in fact ordered the Communist Party to register as a "Communist action" organization and officers of the party have by this decision been directed to register their own names and the names of the entire Communist Party membership and to give a full accounting of the finances of the Communist Party in the United States.

Setting aside the well known fact that the visible Communist Party is probably the smallest and least important part of the entire International Communist Conspiracy, let us take a look at the Subversive Activities Control Board.

First of all, it is simply an administrative court and cannot initiate any action of and by itself. All it can do is conduct hearings, but the action of bringing any Communist-front organization to the attention of the SACB must be initiated by

Party USA and found that it was actually an arm of the International Communist Conspiracy, the SACB immediately announced that it was issuing registration orders against the Communist Party and 13 additional Communist-front organizations.

Now let us take a look at the enforcing provisions of the Subversive Activities Control Act. We find that the Attorney General of the United States is the enforcing officer. The penalty for not obeying the order of the SACB to register is a $10,000.00 fine or five years in jail or both. Each day that the organization or individual refuses to register and otherwise carry out the orders of the SACB is regarded as another offense punishable by the same penalty. But will Bobby Kennedy actually enforce the orders of the SACB?

What is the real purpose of forcing the Communist Party to register as subversive when we have an administration which demonstrates in all its actions that it really does not want to do anything to stop the world-wide progress of the International Communist Conspiracy?

A real anti-Communist administration would cut off all relations with the Soviet Union,

WASHINGTON, June 7 -- The Commerce Department has approved for export to the Soviet Union precision machine tools which the Defense Department termed "clearly of military value" only three months ago.

California's Congressman Glen Lipscomb has protested mightily to Administration officials, but his cries appear to have fallen upon deaf ears.

The story began last year when the Commerce Department granted an export license for shipment by a U.S. firm of transfer-type machine tools to the Soviet Union.

On February 6, 1961, Lipscomb wrote the Defense Department asking its position on the shipments. Earmarked for the U.S.S.R. was a multi-station machine valued at $3,400,000 and designed for manufacturing V-8 engine blocks; and a multi-stage machine, tagged at $1,900,000, for producing V-8 cylinder heads.

The machines were designed to mill, drill, bore, ream, and tap aluminum castings for V-8 cylinder blocks and heads. They could be used in the mass production of all metal manufactures, including electrical motors, tractors, and military artillery.

Deputy Assistant Defense Secretary Haydn Williams wrote Rep. Lipscomb:

"It is the view of the Department of Defense that:

"(A) The products of these transfer-type machine tools are clearly of military value. V-8 cylinder blocks, the product of these machines, are a necessary part of engines for medium-size supply trucks and personnel carriers which are vital to logistical support to the Soviet armed forces.

"(B) The technology contained in these transfer machines produced in the United States is the most advanced in the world.

"(C) So far as this department knows, the USSR has not installed this type of machinery for manufacturing cylinder blocks and heads.

"(D) The receipt of this equipment by the USSR would contribute to the Soviet military and economic warfare potential."

Sometime after this letter was written, the Defense Department "withdrew" its objections to the shipment. Demanding to know why, Lipscomb was given the runaround and told that European countries would produce the blocks and heads if the U.S. did not.

Lipscomb referred back to the original Defense Department letter and noted that U.S. technology in this field was termed "the most advanced in the world."

Deputy Defense Secretary Roswell Gilpatric attempted to pacify Lipscomb but has been unsuccessful. The Californian continues to demand the real reason for the switch. To date he has received no sadisfactory answer.

Note: Lipscomb has discovered Commerce Department authorization for shipment of other strategic machine tools. The department has approved for Soviet delivery six 8-spindle gear bobbing machines, with a total value of $810,000. They are to be used in plants that manufacture gears for automobiles, tractors and field machinery. They are mass production machines for gears of wide application. Both spiral and straight-tooth gears can be cut on the machine.

President Kennedy Opposes Loyalty Oath For Students

It is disheartening to see President Kennedy persist in his opposition to the loyalty oath provision of the National Defense Education Act, not only because his stand is illogical but also because we can draw from it the inference that he also will oppose inclusion of a loyalty oath in his national Peace Corps proposal.

We believe President Kennedy's position is untenable. He to the United States. The Communist shows no such hesitation to proudly proclaim his belief in communism.

Congress should move swiftly in opposing a plan to import Chinese communist scientists into the United States for a "disarmament" conference this fall at Aspen, Colorado.

We believe President Kennedy's position is untenable. He not only denies the right of the government to set reasonable standards of loyalty for the recipients of the taxpayers' money but also he seems to have accepted the foolish notion that it is somehow degrading to affirm one's loyalty to the United States. The Communist shows no such hesitation to proudly proclaim his belief in communism.

The President on one hand calls on the American people for greater effort and sacrifice in the cold war effort, while on the other hand he belittles the importance of an affirmation of loyalty to one's country. The President has asked the American people to dedicate their lives and their fortunes to defense of the American system, and we most certainly agree with that. But then he turns right around and opposes a simple affirmation of loyalty to that system.

It just doesn't make sense.

OUR POLICY

This newspaper is dedicated to the defeat of Socialist and Communist influences that now pervade the thinking and the policies of our Federal government and the two major political parties. We believe that there is no difference between a New Deal Democrat and a Socialist-Internationalist Republican.

This newspaper will continue to promote all individuals and organizations who believe that a new political party based on Constitutional States Rights is the answer to the Socialism that has captured both (formerly great) parties.

We will never align ourselves with any person or group which preaches hatred. Instead we will conserve our energy for the fight against atheistic Communism, and we pledge ourselves to LOVE OF GOD AND AN INDEPENDENT U.S.A.

OUR THANKS

Because we are political and "controversial" we have no advertising income. We therefore thank all of our readers who send donations every week so that more and more sample copies can be sent to patriots throughout the country. Without this regular support, this experiment in patriotic and political journalism would not be possible.

Will Union Dues Be Used For Tractor Blackmail?

By Phoebe Courtney, Editor

Within the second week of June, a discrepancy began to creep into news stories regarding the "tractors for prisoners" fund headed by Walter Reuther, Eleanor Roosevelt, and Milton Eisenhower. The original sum which the committee intended to raise in order to purchase the 500 tractors and bulldozers that Castro demanded, was set at $15 million.

On June 3rd, James McCartney, feature writer for the Chicago Daily News Service, wrote in a column, "an ominous cloud hangs over the tractors-for-prisoners fund-raising ca- [illegible] Done?" tors demanded by Castro, as well as the agricultural implements to go with them. It has proposed to give Cuba 50 crawler-types for land-clearing, and 450 general-purpose farming tractors."

Let us examine the total sum of blackmail currently being raised by the committee. It started out as $15 million. Now the committee says it is raising $3 million. It is inconceivable that Castro would reduce his demands. He still wants 500 tractors.

Therefore, where is the other $12 million coming from? Is the super-secret Central Intelligence Agency donating

The South: Soviet Target—

Reds Seek to Disarm, Integrate United States

By MEDFORD EVANS
(Reprinted from SHREVEPORT JOURNAL)

(Medford Evans, Phd. D., Yale, was formerly editor of FACTS FOR-[illegible] NEWS magazine, professor of History, and served with the Atomic Energy Commission where he had charge of security matters, and helped expose Dr. J. Robert Oppenheimer as a security risk. Dr. Evans is author of the book "The Secret War for the A Bomb." Dr. Evans column, entitled, "The South: Soviet Target" now appears regularly in the SHREVEPORT JOURNAL.)

Everyone who has seen the film strip "Communism on the Map" (produced at Harding College in Searcy, Ark.) will remember that the final scene is a map of the United States with two red arrows representing Communist attack converging on America, one from the south (Caribbean area) and the other from the north, via polar regions and Canada.

The latter terminates, as drawn on the map, at Los Alamos, N. M., site of the most famous of the atomic-weapons laboratories, while the red arrow from the South comes to rest squarely on the city of New Orleans.

Whether by accident or design, the artist has thus symbolized the two chief Communist operations in the present phase of the struggle for the world: (1) nuclear disarmament of America through negotiation, propaganda and sabotage; and (2) disintegration of the U.S. economy and military establishment through attempted racial integration in the South.

* * *

THE SOUTH is the largest single culturally homogeneous region in the United States; the nation could no more survive destruction of the South than a man can survive destruction of the liver, largest vital organ of the human body.

Besides, national planners have chosen to locate our major atomic production plants and a decisive number of our most vital military installations in the South, while Nature located a great part of our oil and gas reserves there, as well as more than half our coast line and many of our ports and harbors. The United States cannot endure loss of the South. Lincoln thought that a hundred years ago, and it is far more true today.

The South, however, cannot endure, could not survive, the destruction of the system of legal segregation. This is not a matter of sentiment, but of hard fact. Like it or not, human society in the South operates according to a code in which the role of the race to know how to deal with the other in artificially integrated situations.

Whether the situation be one that is superficially pleasant as in selected bi-racial get-togethers, or potentially violent, as with the "sit-ins," normal co-operation between the races is impossible whenever either or both are trying to pretend that there is no difference between the two.

* * *

BECAUSE OF a misunderstanding of history, many Americans today do not know that we had one war over integration, and the South won it. The Civil War of 1861-1865, won by the North, settled the issues of secession and slavery.

Afterward, the issue of integration, raised by the Reconstruction Congress, produced a decade of guerilla warfare which the South won. Its victory was ratified by President Hayes in 1877, and by a series of Supreme Court decisions climaxed by Plessy v. Ferguson in 1896. The unity and progress of the United States during the first half of the Twentieth Century were based on the Northern victory in the Civil War and the Southern victory in the war of the Reconstruction.

Enemies of our "one nation, under God, indivisible" have seen little hope of inciting Southerners to a new attempt at secession or the re-establishment of slavery. It is not true that the South literally wants to fight the Civil War over again.

Unfortunately, there are people—some of them in the highest levels of our government—who do want to fight the war of Reconstruction over again. A tragic feature of this situation is that the South could not surrender if it wanted to.

* * *

SOUTHERNERS who are more conscious of their national patriotism than of their regional loyalty sometimes think wistfully: Why not yield on integration, since the fight on it is promoted by Communists?

On June 3rd, James McCartney, feature writer for the Chicago Daily News Service, wrote in a column, "an ominous cloud hangs over the tractors-for-prisoners fund-raising campaign. What if it flops?"

Raising $15 million would be a formidable task indeed - even if it were raised for such a worthy cause as, for instance, earthquake victims in South America. Raising $15 million for a cause that is not only political, but that is meeting with outraged resistance from citizens throughout the nation, would appear to be an impossible task. An indication of the plans being readied by the Reuther-Roosevelt-Eisenhower Committee to practice a deception on the American people is the fact that an AP story of June 11th states, "The committee has pledged to raise $3 to $3.5 million via public subscription to provide the tractor that Castro would reduce his demands. He still wants 500 tractors.

Therefore, where is the other $12 million coming from? Is the super-secret Central Intelligence Agency donating some of its super-secret funds? Is President Kennedy using some of his "special fund" money to pay blackmail? Or, has Walter Reuther gotten so far out on the limb in the tractor fiasco that he believes that labor union members in this country would be willing for him to use labor union dues to pay blackmail to Cuba?

The implications of this tractor-ransom scheme are so malodorous that it could well make the "Teapot Dome Scandal" look like a tea party. Congress should investigate the financial arrangements of the tractor scheme immediately, with particular attention to possible misuse of funds.

Right on Schedule

"They (the Communists) are following a timetable of conquest with deadly precision. Here is what that timetable provides:

"The Communist capture of Japan, Southeast Asia, India, the Arabic countries and all of Africa by 1965.

"The Communist capture of all of Europe, Central America, Mexico and South America by around 1970.

"The Communist capture of the United States and any other Capitalist strongholds by 1973;

"This is taken from the Red timetable of conquest which was obtained by our military intelligence and printed in the Congressional Record, April 20, 1954.

"So far the Communists are right up to date and things are happening in Africa, Japan, Southeast Asia, Cuba and elsewhere which experts were saying was impossible just two or three years ago."-- From a paper presented at the Seventeenth Annual Meeting of the Delegates and Assembly of the Association of American Physicians and Surgeons, in St. Louis, Missouri, by W. Cleon Skousen, author of "The Naked Communist."

The South, however, cannot endure, could not survive, the destruction of the system of legal segregation. This is not a matter of sentiment, but of hard fact. Like it or not, human society in the South operates according to a code in which the role of the white man is distinct from that of his colored brother.

* * *

THE FORMER is, in fact, the elder brother. Not to recognize the distinction, and not to recognize the relationship, is to be ignorant of history and of real, as distinguished from imaginary, social forces. Observers who disapprove of the operation of these forces may hope to change them, but like major surgery on a living body or basic repairs of a complex machine, change here is too serious for sentimental improvisation or blind intrusion. Any abrupt or violent motion can be fatal.

Many people would like to integrate the races in the South, but without total revolution it is impossible. It does not matter whether prevalent attitudes in the South be attributed to prejudice or sacred principle, they are in any case too deeply ingrained in both races, for members of either [illegible] surrender if it wanted to.

* * *

SOUTHERNERS who are more conscious of their national patriotism than of their regional loyalty sometimes think wistfully: Why not yield on integration, since the fight on it is promoted by Communists? By yield, they feel, they might deprive the Communists of an issue.

But how to yield? If "token" integration produces so much discord in New Orleans, the most sophisticated city of the South, what would real integration do to Birmingham? Responsible public officials must consider people of both races, not as they might be, nor just as they ought to be, but as they are.

Now the very fact that integration is impossible is the reason why the Communists promote it. By insisting on integration, which cannot succeed, and by destroying the system which has succeeded—legal segregation—the Communists will destroy the South. But if they destroy the South—the nation's largest region and location of its main military defenses—they will disintegrate the United States and destroy it as a world power. And that would remove the last military, economic, and political obstacle to full Communist domination of the world.

What Bobby Kennedy Said

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

Throughout the ugly activity of the bus-riding integrationist agitators who have been touring the South to cause trouble, and who have been illegally accommodated by some extremists, the Kennedy Administration has made great effort to make the public think it was not really behind the movement, even though President John Kennedy and Attorney General Bobby Kennedy violated Article IV, Section 4 of the Constitution by sending nearly 700 U.S. marshals on an invasion of Alabama, without the constitutionally required request from the Alabama Legislature or governor.

Recently in Federal court in Birmingham, when John Seigenthaler, personal representative of Bobby Kennedy, was asked if the Federal Government had backed the CORE bus-riding agitators, he replied, "We have not."

But quite a different picture came from the testimony in the same Federal court by George E. Cruitt, superintendent of the Greyhound bus terminal in Birmingham. Mr. Cruitt said Bobby Kennedy called him personally on the telephone and discussed the difficulty Mr. Cruitt was having getting a driver to continue the agitators' trouble-marked bus ride southward from Birmingham to Montgomery.

Bobby Kennedy, according to this sworn testimony, pointedly acted as a virtual "travel agent" for the agitators, laying down an implied ultimatum to Mr. Cruitt to see that the agitators were driven on.

Mr. Cruitt quoted Bobby Kennedy as saying this to him on the telephone: "You better get in touch with Mr. Greyhound or whoever he is and get an answer to this problem. The Government is going to be very upset if this group doesn't continue its trip. We suggest you get a driver."

Mr. Cruitt said Bobby Kennedy suggested the bus line hire a Negro driver for the run.

Bobby Kennedy, according to Mr. Cruitt's testimony, further commented: "We have gone to a lot of trouble to see they make this trip and I'm most concerned about it."

This testimony makes it appear that the blame for the trouble in Alabama must be shared not only by the agitators and by the violent, law-breaking mobsters but by the Kennedy sponsors in Washington.

This is part of what many people in the South voted for last November.

KENNEDYS VIOLATE CONSTITUTION

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

It is important for the American people to understand the constitutional situation, and not be misled.

This is what Section IV, Article 4, of the Constitution says:

"The United States shall guarantee to every State in this Union a Republican Form of Government, and shall protect each of them against invasion, and on Application of the Legislature, or of the Executive (when the Legislature cannot be convened) against domestic violence."

This section does not apply only when the Kennedys want it to and cease to apply when it doesn't suit them.

The Constitution says that Federal force against domestic violence may be sent only if and when the Legislature or the governor of the State, if the Legislature is not in session, ask for it.

In Alabama, neither Legislature nor governor asked for it.

There are some who are willing to throw the Constitution out of the window any time it does not suit their purposes. They are claiming that Bobby Kennedy "had no other choice" but to send marshals.

The constitutional fact, however, is that Bobby Kennedy and President John Kennedy had no constitutional choice in the matter at all.

The responsibility and authority is local. If it is met well, then local authorities deserve the credit. If it is met poorly, local authorities deserve the blame. But the Constitution says the responsibility is local.

This is an extremely serious matter because if Federal authorities intervene whenever and wherever they wish--as President Eisenhower did by ordering the 101st Airborne Division to invade

EDITORIAL ROUND-UP ON "FREEDOM RIDERS"

In order to give adequate coverage to the various aspects and implications of the Kennedy Administration's endorsement of the racial-agitation stirred up by the so-called "Freedom Riders," below are excerpts from various newspapers on this subject;

FORT LAUDERDALE (Fla.) NEWS

"It should be understood that what triggered all the violence in Alabama was not something that originated in that State. It was brought about by outsiders who made no secret of the fact they were coming into the State for the express purpose of breaking State and municipal laws and even went so far as to publicize in advance just where they were going and what they intended to do."

THE STATE, Columbia, S.C.

"The intervention of the Kennedy Administration in Alabama exceeded the excesses of the Eisenhower Administration's intervention in the Little Rock school crisis in some respects....

In Little Rock there had been long and involved litigation. In general, the order to admit Negroes to Central High School had come about through due process of law - even though the correctness of the 1954 school case decision has been legally questioned....

When violence erupted in Alabama, however, the Kennedy Administration gave the State of Alabama no chance to restore order. The Federal marshals were dispatched immediately, even eagerly, it seemed. They were sent in wholesale numbers, not to enforce any court orders, but to protect a group of people who finally got the trouble they had spent several hundred dollars and half a month to create....

The action of the government in the Little Rock crisis was bad enough. The action in Alabama, more precipitous and authoritarian has even created a worse precedent."

THE (Charleston, S.C.) NEWS & COURIER

"New York City needs the attention of Atty. Gen. Robert F. Kennedy.

'Roving bands of savage hoodlums' - we are quoting The New York Journal American - have made Central Park a dangerous . . . jungle in broad daylight. . . This is an outrageous and shameful situation. . . The Police Department's action in assigning 1,000 additional men to park patrol duty for the summer is demonstrably not enough....'

Not only Central Park is unsafe for citizens. The streets of our national capital, in the words of the police chief, are unsafe for girls and women. Instead of provoking trouble with Freedom Riders, the Dept. of Justice could find plenty to occupy its agents in Washington and New York."

CHATTANOOGA (Tenn.) NEWS-FREE PRESS

"The public peace must be protected. Violence, whoever may stir it and whoever may commit it, must not be tolerated and must be punished. We do not want disorders created by klansmen, by Nazis or by integrationist or segregationist agitators. Varied purposes do not mitigate the invariable evil of rioting. . . ."

ECONOMIC COUNCIL LETTER OF NEW YORK CITY

"....Yet here was a Communist-prompted expedition of Northerners going into the Southern States, thereby waving a red flag and undoubtedly with the very hope that they would provoke such an incident that developed.

Yet reputable Northern newspapers in recent days have had headlines about this incident, which, if the Southern States were an enemy country, could hardly be more vitriolic. And this in the face of the danger of war with the Communist countries, to win which, a united country would be absolutely necessary. It has all been the cheapest kind of agitation to gain votes. And, from the Communist viewpoint, it had the advantage of promoting discord."

THE STATE, Columbia, S.C.

"The army of marshals to perform federal intervention at Montgomery was recruited with such dispatch as to create the suspicion that government officials may have been prepared for trouble when the invasion of the "freedom riders" was launched. If so, it makes even more reprehensible their failure to have stopped the invasion...

Bobby Kennedy, according to Mr. Gruitt's testimony, further commented: "We have gone to a lot of trouble to see they make this trip and I'm most concerned about it."

This testimony makes it appear that the blame for the trouble in Alabama must be shared not only by the agitators and by the violent, law-breaking mobsters but by the Kennedy sponsors in Washington.

If one section is ignored in such fashion, then all sections may be.

There should be no toleration of the kind of usurpation the Kennedys have displayed. Some may not like the Constitution's provisions; then let them seek legal amendment. But, as President Washington said, "Let there be no change by usurpation."

The bus riding agitators were wrong to seek to stir trouble; the mobsters who accommodated them were wrong in violating the peace; the Kennedys were most dangerously wrong of all in their dictatorial, Constitution-violating seizure of power through invasion of local responsibility.

National leaders of the Republican Party appear to be at odds in mapping strategy for the next campaign. Specifically, a widening gulf seems to be developing between the thinking of conservative and not so conservative elements.

Because the controversy swirls around the figure of Senator Barry Goldwater, of Arizona, Country is a partisan realignment which would assemble the conservatives of the Country, north and south, east and west, urban and rural, in one party, the so-called liberals in another.

For a time it appeared that the late Robert A. Taft, of Ohio, would succeed in leading his party back to the conservative course that is the only path of public service open to it.

(Reprinted from THE WHEELING (W. Va.) INTELLIGENCER)

National leaders of the Republican Party appear to be at odds in mapping strategy for the next campaign. Specifically, a widening gulf seems to be developing between the thinking of conservative and not so conservative elements.

Because the controversy swirls around the figure of Senator Barry Goldwater, of Arizona, undisputed leader of the conservatives, the suspicion naturally arises that personal ambitions rather than party welfare may be the motivating influences. This suspicion was aroused by the circumstance that Goldwater, despite his position as Chairman of the Senatorial Campaign Committee, has been denied a voice in policy declarations designed to keep the Republican position before the Country as the work of Congress continues. It is strengthened now by the rejection of Goldwater's advice against embarking on a project of making a special bid for the support of Negro and other minority groups.

While there undoubtedly are those in the Republican Party who would like to head Goldwater off ,this seems an inadequate explanation for the policy break. Rather, this newspaper believes, it reflects a deep difference of opinion as to what is politically expedient for the Republican Party rather than a sharp difference over political philosophy.

The truth is, of course, that for the past 25 years so called "modern" Republicans have been in control of the national party machinery. Year after year, campaign after campaign, Republican policy limped along in the wake of the New Deal and Fair Deal until the average voter found little to choose between the parties. The only difference appeared to be in the degree of the list left.

Because of this ideological rapprochement it has seemed to this newspaper for some years now that the great political need of this Country is a partisan realignment which would assemble the conservatives of the Country, north and south, east and west, urban and rural, in one party, the so-called liberals in another.

For a time it appeared that the late Robert A. Taft, of Ohio, would succeed in leading his party back to the conservative course that is the only path of public service open to it. Now his mantle has fallen to the Senat from Arizona, a man who has succeeded in raising conservative hopes in the land for the first time since Senator Taft's death.

If these hopes are to be crushed now, whether by the suppression of Senator Goldwater or submersion of the conservative policies he so forcefully espouses, what is to become of the Republican Party and what is to become of the Country?

It never seems to occur to those who hope now to make the Republican Party all things to all people, that the last election was a virtual dead heat because of conservative strength; that the way to win is not to compromise with policy by bidding for the favor of every faction that may have a group interest to serve, but by becoming more rather than less conservative; that there is more to be lost than there is to gain by compromising.

Republican leaders ought to know by this time that they can't win by outbidding Democrats for the Santa Claus vote. If this is to be the strategy, if the hopes of those who thought they detected a healthy shift right in the thinking of Republican leaders are thus to be dashed, the next election will not even be close. It will be a Democratic walk-over. If it is to become permanent Republican policy the Party will pass and should pass from the scene as a major political influence and make room for a new Party which can speak with an authoritative voice of conservatism.

Communist Affiliations Of C.O.R.E. Leaders By Phoebe Courtney

The organization master-minding the activities of the so-called "Freedom Riders" in the South is the Congress of Racial Equality (CORE). Speaking on the floor of the Senate May 25, 1961 (CONGRESSIONAL RECORD, pp. 8349-8363), Senator James O. Eastland stated that the "Freedom Riders" were sent to the south "for the sole purpose of stirring up discord, strife, and violence." Speaking of CORE, the sponsor of the "Freedom Riders," Sen. Eastland stated, "Since its inception, its creed has been lawlessness, and its tactics have followed the pattern set by Communist agitators the world over."

WHO IS BEHIND CORE?

One of the largest left-wing pacifist groups in the United States is the Fellowship of Reconciliation. The Fellowship of Reconciliation, parent of CORE, is officially on the record as urging its members to join "political movements which aim at the replacement of private capitalism by a system of collective ownership." This broad category is enough to include the Communist movement as well as the Socialist.

Out of the activities of the Fellowship of Reconciliation and the concerns of its members and committees, have grown such diverse organizations as the American Civil Liberties Union, the Church Peace Mission, the Congress of Racial Equality (CORE), etc.

The long-time executive secretary of the Fellowship of Reconciliation is one A.J. Muste who has been connected or associated with no less than 32 Communist front organizations or activities, according to the files of the House Committee on Un-American Activities.

A. J. Muste is listed as a member of the advisory committee of CORE.

PACIFIST AGITATORS

JAMES PECK

Dave Garroway's network television show on May 26 featured one James Peck, of New York City, and paid tribute to the "courage" of this ringleader in the "Freedom Rider" agitation.

Who is James Peck? In 1946, James Peck joined the Congress of Racial Equality (CORE) and subsequently became an officer and editor of its periodical, named "CORELATOR." Thanks to a news story in the NEW YORK HERALD TRIBUNE, we can report on the strange activities of James Peck, leader of the "Freedom Rider" invasion of Alabama and Mississippi. In World War II, Peck refused to serve in the U.S. Armed Forces, even as a medic, for which he spent three years in Federal prison. In 1957 he was arrested with others trying to force their way into an atomic energy project. In 1958, he was arrested in Honolulu for trying to sail a small boat into the Pacific nuclear testing area. Thus it is seen that James Peck, leader of the "Freedom Riders," is not only a dangerous pacifist, but is a trained agitator as well.

THE NAACP - CORE AXIS

ALLAN KNIGHT CHALMERS

Another member on the advisory committee of CORE is Allan Knight Chalmers, long-time national treasurer and member of the board of the National Association for the Advancement of Colored People (NAACP).

Allan Knight Chalmers, according to the records of the House Committee on Un-American Activities, has been associated with at least seven organizations and/or activities of a pacifist nature, of which three have been cited by the Special Committee on Un-American Activities (which was the fore-runner of the House Committee on Un-American Activities), as either "Communist front" organizations, or activities which "faithfully propagated the Communist Party line * * *."

ALGERNON D. BLACK

Algernon D.Black, long-time member of the national board of directors of the NAACP, is also a member of the advisory committee of CORE. Algernon Black is shown in the records of the dred," is also a member of the advisory committee of CORE. Official records show seven affiliations with organizations and/or activities which benefited the Communist Party.

THE LABOR MOVEMENT AND CORE

CHARLES S. ZIMMERMAN

Another member of the advisory committee of CORE is Charles S. Zimmerman, Vice President of the International Ladies' Garment Workers Union. Official records show that Zimmerman has been associated with 14 organizations and/or activities which benefited the cause of Communism, of which two were on the Attorney General's list, two have been cited by the California Committee on Un-American Activities, and one has been cited by the House Committee on Un-American Activities.

WALTER P. REUTHER

Walter P. Reuther is a director of CORE. Speaking of the connection of Walter Reuther (head of the AFL/CIO) with CORE, Sen. James O. Eastland stated, "Since CORE has started directing its operations into the Southern areas of the United States, other leaders in organized labor have joined the directorate of CORE. Foremost among these is Walter P. Reuther. Reuther has spent years trying to obtain respectability since those days in 1934 when he and his brother worked in an industrial plant in Russia. The words that they transmitted back to the United States in a letter which appeared in the August 14, 1958, issue of the SATURDAY EVENING POST, are well worth repeating today. The letter ended with the statement 'Carry on the fight for a Soviet America.' "

And then Sen. Eastland continued "That is what CORE is doing today. It is carrying on the fight for a Soviet America."

Sen. Eastland then inserted in the record a report of the House Committee on Un-American Activities in regard to Reuther's associations and affiliations with Communist or Communist-front activities in the United States.

In testimony before the House Committee on Un-American Activities in 1938, John P. Frey, president of the Metal Trades Department of the American Federation of Labor, stated, "Before the United Automobile Workers Union Convention opened in Milwaukee, the Communist Party members held a faction meeting or caucus at Eagles Hall in that city. There were present at this caucus, Wyndham Mortimer, Ed Hall, WALTER REUTHER, and about 90 delegates to the convention who were actual Communist Party members * * * * As stated before, the Mortimer-Hall-REUTHER faction is Communist-controlled, but disguised that fact by calling themselves 'the Unity Group. . .' " (Emphasis added)

Mr. Frey, in continuing his testimony, stated, "On the same day, a load of Communist leaders came from Chicago . . . Upon arrival of the Chicago group, another Communist Party caucus was called, to which only top elements were invited. Those present were Jack Stachel, Roy Hudson, William Weinstone, Ned Sparks, Wyndham Mortimer, Ed Hall, WALTER REUTHER, and B. K. Gebert." (Emphasis added)

Mr. Frey then described a publication known as "The Great Sitdown Strike." He stated that this publication was prepared by William Weinstone, who "is district organizer of District #7, Communist Party, Headquarters, Detroit. He has had direct charge of Party activities within the Auto Workers Union from the beginning. Among those reporting to him are Maurice Sugar, who is the counsel of one group of the Auto Workers and has been a candidate for office in Detroit on the Communist ticket; also active with him are Roy Reuther, WALTER REUTHER . . . " (Emphasis added)

On Nov. 7, 1938, Dr. J. B. Matthews, testifying before the House Special Committee on Un-American Activities, stated, "I had personal contacts with all three of the Reuther brothers, who have been prominent in the Auto Workers Union - Walter, Victor, and Roy. . . . I do not know what their exact political connections are at the present time. I only know that their ideology, if I may be permitted to use the word here, is Communist."

THE NAACP - CORE AXIS

ALLAN KNIGHT CHALMERS

Another member on the advisory committee of CORE is Allan Knight Chalmers, long-time national treasurer and member of the board of the National Association for the Advancement of Colored People (NAACP).

Allan Knight Chalmers, according to the records of the House Committee on Un-American Activities, has been associated with at least seven organizations and/or activities of a pacifist nature, of which three have been cited by the Special Committee on Un-American Activities (which was the fore-runner of the House Committee on Un-American Activities), as either "Communist front" organizations, or activities which "faithfully propagated the Communist Party line * * *."

ALGERNON D. BLACK

Algernon D.Black, long-time member of the national board of directors of the NAACP, is also a member of the advisory committee of CORE. Algernon Black is shown in the records of the special House Committee on Un-American Activities, its successor, the House Committee on Un-American Activities, and the Attorney General's List of Subversive Organizations, to have participated in no less than 20 organizations and/or activities which have been cited as subversive or Communist-front.

EARL B. DICKERSON

Earl B.Dickerson, one-time national Vice President and a member of the national Legal Committee of the NAACP, is also listed as a member of the advisory committee of CORE. According to the records of the House Committee on Un-American Activities, and the Attorney General's list, Earl B.Dickerson has been associated with well over 20 organizations and/or activities which have been cited as subversive or serving Communist causes.

A. PHILIP RANDOLPH

A. Philip Randolph, long-time Vice President of the NAACP, is also a member of the advisory committee of CORE. A. Philip Randolph is shown in the records of the House Committee on Un-American Activities and the Attorney General's list to have been associated with at least 18 organizations and/or activities cited as subversive or serving Communist causes.

LILLIAN SMITH

Lillian Smith, member of the NAACP "Committee of One Hun-

Stachel, Roy Hudson, William Weinstone, Ned Sparks, Wyndham Mortimer, Ed Hall, WALTER REUTHER, and B. K. Gebert." (Emphasis added)

Mr. Frey then described a publication known as "The Great Sitdown Strike." OTHER MEMBERS ON CORE'S ADVISORY COMMITTEE

Among the other members on CORE's advisory committee are Roger N. Baldwin, who, according to official records, has been associated or affiliated with no less than 58 organizations and/or activities which benefited the Communist Party.

In concluding his statement on the floor of the Senate May 25, 1961, Sen. Eastland stated, "Is any further proof necessary to establish that the 'Freedom Riders' have been sent into the South with the deliberate intent of fomenting and provoking violations of the laws of the States which they intended to visit and did visit? . . . . The day has come when the Communist movement must be stopped, and this is part of the Communist movement inside the United States."

In closing, Sen. Eastland stated, "The Subcommittee on Internal Security of the Committee on the Judiciary, by special resolution, has been instructed to investigate the Communist conspiracy in our country and the administration of the Internal Security Act. From investigation and examination of the facts and records, there can be little doubt, in my judgment, but that this group is an arm of the Communist conspiracy. They are agents of worldwide Communism who sow strife and discord in this country."

Warning from New Hampshire:

Kennedy Brothers Playing with Fire

(The following editorial by William Loeb, publisher of the Manchester (N. H.) Union Leader, is reprinted from that newspaper.)

The Kennedy brothers are apparently determined to get as much political mileage as possible out of the tragedy of racial discord in this country. They seem to have no understanding that their cultivation of the Northern Negro vote is likely to set a fire going in the South which will do great damage and weaken us at a time when we can ill afford internal dissension.

The South, with its huge Negro population, has problems which no Northerner, unless he has lived in the South, can understand or appreciate.

The South is entitled to work out these problems in its own way and in its own time schedule. In that direction alone, lies a possibility of peace and eventual progress.

But a section of the Democratic party in the North has discovered what it thinks is a sure-fire method of assuring control of the Negro vote in New York, Philadelphia, Chicago and other Northern cities. This formula consists of

white people in the South for the benefit of the Negroes in those states.

Had the Southern political leaders been sound in their thinking they would have realized that the Democratic platform forced through at Los Angeles by the Kennedy people meant exactly what it said. But this is an age in which apparently no one ever believes that the worst is going to happen. This applies equally to Khrushchev's remarks in predicting what he intends to do with this country.

Now the South, unfortunately, is getting a taste of what it voted for. The recent mixed bus rides of white and colored agitators in Tennessee and Alabama and other Southern states were a deliberately provocative act. The action of the Kennedys in sending federal marshals into those states to aid the outside agitators was, of course, excellent politics from the standpoint of the Northern Democrats. What this action did, of course, was to encourage this sort of provocative activity. Now there will be more violence and more tragedy in the South.

The Southern white man is not

torial attempt to change their way of life. There are not enough federal marshals in Washington to sit on the doorstep of every white man and woman in the South.

The Kennedy brothers' actions in this connection shows the same ignorance of the South as their ideas about Africa. There are, of course, educated Negroes in the South. But there are many primitive, almost half savage Negroes in both Africa and the South. They can be easily aroused and stirred into wild, uncontrollable emotions. When this occurs, it naturally arouses equally strong emotions on the part of the Southern white men and women who rise to defend their homes and their women and their children.

Not being content with causing the Cuban catastrophe, the Kennedy brothers now apparently are going to play with racial matches which they don't understand are about to light a racial conflict in the South that will really delight the Communists and everyone else who want to weaken this troubled nation of ours.

'Art' for Defense

Many unsound programs are initiated in the name of "emergency" and with the soothing explanation that they will be only "temporary."

That was the way the Federal college scholarship program called the "National Defense Education Act of 1958" began. It was a typical American reaction to the first Russian Sputnik. The Russians put up a satellite first, so let's spend money.

The idea was sold with the arguments that it would promote science, and would last only four years.

Now President Kennedy is calling for the program to be expanded and made permanent—another endless drain on the taxpayers through the Federal Treasury. The taxpayers might be interested in noting, however, that in addition to science, the program is financing the study in the name of "national defense" of art, stagecraft, dramatics and other courses of equal application in overcoming the shock of Russian Sputniks and man-in-space claims.

DE GAULLE'S "TRIUMPH" A COMMUNIST VICTORY

(Below is a portion of a recent broadcast of THE RADIO EDITION OF THE INDEPENDENT AMERICAN over 20 radio stations. Kent Courtney, commentator.)

WESTERN WORLD RETREATS AGAIN IN ALGERIA

The newspapers and the weekly magazines have been telling the American people that deGaulle's victory in crushing the General's revolt in Algeria was a victory for freedom when, as a matter of fact, the defeat of the Generals was a victory for international Communism. The Communists have been supporting the FLN. These are the initials of the Algerian terrorist organization. International Communists from many of the countries in the world are involved in the 6-year reign of terror in Algeria. The pro-Communist press of the United States tried to mislead Americans by labeling the generals who were loyal to France as "rebels." The campaign of terror against French control of Algeria was Communist-inspired. It was designed to destroy the authority of France which authority and sovereignty has been extended over Algeria for 130 years. To all Frenchmen, Algeria was just another State in the Republic of France. The French had no serious trouble with the native Arabs until the Communists began to send trained agents in Algeria. But in order for us to understand that the loss of Algeria is a tremendous defeat for the West, we have to go back a few years in history.

KENNEDY INTERFERES

In 1957 John F. Kennedy, who was then a United States Senator, made a speech in which he advocated freedom for Algeria. This was a remarkable action on his part at this time. Certainly the French were astounded at this brash, young Senator making a speech concerning an affair and a situation that for 130 years had been considered strictly a French problem. Senator Kennedy's speech back in 1957 was just as astounding an event as if some member of the French Chamber of Deputies should demand that the United States sever all connections with its territory of Puerto Rico. Other left-wing Americans who have supported Algerian Independence include Walter Reuther, the international-socialist leader of the American Union monopoly; Eleanor Roosevelt, the wife of former President Franklin D. Roosevelt; and George Meany, President of the AFL/CIO.

DE GAULLE'S "TRIUMPH" A COMMUNIST VICTORY!

A year ago loss of Algeria was unthinkable. However, now the public has been conditioned to accept it. The masses of France were apathetic when the test came. What has been pictured as overwhelming support for deGaulle came from the Communist and Socialist Left. Out of the victory a greater danger may have come. A Moscow dispatch of April 26 stated that the decisive role in the defeat of "fascists" was played by the working class which "wrecked the ultra colonialist adventure by means of their mass meetings, strikes, and demonstrations."

The following is an excerpt from H. du B. Reports, Vol. IV, Letter 2, May 1961, from Paris, France:

COMMUNIST CONTROL OF PARIS MOB

"Premier Debre called on the population of Paris, asking them to rise, to flock to any point where the parachutists might land and dissuade them from foolhardy action. On the surface this strategy looked good: a human shield between the armed camps. The Communist apparatus sprang into action. Its leaders had been at their posts from the minute news of the outbreak reached Paris. Debre's call to action was all they wanted. In a matter of minutes, the French government during the "emergency" have not been returned to the government.)

"THE UNITED SOCIALIST PARTY, not to be outdone, raised its cry of 'Fascist menace,' called for an uprising of partisans to fight in the streets. On Monday afternoon a trial strike - a testing of potential power-brought ten million workmen to their feet and Paris to a standstill. All unions, reaching through Mendes-France's extreme-Left Socialists and including American-supported Force Ouvriere, answered the Communist summons. Thorez, the head of the Communist conspiracy, exploiting the psychological climate as far as it would go, held the wheels of command. What was happening: Under the pretext of protecting France and supporting de Gaulle, the Red apparatus was prepared to out-pace the government and seize power. The foreign press called the response to Debre and de Gaulle overwhelming. Actually, as Moscow boasted, the overwhelming response was from a Communist-led Left, anxious for blood in the streets and a chance to ride de Gaulle as far as he was going. The thousands jamming subway openings on the afternoon of April 23, waiting for the test strike to end, were only an indication of a new 'popular front' in the making. Automobiles calling Communist shock troops to arms in Bobigny, with klaxons shrieking, and mobilizing the Red belt at city halls, left the party apparatus' secret weapon undisclosed, waiting the moment for the one-strike showdown for which it is being held in reserve.

WHEN THE REAL TEST COMES HERE IS WHAT WILL HAPPEN.

Three radio taxi lines serve Paris, dispatched and directed by radio telephone from a central station. One of these taxi cab fleets is owned by the French Communist Party, and the [illegible] which it is directed is also a political headquarter of the party. Picked drivers know the assembly points in any district when the call comes over the air. Their job: to pick up and transport 5,000 shock troops for seizure of the city.

FATEFUL MEANING FOR THE U.S.A.

The Communist-dominated front that has demonstrated its 'loyalty' against men it wanted to liquidate took full advantage of the occasion. Ignored by a duped America as arrests mounted in France and Algeria was the fact that those who would be the West's strength in a clash with the East were being eliminated while the iron was hot. General Challe, the center of the General's revolt in the Algerian storm, was never a man of the right. He was inscribed in the French Section of the International Socialist Party. At the time of Suez he was Socialist Guy Mollet's military advisor.

For six years FLN terrorists had threatened Algerians, 'Join us now or have your throats cut when the French abandon you as they did El Glaoule's friends in Morocco.' The Algerians turned to French commanders. These, on orders from Paris, replied, 'I give you my word of honor, we will stand by you.' It became harder to close their eyes as every day made it more clear that de Gaulle was about to write off Algeria. Daily Challe and the army had to meet Algerians and Europeans to whom they had pledged protection. The politicians on whose assurances they had made personal commitments were either out of power or had washed their hands of the affair. Of course, Challe could have committed suicide. But it would have accomplished nothing for the Algerians. So, and herein lies the tragedy, the army's finest elements attempted suicide for an abstraction called honor. No attempt was made to bring Algerians and European civilians into the fight. Exposed by Challe's hopeless gesture was lassitude of the Center and Right, as well as militancy of an unobstructed, united Left. Challe took full

extended over Algeria for 130 years. To all Frenchmen, Algeria was just another State in the Republic of France. The French had no serious trouble with the native Arabs until the Communists began to send trained agents in Algeria. But in order for us to understand that the loss of Algeria is a tremendous defeat for the West, we have to go back a few years in history.

The following is an excerpt from H. du B. Reports, Vol. IV, Letter 2, May 1961, from Paris, France:

COMMUNIST CONTROL OF PARIS MOB

"Premier Debre called on the population of Paris, asking them to rise, to flock to any point where the parachutists might land and dissuade them from foolhardy action. On the surface this strategy looked good: a human shield between the armed camps. The Communist apparatus sprang into action. Its leaders had been at their posts from the minute news of the outbreak reached Paris. Debre's call to action was all they wanted. In a matter of minutes, streets of Communist-dominated villages and suburbs surrounding Paris were criss-crossed by municipal cars with loud-speakers, calling the population to assemble in town halls. St. Denis, Alfortville, Pantin, St. Ouen, Ivry, Aubervilliers -- the 'Red Belt' was mobilized in less than an hour. The clandestine apparatus of the party called for a mass uprising; workers' militias, with headquarters in town halls, were formed and armed. Communist Youth members were dispatched to non-Communist mairies (municipal centers) and to the Ministry of the Interior, where M. Malraux was haranguing the volunteers. The idea: to enlarge Communist supply of arms. Manifestos began to appear: 'Workers, democrats, arise en masse; stay mobilized,' 'Form solid anti-fascist committees; assemble, demonstrate in localities and factories, organize for the struggle,' 'Insist that the government give you arms,' " (Editor's note: It has been reliably reported since this broadcast was made that the arms supplied to the Communists by April 23, waiting for the test strike to end, were only an indication of a new 'popular front' in the making. Automobiles calling Communist shock troops to arms in Bobigny, with klaxons shrieking, and mobilizing the Red belt at city halls, left the party apparatus' secret weapon undisclosed, waiting the moment for the one-strike showdown for which it is being held in reserve.

WHEN THE REAL TEST COMES HERE IS WHAT WILL HAPPEN.

Three radio taxi lines serve Paris, dispatched and directed by radio telephone from a central station. One of these taxi cab fleets is owned by the French Communist Party, and the [illegible] which it is directed is also a political headquarter of the party. Picked drivers know the assembly points in any district when the call comes over the air. Their job: to pick up and transport 0,000 shock troops for seizure of the city.

FATEFUL MEANING FOR THE U.S.A.

The Communist-dominated front that has demonstrated its 'loyalty' against men it wanted to liquidate took full advantage of the occasion. Ignored by a duped America as arrests mounted in France and Algeria was the fact that those who would be the West's strength in a clash with the East were being eliminated while the iron was hot. General Challe, the center of the General's revolt in the Algerian storm, was never a man of the right. He was inscribed in the French Section of the International Socialist Party. At the time of Suez he was Socialist Guy Mollet's military advisor.

For six years FLN terrorists had threatened Algerians, 'Join us now or have your throats cut when the French abandon you as they did El Glaoule's friends in Morocco.' The Algerians turned to French commanders. These, on orders from Paris, replied, 'I give you my word of honor, we will stand by you.' It became harder to close their eyes as every day made it more clear that de Gaulle was about to write off Algeria. Daily Challe and the army had to meet Algerians and Europeans to whom they had pledged protection. The politicians on whose assurances they had made personal commitments were either out of power or had washed their hands of the affair. Of course, Challe could have committed suicide. But it would have accomplished nothing for the Algerians. So, and herein lies the tragedy, the army's finest elements attempted suicide for an abstraction called honor. No attempt was made to bring Algerians and European civilians into the fight. Exposed by Challe's hopeless gesture was lassitude of the Center and Right, as well as militancy of an unobstructed, united Left. Challe took full responsibility and surrendered. As the purge got under way, Britain's Socialist Sunday OBSERVER took up the 'fascist' cry, proclaimed, 'De Gaulle disbands crack units, 200 officers, hundreds of civilians arrested. Never was democracy in greater danger than last weekend.' America was blasted in the same issue for fearing a Communist government in Cuba. Your correspondent fears that democracy's big issue today is the danger ahead. If we lose, this 'victory' will have paved the way."

(The above was an excerpt from the H. du B. Reports concerning the real meaning of the defeat of the Algerian Generals.)

Meaning Of Fascism

Anyone familiar with the modern literature of communism knows that the Communist Party uses the word "fascist" to condemn all who dare to resist the Red conspiracy.

Communist writers call American church missionaries in China fascists. They also apply the label to officers of the U. S. armed forces, to American businessmen and to writers and editors who do not follow the party line. "Fascist" is applied without discrimination to Hitler's fanatical adherents and to defenders of freedom like Sir Winston Churchill.

There IS a proper use for this word. It is applicable to Hitlerites and supporters of the Mussolini regime in pre-war Italy. It also may be used in referring to non-communist dictatorships that knowingly imitate former German and Italian regimes.

But we are disturbed at the increasing use of the label "fascist" which follows the communist pattern. In recent months, for example, the label has been applied to genuinely patriotic organizations.

"Fascist" can properly be applied to neo-Nazi groups that appeal to a tiny minority of disturbed people who want to wear swastika armbands. But such groups are more a clinical phenomenon than a political problem in the United States. In the view of the vast majority of Americans, such basement groups of agitators are sick people.

When the label "fascist" is applied to a genuine patriot, then the person who uses that label is either woefully ignorant of its real meaning or is following the communist line.

The Communist Party, USA, obviously hopes to promote a movement to label all hard core opposition "fascist." The communists know that spread of this word into common usage will help discredit forces that are working to strengthen the United States.

American conservative movements have nothing in common with Fascism — a philosophy of total state control that is opposed to everything which American conservatives believe.

The original Italian name of "fascismo" is derived from the Latin word "fasces," or bundles. In ancient Rome a bundle of rods with an axe was borne as a symbol of authority.

Fascism as developed by Mussolini and Hitler means glorification of a leader and total obedience on the part of every element in the nation. It means that the economic system, instead of being built on free enterprise, is a tool of the state. Fascism rejects all constitutional principles, such as are esteemed by American conservatives. Fascism denies all local rights such as the states rights which American conservatives jealously guard.

An informed American, therefore, could not possibly label a genuinely conservative movement "fascist". Persons who persist in using the word "fascist" to categorize conservative efforts in behalf of the Republic are either invincibly ignorant or willful instruments of this nation's worst enemy. Those who employ the language of communism hardly can escape the influence of communist ideas.

Imagine the gall of a U.N. group saying who should be American citizens! This is the grossest kind of interference in the internal affairs of the United States. But it is only a sample of what is to come.

We predict that in less than 10 years, communist bloc and neutralist countries will demand that U.N. investigators be sent into Alabama to probe alleged violations of "human rights," into Texas to study conditions of Mexican farm labor, and into Arizona to review the economic state of Indians.

From the beginning, advocates of the U. N. have seen it as an instrument for invading the rightful authority of the United States. The tragedy of the situation is that the U.N. invasion of national sovereignty is largely financed with money provided by U.S. taxpayers.

Let's make a counterproposal. Let's demand full freedom for nations that everyone knows are culturally advanced and capable of self-government if only given freedom. Let's demand freedom—this year!—for Hungary, Bulgaria, Romania, Poland, Czechoslovakia, East Germany, Latvia, Lithuania and Estonia.

These nations lack freedom only because of Red aggression.

WHY WAS GEN. WALKER REBUKED ?

The reprimand on June 12 of General Edwin A, Walker by the Army, which was aided and abetted by President Kennedy has, wittingly or unwittingly, dealt a lethal blow to the morale of the Armed Forces of the United States.

Efforts to impair the morale of U.S. Armed Forces have been evident for some time. The fact that the Kennedy Administration is eager to ransom Cuban prisoners, but makes no effort to take steps to rescue American soldiers held by the Communists is certainly not calculated to instill morale in the hearts of our fighting men.

One reason the Bolsheviks were able to so easily conquer Russia was the fact that, although small in number, they managed to infiltrate and demoralize the Czar's army. The Communists and their dupes have thus had many years experience in breaking down the morale of an army.

The public reprimand of General Walker, one of America's bravest and most dedicated officers, is a signal to other U.S. military officers throughout the world that the Kennedy Administration will not permit the teaching of the dangers of Communism to members of the Armed Forces. Thus the will of our Armed Forces to combat America's mortal enemy, the International Communist Conspiracy, is materially and dangerously weakened. And these Armed Forces, mind you, are the ones upon whom American citizens depend to protect this country from Red aggression.

An Associated Press dispatch of Monday, June 12, states, "Walker was rebuked,..for participating in certain controversial activities about which the Army refused to give details."

What is General Walker's "crime?" Is it a "crime" to train soldiers of the U.S, Armed Forces to love, honor and fight for their country? Is it a "crime" to inform soldiers of the nature of the Communist enemy and the dangers of Communist infiltration?

Article 1, Section 8, Clause 14, of the U.S. Constitution states that Congress shall have power "to make rules for the government and regulation of the land and naval forces." What rules and regulations regarding the land and naval forces of the U.S. has Congress made that would call it a crime for a general to teach patriotism to his troops?

The Army, in reprimanding General Walker, said, according to an AP dispatch, that "it regards the case as closed and plans no further action."

Why is the Administration trying to hush up General Walker? (For full details of General Walker's "Pro-Blue" program which is considered controversial, see article elsewhere in this issue).

And so the Army, acting under orders of President Kennedy, considered the Walker case "closed." But is it? This is not merely an instance where the career of one of America's most outstanding generals has been blighted, It goes far deeper than that. There are many unanswered questions which we believe are of such grave importance to the future of this nation that they warrant the immediate attention of the Senate Armed Forces Committee and the House Armed Forces Committee.

(1) Why was General Walker's "Pro-Blue" patriotic project disbanded and its personnel scattered throughout the Armed Forces?

(2) Why did the Army instigate an investigation against General Walker because of charges made by a morale-destroying sheet such as "The Overseas Weekly?" (Congressman Dale Alford, D-Ark., in referring to the charges against Gen, Walker by "The Overseas Weekly" stated on the floor of the U.S, House of Representatives, April 19: "...this attack upon a leader of American military forces has been engineered by a salacious overseas pink sheet which not too many years ago was banned from distribution among our Armed Forces on the complaint of a chaplain's committee.")

(3) Who is behind "The Overseas Weekly"? Do any of its personnel have Communist-front connections?

(4) What type of patriotic education for the troops would meet with President Kennedy's approval? The answer to this question might prove very interesting, inasmuch as Kennedy is vigorously opposed to a loyalty oath being required of students receiving taxpayer funds from the National Defense Education Act,

Newest Treaty To Allow UNESCO To Control Education

By Florence Fowler Lyons

(Reprinted from Montrose (Calif.) LEDGER)

Bulgaria, communist Cuba, Czechoslovakia, Hungary, Poland, Byelorussian Soviet Socialist Republic, Ukrainian Soviet Socialist Republic and the Union of Soviet Socialist Republics participated fully in the drafting of UNesco's new treaty --"Convention Against Discrimination in Education."

This treaty, which will deliver into UNesco-international control the entire American educational system, is now ready for Senate ratification.

Jurisdiction for the UN International Court of Justice is written into this UNesco treaty, and Article 9 ties the UN legal noose tighter: "Reservations to this Convention shall not be permitted."

Since this treaty defines the rights of INDIVIDUALS, if it is ratified, this will legally place every American citizen under international law, and subject to judgment and punishment by UN Courts.

This UNesco treaty can be employed--and will be--to close every private and parochial educational institution in the United States. From the day of its ratification, federal control of education will be legally instituted, for the federal government will that day become the "national agent of UNesco, charged by treaty to repeal or enact legislation dictated by UNesco, and UNesco only.

NO LOCAL CONTROL

Making education the subject of a treaty automatically removes education from under "domestic" law and control, and into the field of international law and control. This treaty encompasses every phase and facet of American education, from a definition of what "education" must consist of, down to dictation as to the physical facilities and equipment under which private and parochial schools may continue to function without being closed by Unesco and its UN Court as "discriminatory!"

It is essential that those stu-

Masterpiece is,

TRAP FOR SENATE

The diabolically clever UNesco-communists and the Soviet Agents and Pinkos in the State Dept. have provided a neat trap for the U.S. Senate. Right this instant these subversives in Paris and Washington are at work trying to figure out which of the two versions of this treaty shall be given to the Senate. They have drafted two identical documents--one they label "CONVENTION Against Discrimination in Education," and the other is called "RECOMMENDATIONS Against Discrimination in education."

The end effect will be identical with the ratification of either version, but, as the schemers discussed it in UNesco document 11C/15, the "Recommendation" differs enough in "legal effect" to "make it possible for some States--especially Federal States--to combat discrimination by applying the Recommendation where as they might not be in a position to ratify a CONVENTION."

In other words, the trick is to get one version or the other approved. If the Senate balks over a treaty, get the "Recommendation" version over, and then rely on the UN World Court (which is written into both) to make the decision at the proper moment, that the United States, by its approval of the "Recommendation" is as legally obligated as if the "Convention" itself had been ratified!

This UNesco treaty eliminates all State and local control of education. The treaty demands that each signer formulate a "national policy" for the whole of education, and carries this on by Article 6 to the point where the U.S, pledges "to undertake to pay the greatest attention to any recommendations HEREAFTER adopted by the General Conference of UNesco DEFINING the measures to be taken against the different forms of discrimination in education and for the purpose of ensuring

THE INDEPENDENT AMERICAN urges that Congress start an immediate investigation to provide answers to the foregoing questions for the satisfaction of all liberty-loving Americans. We hope that out of such a House-Senate investigation that Congress will take specific action emphasizing the right of commanding officers to conduct training programs in patriotism and anti-Communism, and that the House Committee on Un-American Activities and the Senate Internal Security Subcommittee be appointed the guardians of what should be taught our Armed Forces along these lines.

If you wish to see justice done in the case of General Walker, we urge you to write to Senator Richard B. Russell, Chairman of the Senate Armed Services Committee, and to Congressman L. Mendel Rivers, who is a member of the House Armed Services Committee, expressing your views.

What Was Gen. Walker's "Pro-Blue" Program ?

The "Pro-Blue" program which General Walker prepared and used in training the 24th Division in Germany derived its name from maps showing the free world in blue, and the Communist world in red. General Walker said of this program: "It is in all aspects a a pro-freedom cause...a positive approach toward the defeat of open Communist subversion of the American way of life based on the Constitution, belief in God, and freedom of man."

The program combined troop physical training for maximum combat readiness with an information program for the officers, their wives, and children of high-school age. General Walker asked USAREUR libraries to provide special reading shelves on Communism for both military and civilians.

The support of chaplains was enlisted and urged toward "helping...to 'put on the whole armor of God' " (Ephesians 6:11).

Library books, publications of U. S. Government investigating committees, and periodicals were discussed and analyzed at regularly scheduled study group meetings.

Books used as study sources included: J. Edgar Hoover's "Masters of Deceit"; "A Guide to Anti-Communist Action," by Anthony Buscaren; "In Every War But One," by Eugene Kinkead; "The Techniques of Communism," by Louis Budenz; "The Techniques of Soviet Propaganda," and "Handbook for Americans," publications of the Senate Internal Security Subcommittee; "The Life of John Birch," by Robert Welch; "The Story of Mary Liu," by Edward Hunter"; "Advise and Consent," by Alan Drury; and Victor Fox's "Pentagon Case."

The 24th Division newspaper, the TARO LEAF, featured writings by J. Edgar Hoover, Cardinal Spellman, George Washington, and Theodore Roosevelt.

Films such as "Operation Abolition," and "Man on a String," (a dramatization of Soviet espionage methods exposed by American counterespionage) were sponsored. A radio series entitled "If Freedom Fails," was publicized, dramatizing what happens to a free country when Communists seize power.

(Source for the above information is an article from the ARKANSAS DEMOCRAT, of Little Rock, Arkansas, April 23, 1961, reprinted in the CONGRESSIONAL RECORD, May 16, 1961, pp 7491-92.)

Round-Up Of Editorial Opinion Pro

During the first week of June, one of the wire services, in a final paragraph dealing with the "tractor ransom" story, admitted that there was "a little" opposition in this nation to the "tractors for prisoners" exchange. Without a doubt, this is the understatement of the year. We find it very curious that the nation's press, which meticulously reports in toto every statement issued by Eleanor Roosevelt, Walter Reuther, etc., regarding the ransom deal, has strangely omitted any mention of the rapidly rising tide of righteous indignation throughout the nation to this infamous deal with Castro.

Below are excerpts from newspaper editorials throughout the nation protesting Kennedy's approval of the payment of blackmail to Castro:

THE TAMPA (Fla.) TRIBUNE

"...But whatever the fate of the 1,200, there are other lives to be considered - millions of them.

What would Castro do with 500 bulldozers? Well, one thing he might do is to build airfields for Russian jet planes and bases for Russian rockets. These weapons could be turned one day against the United States; more immediately, they would help Castro intimidate or overthrow other Latin American governments....

And Castro's success, we can be sure, would not go unmarked by other tyrants. Khrushchev holds U-2 Spy Francis Powers and nobody knows how many Russian political prisoners; Red China has not only a handful of captive Americans but millions of starving peasants to barter; the slave camps of Hungary, East Germany and other Soviet satellites are crowded....

If it be called heartless to reject Castro's bodies-for-bulldozers deal, let us remember that there are times when free men must be willing to sacrifice both liberty and life in defense of principle. Iron-souled Communism cannot be defeated by government or people too soft for sacrifice; who choose, instead, to pay tribute to tyranny until the money is gone or the tyrant is grown too strong to be appeased...."

THE INDIANAPOLIS STAR

"There is absolutely nothing legal about the demand for ransom, nor its payment. There is no body of law which recognizes or condones ransom....If the United States wants these men back, let us simply go take them, and boot Castro into the arms of Khrushchev in the process. If not, then no American committee or individual, with or without presidential sanction, should be permitted to dirty the nation's name with this kind of dealing.

Thoughtful citizens can only shudder at the prospect of what the future holds for the United States if Castro is permitted to succeed in this blatant blackmail. Is this the kind of leadership promised by an administration of intellectuals for the next three-and-a-half years?

President Kennedy said, during the political campaign, that the Eisenhower administration had 'brought the prestige of the United States to the lowest point in history.' What is the aim of the New Frontier -- to bring it even lower?"

ANOTHER CASTRO IN THE CARIBBEAN?

By Natalie Prise

For the second time in the last eight years the British government will give its South American possession, British Guiana, a chance at self-government this year. The first try, in 1953, resulted in what TIME Magazine of September 9, 1953, termed "Communism's most direct and successful grab for power in South America." "The people of British Guiana," in the words of BUSINESS WEEK of October 17, 1953, "were the first in the world to put an out-and-out Communist party into power in a free election." All indications are that this will happen again.

Communist success in British Guiana was the brainchild of Cheddi and Janet Jagan. Cheddi Jagan, an East Indian, was born in British Guiana on a sugar plantation in 1918; his parents were indentured laborers brought from India in 1900. This background was to prove invaluable to him in later years, since the East Indian sugar workers, whose ignorance he exploited in his rise to power, constitute the largest racial group in the country. In 1936 he came to America where he attended Howard University and graduated from Northwestern with a degree in dentistry in 1943. In that same year he met and married a student nurse at Cook County Hospital, Janet Rosenberg.

Born in Chicago in 1921, light-haired Janet was once a member of Chicago's Young Communist League. On October 16, 1953, U.S. NEWS & WORLD REPORT said of her: "Mrs. Jagan has a long history of Communist activity in the United States. Both the State Department and the FBI have files on her, and the U.S. has stripped away her citizenship for political activity in a foreign country. In her teens she tried to spread Communism at Wayne University, the University of Detroit and Chicago University." Speaking of both Jagans, the article continues: "Both have been behind the Iron Curtain to Communist meetings, getting instructions on how to grab a foothold in South America."

THE JAGANS ORGANIZE THE MASSES

After their marriage the Jagans went to British Guiana, where he set up a dental practice with Mrs. Jagan as his assistant. The best dentist in the colony, Jagan founded a clinic for the sugar workers, and through this clinic organized them politically, capitalizing on their poverty and ignorance and on his own ethnic background. The Jagans at first worked as reformers, organizing groups to press for low-cost housing and labor laws. Then, in 1950, they formed the Communist-oriented People's Progressive Party.

The flagrant Communist record of the Jagans is well-known. A. Boyle described the Jagan's political associates as a "hard core of English University Reds"; NEWSWEEK of August 26, 1957, called Jagan a "convinced Marxist."

Communist Janet Jagan, considered the "motive power" behind her husband has made trips behind the Iron Curtain: she was "impressed by the progress being made" in Rumania. She has attended meetings of the Communistic Women's International Democratic Federation. In 1953 she had established a Pioneer Youth League in British Guiana, was running a branch of the Communist Peace Committee, and filing frequent dispatches to the London DAILY WORKER. In addition she edits the party publication THUNDERER which has exhorted readers to intensify "class struggle" in British Guiana and lauded the achievements of "workers" in Soviet satellites. In January, 1955, the ATLANTIC MONTHLY declared of the People's Progressive Party "The party's previous actions and its easy access to apparently ample funds make it clear that its leaders are Communists."

In April, 1953, when the British government, intent on "liberating the colonies," granted the colony a constitution and free elections - with universal suffrage in spite of the fact that over 70% of the population was illiterate - the People's Progressive Party was actually the only party in the colony - thanks to the efforts of Janet Jagan whom the already-mentioned issue of U.S. NEWS & WORLD REPORT described as "the ablest Communist organizer in the Western hemisphere."

The People's Progressive Party won 51% of the vote by what a Jesuit missionary, according to A. Boyle, writing for the magazine AMERICA in 1953, termed "downright political bribery," machines that the Jagans had included in their promises. The election gave to the Jaganites 18 out of 24 seats in the Legislative Council and six ministries in the Executive Council or Cabinet. The Governor, however, who was President of the Council, appointed the most important ministers, and had veto power.

REVOLUTIONARIES IN A HURRY

After the election the power-hungry Jaganites "set out through strikes and sabotage to destroy the new constitution and bring forth a Communist state" (LIFE: October 19, 1953). NEWSWEEK Magazine of October 19, 1953, summed up developments in the country: "The People's Progressive Party set about to control labor and break 'the Wall Street imperialists' - the sugar planters, mine owners, and big businessmen. They called interminable strikes to ruin the anti-Red labor organization. They tried to replace the small uniformed police force with a PPP-controlled militia. And they attempted to cut the power of Queen Elizabeth's representative, Sir Alfred Savage. Governor Savage reported the party was ready to proclaim a Guianese Independent People's Republic. He sent to London a copy of a Declaration of Independence drafted by the People's Progressive Party ministers but rejected by their colleagues." Furthermore, businessmen complained that government officials were tapping their phones and opening their mail, and it became generally known that Jagan's followers were hoarding gasoline, kerosene, sulphuric acid and dynamite. People drew their money out of banks; U.S. and Canadian firms postponed investments in the face of possible confiscation. The British government acted with dispatch, suspended the constitution, and sent two frigates, a cruiser and 700 troops to the colony.

BLUEPRINT FOR TAKEOVER

On October 20, 1953, a British White Paper set forth 11 official charges against the deposed leftist regime, including undermining the police force, fomenting strikes, spreading Communist propaganda, fostering racial hatred and attempting to control the unions. On November 5 the British government submitted to Parliament an order setting up an interim government consisting of an executive and a legislative council with close British supervision.

Jagan went on a "protest tour" during which he visited England, France, Italy, Egypt, and India. Soon after his return to British Guiana in February, 1954, he was arrested and sentenced to six months imprisonment for a breach of emergency regulations and fined for organizing an illegal political procession.

It would seem that Jagan learned a lesson from his first failure: namely, that his Communistic plans could not materialize as long as the British held the strings of power. Accordingly, when the British held free elections in 1957 after a cooling-off period of four years, Jagan adopted a conciliatory platform. In 1953 he had vowed to "shoot oppressors"; in 1957 he preached cooperation with the Crown and with business. Jagan's People's Pregressive Party again won the election, capturing nine out of 14 seats in the council. Governor Sir Patrick Renison refused to allow Jagan to form a Cabinet but asked him to join the Government and appointed him Minister of Trade and Industry with Mrs. Jagan as Minister of Labor, Health and Housing. The governor, however, retained the power to appoint a majority to the council to offset the Jaganites.

GUIANA, A SOVIET COLONY?

In March, 1960, the British government again announced its acceptance of "the principle of independence" for the colony, and a new constitution is scheduled to go into effect August 21, 1961, with full independence coming no later than two years hence. Apparently the British government believes that Jagan, whose People's Progressive Party is still the main party in Guiana, has renounced his radical plans. But has he?

Last August Jagan visited Castro's Cuba. Expressing hope for a cultural exchange between the two countries, Jagan accepted a proffered Cuban loan of 5 million dollars to aid British Guiana's timber industry. If the past affords any indication, it is more than likely that once Jagan gains the upper hand in British Guiana,

stripped away her citizenship for political activity in a foreign country. In her teens she tried to spread Communism at Wayne University, the University of Detroit and Chicago University." Speaking of both Jagans, the article continues: "Both have been behind the Iron Curtain to Communist meetings, getting instructions on how to grab a foothold in South America."

THE JAGANS ORGANIZE THE MASSES

After their marriage the Jagans went to British Guiana, where he set up a dental practice with Mrs. Jagan as his assistant. The best dentist in the colony, Jagan founded a clinic for the sugar workers, and through this clinic organized them politically, capitalizing on their poverty and ignorance and on his own ethnic background. The Jagans at first worked as reformers, organizing groups to press for low-cost housing and labor laws. Then, in 1950, they formed the Communist-oriented People's Progressive Party.

As a Soviet colony, British Guiana, located on the inner eastern tip of the South American continent, would serve as another focal point for subversive agitation in the Caribbean and a base for Communist penetration into the British WestIndies and the Latin American countries.

British Guiana is important in another respect. The country produces 23.8% of the world's bauxite, used in the manufacture of aluminum, and experts figure its resources have hardly been touched; other strategic materials found in the country include manganese, columbite, gold and diamonds.

This then is the record the British ignore when they plan to give British Guiana its independence and turn the country over to Jagan, another Castro.

The United States has attempted new appeasement of the Communists by making more concessions in the fruitless nuclear arms ban talks in Geneva.

That the Geneva talks are a hopeless trap should have been clear to President Eisenhower and to President Kennedy because they have been going on for years without constructive result or expectation of it.

But despite this, on May 29 the United States gave in again to the Russians by proposing to reduce from 20 to 12 the normal annual number of on-the-scene inspections by each side to try to make sure the other side is not cheating.

There are really two major issues to be considered in relation to a nuclear weapons ban. One, of course, is the alternative to nuclear weapons if they are indeed effectively discarded. The prospect for us is not good, for a reversion to conventional weapons alone will place major dependence upon manpower and the Communist world greatly outnumbers the United States in manpower. The second major nuclear ban consideration is whether the ban will work, or whether there might be violation of the ban that cannot be detected. The United States would live up to an agreement if it is reached; experience indicates Russia will not live up to any peaceful agreement if it can get away with not living up to it. That is why inspections are necessary. And that is why the United States is in bad condition when it offers to reduce the number of inspections.

Under the new formula proposed by the United States, each side would be allowed 12 inspections of the other side for the first 60 unidentified seismic disturbances (be they earthquakes or jars caused by nuclear explosions) each year, with one additional inspection for every five additional underground disturbances.

Noted nuclear physicist Dr. Hans Bethe has testified, however, that each year some 500 unidentified explosions occur in the Soviet Union. It should be easy to see how reduced inspections would reduce the effectiveness of our detection teams in preventing Russian cheating. But this is only a part of the story.

The agreement we are trying to reach with the Russians at Geneva calls for only 19 stations within Russia to be on the lookout for seismic disturbances which might be illegal nuclear weapon tests. Dr. Bethe has expressed the view that 200, rather than 19, listening stations would be needed to cover Russia effectively. Furthermore, the proposed nuclear ban treaty would specifically prohibit any inspection of explosions registering less than 4.75 on a seismograph--but scientists report much evidence that the Russians are capable of setting off explosions in salt domes in the Emba region to appear to be below the 4.75 minimum.

We have been saved so far not by any wisdom of American negotiators or by presidential caution regarding the negotiations. Our best hope so far has been Russian refusal to accept our concessions simply because Russia doesn't want Americans or anyone else doing any kind of inspecting inside Russia.

It is discouraging, indeed, that the United States persists in these hopeless negotiations, and indicates a continuing attitude of appeasement by making new concessions to an untrustworthy enemy of mankind. Neville Chamberlain at Munich thought he could get away with the same sort of thing. World War II was the result.

Declare War On 98 Communist Parties Throughout The World Says Pillion

ADDRESS BY CONGRESSMAN JOHN R. PILLION, R. - N.Y., BEFORE THE U.S. HOUSE OF REPRESENTATIVES, JUNE 12, 1961

Mr. Speaker, my colleagues, my fellow Americans:

I address this House today with a supreme faith in the righteousness and in the immortality of human liberty. The Free World has been shocked and staggered by recent tactical victories of the Communist forces in the world struggle.

THE ROLL CALL OF FREE WORLD DEFEATS

Since 1919, country after country has fallen before the Communist advance. Since 1939, total power has been seized in Estonia, Latvia, Lithuania, Albania, Bulgaria, Czechoslovakia, East Germany, Hungary, Poland, Rumania, North Korea, Red China, North Vietnam, Outer Mongolia, Tibet and Cuba.

These nations are tombstones of defeat, marking the failure of our policies, the failure to comprehend the enemy, the scope and the weapons of this total war. We are now confronted with impending crises in West Berlin, Laos, South Vietnam, Iran, the Congo, British Guiana, and Guatemala.

President Kennedy has emphatically stated and restated the graveness of our position. It is obvious that this nation stands in its hour of greatest peril. The danger is clear. It is now, today. It increases every hour, every day. Recent events are beginning to unfold to all of the world, at long last, the magnitude of the forces seeking to destroy us.

COMMUNIST ENCIRCLEMENT OF U.S.

The United States is the principal target in this war. The process of Communist encirclement of the United States is approaching completion. Unless we immediately recognize our actual enemies and fully comprehend the forces that seek our destruction, we shall very soon reach a point of "no return." If we wish to remain a nation of free people, we must recognize, we must admit, we must understand, once and for all time, that our actual enemy is the International Communist Conspiracy.

Since the year 1919, this enemy has waged a total war upon all peoples, nations and societies of the Free World. It is a war of demoralization, disintegration, and total destruction. It is a relentless, incessant war. It is a war of indefinite duration -- a war of orthodox and unorthodox methods, policies and strategies -- a war of conventional and unconventional weapons. It is a war of total enmity to which our enemies are irrevocably committed.

FREE WORLD POLICIES FAILING

The most appalling fact of this century is the failure of the Free World to recognize the enemy as the International Communist Conspiracy. This alliance of Communist Parties has repeatedly and openly declared its total war against the Free World. The Moscow Manifesto of December, 1960, calls for an intensification of this war. Yet, the Free World has simply failed to believe, to accept the deadliness of this total war. We have wholly failed to comprehend the dual nature of this war. The total global war has two parts.

THE ENEMY IS UNIFIED

The first part of the war is being conducted by the International Communist alliance. Its organization is now headed by Nikita Khrushchev in his capacity as First Secretary of the Communist Party of the Soviet Union. The Communist Party of the Soviet Union, in turn, dominates the 97 other Communist Parties of the world alliance. These 97 national Communist Parties acknowledge allegiance to and solidarity with the Communist Party of the Soviet Union. They receive policy directives and execute strategic and tactical phases of the war in accordance with plans coordinated by the Communist Party of the Soviet Union. This alliance of Communist Parties has 36 million member agents. They are tough-minded, disciplined, revolutionary activists. This alliance engages in in-

policies may change, tactically, the unchangeable objective of the Communist Parties is the complete subjugation of the world.

The reason why the Free World has suffered defeat after defeat is that we have been waging a unilateral peace, while the Communists have been waging a unilateral war. We have been indulging in the fatal delusion that the governmental power of the Soviet bloc constitutes the ultimate power that we are facing. We have accepted the Communist pretence that the tensions in the world are caused by a conflict of national interests between legitimate governments. We have consequently attempted to resolve them by normal means of maintaining international relations, while the Communists continue their unremitting warfare against us. The steady relative deterioration of the strength of the Free World, has resulted in our present position of extreme peril. The Soviet is now presenting to us a series of ultimatums of retreat under the cloak of "negotiations for peace and peaceful coexistence."

RECOGNIZE THE EXISTING STATE OF WAR

Mr. Speaker, I am today submitting a Joint Resolution which calls for a Declaration of War, not against any government, but against our actual enemy, the alliance of national Communist Parties of the world. In my judgment, passage of this Joint Resolution is needed to focus world attention upon the forces which have declared war against all free men. It is a needed first step to the formulation of policies and programs to win this war and to establish a genuine peace.

I am convinced that this action offers the last and the only hope to avoid both surrender and thermonuclear war. This declaration does not create a new war. Neither the passage of this Resolution, nor the failure to pass this Resolution by Congress, will change the fact of the Communists' total war against us.

We must fully recognize that the Communist alliance will never be either persuaded or dissuaded from using their arsenal of thermonuclear weapons against us, if and when they believe they

They receive policy directives and execute strategic and tactical phases of the war in accordance with plans coordinated by the Communist Party of the Soviet Union. This alliance of Communist Parties has 36 million member agents. They are tough-minded, disciplined, revolutionary activists. This alliance engages in infiltration, the breakdown of resistance, the seizure of power in the Communist advance. It conducts its campaigns in the framework of military concepts of penetrations, advances, retreats, encirclements, deployment of forces, and consolidations of victory. This entity, the International Communist alliance, has consummated the Communist capture of Cuba, North Vietnam, and is responsible for almost all other Communist gains.

COMMUNIST COLD WAR WEAPONS

The weapons system of the Communist Parties includes:

Psychopolitical warfare, including propaganda and agitation, a worldwide communications system, political warfare, guerilla warfare, international and national front and fellow-travelers' organizations, a system for the infiltration and subversion of civic and governmental organizations.

The second part of the total global war consists of the total military, economic, and political power of the governments of the Soviet bloc nations and the governments of the allied Communist nations. The second part of this war is the conflict being conducted by these governments, controlled by the Communist alliance. This alliance of governments, is also, now headed by Nikita Khrushchev.

The weapons system of this alliance of governments consists of:

A. The Army, Navy, Air Force, and other military power of the Soviet bloc nations, and the governments of the allied Communist nations. It is one of the most formidable military forces the world has ever known,

B. Political warfare being waged in the United Nations, in negotiations with the United States, and in political offensive action throughout the world.

C. Economic warfare which exploits the production of a billion people held in economic servitude. Its international economic infiltration and trade is aimed solely to attain geopolitical objectives.

THE COMMUNIST PARTY IS THE SOVIET GOVERNMENT

The forces of these two organizations, the International Communist alliance and the governments of the allied Communist nations, are coordinated by the Communist Party of the Soviet Union. Together, they command the largest land mass and the largest aggregate of people ever under a single control in history.

We must recognize, once and for all time, that Soviet Government policies are determined by the Communist Party of the Soviet Union. The execution of Soviet Government policies is supervised in detail by the Communist Party. Although Soviet Government

RECOGNIZE THE EXISTING STATE OF WAR

Mr. Speaker, I am today submitting a Joint Resolution which calls for a Declaration of War, not against any government, but against our actual enemy, the alliance of national Communist Parties of the world. In my judgment, passage of this Joint Resolution is needed to focus world attention upon the forces which have declared war against all free men. It is a needed first step to the formulation of policies and programs to win this war and to establish a genuine peace.

I am convinced that this action offers the last and the only hope to avoid both surrender and thermonuclear war. This declaration does not create a new war. Neither the passage of this Resolution, nor the failure to pass this Resolution by Congress, will change the fact of the Communists' total war against us.

We must fully recognize that the Communist alliance will never be either persuaded or dissuaded from using their arsenal of thermonuclear weapons against us, if and when they believe they can do so with impunity. The passage of this Joint Resolution will, however, signal the beginning -- at long last -- of our offensive against the Communists. It will be a war not of missiles and marching soldiers with bayonets. It will be largely a war of economic, political, diplomatic and psychological weapons. We will not, however, submit to the slavery of the Communist tyranny, whatever the cost may be. I do not offer this Resolution as a panacea. This action does furnish the starting point for the defeat of our enemy.

Our present policies are self-deceptive and self-defeating. We cannot win this war by ignoring its existence, or even by policies limited to defense. We must aggressively prosecute this war against the enemy, even as he is prosecuting it against us.

May I remind the members of this House that the responsibility to provide for the common defense of these United States is entrusted to Congress. I say, therefore, that we in this Congress, must assume our responsibility to provide adequate policies and programs for the survival of this Republic.

The prosecution of this war will call for dedication to out-match the dedication of a fanatical enemy. It will call for sacrifice surpassing that which the Communists are ready to endure. But the price which we will have to pay for ultimate victory will be cheap, because it will repurchase the most priceless possession of man--his freedom under God.

Permit me to enumerate some of the practical results of the passage by Congress of this Resolution.

First, by identifying the enemy, and secondly, by recognizing the war which the Communists have been waging against us, we shall have a basis for shaping our policies to prosecute the war. How can we formulate effective programs to defeat an enemy if we neither specify who he is, nor acknowledge that we are at war with him? Second, we shall raise a standard to which free men everywhere can rally. The enemy is not just our enemy, but of all who love freedom. We shall, by raising this standard, assert our rightful place as leaders of the yet Free World. We shall give renewed hope to the millions whom the Communists hold in bondage.

Third, we shall have a guide for our domestic policies which must be consistent with the demands of the life and death struggle in which we are engaged.

Finally, we shall have a justifiable hope that by accepting the challenge which the enemy poses to civilization itself, we can someday usher in an era of genuine peace, and the fulfillment of the highest aspirations of mankind.

We are in a war. Let us declare it. Let us win it.

PATRIOT ALERT!

On this page is one of the most important speeches ever made on the floor of the House of Representatives. Congressman John R. Pillion (R-NY), on June 12, asked that the House of Representatives, with the Senate concurring, adopt a resolution recognizing that a State of War exists between the United States and the International Communist Conspiracy which is composed of 98 national Communist parties.

In an exclusive telephone interview with Congressman Pillion,, THE INDEPENDENT AMERICAN learned that this resolution was prepared with the advice and counsel of Richard Arens, formerly Chief Counsel to the House Committee on Un-American Activities.

Congressman Pillion recommends that every citizen and patriot carry out the following course of action in order to alert the nation to the clear and present danger that exists because of the total war being conducted against the United States by the International Com-

Each patriot and citizen should also request that the participating civic, relfgious, and fraternal organizations should recommend that each of their inembers should separately write letters as outlined in Step No. 1 above.

As soon as Congressman Pillion had made his speech and introduced his resolution, the following members of Congress supported the resolution: Congressmen Edgar W. Hiestand (R-Calif.), Donald C. Bruce (R-Ind.), Dale Alford (D-Ark.), Thaddeus J. Dulski (D-N.Y.), Ralph F. Beerman (R-Nebr.), Henry C. Schadeberg (R-Wisc.). By the time you receive this issue of THE INDEPENDENT AMERICAN, additional Congressmen may have added their support to the Pillion Resolution.

The success of this resolution will depend on the widespread sup-

THE COMMUNIST PARTY IS THE SOVIET GOVERNMENT

The forces of these two organizations, the International Communist alliance and the governments of the allied Communist nations, are coordinated by the Communist Party of the Soviet Union. Together, they command the largest land mass and the largest aggregate of people ever under a single control in history.

We must recognize, once and for all time, that Soviet Government policies are determined by the Communist Party of the Soviet Union. The execution of Soviet Government policies is supervised in detail by the Communist Party. Although Soviet Government [illegible] effective programs to defeat an enemy if we neither specify who he is, nor acknowledge that we are at war with him? Second, we shall raise a standard to which free men everywhere can rally. The enemy is not just our enemy, but of all who love freedom. We shall, by raising this standard, assert our rightful place as leaders of the yet Free World. We shall give renewed hope to the millions whom the Communists hold in bondage.

Third, we shall have a guide for our domestic policies which must be consistent with the demands of the life and death struggle in which we are engaged.

Finally, we shall have a justifiable hope that by accepting the challenge which the enemy poses to civilization itself, we can someday usher in an era of genuine peace, and the fulfillment of the highest aspirations of mankind.

We are in a war. Let us declare it. Let us win it.

PATRIOT ALERT!

On this page is one of the most important speeches ever made on the floor of the House of Representatives. Congressman John R. Pillion (R-NY), on June 12, asked that the House of Representatives, with the Senate concurring, adopt a resolution recognizing that a State of War exists between the United States and the International Communist Conspiracy which is composed of 98 national Communist parties.

In an exclusive telephone interview with Congressman Pillion, THE INDEPENDENT AMERICAN learned that this resolution was prepared with the advice and counsel of Richard Arens, formerly Chief Counsel to the House Committee on Un-American Activities.

Congressman Pillion recommends that every citizen and patriot carry out the following course of action in order to alert the nation to the clear and present danger that exists because of the total war being conducted against the United States by the International Communist Conspiracy.

The first step is for each citizen and patriot to write four letters: (1) One letter to the "President of the United States, the White House, Washington, D.C."; (2) One letter to each of the two Senators from his State, addressed "Honorable _____, U.S. Senator from _____, Senate Office Building, Washington, D.C."; (3) A letter to his own Congressman, addressed "Honorable _____ Representative from the State of _____, House Office Building, Washington, D.C."

In these letters, each and every citizen and patriot should express his whole-hearted support for the resolution of Congressman John R. Pillion, and ask the President, Senators and Congressman to carry out policies at all levels of our government in order to counteract the total global war now being waged by the Soviet Union through the 97 national Communist parties which it dominates.

Each patriot should then contact every civic group, every church organization, every union, every Chamber of Commerce, with which he has a connection, and ask that all of these organizations pass resolutions supporting the Pillion Resolution. Each patriot and citizen should also request that the participating civic, relfgious, and fraternal organizations should recommend that each of their members should separately write letters as outlined in Step No. 1 above.

As soon as Congressman Pillion had made his speech and introduced his resolution, the following members of Congress supported the resolution: Congressmen Edgar W. Hiestand (R-Calif.), Donald C. Bruce (R-Ind.), Dale Alford (D-Ark.), Thaddeus J. Dulski (D-N.Y.), Ralph F. Beerman (R-Nebr.), Henry C. Schadeberg (R-Wisc.). By the time you receive this issue of THE INDEPENDENT AMERICAN, additional Congressmen may have added their support to the Pillion Resolution.

The success of this resolution will depend on the widespread support it receives from you and all other patriotic friends of yours.

A PERSONAL CHALLENGE

We hope that every reader of this issue of THE INDEPENDENT AMERICAN will consider this a personal challenge, and will carry out the suggestions of Congressman Pillion as the highest priority project in all of his patriotic activities.

THE INDEPENDENT AMERICAN believes that unless nationwide citizen pressure is applied to our Congress and our President, that this Republic may not have very many years of independence remaining. We consider that the clear and present threat of the Communist Conspiracy needs to be met with forceful action and a complete change from the appeasement policies that have been in effect since the end of World War II.

Please send us carbon copies of your letters to the President, your two Senators, and your Congressman. We would also like to receive copies of the response you receive from your Congressman, Senators, and the President.

SENATORS VOTE TO AID REDS

By Mary Helen Brengel

On May 11, 1961, the Senate passed S. 1215 by a vote of 43-36, amending the Battle Act. Enacted in 1951, the Battle Act has prevented U.S. trade in arms and strategic materials with Communist bloc nations, and denied U.S. assistance to other countries which do not abide by the system of controls on strategic items which has been in effect for a number of years among the countries of the Free World.

The Senate-passed amendment, S. 1215, which now goes to the House of Representatives, allows the President to construe the terms of the Battle Act as applying only to the Soviet Union and Communist-held areas of the Far East.

The powers which S. 1215 would confer upon the President of the United States were sought in a bill introduced by Senators Kennedy and Aiken in 1959. The Senate passed this bill on Sept. 12, 1959, but the House did not act on it.

This Battle Act amendment was referred to by President Kennedy in his State of the Union message as one of the measures on which he urged Congressional approval.

Senator Strom Thurmond, one of the few clear and outspoken voices in the Senate when S. 1215 was passed May 11, 1961 (with 21 Senators absent or not voting!) said "It is most difficult for me to conceive how anyone can expect to beat Communist dictatorships by helping them." He reminded the Senate that only a few years ago we sent wheat to Poland, which was distributed without credit to the United States. "What we succeeded in doing in that instance," Sen. Thurmond pointed out, "was to alleviate the economic strain on the Kremlin and the Communist dictatorship in Poland, and to give the false impression to the people of Poland that, after all, Communism does have a heart."

Senator Thurmond also reminded his fellow Senators that we were overly generous in sending scrap metal to Japan prior to World War II, only to get it thrown back at us in explosive form at Pearl Harbor and for several eventful years thereafter.

Appealing to fiscal sanity, Senator Thurmond continued, "If we consider no other arguments against authorizing extension of aid to all Communist countries except the Soviet Union, Red China, North Vietnam, and North Korea, I hope that the Members of this body will at least give consideration to the fact that we cannot afford it from a monetary standpoint. Calm reflection should bring to mind the fact that the present national debt is approximately $290 billion, not to mention the other future obligations and c.o.d.'s of our Government which, together with the national debt, totals $750 billion."

Senator Lausche of Ohio pinpointed that U.S. aid goes to governments, not people - and thereby perpetuates Communist governments in power rather than aiding the people held in subjugation by those governments. "I repectfully submit," stated Sen. Lausche, "that to the extent that we provide financial and economic aid to Communist governments, we are creating confusion in the minds of millions of people who believe in our system of government - the Slavs, the Croatians, the Poles in Poland, the Serbs in Yugoslavia. They are wondering in solitude, 'What does this all mean? Why is the U. S. Government providing financial and economic aid to a Communist government it wants to overthrow?' "

"In my judgment," concluded Sen. Lausche, "whenever we give financial and economic aid, we are helping to perpetuate Communist governments in office."

Senator Butler of Maryland pointed out that if the pending amendment to the Mutual Defense Assistance Act is carried to its logical end, the U.S. Government could extend economic and financial aid to Castro's Communist Cuba. "This bill," he explained, "is aimed

inserted in the record, Sen. Dodd pointed out, "In the past 12 years, we have spent $3-1/2 billion on aid to Poland and Yugoslavia. What benefit has this aid brought to the free world? None. On the contrary, it has only served to strengthen the Communist world."

Right-wing editorials throughout the nation strongly denounced the action of the Senate in passing this amendment which destroys the intent of the Battle Act.

"There ought to be a simple rule: Americans ought not to be taxed to support Communists," stated the CHATTANOOGA NEWS-FREE PRESS in one article. And, in a later editorial, the same newspaper states: "Communism is difficult enough an enemy when we staunchly oppose it. It is far more dangerous when we subsidize it. Let us urge the House of Representatives to defeat this stupid proposal."

THE INDIANAPOLIS STAR urges its readers in the coming months to get themselves interested in all "foreign aid problems." The STAR points out that "final appropriations are not expected to be voted before the middle of the summer. There is plenty of time to impress your Congressmen, of either party, with the urgency of the foreign aid problem, and to make your voice, in favor of common sense, heard both in Congress and the White House." In a second editorial on this subject, THE INDIANAPOLIS STAR asks "Why help the enemy?" and stresses, "This ill-advised and ill-considered proposal should be soundly defeated in the House."

Below is a list of the Senators who, by their YEA votes, declared themselves in favor of shipping arms and strategic materials to Communist bloc nations. (Article 3, Sec. 3, Clause 1 of the U.S. Constitution defines treason as giving "aid and comfort" to enemies of the United States.)

Also listed below are those Senators shown in the official records (CONGRESSIONAL RECORD, p. 7314, May 11, 1961) as "Not Voting," whether for reasons of absence, other official duties, pairing of votes, or otherwise.

Regarding those Senators recorded as "Not Voting" on this crucial issue due, for instance, to "official business," - what can be more important than a Senator's "in person" vote and voice against sending arms and strategic material to Communist bloc nations? There is another aspect of this "absence due to official business" that should not be overlooked. Take, for example, the case of Sen. Dodd, long known as a courageous fighter in the Senate against the appeasement of Communism. At the time of the crucial vote on this bill, Senator Dodd was on official business -- a 2-week tour of trouble spots in the Far East. Although Senator Dodd sent a cable from Quemoy expressing his strong opposition to giving strategic aid to Communist-bloc countries, nevertheless because of his absence, the Senate was denied Senator Dodd's voice of protest in the debate on this bill on the floor of the Senate. Are we witnessing a situation where strong anti-Communist voices in the Senate can be assigned "official business" inspection tours in far away places when crucial votes such as that on S. 1215 are up for discussion and final action?

Is your Senator listed below as one of those who voted to give strategic Foreign Aid to Communist-bloc nations? If so, THE INDEPENDENT AMERICAN does not believe that such a Senator warrants the respect or support of his constituents when he thus votes against the national security of the United States. Such a man should be replaced when he comes up for reelection. The Senators listed below whose names are marked by an asterisk (*) are those who are up for reelection in 1962. If you wish to oppose the actions of your Senator who may have voted for S. 1215, here

American aid to Poland made the Polish contribution to Castro possible."

WHAT COALITION?

By Adras LaBorde

They can talk all they want about the Republican-Southern Democrat coalition; it just doesn't exist.

Take the federal aid-to-education monstrosity, as a recent example. The Senate passed the bill 49 to 34, after making it even broader than the New Frontiersmen had requested.

On final passage almost as many Southern Democrats voted for the bill as did Republicans.

The roll-call record shows five Deep South Democrats voting for the measure, which authorizes $2.5 billion to be spent on just about every phase of school activity; only eight Republicans voted "yes."

If you wish to oppose the actions of your Senator who may have voted for S. 1215, here are two things you can do:

(1) Regardless of when your Senator comes up for reelection, make up petitions protesting his action in voting YEA on S. 1215, and circulate these petitions widely in your area. Collect as many signatures as possible, and mail them to your Senator who voted to give aid and comfort to our enemies; and

(2) If your Senator voted YEA on S. 1215 and comes up for reelection in 1962 (if an asterisk appears by his name in the list below), start making plans now to run a candidate against this Senator when he seeks reelection next year.

The issue is a simple - and most vital - one: Shall the United States help our Communist enemy to destroy us? Or shall we, instead, insist that only those men who will protect our national security shall represent us in Washington?

SEN. HILL A BIG SURPRISE

It was no surprise that border-state and liberal senators like Messrs. Kefauver, Smathers and Yarborough voted for a proposition that all Southerners and most conservatives elsewhere have fought tooth-and-toenail for years.

But when such images of Dixie as Senator Hill and Senator Ervin join the New Frontiersman, you have to admit that it looks bad for our side.

Not only did Messrs. Hill, Ervin and most of the other defectors vote for the bill on final passage, they voted against amendments which would have made it ever so slightly more palatable — including one which would have reduced the total authorization to the amount requested by the Kennedy administration.

Perhaps most surprising was the "no" vote of these Southerners on a motion to table an amendment that would have barred the withholding of funds from any state education agency "which has complied with the provisions of this act" — meaning school systems which refuse to integrate.

EVEN G.O.P. LIBERALS VOTED 'NO'

The eight Republicans who voted for the aid-to-education bill were Senators Bartlett of Alaska, Kuchel of California, Fong of Hawaii, Javits of New York, Aiken of Vermont, and Wiley of Wisconsin. Senators Gruening of Alaska and Carlson of Kansas were paired for the measure.

Most of these will be recognized as names prominent in the liberal wing of the G.O.P. But even some Republican liberals voted "no," apparently more because of distaste for the bill than because of the partisan line-up.

Among the left-of-center Republicans who voted "no" were Senators Keating of New York and Young of North Dakota.

When Republicans of that hue go against a proposition near and dear to the hearts of the liberals, the enigma of once solidly conservative Southerners voting the other way assumes stupendous magnitude.

FRIED SNOWBALLS . . . from Pg. 1

the public becomes more brainwashed, the sovereignty of the U.S. and of the people thereof becomes old-fashioned--and what used to be treason is being exactly reversed.

SECOND PLACE IS SLAVERY

We take our sports more seriously than our government. A football coach wins or else. But a Secretary of State can lose every game. And lots of times it's hard to tell which side he's on. Sometimes it's merely because some of his key players are "shaving points," deliberately throwing the game to the opponent. The Secretary doesn't lose his job. Neither do the players nor the CIA coaches. Those who threw Cuba are still in there throwing.

The enemy plays chess while we play poker. Their moves are coldly calculated far ahead. We lose pot after pot because our cards are marked and the deck is stacked. But we stay in the game hoping for a lucky draw.

Take Heart From Woodland

WOODLAND took action to rid itself of a charlatan this week.

Born of a union of the federal and municipal governments, with the state acting as a cynical midwife, the imposter's name was Urban Renewal.

Short though his career was, it took $50,000 in public funds to keep him alive. Even so, the expense was nothing compared to what it could have been if the parasite had survived to maturity.

Demise of the city's Redevelopment Agency follows by little more than a year the similar fate of a Yolo County program by the same name. In the latter instance, $30,000 went down the drain. But again it was cheap and good riddance considering the potential cost in not only funds—that really is the least of it—but in the loss of rights of property owners and the example it would have set for future similar programs.

* * *

OPPONENTS OF THE PLAN who brought about the promise of its cancellation by the city authorities this week, summed up their opposition in two words: It's socialistic.

Some of the city authorities blamed failure of the program on the master planner. He was, undoubtedly, from one of the big cities, where people have become accustomed to being told what to do, and so he set about laying down the law for Woodland.

Except in Woodland enough people still cling to traditional American concepts that they won't be shoved around without a fight.

"I believe (the master planner) was responsible for 80 per cent of the redevelopment failure," said one of the city councilmen.

Professional planners are high-priced talent. It is a strange notion, indeed, that local people can't make decisions about such things as where the city ought to plant trees and what kind.

* * *

PRETTY SOON—unless there a more action such as in Woodland and Yolo County — people will have become so accustomed to looking to their government to provide for them the things that they ought to be providing for themselves that they will have brought complete regimentation into their lives.

If that happens, they'll begin to kick about their loss of independence, but it will be too late. They'll begin to complain about loss of freedom, and they'll declare, once again, "It's a free country," but it won't be.

It'll be a socialistic country, with the government officials making the decisions, because private citizens will have surrendered their rights to the central authority.

Marysville is just before setting sail under the Urban Renewal flag. Is it too much to hope that the city authorities will cancel the trip before they do their bit to destroy another of our vanishing American traditions?

crease its military strength. Obviously, it is not in the interest of the United States to do ANYTHING that will help the Red Chinese acquire additional knowledge of nuclear science.

Antyhing that can be done to weaken Red China is in the U.S. interest. Anything that imposes stress or strain on Red China is helpful to the cause of peace.

Joseph Alsop, syndicated writer, recently reported from Asia that Red China is encountering serious internal difficulties. If the Chinese people are to be freed from communist slavery, the United States must help weaken the communist masters of that anthill state.

It is interesting that the chairman of the American delegation to COSWA is Dr. Harrison Brown, a professor at the California Institute of Technology.

Dr. Brown is the co-author of a Fund For The Republic study, issued last year, entitled "Community Of Fear." In this study he said that the "possibility of a coup by the United States military is real." He also criticized the U.S. armed forces for "a position of perpetual hostility toward the Soviet Union." Evidently, Dr. Brown does not share this hostility to the stronghold of communism.

In brief, Dr. Brown, who is hoping to bring Communist Chinese scientists to Colorado, is a cold war defeatist. His support for the Aspen conference should be clear warning to the President and to Congress that the proposed parley in Colorado would be a gathering of forces hurtful to the country.

POOR RICHARD'S BOOK SHOP

"What can I do?" is the question that is so often asked by patriotic Americans who wish to fight back against Socialism and Communist infiltration.

Mr. F. X. Ranuzzi of Los Angeles is one American who solved this problem. Mr. Ranuzzi asked himself what Ben Franklin would do if he were alive today - and figured that Ben Franklin would open a bookstore, just as he did in Philadelphia before the American Revolution.

Mr. Ranuzzi has an insurance agency in Los Angeles, California, which has a large waiting room. This he converted into "Poor Richard's Book Shop." He decorated his waiting room with carriage lanterns on the walls, and a whaler's lamp on an old Captain's table that came off a ship which was later sunk around the turn of the century. This is set under a balcony with stairs winding up to the reading room on the second floor.

"Poor Richard's Book Shop" today is doing a "land office business" in patriotic and pro-American literature of every sort. With rapid growth, Mr. Ranuzzi has found it necessary to put every cent back into stock, and, in effect, to subsidize the store through his other businesses. He writes: "I believe Americans can find more information and knowledge at Poor Richard's than in one hundred issues of the big metropolitan newspapers, or in a thousand bookstores and libraries across the land. We are shipping out large quantities of books - almost a ton a month according to our mail bill - to all parts of the U.S."

In California and Arizona, delivery by fast messenger service is available for 14¢. All postal charges are paid by Poor Richard's.

"To my knowledge," says Mr. Ranuzzi, "this is the only store of its kind in the United States, and the first since the end of World War I when Americanist bookstores disappeared from Main Street, U.S.A."

THE INDEPENDENT AMERICAN recommends to its subscribers that they contact "Poor Richard's Book Shop" in person or by mail to supply their needs for pro-American books, pamphlets, and periodicals. Poor Richard's Book Shop is located at 5403 Hollywood Blvd., Los Angeles 27, California. F. X. Ranuzzi, proprietor. Telephone: HOllywood 2-3696.

Beware of This Group !

In addition to the widely-publicized "Freedom Riders," the South in the last few weeks has attracted a strange collection of other "odd-ball" visitors - a "Hate Bus," and a pseudo-political party.

George Lincoln Rockwell and his miserable band of comic-opera Nazis, drove across the South and headed for New Orleans. As soon as they reached the city limits of New Orleans, police were on hand to order them to cover up the riot-inciting signs plastered on their "Hate Bus." They were later arrested and jailed for activity which would tend to incite rioting and alarm the public.

Rockwell, self-proclaimed "feuhrer" of the American Nazi Party, went on a hunger strike for a few days, and then obtained bail, leaving his followers in the pokey. A day or so later, reports circulated that Rockwell had attended a secret meeting of the National States Rights Party.

THE INDEPENDENT AMERICAN hereby warns all of its readers of this so-called National States Rights Party. The NSRP, in claiming the amount of votes it polled in the November, 1960, elections, "pirated" the votes cast for the States Rights Party of Louisiana, a legitimate party. On May 25, 1961, David C. Treen, Chairman of the State Central Committee of the States Rights Party of Louisiana, in a news story printed in the NEW ORLEANS TIMES-PICAYUNE, blasted the National States Rights Party for unauthorized use of the name "States Rights," and threatened "all necessary legal action" to prohibit unauthorized use of the name.

What then is the National States Rights Party? Perhaps the National States Rights Party can best be judged by its publication THE THUNDERBOLT, which it terms "the official white racial organ of the National States Rights Party." Its emblem is a four-jointed flash of lightning in a circle, vaguely reminiscent of the Nazi swastika. The pages of its publication, THE THUNDERBOLT, are filled with violent diatribes promoting racial and religious biogotry.

In February, 1960, THE THUNDERBOLD published a vicious article attacking J. Edgar Hoover, Director of the Federal Bureau of Investigation. It is indeed interesting to note that the main opposition to J. Edgar Hoover comes from official publications of the Communist Party, U.S.A., and its fellow travelers and dupes. Therefore, the National States Rights Party, which attempts to create the impression that it is a patriotic organization, thus, by its attack on J. Edgar Hoover, finds itself on the same side as the Communists.

It is indeed a pity that the Constitutional time-hallowed phrase "States Rights" should be besmirched by an organization which traffics in racial and religious biogotry, contrary to every precept of the U.S. Constitution.

The politicians have tried to sell Americans on the idea that Social Security is "insurance." But members of the Amish sect in Pennsylvania don't believe in insurance; it's against their religion. So when the Internal Revenue Service swooped down on Amish farmer Valentine Y. Byler to try to force from him $308.96 as his self-employed Social Security payment, the truth came out that Social Security is not really insurance at all but a tax.

But Mr. Byler and 129 other Amish brethren believed the claims that Social Security is insurance. When Mr. Byler wouldn't pay, the Internal Revenue Service didn't take something the farmer could do without. It seized and sold his horses to collect the $308.96, plus $113.15 more for auction expenses and horse feed.

It seems the seizure of the horses was not only to collect the tax but a punitive move to put Mr. Byler out of business by taking something essential to his farming.

Now the Internal Revenue Service has admitted to "considerable embarrassment" by its actions in selling Mr. Byler's horses. It ought to be embarrassed.

Here is a case of a man being denied the means of supporting his family because he didn't want any part of asking the Federal Government to support him.

And now to the good news about THE INDEPENDENT AMERICAN FORUM and the NEW PARTY RALLY which will take place next weekend, October 23rd and 24th at the Morrison Hotel in Chicago.

This two day affair is open to the public, and if you are interested in lower taxes, if you are interested in how the personal income tax can be repealed, then you will want to attend this important meeting to get the full story. On Friday morning, October 23rd, the convention will open with a meeting of the National Committee for Economic Freedom. This is the national organization which is working to abolish the 16th Amendment, which would have the effect of making it impossible for the Federal Government to collect personal income taxes from you.

The Convention Chairman is FRANK FLICK, an Illinois Manufacturer. The Convention Vice Chairman is A. G. HEINSOHN, a textile manufacturer from Tennessee.

There will be four panel discussions on how taxes and government regulations are taking personal freedom away from the American people. Under the tile of SET THE FARMER FREE, you can hear TOM ANDERSON, publisher of Farm and Ranch magazine, and DAN HANSON, a cattle racher from Wyoming.

Another panel is Better Health Through The Private Practice Of Medicine, featuring DR. ERNEST ANTHONY JR. of Houston, Texas. Discussing how the repeal of the 16th Amendment will free American Industry from Government Competition will be J. W. CLISE, of Washington State, and GEORGE B. FOWLER of Massachusetts.

On the subject of needed fiscal reform in our government, we will hear PHILLIP MCKENNA, a manufacturer of Pennsylvania and ROBERT E. NESMITH, a general contractor from Houston, Texas.

After these panel discussions, all panel members will meet at a luncheon on Friday and will come up with proposed plans of action for the repeal of the 16th Amendment by political action at the State Level.

You are welcome to attend these sessions and the luncheon. The registration fee is only three dollars for the entire two day session. The luncheon will cost five dollars.

During the afternoon of October 23rd, there will be an important discussion of the RIGHT TO WORK BILL featuring two representatives from Labor and two spokesmen from Management.

A big Banquet will end the days activities.

Under the sponsorship of THE INDEPENDENT AMERICAN newspaper, three outstanding speakers will be presented. First, we will hear from ROBERT WELCH, publisher of AMERICAN OPINION magazine. Robert Welch, is a former vice president of the National Association of Manufacturers, and is Chairman of the Committee Against Summit Entanglements, which recently sponsored a full page advertisement objecting to the visit by Khrushchev.

ROBERT WELCH will suggest a plan under the title "A Counterattack Against Collectivism."

The Master of Ceremonies at this banquet will be that noted American humorist, the Mississippi publisher, CLAYTON RAND.

The second notable speaker of the evening will be WILLIAM F. BUCKLEY, JR., Editor of

(Please see other side.....)

NATIONAL REVIEW MAGAZINE. Buckley is well known as an author and is one of America's most brilliant orators and debators. He first wrote GOD AND MAN AT YALE and later with Brent Bozell, wrote MCCARTHY AND HIS ENEMIES. His talk at the INDEPENDENT AMERICAN FORUM will be the same as the tile of his recent book, UP FROM LIBERALISM.

You are invited to attend this banquet at the Morrison Hotel on Friday October 23rd. The price is just seven dollars.

Saturday, October 24th, will be New Party Day at the Morrison Hotel. All speakers participating have come to the conclusion that a new political party is the only answer for the crisis facing America today!

At 9 A.M., we start off with a panel of Independent Farmers. At Ten A.M., we will present Dr. Revilo P. Oliver who will tell us how both political parties have failed to do anything about the menace of Communisn either at home or abroad. At 11 A.M., we will hear BRYTON BARRON, formerly with the State Department tell how Communist influences are still exisitng in the State Department and how these influences affect the Foreign Policy as practiced by the President of the United States.

At a Noon Luncheon, TOM ANDERSON, publisher of FARM AND RANCH, will report to us on his recent trip behind the Iron Curtain where he observed farm practices on a special trip with Secretary of Agriculture Benson. During the Afternoon, there will be an important panel discussion of political moves that will be necessary if the New Party is to be a success. Co-Chairman of this meeting will be DAVID MOLTHROP, Executive Secretary of THE COMMITTEE ON STATE SOVEREIGNTY, and MEDFORD EVANS, former editor of FACTS FORUM MAGAZINE and presently secretary of the States Rights Party of Louisiana. At 7 P.M. THE INDEPENDENT AMERICAN newspaper, which brings you this radio program will sponsor THE NEW PARTY RALLY which will feature as speakers THE HON. J. BRACKEN LEE, former governor of Utah and DAN SMOOT, noted editor and newscaster of Dallas, Texas.

At the end of the Rally, I will present a call for action for the establishment of a New Political Party in the United States, to restore the two party system. You are invited to attend this gigantic Rally. There will be no charge. The meeting is free and open to the public. It will be in the Constitution Room of the Morrison Hotel. Thats the New Party Rally, 7 P.M. Saturday Night, October 24th in Chicago at the Morrison Hotel.

Now Ladies and Gentlemen, you have heard the full program as we will present it at the Morrison Hotel, in Chicago.

If you plan to attend any of these functions, please write a postcard or letter to THE INDEPENDENT AMERICAN FORUM in care of the Morrison Hotel in Chicago. We will be at the Morrison. Mail us your reservations to the Morrison Hotel. Let us know if you are going to attend the sessions Friday and Saturday. Let us know if you plan to attend the Rally which will be free and open to the Public.

If you plan to attend the session on both days, there will be a registration fee of only three dollars. Luncheons will be five dollars and the banquet on Friday night will be seven dollars. Send your reservations to THE INDEPENDENT AMERICAN FORUM in care of THE MORRISON HOTEL, CHICAGO, ILLINOIS.

If you are not able to attend this important convention of Conservatives, you will want to read all about it in the next issue of THE INDEPENDENT AMERICAN Newspaper which brings you this program. For details how you can subscribe, here is your announcer.

"EXPOSING KHRUSHCHEV LIES"

"INTERVIEW WITH HONORABLE J. BRACKEN LEE"

Good Evening Fellow Americans. I wonder if you are as disgusted as I am at the way the nation's left-wing press fawned over Khrushchev on his recent visit to the U. S. These appeasers gave done their best to humanize Khrushchev; they refer to him as "Nikita", which almost sounds like a name of endearment. This man - Khrushchev - has been permitted to shake hands with America's innocent children and pat them on the head.

In all this build-up for Khrushchev, however, the left-wing press has been extra careful not to give literal translations of what he actually said in public statements. Khrushchev's official translator was hard put at times to translate Khrushchev's vulgar, disgusting and insulting words into high-flown sentences for the American public. As a result all we have heard over and over again are the words "Peace" and "Friendship".

Khrushchev has recently written a series of articles in which he listed "Five Principles" which he said are the "only possible foundation for relations between states with different social systems". Here is what Khrushchev listed.

Point ONE:"Mutual respect for territorial integrity and sovereignty."

(Khrushchev's so-called respect for the territorial integrity and sovereignty of other nations obviously does not apply to Bulgaria, Rumania, Latvia, Lithuania, Estonia and Czechoslovakia because he holds all of these once-free nations in captive slave status.)

Point TWO of Khrushchev's so-called "Five Principles" is "Non-aggression". (His concern for "non-aggression" is clearly shown in his brutal and murderous aggression against Hungary.)

Point THREE of this mass murder's "Principles" is "Non-interference in one another's internal affairs for economic, political or ideological reasons." (Why, then is Communist subversion and espionage increasing so rapidly in the United States?)

Point FOUR Khrushchev lists as "Equality and mutual benefit". (His concept of "mutual benefit" is exposed by his violations of all the foregoing principles.)

Point FIVE is Khrushchev's last principle and it is of course, "Peaceful co-existence". (His real meaning in calling for "Peaceful co-existence"is a demand for acquiescence and surrender to his aggressions.)

(Please see Page 2.....)

Possibly the best example of the REAL Khrushchev is a statement he made immediately upon return to Moscow from the United States. Indicating that he was well aware of the revulsion felt by liberty-loving American toward him and his ruthless regime, as demonstrated by various patriotic groups in this country, Khrushchev stated in Moscow: "There are forces in the United States who are working against us. These forces should be exposed and publicly whipped."

There you have it, fellow Americans! THAT is the real Khrushchev. This snaggle-toothed, pig-necked Butcher of Budapest would publicly whip all those Americans who protested his visit.

This murderous despot of the Kremlin would publicly whip such church leaders as Cardinal Cushing, Rev. Carl McIntire, Rev. Billy James Hargis. This bloody-handed Communist would publicly whip such courageous Americans as Senator Thomas Dodd of Connecticut, Senator Style Bridges of New Hampshire and other fearless members of the Congress who deplored the invitation to Khrushchev and exposed in speeches in the Senate the gory details of his dastardly past.

This is the <u>real</u> Khrushchev - the man whom President Eisenhower royally entertained in the White House and the man he will journey to Moscow to visit next Spring.

And now we wish to present J. Bracken Lee who I interviewed a few weeks ago out in Salt Lake City.

COURTNEY: Governor, in talking about all these issues today, you have mentioned that both Democrats and Republicans have gotten together both the White House and the bureaucrats, White House and the Congress, have gotten together to give us more socialism. Would you say that there is beginning to be no difference between these parties?

LEE: Beginning to be -- I don't think there is one particle of difference. Now we have some groups that like Kennedy as a candidate, for President on the Democratic ticket. You have some for Symington, you have some for Humphrey, you have some for a number of others, even Stevenson, and then we have Mr. Rockefeller who is the possible candidate for the Republican ticket. We have Vice President Nixon, and I say to the American people, look at the record of all of these men. Where is the difference in any of them? They're all supporting exactly the same thing. They want more give-away programs all over the world - every one of these men that I've mentioned are for it. They want higher taxes upon the American people, they apparently want more deficit financing, and that is the record of these people. They want cheaper dollars depreciated currency which costs all of the hard working American people money. Just look at the record. Now its true that they may differ a little bit on little things that don't matter to the American people, but fundamentally they all stand for exactly the same thing. So where is the difference between the two parties if you nominate any one of these prospective candidates.

COURTNEY: Now Governor Lee, with regard to that, there's another matter that is especially of interest to people in the Southern part of the United States, and this is the local control of schools. What was your reaction when Eisenhower sent troops into Little Rock to enforce a court order?

LEE: Well my reaction to that was and perhaps I might quote that I talked to ex-President Hoover a few days after that, and he said to me, that this is a terrible thing to send Federal Troops into a State. He said that's the last resort, and he explained that to do it the U. S. Marshall down there should have deputized citizens and handled the situation. But of course having served as Governor and knowing a little bit about calling out troops, I was confronted with it. Here is the natural procedure and the legal pro-

(Please see Page 3)

cedure. I had no right as a Governor of this State to send troops into any community or any County, and this is true of every State in the Union, until the local officials called upon me and stated that his program or that it was out of hand and they needed assistance. Then and only then did I have the legal and constitutional right to send troops in. And I didn't do that. I called upon my highway patrol, expert policemen, to go in and do the job, because when you send troops in you're sending in inexperienced people. Young boys who do not understand police work, and they get mad and they want to show a little authority. Trained policemen do not do this. You had an example down there of an American soldier hitting a civilian over the head with a gun, running him up on his own porch and hitting him,a terrible thing to do, but I am sure the administration in Washington realizes they made a terrible mistake. Maybe its a good lesson for the future.

COURTNEY: Well then Governor, getting back to the issue of forced integration of races in schools in the various States,what is your position on the subject of States Rights generally?

LEE: My position upon the subject of States Rights is that our school systems should be run by the local people. Now that doesn't mean that I do not believe in equal rights for people, because I do believe - I believe that all groups should have equal rights but nevertheless I do not think that its the business of the people of Utah to interfere with how the schools are run in the State of Colorado or the State of Mississippi or your State. I think that's the business of the people, and I am a firm believer that the closer you keep government to home the better off it is, and I've had a good illustration in this State where I have been on the program trying to tell about things that are going wrong in the Federal Government. And then the latter part of my program I will enter into a discussion on local affairs. I find a great response to the fact that I'm talking about local affairs and people say why do you talk about affairs in Washington, we don't understand that. Its a good indication people understand local problems, but they do not understand Washington. And those who want to take this government away from the people know that, and that's why they want everything run in Washington. And when its run there, then you're going to have a government like you have in Russia.

COURTNEY: Governor Lee, we wish to thank you very much for these remarks on the issues of the day because one more item do you think the Conservatives in this country, that is the vast majority of the people who voted for the Conservative program of the Republican party back in 1952, do you think they're going to have an opportunity to vote for a Conservative program in the forthcoming elections of 1960.

LEE: At the present time I would say no. I think that we're going to be faced with perhaps the same thing we were faced with last time. Mr. Eisenhower and Mr. Stevenson both apparently feel exactly the same on government, that is on major issues. On a few minor things that doesn't make much difference perhaps they differ. But on major issues, yes they agree. And I think that's going to occur in this next election unless a sufficient number of the American people awaken and serve notice that they want the opportunity to vote for something different - that is the only hope.

COURTNEY: Now in pursuing that hope that people can vote for something different there's been a good deal of talk about Mr. Butler of the Democrat party throwing out the Southerners who may not want to go along with the Democrat nominee, and then there's been some talk, been in the presses, a good number of years now, about perhaps there's a need for a new Conservative party. What's your attitude generally about the need for a new party to represent the majority of Conservative Americans.

LEE: Well maybe I should say that there is a great need for a second political party in the United States because I do not believe we have a two party system today. I

(Please see Page 4.....)

think that the leadership of both parties are under the control of the so-called internationalists who do not believe in our constitutional form of government but who do believe in a so-called all powerful central government which is contrary to the things that I and Conservatives believe in. So I'd say I think we need a new second party. We need some opposition to this two-gang one-party system that you have in America today.

COURTNEY: In other words you've got one party but two heads.

LEE: I want the opportunity myself to vote for/against this giving away the resources of the American people and the building up of a bureaucratic government in Washington where a lot of people are living in luxury off the earning of the working class of people in this nation.

COURTNEY: Well then you believe along with Senator Goldwater who has been a previous guest on this program, that he says he doesn't care what the second party is called, just so that all Conservatives are in the same party. Do you agree with that?

LEE: Well, I agree with any group who believe in freedom of the individual which is guaranteed to us under the Constitution of the United States, and I would not attempt to tell the American people or anyone else that it is any paradise, because government is no better than people, and people are all weak, all of us have our weaknesses. Government is going to have weaknesses. But by and large if you compare the assets of our constitutional form of government with the best that can be offered under any other system of Government known to man and you compare the weaknesses of our form of government with the weaknesses of any other, any sane intelligent person is going to say there is no doubt but what our constitutional form of government is not only the best but the most progressive form of government known to man.

COURTNEY: Thank you very much J. Bracken Lee, former Governor of Utah. We are very happy to have had you as a guest on The Radio Edition of THE INDEPENDENT AMERICAN, and we are looking forward to seeing you when you speak before the New Party Rally in Chicago on Saturday, October 24th.

LEE: And thank you Kent. This has been a real privilege, and I am looking forward to our meeting in Chicago.

And now we want to give you more news about the New Party Rally which was mentioned in our interview with Honorable J. Bracken Lee.

The INDEPENDENT AMERICAN newspaper, which brings you this program each week, is sponsoring a New Party Rally in Chicago. The meeting will last two days --Friday, October 23 and Saturday, October 24 -- and will be held at the Hotel Morrison.

Some of the greatest Conservative leaders and speakers in America will address the gathering. Friday evening, the Independent American Forum will present William F. Buckley, Jr., editor of National Review and Robert Welch, the prominent New England manufacturer and publisher of American Opinion. Other speakers Friday will appear through the auspices of the National Right to Work Committee and the Committee for Economic Freedom. Both organizations are cooperating with the Independent American Forum.

Saturday, October 25 will be New Party Day. During the morning and afternoon outstanding conservative leaders will address seminars as to how to form a new political party. Two of these speakers will be Prof. Revilo Oliver of the University of Illinois and Tom Anderson, publisher of FARM AND RANCH magazine.

A Mammoth New Party Rally Saturday Night will feature J. Bracken Lee, the former Governor

(Please see Page 5....)

of Utah and publisher of the AMERICAN STATESMAN. Dan Smoot, the former FBI Administrative Assistant to J. Edgar Hoover and now a noted TV news analyst and publisher, will also address the New Party Rally.

So make your plans now to attend this important meeting. The dates once again are Friday and Saturday, October 23 and 24 and the place is the Hotel Morrison in Chicago. If you wish further details on the Rally, just drop a postcard to THE INDEPENDENT AMERICAN, P.O. Box 4223, New Orleans 18, Louisiana

"COME TO THE NEW PARTY RALLY"

THE INCOME TAX CAN BE REPEALED. I'll repeat that, THE INCOME TAX CAN BE REPEALED. Are you interested in attending a convention where the details of how the income tax can be repealed will be thoroughly discussed?

Get a pencil and paper handy so that you can take down the address where you can get full information about what you can do to help repeal the personal income tax that is such a burden on us all.

I'll have more details about how the income tax can be repealed after this message from your announcer.

Good Evening Fellow Americans. Tonight on the Radio Edition of the Independent American we are going to talk about some of the major issues which face the American public. These include the income tax which is not necessary...government competition with private enterprise which is increasing...the extent of communist subversion in our government. In discussion of all of these subjects we will try to suggest what you as a loyal American citizen and voter can do to bring about the needed changes in the way our government is handling these issues.

We also wish to invite you to attend a two day seminar which will take place at the Morrison Hotel in Chicago on October 23rd and 24th.

First let us talk about Friday, October 23rd. The Big event will be the banquet which will feature two of America's outstanding publishers. Robert Welch, the first speaker has for the past several years devoted all of his time and energy to making speeches trying to awaken the American people to the danger of Communism both throughout the world and in the United States.

His topic will be a suggestion as to a solution which we can all join in. His talk will be entitled A COUNTERATTACK AGAINST COLLECTIVISM.

Robert Welch publishes the challenging and informative magazine AMERICAN OPINION. It was this magazine which first carried the articles which exposed Castro of Cuba as a Communist and named the members of the Communist Party who had trained the Revolutionary army of Castro. Of course, we carried this news about the Communists behind Castro on the air all during the first six months of this year, and much of our material came from Robert Welch's magazine AMERICAN OPINION.

We invite you to attend the banquet sponsored by the INDEPENDENT AMERICAN FORUM which will

feature this speech by Robert Welch. The next speaker at the banquet on Friday night, October 23rd will be the great debater, publisher, and author, WILLIAM F. BUCKLEY, JR. Shortly after graduating from Yale University, Bill Buckley wrote a scathing and scholarly analysis of what is happening to American education at the college level. The title of his book was GOD AND MAN AT YALE.

Subsequently, with the famous author and lecturer BRENT BOZELL, he wrote a book entitled McCarthy and His Enemies which analyzes who was behind the persecution of Senator Joe McCarthy.

In 1955, Bill Buckley started the NATIONAL REVIEW which today has some 25,000 circulation, and which Ladies and Gentlemen, is one of the most stimulating magazines of Conservative viewpoint in the entire United States. At the banquet on Friday, Bill Buckley will analyse what is wrong with the position of those who today call themselves Liberals. The title of the talk is the same as his new book just off the presses, UP FROM LIBERALISM.

If you want to meet and hear one of the most influential young men in America today, you will want to attend the banquet of THE INDEPENDENT AMERICAN FORUM on Friday night October 23rd at the Morrison Hotel in Chicago.

LOS ANGELES, CALIFORNIA: It has now been revealed by Victor M. Carter, President of Republic Studios, that Khrushchev bragged to Carter during his recent visit in Los Angeles, that the Soviets know our codes. Here is what Khrushchev said to Victor Carter, "You are wasting your money on the Central Intelligence Agency, you might as well send us your secret information direct instead of through a middleman, because we get most of it anyway." Then Khrushchev went on to say, "Your agents give us the code books and then we send false information back to you in your own code. Then we send cables asking for money and you send it."

Of course, those who have studied the Communist conspiracy are not amazed or shocked at this information, although it is a little startling to have the head of the Soviet Government and the head of the Communist International Conspiracy tell us that he has agents in our government handing over our secret codes.

In connection with Communists in our State Department, we are going to have an outstanding speaker at the INDEPENDENT AMERICAN FORUM on Saturday, October 24th at the Morrison Hotel in Chicago. He will speak out on the subject of Communist influence inside our State Department. His name is Bryton Barron who was forced into early retirement from his post by chief historian with the State Department because it was he who pushed for the publication of all the facts having to do with treachery inside our State Department. It was he who wanted to tell the whole sordid tale of capitulation to the Russians during and after the war. Bryton Barron claims that the State Department is re-writing history, omitting large segments of the story of how Communist influences over President Roosevelt and Truman made it possible for the Russians to take over most of the countries of Eastern Europe.

To get the real facts about what is going on inside the State Department, come and attend the Independent American Forum proceedings on Saturday, October 24th at the Morrison Hotel.

WASHINGTON, D.C.: Did you know that your tax dollars are being used by the U.S. Department of Commerce to send a five man trade mission to Yugoslavia for five weeks? The purpose of this visit to Communist Yugoslavia is to help the Yugoslavs sell their goods to the United States market and thereby get more U.S. dollars which the Communists can then use to pay for the subversion, and spying activities of the Yugoslav Embassy here in the United States. Is that the way you want your tax dollars used?

ANDERSON, SOUTH CAROLINA: THE ANDERSON FREE PRESS in South Carolina in an editorial warns of the foolish actions on your government in creating situations that are exporting American jobs to foreign countries and importing un-employment here at home. Here is how this fiscal insanity is described in this South Carolina newspaper:

"It may help if we give just one specific example to show the fallacy, the failure and the injustice of the program--(1) The government in Washington, through its confiscatory income tax seizes about one-third of the earnings of the American people. (2) The government in Washington uses this money to acquire most of the American cotton crop. (3) The government in Washington then sells this cotton to foreigners at several cents per pound less than American manufacturers can buy it back from their own government. (4) The government in Washington then permits foreign mills, paying but a fraction of American wages, to sell their products here at prices below the American cost of production. This unfair competition causes American mills to run short time or to close down.

How does it help American factory employees to be put out of work?

How does this transfer of jobs and payrolls to foreign lands help the storekeepers of America?

Then on top of all this, you have given the State Department bureaucrats the power to use our tax money to build new factories in "under-developed" lands to compete with us even further."

The editorial continues, "Since the end of the war, 72 billion tax dollars have been given away in all parts of the globe by an army of bureaucrats now numbering over 12,000.

From foreign-owned factories built with our gift dollars now come a flood of manufactured articles that displace our goods, not only abroad, but here at home. For the first time since 1865, England sells us more than she buys from us. Day by day this displacement of our goods threatens American jobs and payrolls with contraction or extinction in the following industries, besides textiles:

Iron and steel mill products, Copper, Lumber and lumber manufacturers, Pulp and paper products, Fertilizer, Machinery and equipment, Cement and other non-metallic minerals, Engines and parts, Non-ferrous metals and products, Motor vehicles, Freight cars."

Ladies and Gentlemen, to preserve American jobs and the free enterprise system, we must take the necessary political action to get rid of the bureaucrats within our government who seem intent on helping foreign countries to the detriment of our own people.

To learn what you can do to help restore the free enterprise system in the United States, we invite you to attend the INDEPENDENT AMERICAN FORUM to be held Friday and Saturday, October 23-24 at the Morrison Hotel in Chicago, Illinois.

On Friday morning, you will be welcome to attend the sessions of THE NATIONAL COMMITTEE FOR ECONOMIC FREEDOM which is working out a program of political activity to repeal the personal income tax.

Yes, the income tax can be repealed. We will be glad to send you complete details. Just drop us a post card or letter to THE INDEPENDENT AMERICAN BOX 4 2 2 3, New Orleans, Louisiana and we will send you the whole story of how and why the personal income tax can be repealed. The main reason why the income tax can be repealed is that the government is losing more money each year on wasteful government spending than is now being collected in personal income taxes.

Did you know that the government owns and operates some 700 government corporations in competition with private business? These government owned corporations lose more money

(Please see Page 4....)

both directly and indirectly than is collected through the personal income tax.

Now if you want the full story of how the personal income tax can be repealed, send your name and address on a postcard to THE INDEPENDENT AMERICAN, Post Office Box 4 2 2 3, thats Box four two two three, New Orleans, Louisiana. Just ask for the Repeal Income Tax folder and full details will be sent to you by return mail.

On Friday, October 23rd from 9 AM until 2PM you can attend the INDEPENDENT AMERICAN FORUM and learn first hand all about the nation wide fight that is now going on to repeal the personal income tax.

Just think of that increase in pay...at least a 20% increase in your take home pay, and no more need to fill out government reports telling them how much you earn and how you spend your own money. Just think of the freedom that would return to everyone with the repeal of the personal income tax.

If you wish to attend these sessions at which the repeal of the income tax will be discussed, just send us a post card or letter asking for full information about the INDEPENDENT AMERICAN FORUM. Send your inquiries to THE INDEPENDENT AMERICAN. Post Office Box 4 2 2 3, New Orleans, Louisiana.

WASHINGTON, D. C.: Senator Mike Monroney of Oklahoma in a Senate Speech recently reported the fact that the Military Air Transport Service now operates the biggest airline in the world, in direct competition with private airlines.

Over 89% of military cargo and military passengers services operated by the Military Air Transport Service are operated in areas which could be better and cheaper served by commercial airlines operating over those same routes. Not only is this bad because it is government operating a business in competition with private enterprise, but also in case of emergency should the military planes all be needed to transport troops and supplies to some far corner of the earth, where fighting was going on, then all of the military passengers and cargo would be dumped on the commercial airline services thus causing a serious transportation bottle-neck at home during a national emergency.

This operation of M.A.T.S. is only one of more than 700 government operated corporations that could be eliminated and the services turned over to private business. You will hear of this and other similar situations when you attend the INDEPENDENT AMERICAN FORUM, at the Hotel Morrison in Chicago, on October 23 and 24th.

Write today for full details of this two day meeting. Write to THE INDEPENDENT AMERICAN, Post Office Box 4 2 2 3, thats Box four two two three, New Orleans, Louisiana

One of the big events at this two day meeting in Chicago will be a New Party Rally on Saturday night in the Constitution Room of the Hotel Morrison. This New Party Rally will feature two nationally known speakers. The first will be DAN SMOOT, noted television news analyst who reaches a million listeners a week with his conservative interpretation of the important political issues of the day. Dan Smoot will talk on the subject AMERICA NEEDS A NEW PARTY.

The second speaker at the New Party Rally will be the nationally known conservative leader THE HONORABLE J. BRACKEN LEE, former Governor of Utah. At this meeting, J. Bracken Lee, who is national chairman of FOR AMERICA, will issue a CHALLENGE TO PATRIOTS!

Please make your plans now to attend this NEW PARTY RALLY...The Date is Saturday Night, October 24th at the Morrison Hotel in Chicago.

Please drop me a post card to tell me that you are coming and I will send you complete

details on the entire program being planned for this two day meeting of Americans who want to see the income tax repealed and who are interested in the movement to start a new national political party that will represent Conservatives.

We who are behind this new party movement believe that there is no difference between the new deal socialism as being offered by the Democratic Party and the International Spendcrazy plans and policies of the Republican party.

As Bracken Lee said on this program last week, the Eastern Internationalists control the nominating machinery of both the Democratic and Republican Parties, and the people are tired of going to the voting booth and voting for the lesser of two evil men.

Now if you are interested in attending this two day session of meetings, this convention, just drop a Post Card or letter to THE INDEPENDENT AMERICAN, Post Office Box 4 2 2 3, thats box four two two three, New Orleans, Louisiana. Full details about the Independent American Forum and Rally will be sent to you right away.

Now this is Kent Courtney, the publisher of the INDEPENDENT AMERICAN asking you to invite your friends to listen next week at this same time over this same radio station when we will present the news from the conservative viewpoint over THE RADIO EDITION OF THE INDEPENDENT AMERICAN.

A tape recording of this broadcast is available on loan, free of charge, to subscribers of THE INDEPENDENT AMERICAN Newspaper.

If you believe that these programs should be heard in your area on a regular basis - please contact Kent Courtney and complete details as to local sponsorship by an "INDEPENDENT AMERICANS" Committee will be sent to you by return mail.

How To Insure States Rights

(Reprinted from Montgomery ALABAMA JOURNAL)

IN THE JANUARY number of The Alabama Lawyer, Mr. Gessner T. McCorvey of Mobile takes issue with those who think the South is politically helpless in the 1960 presidential campaign. Mr. McCorvey doesn't regard the approaching national convention as the place for making the strongest fight for states rights; he thinks the selection of presidential electors is the opportunity offered the South to defend its principles.

No man in Alabama is more capable of discussing this subject than Mr. McCorvey, a lifelong Democrat who served for 24 years as a member of the State Democratic Executive Committee, 12 years as chairman of that committee, and was chairman of Alabama's electors in 1944 and 1948.

Mr. McCorvey explains in detail how nearly the South came to electing Gov. Strom Thurmond president in 1948 when Truman was chosen.

— o —

The Constitution provides that when a candidate for President fails to secure a majority of the electoral votes the election goes into the House of Representatives where states vote as units through their delegations. A majority vote of the states is necessary to elect a President. The choice must be made from the three highest candidates only.

With a Democratic congress in 1948, Mr. McCorvey shows that a Democrat would have been chosen, and that it would not have been Truman because of Southern congressional opposition. It would not have been Republican Dewey because Republicans were a minority in that congress. Southern Democrats would not have voted for Truman when they had Strom Thurmond as the third man. Republicans in Congress would have voted for a conservative man like Thurmond instead of a radical like Truman. Therefore, the combination of Northern Republicans and conservative Southern Democrats would have made Thurmond winner instead of Truman.

— o —

A similar situation exists today because the next House of Representatives is sure to have a Democratic majority. If the Southern states will get together on a Democratic candidate whose views on states rights are sound, put him in the race and stick to him, they can elect him president because other candidates would be unable to command a majority of the states when the election is thrown into the House of Representatives.

Mr. McCorvey therefore regards the selection of Democratic electors by the South as of supreme importance, far more important than attempting at the national convention to gain recognition of states rights and local self-government.

To the general public this plan might seem complicated because so much stress is being placed upon electing the right kind of men to go to the Los Angeles convention. Mr. McCorvey thinks, however, that selection of state delegates to that convention is of minor importance as compared to the opportunity offered for a real victory is centering upon selection of right-minded Democrats for presidential electors.

— o —

If the South pursues its usual course and is willing to vote for any Tom, Dick or Harry that the national party may offer, there will be no hope of relief and return to constitutional principles. State Rights Democrats in the South would not penalize themselves as some of the congressional delegations fear. In 1948, Alabama refused to cast its electoral vote for Truman, the regular nominee, and stuck to Thurmood, and not a single man in Congress lost his committee standing, nor was there even a suggestion of punishing the state's delegation because the state did not vote for Truman.

— o —

The reason for this, according to Mr. McCorvey, is that the House Democrats cannot organize themselves and choose committee members without the Southern Democrats.

The South really has the power in its hand to insure a states rights President in 1960 if Southern Democrats will embrace the opportunity offered.

At the Court's Mercy

(Reprinted from the Omaha, Nebraska, EVENING WORLD-HERALD)

In his Omaha speech this week, Senator Barry Goldwater warned against placing Americans "at the mercy of the World Court" by weakening the Connally Amendment.

This amendment safeguards the United States. It excludes from the World Court's jurisdiction matters which this country believes to be primarily of domestic concern.

Said Senator Goldwater:

"This nation, stripped of the protection of the Connally Amendment, might find itself forced to submit its tariff policy, its immigration policy, and its currency problems to the World Court for decision."

* * *

The Arizona Senator was using restrained language. He might have said that America's defense policy, the very basis of its national sovereignty, could be called before the International court.

In 1957, Japan threatened to bring Great Britain before the court for making atomic tests in a far corner of the Pacific. But Mr. Macmillan's Government said curtly that Britain's defense was Britain's business and hers only.

Under the Connally Amendment, the United States in a similar situation would undoubtedly make a similar reply. But what would happen without the amendment?

The 15 judges of the court, not the United States, would decide what cases to hear. America would, as Senator Goldwater so rightly said, be obliged to throw itself "on the mercy" of the court.

* * *

The need for the Connally Amendment was so obvious at the time it was adopted in 1946 that only two Senators voted against it.

But today the safeguards of the amendment are under attack. Some well meaning people, and some who may not be so well meaning, are telling the American people that if they surrender their rights to the International Court, other nations including the Communists, will follow America's example.

To realists who have observed the world scene in recent years the idea that Mr. Khrushchev and his friends will be shamed into following America's lead is not wholly convincing.

(Editor's note: It is heartening indeed to find Senator Barry Goldwater warning against placing Americans "at the mercy of the World Court." How, then, can he continue to support Nixon for the presidency, when Nixon is strongly urging that the Connally Amendment be repealed which will result in Americans being placed "at the mercy of the World Court"? Is "party loyalty" so strong that it is to be main-

Bureaucrats Plan Tax

By Mary Helen Brengel

There's a new game going on in Washington, in which the object is for the Federal Government to raise taxes without the taxpayer knowing taxes are being raised.

The Big Bureaucrats, in order to accomplish this purpose, send out a smokescreen of publicity, and hold committee meetings for the purpose of "correcting tax inequities" - or, another of their favorite phrases, "plugging the loopholes."

Behind these deliberately deceptive phrases, the fact remains that this "fresh approach" to tax problems would actually result in a raise in taxes!

The scheme put forth by the House Ways and Means Committee, of which Rep. Wilbur Mills of Arkansas is Chairman, is to end all exemptions and instead, impose uniform lower tax rates ranging from 12 to 55 per cent. Our punitive system of progressive taxation at present takes a clout of 20 per cent from the lowest income producer, ranging up to 92 per cent. The result of the Mills proposal, with its across-the-board "reductions", would actually, according to the RICH-

Americans Must Speak Up Now Unless They Want Welfare State

(Reprinted from the HOUSTON CHRONICLE)

Do Americans want their country to be a welfare state?

Do they want constantly increasing federal budgets, taxes at present high levels indefinitely or even increased, and a continued cheapening of the dollar?

That's what we're getting.

If Americans don't want that, they must speak up, quickly and decisively.

Everybody knows that the cost of federal government has gone up greatly during the present administration.

The myth persists that it is the cost of defense that is responsible.

It's true that defense is the biggest item in the budget. But—

Cost of defense is a constantly declining percentage of the budget.

It's the other costs of government that have increased.

The first budget presented to Congress by the present administration was the fiscal 1955 budget, submitted in January, 1954.

That fiscal 1953 budget called for an outgo of $65,570,000,000.

The fiscal 1961 budget, just submitted, calls for an outgo of $79,800,000,000, more than a $14,000,000,000 increase. The increase is for domestic spending programs, not defense.

However, the magazine U.S. News & World Report comments in its current issue, "It's the cash figures (rather than the budget) that tell the real story of government and its importance. Those figures include the welfare state and highway spending." The article goes on:

"Just notice this in eight years of a 'conservative' administration:

"Welfare: At start, $6,900,000,000. At end, $20,300,000,000. Rise: $13,400,000,000.

"Farm aid: At start, $2,900,000,000. At end, $5,400,000,000. Rise: $2,500,000,000.

"Debt interest: Start, $4,700,000,000. End, $8,000,000,000. Rise: $3,300,000,000.

"Roads, housing, etc.: Start, $2,300,000,000. End, $5,500,000,000. Rise: $3,200,000,000.

"Veterans: Start, $4,900,000,000. End, $6,100,000,000. Rise: $1,200,000,000.

"Defense: Start, $50,500,000,000. End, $45,900,000,000. Decline, $4,600,000,000. The first year in defense was adjustment from the Korean war.

"The important thing to notice is this: 'National security cost is down from 1953. . . . Welfare state cost, however, is shooting up. It will nearly triple in the eight years of the Eisenhower administration. . . .

"This country fast is becoming a welfare state, holding back on defense while splurging on programs to make everybody feel secure and happy."

If Americans don't want a welfare state, in which government will spend more and more, tax more and more, make people more and more dependent upon the government, make business more and more dependent upon government, increase socialization, spur inflation and constant cheapening of the dollar, they must let their congressmen know how they feel. They must urge their senators and representatives to resist every bid to increase domestic expenditures, and to cut back on existing programs wherever possible.

This amendment safeguards the United States. It excludes from the World Court's jurisdiction matters which this country believes to be primarily of domestic concern.

Said Senator Goldwater:

"This nation, stripped of the protection of the Connally Amendment, might find itself forced to submit its tariff policy, its immigration policy, and its currency problems to the World Court for decision."

Ghost Town

(Reprinted from the CHATTANOOGA NEWS-FREE PRESS)

While a lot of attention was given recent revelations concerning "soil bank" abuses, such as payment of $50,000 to a 12-year-old child for "not planting," another type of ill got relatively little publicity.

So much farmland around one North Dakota town has been taken out of production that the community is developing into a regular ghost town, with the local economy completely shattered since little farming is going on.

It worked this way: taxpayers' money was paid farmers for not farming, forcing hard times upon the whole community. Meanwhile, surpluses have piled up anyhow. Now there are proposals for handouts to "depressed areas." This is typical of the costly, vicious circle of Federal regulation and bureaucracy.

The trouble with "liberals" is that they are more concerned with sharing wealth (other people's) than with producing it.

The scheme put forth by the House Ways and Means Committee, of which Rep. Wilbur Mills of Arkansas is Chairman, is to end all exemptions and instead, impose uniform lower tax rates ranging from 12 to 55 per cent. Our punitive system of progressive taxation at present takes a cloak of 20 per cent from the lowest income producer, ranging up to 92 per cent. The result of the Mills proposal, with its across-the-board "reductions", would actually, according to the RICHMOND NEWS LEADER, impose a tax on an estimated $190 billion in personal income that now escapes taxation! In other words, income from State and local bonds, income from old-age pensions, income from expense accounts, and so on, not now taxed, would be subject to taxation under this "fresh approach."

Stuart McGregor, in the DALLAS NEWS, points out that "the result of any such compromise with the taxpayer would undoubtedly be a prompt restoration of the income tax rates by succeeding Congresses. And,..we would have the present high rates of levy on income tax, with a continuation of the rule against all deductions."

The Mills "tax reform" scheme also proposes that property owners be required to declare the ra property as taxa If, for instance, a be taxable at $1 even though the is it himself, he w show $1200 additi income, and pay i that $100 a month.

At the Court's Mercy

(Reprinted from the Omaha, Nebraska, EVENING WORLD-HERALD)

In his Omaha speech this week, Senator Barry Goldwater warned against placing Americans "at the mercy of the World Court" by weakening the Connally Amendment.

This amendment safeguards the United States. It excludes from the World Court's jurisdiction matters which this country believes to be primarily of domestic concern.

Said Senator Goldwater:

"This nation, stripped of the protection of the Connally Amendment, might find itself forced to submit its tariff policy, its immigration policy, and its currency problems to the World Court for decision."

* * *

The Arizona Senator was using restrained language. He might have said that America's defense policy, the very basis of its national sovereignty, could be called before the International court.

In 1957, Japan threatened to bring Great Britain before the court for making atomic tests in a far corner of the Pacific. But Mr. Macmillan's Government said curtly that Britain's defense was Britain's business and hers only.

Under the Connally Amendment, the United States in a similar situation would undoubtedly make a similar reply. But what would happen without the amendment?

The 15 judges of the court, not the United States, would decide what cases to hear. America would, as Senator Goldwater so rightly said, be obliged to throw itself "on the mercy" of the court.

The need for the Connally Amendment was so obvious at the time it was adopted in 1946 that only two Senators voted against it.

But today the safeguards of the amendment are under attack. Some well meaning people, and some who may not be so well meaning, are telling the American people that if they surrender their rights to the International Court, other nations including the Communists, will follow America's example.

To realists who have observed the world scene in recent years the idea that Mr. Khrushchev and his friends will be shamed into following America's lead is not wholly convincing.

SOLID SOUTH Conference Set

Leading Southern Conservatives To Speak At Jackson Rally

By Kent Courtney, Publisher

THE INDEPENDENT AMERICAN newspaper will sponsor a SOLID SOUTH CONFERENCE and RALLY at the Heidelberg Hotel, Jackson, Miss., on Friday and Saturday, May 6th and 7th.

Dan Smoot, nationally known radio and TV commentator, and publisher of THE DAN SMOOT REPORT, a weekly newsletter, will be the principal speaker at the Friday night banquet.

Willis Stone, author of the proposed 23rd Amendment, which would "Get the Government out of Competition with Private Industry", will be one of the luncheon speakers on Friday.

The speakers at the SOLID SOUTH RALLY Saturday night will be:

Tom Anderson, publisher of FARM AND RANCH magazine,

Clayton Rand, nationally syndicated columnist and popular convention speaker and humorist,

Kent Courtney, radio commentator and publisher of THE INDEPENDENT AMERICAN and THE SOLID SOUTH newspapers.

All of the above speakers figured prominently in the very successful INDEPENDENT AMERICAN FORUM and NEW PARTY RALLY held in Chicago last October 23-24.

WHAT WILL THE SOLID SOUTH DO IN 1960?

The theme of the SOLID SOUTH CONFERENCE will be "What will the South do in 1960 to make effective its potentiality as the biggest bloc of votes in the nation?" Speakers will analyze the present position in which the South now finds itself, and the political action available to the South in 1960.

Recent events are proving that the forces steering the most political influence today are VOTER BLOCS. The so-called Conservative Coalition in Congress, made up of Conservative Republicans and Southern Democrats has failed to halt the Socialist take-over of this nation. Why? Because the leftwingers, who control both the Democrat and Republican parties, concentrate their efforts in catering to Voter Blocs, such as the Negro Vote, the Labor Vote. Unfortunately, neither party seems interested in wooing the Conservative Voter Bloc or the Taxpayer Bloc!

There are two reasons why neither major party caters to the Conservative Voter Bloc:

(1) Republican Conservatives are scattered throughout the nation and lack any one point of concentrated geographic strength.

(2) Democrat Conservatives, although concentrated in the South, are considered "in the bag" by the Northern Democrats because a few powerful Southern political leaders have pursued a policy of loyalty to the anti-South Northern Democrat Party above loyalty to their own constituents. Therefore, why should Northern Democrats make any concessions to Southern Democrats?

THE SOUTH IS STIRRING AGAINST THE "LOYALISTS"

Recently, however, signs are appearing in the South of a "voter rebellion" against the Southern "party loyalists" who wish to remain in the Democrat Party, regardless of the abuse heaped on the South by Paul Butler, National Democrat Chairman.

In Alabama, for instance, Gessner T. McCorvey, leading Democrat figure, thinks it is a farce to send delegates to Los Angeles where there may be only insults. Mr. McCorvey suggests advertising "a strong statement that we have no idea of sending delegates to be kicked around but are going to center our fire on electing the right sort of presidential electors..." (Meaning INDEPENDENT ELECTORS - not pledged to the Democrat candidate).

A recent column by Howard Suttle, Washington columnist, stated that UPI recently conducted a survey and found "open backing" for a repeat of the 1948 rebellion, when Alabama, Louisiana, Mississippi and South Carolina supported the Thurmond-Wright States' Rights ticket. And Mr. Suttle continued: "It was asserted, however, there exists 'no south-wide unity, no south-wide backing of any particular candidate and no standard-bearer....'"

Bureaucrats Plan Tax Raise

By Mary Helen Brangel

There's a new game going on in Washington, in which the object is for the Federal Government to raise taxes without the taxpayer knowing taxes are being raised.

The Big Bureaucrats, in order to accomplish this purpose, send out a smokescreen of publicity, and hold committee meetings for the purpose of "correcting tax inequities" - or, another of their favorite phrases, "plugging the loopholes."

Behind these deliberately deceptive phrases, the fact remains that this "fresh approach" to tax problems would actually result in a raise in taxes!

The scheme put forth by the House Ways and Means Committee, of which Rep. Wilbur Mills of Arkansas is Chairman, is to end all exemptions and instead, impose uniform lower tax rates ranging from 12 to 55 per cent. Our punitive system of progressive rates declare the rental value of property as taxable income. If, for instance, a home might be rentable at $100 a month, even though the owner lived in it himself, he would have to show $1200 additional yearly income, and pay income tax on that $100 a month.

Under the Mills plan, benefits now allowed to the sick, the aged, the blind, and to those who suffer heavy casualties, would cease. Deductions for gifts to charities, excessive medical bills, interest payments, and taxes would be wiped out.

This is not the road by which we would achieve "happier" taxpayers. It would, instead, impose punitive taxation to an extent that this country has never before known. If the lawmakers are in reality seeking to spark a tax revolt, the Mills' committee proposal, if put into effect, would accomplish this purpose. The CHICAGO TRI-

Ghost Town

(Reprinted from the CHATTANOOGA NEWS-FREE PRESS)

While a lot of attention was given recent revelations concerning "soil bank" abuses, such as payment of $50,000 to a 12-year-old child for "not planting," another type of ill got relatively little publicity.

So much farmland around one North Dakota town has been taken out of production that the community is developing into a regular ghost town, with the local economy completely shattered since little farming is going on.

It worked this way: taxpayers' money was paid farmers for not farming, forcing hard times upon the whole community. Meanwhile, surpluses have piled up anyhow. Now there are proposals for handouts to "depressed areas." This is typical of the costly, vicious circle of Federal regulation and bureaucracy.

The trouble with "liberals" is that they are more concerned with sharing wealth (other people's) than with producing it.

The scheme put forth by the House Ways and Means Committee, of which Rep. The CHICAGO TRIBUNE has the answer when it says: "The cure lies in a sharp reduction of Federal expenditures, to be accomplished by the withdrawal of the Government from costly, unworkable, unnecessary, and meddlesome programs, and by the matching determination of the administration and Congress to embark upon no new spending projects of the same character.... The spending follies can be expected to continue until the people force the change at the ballot box.....Until both parties are compelled to acknowledge their responsibility to reduce the spending that fosters the taxes, the Government will go right along its present course of spending, debt, and inflation, even though it acknowledges that these are fatal to incentive and to economic growth."

Rev. Edward W. Greenfield, in his column "Pause for Reflection" in discussing "plugging the loopholes" bill asks: "Tax reform? Emphatically yes! But do you reform a thief by giving him a different suit of wools for robbing a bank?"

FANTASTIC FOREIGN AID

More than one fourth of our federal debt of $283 billion dollars is due to budget deficits caused by foreign aid.

Foreign governments with the aid of credits made available to them, through foreign aid, have been salting away American gold and piling up dollar balances in our banks.

Foreigners own $14 billion in dollar deposits, which must be converted into gold by us ON DEMAND. That is 70 per cent of our gold reserve!

If their confidence in the soundness of our economy deteriorates further, the RUN on our gold reserve would collapse our Nation!

All this is due to FOREIGN AID.

The money taken from our pockets ends by by strengthening socialism and nationalization processes in the recipient countries, and loses us friends. Nationalism in industry and State capitalism have been aided materially in Norway, Austria, France, Italy, Turkey, Pakistan, Indonesia, in Communist Poland; and in India Communism has increased since 1953, from two million to 12 million! In England we paid for the socialising of medicine, the nationalization of railways, utilities, coal mines and the Bank of England!

As Joseph Stalin wrote; real and prolonged help from more advanced countries to backward nations is essential for peaceful co-existence within a single economic system, and for the final triumph of socialism!

Unless Foreign Aid is soon terminated, our country faces ECONOMIC DISASTER.

How To Insure States Rights

(Reprinted from Montgomery ALABAMA JOURNAL)

IN THE JANUARY number of The Alabama Lawyer, Mr. Gessner T. McCorvey of Mobile takes issue with those who think the South is politically helpless in the 1960 presidential campaign. Mr. McCorvey doesn't regard the approaching national convention as the place for making the strongest fight for states rights; he thinks the selection of presidential electors is the opportunity offered the South to defend its principles.

No man in Alabama is more capable of discussing this subject than Mr. McCorvey, a lifelong Democrat who served for 24 years as a member of the State Democratic Executive Committee, 12 years as chairman of that committee, and was chairman of Alabama's electors in 1944 and 1948.

Mr. McCorvey explains in detail how nearly the South came to electing Gov. Strom Thurmond president in 1048 when Truman was chosen.

— o —

The Constitution provides that when a candidate for President fails to secure a majority of the electoral votes the election goes into the House of Representatives where states vote as units through their delegations. A majority vote of the states is necessary to elect a President. The choice must be made from the three highest candidates only.

With a Democratic congress in 1948, Mr. McCorvey shows that a Democrat would have been chosen, and that it would not have been Truman because of Southern congressional opposition. It would not have been Republican Dewey because Republicans were a minority in that congress. Southern Democrats would not have voted for Truman when they had Strom Thurmond as the third man. Republicans in Congress would have voted for a conservative man like Thurmond instead of a radical like Truman. Therefore, the combination of Northern Republicans and conservative Southern Democrats would have made Thurmond winner instead of Truman.

— o —

A similar situation exists today because the next House of Representatives is sure to have a Democratic majority. If the Southern states will get together on a Democratic candidate whose views on states rights are sound, put him in the race and stick to him, they can elect him president because other candidates would be unable to command a majority of the states when the election is thrown into the House of Representatives.

Mr. McCorvey therefore regards the selection of Democratic electors by the South as of supreme importance, far more important than attempting at the national convention to gain recognition of states rights and local self-government.

To the general public this plan might seem complicated because so much stress is being placed upon electing the right kind of men to go to the Los Angeles convention. Mr. McCorvey thinks, however, that selection of state delegates to that convention is of minor importance as compared to the opportunity offered for a real victory is centering upon selection of right-minded Democrats for presidential electors.

— o —

If the South pursues its usual course and is willing to vote for any Tom, Dick or Harry that the national party may offer, there will be no hope of relief and return to constitutional principles. State Rights Democrats in the South would not penalize themselves as some of the congressional delegations fear. In 1948, Alabama refused to cast its electoral vote for Truman, the regular nominee, and stuck to Thurmond, and not a single man in Congress lost his committee standing, nor was there even a suggestion of punishing the state's delegation because the state did not vote for Truman.

— o —

The reason for this, according to Mr. McCorvey, is that the House Democrats cannot organize themselves and choose committee members without the Southern Democrats.

The South really has the power in its hand to insure a states rights President in 1960 if Southern Democrats will embrace the opportunity offered.

Americans Must Speak Up Now Unless They Want Welfare State

Bureaucrats Plan Tax F

By Mary Helen Brengel

There's a new game going on in Washington, in which the object is for the Federal Government to raise taxes without the taxpayer knowing taxes are being raised.

If the South pursues its usual course and is willing to vote for any Tom, Dick or Harry that the national party may offer, there will be no hope of relief and return to constitutional principles. State Rights Democrats in the South would not penalize themselves as some of the congressional delegations fear. In 1948, Alabama refused to cast its electoral vote for Truman, the regular nominee, and stuck to Thurmond, and not a single man in Congress lost his committee standing, nor was there even a suggestion of punishing the state's delegation because the state did not vote for Truman.

— o —

The reason for this, according to Mr. McCorvey, is that the House Democrats cannot organize themselves and choose committee members without the Southern Democrats.

The South really has the power in its hand to insure a states rights President in 1960 if Southern Democrats will embrace the opportunity offered.

Americans Must Speak Up Now Unless They Want Welfare State

(Reprinted from the HOUSTON CHRONICLE)

Do Americans want their country to be a welfare state?

Do they want constantly increasing federal budgets, taxes at present high levels indefinitely or even increased, and a continued cheapening of the dollar?

That's what we're getting.

If Americans don't want that, they must speak up, quickly and decisively.

Everybody knows that the cost of federal government has gone up greatly during the present administration.

The myth persists that it is the cost of defense that is responsible.

It's true that defense is the biggest item in the budget. But—

Cost of defense is a constantly declining percentage of the budget.

It's the other costs of government that have increased.

The first budget presented to Congress by the present administration was the fiscal 1955 budget, submitted in January, 1954.

That fiscal 1955 budget called for an outgo of $65,570,000,000.

The fiscal 1961 budget, just submitted, calls for an outgo of $79,800,000,000, more than a $14,000,000,000 increase. The increase is for domestic spending programs, not defense.

However, the magazine U.S. News & World Report comments in its current issue, "It's the cash figures (rather than the budget) that tell the real story of government and its importance. Those figures include the welfare state and highway spending." The article goes on:

"Just notice this in eight years of a 'conservative' administration:

"Welfare: At start, $6,900,000,000. At end, $20,300,000,000. Rise: $13,400,000,000.

"Farm aid: At start, $2,900,000,000. At end, $5,400,000,000. Rise: $2,500,000,000.

"Debt interest: Start, $4,700,000,000. End, $8,000,000,000. Rise: $3,300,000,000.

"Roads, housing, etc.: Start, $2,300,000,000. End, $5,500,000,000. Rise: $3,200,000,000.

"Veterans: Start, $4,900,000,000. End, $6,100,000,000. Rise: $1,200,000,000.

"Defense: Start, $50,500,000,000. End, $45,900,000,000. Decline, $4,600,000,000. The first year in defense was adjustment from the Korean war.

"The important thing to notice is this: 'National security cost is down from 1953. . . . Welfare state cost, however, is shooting up. It will nearly triple in the eight years of the Eisenhower administration. . . .

"This country fast is becoming a welfare state, holding back on defense while splurging on programs to make everybody feel secure and happy."

If Americans don't want a welfare state, in which government will spend more and more, tax more and more, make people more and more dependent upon the government, make business more and more dependent upon government, increase socialization, spur inflation and constant cheapening of the dollar, they must let their congressmen know how they feel. They must urge their senators and representatives to resist every bid to increase domestic expenditures, and to cut back on existing programs wherever possible.

nally Amendment.

This amendment safeguards the United States. It excludes from the World Court's jurisdiction matters which this country believes to be primarily of domestic concern.

Said Senator Goldwater:

"This nation, stripped of the protection of the Connally Amendment, might find itself forced to submit its tariff policy, its immigration policy, and its currency problems to the World Court for decision."

* * *

The Arizona Senator was using restrained language. He might have said that America's defense policy, the very basis of its national sovereignty, could be called before the International court.

In 1957, Japan threatened to bring Great Britain before the court for making atomic tests in a far corner of the Pacific. But Mr. Macmillan's Government said curtly that Britain's defense was Britain's business and hers only.

Under the Connally Amendment, the United States in a similar situation would undoubtedly make a similar reply. But what would happen without the amendment?

The 15 judges of the court, not the United States, would decide what cases to hear. America would, as Senator Goldwater so rightly said, be obliged to throw itself "on the mercy" of the court.

* * *

The need for the Connally Amendment was so obvious at the time it was adopted in 1946 that only two Senators voted against it.

But today the safeguards of the amendment are under attack. Some well meaning people, and some who may not be so well meaning, are telling the American people that if they surrender their rights to the International Court, other nations including the Communists, will follow America's example.

To realists who have observed the world scene in recent years the idea that Mr. Khrushchev and his friends will be shamed into following America's lead is not wholly convincing.

(Editor's note: It is heartening indeed to find Senator Barry Goldwater warning against placing Americans "at the mercy of the World Court." How, then, can he continue to support Nixon for the presidency, when Nixon is strongly urging that the Connally Amendment be repealed which will result in Americans being placed "at the mercy of the World Court"? Is "party loyalty" so strong that it is to be maintained at all costs even though this might mean the loss of America's national sovereignty?)

Ghost Town

(Reprinted from the CHATTANOOGA NEWS-FREE PRESS)

While a lot of attention was given recent revelations concerning "soil bank" abuses, such as payment of $50,000 to a 12-year-old child for "not planting," another type of ill got relatively little publicity.

So much farmland around one North Dakota town has been taken out of production that the community is developing into a regular ghost town, with the local economy completely shattered since little farming is going on.

It worked this way: taxpayers' money was paid farmers for not farming, forcing hard times upon the whole community. Meanwhile, surpluses have piled up anyhow. Now there are proposals for handouts to "depressed areas." This is typical of the costly, vicious circle of Federal regulation and bureaucracy.

The trouble with "liberals" is that they are more concerned with sharing wealth (other people's) than with producing it.

Bureaucrats Plan Tax

By Mary Helen Brengel

There's a new game going on in Washington, in which the object is for the Federal Government to raise taxes without the taxpayer knowing taxes are being raised.

The Big Bureaucrats, in order to accomplish this purpose, send out a smokescreen of publicity, and hold committee meetings for the purpose of "correcting tax inequities" — or, another of their favorite phrases, "plugging the loopholes."

Behind these deliberately deceptive phrases, the fact remains that this "fresh approach" to tax problems would actually result in a raise in taxes!

The scheme put forth by the House Ways and Means Committee, of which Rep. Wilbur Mills of Arkansas is Chairman, is to end all exemptions and instead, impose uniform lower tax rates ranging from 12 to 55 per cent. Our punitive system of progressive taxation at present takes a cloot of 20 per cent from the lowest income producer, ranging up to 92 per cent. The result of the Mills proposal, with its across-the-board "reductions", would actually, according to the RICHMOND NEWS LEADER, impose a tax on an estimated $130 billion in personal income that now escapes taxation! In other words, income from State and local bonds, income from old-age pensions, income from expense accounts, and so on, not now taxed, would be subject to taxation under this "fresh approach."

Stuart McGregor, in the DALLAS NEWS, points out that "the result of any such compromise with the taxpayer would undoubtedly be a prompt restoration of the income tax rates by succeeding Congresses. And...we would have the present high rates of levy on income tax, with a continuation of the rule against all deduction."

The Mills "tax reform" scheme also proposes that property owners be required to declare the re property at taxi If, for instance, a be rentable at $1 even though the is it himself, he s show $1200 addit income, and pay t that $100 a month.

Under the Mills p now allowed to th aged, the blind, a who suffer heavy would cease. Ded gifts to charities, medical bills, int ments, and taxes wi one.

At the Court's Mercy

(Reprinted from the Omaha, Nebraska, EVENING WORLD-HERALD)

In his Omaha speech this week, Senator Barry Goldwater warned against placing Americans "at the mercy of the World Court" by [illegible] the Connally Amendment.

This amendment safeguards the United States. It excludes from the World Court's jurisdiction matters which this country believes to be primarily of domestic concern.

Said Senator Goldwater:

"This nation, stripped of the protection of the Connally Amendment, might find itself forced to submit its tariff policy, its immigration policy, and its currency problems to the World Court for decision."

The Arizona Senator was using restrained language. He might have said that America's defense policy, the very basis of its national sovereignty, could be called before the International court.

SOLID SOUTH Conference Set

Leading Southern Conservatives To Speak At Jackson Rally

By Kent Courtney, Publisher

THE INDEPENDENT AMERICAN newspaper will sponsor a SOLID SOUTH CONFERENCE and RALLY at the Heidelberg Hotel, Jackson, Miss., on Friday and Saturday, May 6th and 7th.

Dan Smoot, nationally known radio and TV commentator, and publisher of THE DAN SMOOT REPORT, a weekly newsletter, will be the principal speaker at the Friday night banquet.

Willis Stone, author of the proposed 23rd Amendment, which would "Get the Government out of Competition with Private Industry", will be one of the luncheon speakers on Friday.

The speakers at the SOLID SOUTH RALLY Saturday night will be:

Tom Anderson, publisher of FARM AND RANCH magazine,

Clayton Rand, nationally syndicated columnist and popular convention speaker and humorist,

Kent Courtney, radio commentator and publisher of THE INDEPENDENT AMERICAN and THE SOLID SOUTH newspapers.

All of the above speakers figured prominently in the very successful INDEPENDENT AMERICAN FORUM and NEW PARTY RALLY held in Chicago last October 23-24.

WHAT WILL THE SOLID SOUTH DO IN 1960?

The theme of the SOLID SOUTH CONFERENCE will be "What will the South do in 1960 to make effective its potentiality as the biggest bloc of votes in the nation?" Speakers will analyze the present position in which the South now finds itself, and the political action available to the South in 1960.

Recent events are proving that the forces assuring the most political influence today are VOTER BLOCS. The so-called Conservative Coalition in Congress, made up of Conservative Republicans and Southern Democrats has failed to halt the Socialist take-over of this nation. Why? Because the leftwingers, who control both the Democrat and Republican parties, concentrate their efforts in catering to Voter Blocs, such as the Negro Vote, the Labor Vote. Unfortunately, neither party seems interested in wooing the Conservative Voter Bloc or the Taxpayer Bloc!

There are two reasons why neither major party caters to the Conservative Voter Bloc:

(1) Republican Conservatives are scattered throughout the nation and lack any one point of concentrated geographical strength.

(2) Democrat Conservatives, although concentrated in the South, are considered "in the bag" by the Northern Democrat [illegible] a few powerful Southern political leaders have put [illegible] party" to the anti-South Northern Democrat Party above [illegible] loyalty to their own constituents. Therefore, why should Northern Democrats make any concessions to Southern Democrats?

THE SOUTH IS STIRRING AGAINST THE "LOYALISTS"

Recently, however, signs are appearing in the South of a "voter rebellion" against the Southern "party loyalists" who wish to remain in the Democrat Party, regardless of the abuse heaped on the South by Paul Butler, National Democrat Chairman.

In Alabama, for instance, Gessner T. McCorvey, leading Democrat figure, thinks it is a farce to send delegates to Los Angeles where there may be only insults. Mr. McCorvey suggests substituting "a strong statement that we have no idea of sending delegates to be kicked around but are going to center our fire on electing the right sort of presidential electors..." (Meaning INDEPENDENT ELECTORS - not pledged to the Democrat candidate).

A recent column by Howard Suttle, Washington columnist, stated that UPI recently conducted a survey and found "open backing" for a repeat of the 1948 rebellion, when Alabama, Louisiana, Mississippi and South Carolina supported the Thurmond-Wright States' Rights ticket. And Mr. Suttle continued: "It was asserted, however, there exists 'no south-wide unity, no south-wide backing of any particular candidate and no standard-bearer....'"

Recently-elected Gov. Ross Barnett of Mississippi has called for a "unified South" and suggests a Southern Governors' Conference for that purpose. Gov. Barnett has a good idea, but he should be very alert that his proposed Southern Governors' Conference isn't infiltrated and taken over by "party loyalists" the way a similar conference was in 1956.

Bureaucrats Plan Tax Raise

The result of the Mills proposal, with its across-the-board "reductions", would actually, according to the RICHMOND NEWS LEADER, impose a tax on an estimated $150 billion in personal income that declare the rental value of property as taxable income. If, for instance, a home might be rentable at $100 a month, even though the owner lived in it himself, he would have to show $1200 additional yearly income, and pay income tax on that $100 a month.

Under the Mills plan, benefits now allowed to the sick, the aged, the blind, and to those who suffer heavy casualties, would cease. Deductions for gifts to charities, excessive medical bills, interest payments, and taxes would be wiped out.

This is not the road by which we would achieve "happier" taxpayers. It would, instead, impose punitive taxation to an extent that this country has never before known. If the lawmakers are in reality seeking to spark a tax revolt, the Mills' committee proposal, if put into effect, would accomplish this purpose. The CHICAGO TRIBUNE has the answer when it says: "The cure lies in a sharp reduction of Federal expenditures, to be accomplished by the withdrawal of the Government from costly, unworkable, unnecessary, and meddlesome programs, and by the matching determination of the administration and Congress to embark upon no new spending pro-

Rep. Edward W. Greenfield, in his column "Pause for Reflection" in discussing "plugging the loopholes" bill asks: "Tax reform? Emphatically yes! But do you reform a thief by giving him a different set of tools for robbing a bank?"

FANTASTIC FOREIGN AID

More than one fourth of our federal debt of $283 billion dollars is due to budget deficits caused by foreign aid.

Foreign governments with the aid of credits made available to them, through foreign aid, have been salting away American gold and piling up dollar balances in our banks.

Foreigners' own $14 billion in dollar deposits, which must be converted into gold by us ON DEMAND. That is 70 per cent of our gold reserve!

If their confidence in the soundness of our economy deteriorates further, the RUN on our gold reserve would collapse our Nation!

All this is due to FOREIGN AID.

The money taken from our pockets ends by by strengthening socialism and nationalization processes in the recipient countries, and loses us friends. Nationalism in industry and State capitalism have been aided materially in Norway, Austria, France, Italy, Turkey, Pakistan, Indonesia, in Communist Poland; and in India Communism has increased since 1965, from two million to 12 million! In England we paid for the socializing of medicine, the nationalization of railways, utilities, coal mines and the Bank of England!

As Joseph Stalin wrote: real and prolonged collaboration more advanced countries to backward nations is essential for peaceful co-existence within a single economic system, and for the final triumph of socialism!

Unless Foreign Aid is soon terminated, our country faces ECONOMIC DISASTER.

OUR POLICY

This newspaper is dedicated to the defeat of Socialist and Communist influences that now pervade the thinking and the policies of our Federal government and the two major political parties. We believe that there is no difference between a New Deal Democrat and a Socialist-Internationalist Republican.

This newspaper will continue to promote all individuals and organizations who believe that a new political party based on Constitutional States Rights is the answer to the Socialism that has captured both (formerly great) parties.

We will never align ourselves with any person or group which preaches hatred. Instead we will conserve our energy for the fight against atheistic Communism, and we pledge ourselves to LOVE OF GOD AND AN INDEPENDENT U.S.A.

OUR THANKS

Because we are political and "controversial" we have no advertising income. We therefore thank all of our readers who send donations every week so that more and more sample copies can be sent to patriots throughout the country. Without this regular support, this experiment in patriotic and political journalism would not be possible.

Nationwide Round-up on World Court Proposal

(Note: At long last it appears that the extreme leftwingers - the Internationalists - who control the policies of both parties, have gone too far! As we go to press we have word from Washington observers that the first wave of letters from all over America are beginning to pile up on desks in Congress relating to the WORLD COURT. These letters from American citizens are protesting the left-wing pressure drive to repeal the Connally Amendment. These protests, in many instances, are the result of the editorial efforts of the nation's outstanding patriotic newspapers. Below we quote excerpts from newspapers around the country dealing with the vital subject of WORLD COURT:)

WALL STREET JOURNAL
Secretary of State Herter and Attorney General Rogers both appeared before the Senate Foreign Relations Committee to argue that the U.S. ought in the interests of justice, to give up its right to say what's properly an international matter and what's a domestic matter. Mr. Herter and Mr. Rogers agreed that the World Court wouldn't be likely to assert jurisdiction over domestic affairs of the U.S.
But that seems to us to be only a matter of opinion. The World Court might or it might not - and if the Connally Reservation is voided by the Senate it won't much matter what the U.S. thinks. All that will matter is what the World Court says, for the Court will have the sole right to decide....

THE RICHMOND (Va.) NEWS LEADER
The Connally Amendment suits most Americans fine. It was adopted by an overwhelming vote of the Senate, at the request of a shrewd old Texan who had the practical good sense to put the self-interest of the United States first and the chimerical visions of 'world law' last. And unless the Senate of the United States has lost its collective mind completely, Mr. Connally's view of reality will remain a far better choice than Mr. Eisenhower's dream of Paradise.

LOS ANGELES (Calif.) HEARLD EXPRESS
.....James G. Law, technical adviser to the American Legion's National Security Commission and chairman of the National Security of the Legion's 17th district, including Los Angeles, expressed the Legion's stand when he declared: "The American Legion stands four-square behind the Connally Amendment."
.....The Connally Amendment guarantees for the United States the right to decide whether it wishes to be governed in a certain matter by the World Court. It does this by a concluding clause, which was added to the World Court agreement: "as determined by the United States."
One serious question is raised. Why should the United States agree to World Court jurisdiction without reservation such as the Connally Amendment provides, when Soviet Russia and other countries do not agree to commit themselves to similar agreements?

THE (Brooklyn, N.Y.) TABLET
.....S. Res. 94 proponents declare the United States must show its good faith in "the rule of law replacing the rule of force." Will eliminating a few words provide the assurance that hundreds of thousands of lives and billions of dollars seemingly could not buy?

JOHN T. FLYNN, AMERICA'S FUTURE
.....Our Constitution guarantees to us the right of free speech and free assembly. No court in America can deny these rights to Americans. But the World Court could, because it operates under the United Nations....
Actually, if the President has his way in wiping out the safeguards in our participation in the World Court, there would be literally no limit on subjects governing the lives of Americans on which this United Nations' agency could rule.

THE INDIANAPOLIS (Indiana) STAR
The cynical use of the treaty power to enable the Federal government to evade the Constitution has been established by precedent and upheld by the Supreme Court. Blanket submission to international court jurisdiction would place this same tool for nullifying the American Constitution in the hands of forces totally outside the United States. The Constitution would become meaningless as a protection to individual citizens....
This immunity to the Constitution and supremacy over domestic law is extended to rulings of the International Court when the United States submits to its jurisdiction under treaty.

* * * * * *

The step now being proposed is that Congress should relinquish the authority to decide when the United States will submit to international judicial jurisdiction, leaving that decision to the President. This would open the way for a President so minded to commit the United States to compliance with an international court order on any matter of international dispute, or on any matter at all involving a treaty provision. Even a purely domestic question could be placed in the hands of the international court if some point of a treaty could be brought to bear on it....
Under the proposed change, the President could make a domestic law by international agreement and then turn to the international court to enforce it.

DAN SMOOT REPORT
.....The World Court is composed of fifteen judges, ONLY ONE OF WHICH CAN BE FROM AMERICA. COMMUNIST NATIONS DO NOT - AND WILL NOT - ACCEPT JURISDICTION OF THE COURT; BUT THEY HAVE JUDGES ON IT! Nine judges constitute a quorum for the court; and a majority of the quorum is enough for a decision - from which there is no appeal. The judges are elected by the United Nations General Assembly and by the UN Security Council.
In other words, if we repeal the Connally Amendment, five judges chosen by the UN can declare the Constitution of the United States and its Bill of Rights void - and can order the American people to support the rest of the world, as long as the dollars last.

By agreeing to this out-and-out union blackmail, Mr. Nixon not only approved what seems a violation of the national Taft-Hartley law but also a defiance of right-to-work laws in those states where they have been voted. A worker has to pay dues to work under the steel unions whether a member or not. That certainly puts an end to an important freedom.

Another interesting number is the contract requirement which calls for the payment of 13 weeks "special retirement pay" when a worker retires under the union pension plan. This is estimated to amount to approximately $2000 per qualified person. If that kind of fringe benefit exists anywhere else in the country, it has been kept secret. But with administration approval this special fringe undoubtedly will become a common union demand.

Mr. Nixon comes from non-union country. Southern California prospered on low, non-union wages. From its general climate came the famed "Grapes of Wrath" story. Even in the last election the Nixon-Knowland forces were aligned with a proposed California right-to-work law which was roundly beaten as was Mr. Knowland. Consequently it will be interesting to learn the southern California reaction to Mr. Nixon's activity which saw him using his official position to force the steel industry to accept unreasonable and exorbitant union demands.

With the Democratic party labor controlled, and with the fair-haired boy of Republican leaders out-doing the Democrats by considerable distance, there is little question that the country is headed for a labor government. That is, unless there still stirs in the Republican party grass roots the principle and intelligence that will cast off the party leaders and save the nation from labor nightmare.

Keep This Reservation!

(Reprinted from the INDIANAPOLIS STAR)

A determined effort is being made in the present session of Congress to repeal the Connally amendment to the act by which the United States subscribes to the United Nations International Court of Justice, more commonly known as the World Court. The Connally amendment is the provision by which the United States reserves the right to decide, in each specific instance, whether a dispute with some other nation is a proper matter to be taken to the World Court or is a matter of domestic American affairs which must be settled in some other way.

The argument is advanced that this reservation hamstrings the World Court, since other nations make the same reservation and hence the international court gets cases only when all parties are agreed that it should. The advocates of repeal argue that the United States should "set a good example" for the rest of the world by voluntarily submitting unequivocally, in advance, to full World Court jurisdiction.

That may sound like a very noble thing to do in the interests of international co-operation and a world-wide "rule of law." But the price of doing it ought to be thoroughly understood when the proposition is discussed. The price would be the elimination of the United States Constitution as a protective document.

Ridiculous? Not at all. Just put the facts together.

The World Court deals with treaty law. And treaty law in the United States is very special. It is supreme. Not only is it supreme over other law. *Treaty law is supreme over the Constitution itself.*

This remarkable interpretation of the treaty power was established by the Supreme Court, basically in an opinion written in 1920 by Justice Oliver Wendell Holmes. No argument has been able to shake any succeeding court from this interpretation. On the contrary, the Holmes view has been strengthened and broadened in later decisions. Simply stated, this interpretation is that the power to make treaties is inherent in the nation simply because it is a nation, and neither was created by nor is bound by the Constitution.

Treaty law in the United States is supreme not only as to foreign affairs, but also as domestic law. It overrides any state law, any state constitution, and any act of Congress. Since the treaty power exists outside the Constitution, it follows—and this has been spelled out by the Supreme Court—that *a treaty can make domestic law which would otherwise be unconstitutional.*

This is not conjecture. It is the established precedent of United States law.

Now take these facts and add one item of conjecture—the proposition that the United States should give up the right to have United States treaty law interpreted and applied by United States courts, leaving that function without reservation to the World Court. The supreme law of the United States—overriding acts of Congress and of state legislatures, state courts *and the Federal courts*—would then be in the hands of a foreign court, completely untouched by the United States Constitution and completely isolated from and unresponsive to the will of the people of the United States. We would no longer have, in the final and decisive analysis, a constitutional government or one exercising its powers by consent of the governed.

The proposition is utterly unacceptable. We cannot reach any conclusion but that those who press for this step have not stopped to count the cost. Americans, cherishing their freedom, should make very sure that Congress is aware of the true and full effect of the proposed measure, and of the necessity to protect the Constitution from this threat.

If you want to be sure that American justice, American laws and American freedom stay just that—write or wire Senator Fulbright, Senate Office building, Washington, D.C., right away. It is his committee that is holding the hearings.

Do You Want World Court to Rule on These Issues ?

If the extreme leftwingers, the socialists and internationalists succeed in repealing the Connally Amendment, here is what it will mean to you, as an American citizen:

WE COULD LOSE THE PANAMA CANAL

The national defense of the United States is a domestic matter. However, the repeal of the Connally Amendment would make national defense a subject on which the foreign-dominated World Court could rule. For example, the Republic of Panama could sue us in the World Court to recover the Panama Canal Zone and the Canal itself. Without unrestricted passage of our ships of war through the Panama Canal (we) is certain that we could not quickly reinforce the defenses of our Pacific coast in the event of another Pearl Harbor! The World Court could be expected to rule against the United States on the question of the Panama Canal, and the NATIONAL DEFENSE OF THE UNITED STATES WOULD THUS BE DANGEROUSLY WEAKENED!

HERE ARE SOME ISSUES THE WORLD COURT COULD RULE ON:

(1) TARIFF - The World Court by decree could abolish all U.S. tariffs, thus flooding our country with cheap-made, foreign goods which would seriously injure American industries.

(2) IMMIGRATION - The World Court could abolish our immigration quotas and security provisions. In this way the U.S. would be forced to accept hordes of immigrants from any and all parts of the world. Also, our security restrictions against Communist agents entering our country could be abolished.

(3) FOREIGN AID - The World Court could decree that America must continue forever and even expand Foreign Aid, because, the World Court would contend, if we halted Foreign Aid to any nation it would "hurt" that nation's economy! Further, the World Court could delegate the United Nations as the sole dispenser of our Foreign Aid program. Because of Communist domination of the United Nations, the largest part of our Foreign Aid could thus be diverted to Communist countries!

law in the United States is very special. It is [illegible]. *Not only is it supreme over other law. Treaty law is supreme over the Constitution itself.*

This remarkable interpretation of the treaty power was established by the Supreme Court, basically in an opinion written in 1920 by Justice Oliver Wendell Holmes. No argument has been able to shake any succeeding court from this interpretation. On the contrary, the Holmes view has been strengthened and broadened in later decisions. Simply stated, this interpretation is that the power to make treaties is inherent in the nation simply because it is a nation, and neither was created by nor is bound by the Constitution.

Treaty law in the United States is supreme not only as to foreign affairs, but also as domestic law. It overrides any state law, any state constitution, and any act of Congress. Since the treaty power exists outside the Constitution, it follows—and this has been spelled out by the Supreme Court—that *a treaty can make domestic law which would otherwise be unconstitutional.*

This is not conjecture. It is the established precedent of United States law.

Now take these facts and add one item of conjecture—the proposition that the United States should give up the right to have United States treaty law interpreted and applied by United States courts, leaving that function without reservation to the World Court. The supreme law of the United States—overriding acts of Congress and of state legislatures, state courts *and the Federal courts*—would then be in the hands of a foreign court, completely untouched by the United States Constitution and completely isolated from and unresponsive to the will of the people of the United States. We would no longer have, in the final and decisive analysis, a constitutional government or one exercising its powers by consent of the governed.

The proposition is utterly unacceptable. We cannot reach any conclusion but that those who press for this step have not stopped to count the cost. Americans, cherishing their freedom, should make very sure that Congress is aware of the true and full effect of the proposed measure, and of the necessity to protect the Constitution from this threat.

If you want to be sure that American justice, American laws and American freedom stay just that—write or wire Senator Fulbright, Senate Office building, Washington, D.C., right away. It is his committee that is holding the hearings.

NIXON PRESIDED HERE

With the signing of the new agreement by steel unions and the industry, there is an announcement of the special benefits which are in addition to the two seven-cent wage increases to be added to the industry average of $3.11 an hour. Since these fringes which included in the "government-recommended" conditions negotiated by Vice President Nixon and Secretary of Labor Mitchell, they are worth noting.

Perhaps the most amazing of all the concessions contained in the steel contract is the one that calls for a "service charge" to the union by non-union members in right-to-work states where laws forbid provisions requiring workers to join the union to hold their jobs. By agreeing to this out-and-out union blackmail, Mr. Nixon not only approved what seems a violation of the national Taft-Hartley law but also a defiance of right-to-work laws in those states where they have been voted. A worker has to pay dues to work under the steel unions whether a member or not. That certainly puts an end to an important freedom.

Another interesting number is the contract requirement which calls for [illegible] ment of 13 weeks "special retirement pay" when a worker retires under the union pension plan. This is estimated to amount to approximately $2000 per qualified person. If that kind of fringe benefit exists anywhere else in the country, it has been kept secret. But with administration approval, this special fringe undoubtedly will become a common union demand.

Mr. Nixon comes from non-union country. Southern California prospered on low, non-union wages. From its general climate came the famed "Grapes of Wrath" story. Even in the last election the Nixon-Knowland forces were aligned with a proposed California right-to-work law which was roundly beaten as was Mr. Knowland. Consequently, it will be interesting to learn the southern California reaction to Mr. Nixon's activity which saw him using his official position to force the steel industry to accept unreasonable and exorbitant union demands.

With the Democratic party labor controlled, and with the fair-haired boy of Republican leaders out-doing the Democrats by considerable distance, there is little question that the country is headed for a labor government. That is, unless there still stirs in the Republican party grass roots the principle and intelligence that will cast off the party leaders and save the nation from a labor nightmare.

Yet the American people are being assailed with a barrage of propaganda to the effect that this country should surrender its sovereignty to the World Court because the President wants [illegible]

This development comes at a time when perhaps the greatest debate on defense concepts in American history—and certainly the most momentous in its implications—is raging.

According to some of our best strategists American military preparations are in a mess and our defense posture will deteriorate within the next few years unless changes are made.

Gen. Maxwell Taylor, who retired as Army chief of staff last year, said Thursday that beginning in 1961, "the tide will run against us" unless "heroic" sacrifices are made for stronger defense. Taylor's specific point is that the Army is being deprived of adequate weapons to fight limited wars.

Our capacity to fight limited wars vigorously and successfully is one vital point in the total defense picture, as Korea proved.

Perhaps even more important is our capacity to deter all-out war. Here also the conflict rages, and on a much larger scale.

The President [illegible] critics of current defense policy stupid. Yet he appointed these men to their high positions. If they are stupid, why did he appoint them? Might they be right and he wrong? They are noted military men, too.

The charge is made that politics is being played with defense on both sides—by the President and his advisers as well as by Democratic senators such as Symington. Are the charges justified?

In the midst of this defense mess—and remembering that defense is the President's strong point—comes this administration-backed effort to delete the Connally amendment from the World Court treaty.

The claque builds up the President as a great expert on foreign affairs, as a great world statesman. But with defense in the mess it is in, why should we take his advice on an issue involving the sovereignty of the United States and the integrity of the American Constitution?

The Federal 'Rigged Election' Plan

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

In presidential elections, Tennessee has become a pivotal state. In 1952, the margin by which the state went for the Republican candidate was less than 5,900 votes. And in 1956, the margin was less than 8,700 votes.

Under our system, all of the electoral votes of a state go to whichever presidential candidate gets the majority of popular votes—whether the margin be one vote or one million votes.

When so much turns on so few votes, politicians make special efforts to get them. And that is something the American p e o p l e—not just Southerners—should consider in relation to the current proposal to violate the Constitution by imposing a system of Federal "registrars" or "referees" upon the election process which the Constitution leaves to state control.

It is suggested that Federal appointees be superimposed upon state election machinery and that they be empowered to grant special registration and voting qualification certificates on grounds of alleged discrimination.

It would be expected that with a Republican Administration in power the "registrars" or "referees" would be predominantly Republicans. If there were a Democratic President, the appointees probably would be predominantly Democrats. In any case, they would be beholden to the Administration in power.

In such a situation, the way would be laid wide open for some of the worst election thievery this nation has ever seen.

Nor is this view one of seeing ghosts under the bed. It has happened before. In the Reconstruction Period following the War Between the States, similar Federal control of elections was imposed upon the South. The result was total desecration of the free election system.

Under the proposed system, look at Tennessee for example. When fewer than 10,000 votes might swing all the state's electoral votes a different way, it would not be surprising to see partisan Federal "registrars" or "referees" act through one means or another to qualify an additional number of voters they have reason to believe would be friendly to their side. Thus could the whole elective process be compromised and thwarted.

It is possible that fraud affects elections in some states now. But elections currently are under the control—as the Constitution provides—of 50 separate state governments. The proposed Federal interference would put elections under *one centralized control.*

And that is the way dictatorship is born.

Using the excuse of protecting the voting rights of a few, the rights of the many could be taken away. Does that mean that violation of the rights of the few should be tolerated? Certainly not. Already, without any new legislative action at all, there are sufficient legal means for anyone unjustly deprived of his vote to go into court on his own volition and obtain his full rights.

The Federal interference plan could doom free elections and bring the denial of the rights of all.

Proposed Force Bill Would Diminish Rights Of Every State In Union

(Reprinted from the Charleston (S.C.) NEWS & COURIER)

In the whole pack of "civil rights" bills, nothing is so underhanded as Atty. Gen. William P. Rogers' proposal for federal voting registrars. Described as a sweeping "new" plan to end discrimination in voting, it is the same force bill fastened on the South during Reconstruction.

Sen. Herman Talmadge (D-Ga) reports that the administration's "new" proposal is almost a word-for-word copy of an 1871 law.

It is hard to believe that Congress would approve a return to Reconstruction. For that is the plain meaning of Mr. Rogers' proposal. Under his plan, federal agents would administer qualification tests for voting and would be on duty in voting places. If a state official thought a person unqualified to vote, and acted on his conviction, he would be haled before a federal judge. He would be subject to punishment for contempt of court—by a judge, without a jury.

As federal judgeships are political appointments, Washington would have firm control over the election process in the states. This would be an open invitation to political abuse.

The Southern states still have large numbers of poorly educated and badly informed Negroes. If these were herded to registration offices by the NAACP and qualified by partisan federal agents, the result could be a crushing blow to responsible government. The bad effect would be felt from the county level up to Congress.

In considering the Rogers proposal, national legislators should bear in mind the administration's contradictory statements. Its foreign policy proclaims non-intervention in the internal affairs of nations. Mr. Eisenhower also expressed reluctance to intervene in the steel dispute, saying that labor and management should work things out. This, too, was a civil rights dispute. At stake was the right of laboring men to earn a living and the right of the steel companies to engage in business.

In the cases of Castro and the United Steelworkers Union, the administration is against intervention. But another policy is in effect for Southern states. These are considered fair game for intervention of the most drastic sort, in violation of constitutional assurances of state sovereignty.

It is hard to believe, we repeat, that Congress truly desires to treat the South as a conquered province. If South Carolina and Mississippi are stripped of the right to regulate elections, how long will it be before Vermont, Colorado or even New York, suffers the same fate?

States rights cannot be diminished south of the Mason-Dixon line without these same rights being diminished elsewhere in the nation. Unless Congress is willing to trade the Constitution for a mess of votes in cities with blocs of herded voters, it will not approve Mr. Rogers' force bill.

For years we have been hearing Southern Democrats react to kicks from the leftwing, radical, NAACP, ADA, Socialist elements of the national Democratic organization by saying, "we must work things out within the framework of the party."

Year by year, the futility of such a thing has become increasingly clear. The lefties do not want to work anything out. They want more of the things that are victimizing the South and constitutional government, not a "compromise." From the South they want only Southern votes--and silent subservience.

But Southern votes provide the South's only weapon--while "work things out within the party" is a hopeless course.

In a close race between a Nixon on one hand and a Kennedy, Symington, Johnson, Humphrey or Stevenson on the other, the Southern electoral votes could hold the balance of power to make the decision. And only when Southerners show they will not go along like a dog on leash will either party give the South consideration that neither gives it now.

Georgia's Legislature recently heard poisoned words from two statesmen of outstanding national stature, Sen. Richard Russell expressed a desire to remain within the Democratic Party but raised the possibility that Georgia and the South might be "forced" out. And Sen. Herman Talmadge declared: "The South has no intention of abandoning its loyalty to the democratic principles that it has ever held, but it owes no loyalty to self-styled Democrats who flout and despise the true democratic faith."

What the lefty-controlled national party organization will do is already irrevocably clear. What the South will do, whether it will accept new assaults upon constitutional principles and mouth words about "working things out within the party," or whether it will stand honorably, independently -- win or lose -- in defense of its principles is the question.

While radical forces are moving in Congress to impose a dangerous, dictatorship-breeding system of Federal election control upon the nation, Sen. Herman Talmadge (Dem., Ga.) has come forward to remind that the proposals are not new. They [illegible] before; they have resulted in massive abuses; they have been discarded after great damage.

Said Sen. Talmadge:

"The only difference between the act passed in 1871 to put state and local election machinery in the receivership of Federal election supervisors and the bill proposed in 1960 to put state and local election machinery in the receivership of Federal election referees are two:

"1. The name has been changed from supervisor to referee; and

"2. The scope has been expanded to include state and local as well as Federal elections.

"In other words . . . the scheme's the same; only the name and the scope have been changed.

"Fortunately for the nation . . . the duplicity in both instances has not long gone undetected.

"It is also fortunate that we have a fully-documented record of the scandals, frauds and abuses which resulted from the application of the first Federal election machinery receivership statute. It is a record of skulduggery and tyranny so nauseous that it prompted a Democratic Congress to repeal the law in 1894.

"The most interesting aspect of the application of that act . . . is that — while it was aimed at disenfranchising Southern Democrats—its use to perpetuate Republican machine control in New York was its undoing. An investigation [illegible] House of Representatives found that the law had been used—and I quote from the Committee Report—'only as part of the machinery of a party to compensate voters who are friendly to it, and to frighten from the polls the voters of the opposing party.'

"There was not a carpetbagger or scalawag in the South whose infamy even remotely approached that of John I. Davenport, Chief Supervisor of Elections for the Southern District of New York, under that act. Davenport personally collected $145,591.68 from the Treasury of the United States during the Republican Harrison Administration for seeing that Republican votes got into the ballot boxes of New York and Democratic votes were kept out."

From time to time abuses may occur under the present system. But those abuses, because they are isolated on local and state level, are limited. The abuses of the Federal control system would be nationwide, and possibly insurmountable. A corrupt national Administration could use a Federal voting control system for its perpetuation and the thwarting of the will of the majority of the people.

This danger is one to be avoided, not only for the sake of the South, but for the sake of the entire nation.

UNITY AND LEADERSHIP

(Reprinted from THE STATE of Columbia, S.C.)

In his enthusiastically received address at the statewide Citizens' Council banquet in Columbia recently, Governor Ross E. Barnett of Mississippi emphasized the need of Southern unity and leadership, a theme often stressed in these editorial columns.

The South is the most abused and maligned political minority in the United States. Under constant and widespread attack and misrepresentation by leftwing forces, this section of the nation has become the red-headed stepchild of the only party to which it gives allegiance.

As we have said before, if it will muster its forces and present a solid front in the Democratic convention this summer, it will shed its defensive role and become a positive political force in the national councils. The South could become the most effective Democratic minority.

But to achieve this goal, as [illegible] the South must have loyal leadership that will remain steadfast in the pursuit of the objectives. It must have leadership that will hold uncompromisingly to conservative, Constitutional government and not capitulate to leftwing elements in return for political favors.

The Southern leadership must go much further. It must provide a rallying point for citizens all over America who would like to resist the radical leftwing program that would debilitate the states, centralize regulation of individuals in an all-powerful, all-pervading federal bureaucracy, and destroy the structure of free enterprise that has made this country economically strong.

"The South must unite," Governor Barnett said, "to use its influence to restore sanity to our national government." If it fails to do this, this year's national party conventions "will degenerate into a contest in which each party tries to outdo the other in submitting the South to abuse, vilification, scorn and contempt."

For years we have been hearing Southern Democrats react to kicks from the leftwing, radical, NAACP, ADA, Socialist elements of the national Democratic organization by saying, "we must work things out within the framework of the party."

Year by year, the futility of such a thing has become increasingly clear. The leftists do not want to work anything out. They want more of the things that are victimizing the South and constitutional governments, not a "compromise." From the South they want only Southern votes -- and silent subservience.

But Southern votes provide the South's only weapon -- while "work things out within the party" is a hopeless course.

In a close race between a Nixon on one hand and a Kennedy, Symington, Johnson, Humphrey or Stevenson on the other, the Southern delegates would hold the balance of power to make the decision. And only when Southerners show they will not go along like a dog on leash will either party give the South consideration that neither gives it now.

Georgia's Legislature recently heard pointed words from two statesmen of outstanding national stature, Sen. Richard Russell expressed a desire to remain within the Democratic Party but raised the possibility that Georgia and the South might be "forced" out. And Sen. Herman Talmadge declared: "The South has no intention of abandoning its loyalty to the democratic principles that it has ever held, but it owes no loyalty to self-styled Democrats who flout and despise the true democratic faith."

What the lefty-controlled national party organization will do is already irrevocably clear. What the South will do, whether it will accept new assults upon constitutional principles and mouth words about "working things out within the party," or whether it will stand honorably, independently -- win or lose -- in defense of its principles is the question.

The Thaddeus Stevens Bill

(Reprinted from THE RICHMOND NEWS-LEADER)

The bill proposed recently by Attorney General Rogers merits the entire country's contempt, but this cannot be a quiet contempt. His bill is the most vicious bill yet drafted by a presumably responsible source in the name of "civil rights." In his most vindictive moments, Thaddeus Stevens could not have conceived a scheme better designed to crush the life out of the State and Federal relationship.

This is Mr. Rogers' doing. Poor Ike! Poor, well-intentioned, uninformed Ike! The pattern of 1957 repeats itself. Three years ago, under prodding, the President confessed his ignorance of the "civil rights" bill then offered in his name.

Now, in 1960, the President is in a fog again. At a recent press conference, Anthony Lewis of THE NEW YORK TIMES recalled Mr. Eisenhower's luke-warm reference to the "Federal registrar" plan in his State of the Union Message. This was the plan - a thoroughly bad and indefensible plan - advanced last year by the Civil Rights Commission. The President was asked if he had any alternative to suggest. He replied:

"Yes, I think that you will -- the Attorney General has another plan that he thinks, within the framework of existing law, will improve very much the procedures that have been followed. And it is somewhat technical, exactly what the jurisdiction and the action possible for judges to take. So I would suggest to get the thing exactly, so it is not subject to misinterpretation, you should go to him, because it is a bit of a -- it is a legalistic amendment that would be difficult for me to describe in detail."

What is the "somewhat technical" scheme, this "legalistic amendment" the President so obviously does not comprehend? The bill envisions these steps:

Whenever it appeared to the Attorney General (and things appear very easily to Mr. Rogers) that "any person," acting under color of law "or otherwise," had engaged, or was about to engage, in any act or practice which would deprive even one Negro of his right to vote in a Federal election, the Attorney General would bring suit in a Federal District Court.

If a Federal judge found that "any person" had intimidated this one prospective Negro voter, the judge would then appoint "one or more" voting referees. The bill contains no limit on the number of such referees the court might appoint, nor any limitation as to the counties and cities in which these referees could operate. The referees would have the same broad powers now vested by Federal practice in special masters and referees in bankruptcy, including the power to issue subpoenas and to demand testimony under oath.

The referees would go forth. They would comb the woods, seeking applications from "any person" who might claim deprivation of his right to vote by reason of race. They would find a "pattern."

In time, the referees would report to the court the names of all persons who in the referees' judgment had been coerced, intimidated, or interfered with in the attempted exercise of their right to vote; and unless the referees' findings were "clearly erroneous" (a phrase that carries heavy weight in Federal practice), the court would approve the referees' report and the persons named therein would be declared "qualified and entitled to vote at any election." The referees (or any other persons appointed for the purpose by the court) would have power to follow through at polling booths, and even power to check the ballots, after ballots had been counted, to make certain the votes cast by the new registrants had been properly counted.

The bill provides, further, that any election official who might refuse to permit such a new registrant to vote, or refuse to count his vote, would be subject to trial "for contempt." This provision is understood to refer to civil contempt, which could mean imprisonment without benefit of a jury trial.

That is Mr. Rogers' "somewhat technical" scheme.

Plainly, the bill would create a specially privileged class of Negro voters, enrolled by referees at their almost unchecked discretion, without the slightest requirement that the referees observe established State franchise laws. These privileged voters, literate or illiterate, would have to be admitted to the polls on election day. And whether they defaced their ballots, or in any other fashion violated the election laws that apply to everyone else, their ballots would have to be counted. The secrecy of elections would be destroyed. Any election judge who failed to comply with the court's decrees could be sent to prison, without a jury trial.

Read this man's "legalistic amendment"! It is a machiavellian bill hatched up by a slick Republican Attorney General, with the unwitting consent of a constitutionally ignorant Republican President, to be enforced by Republican judges. Hail, Mr. Rogers, counselor to the President, Richard Nixon's closest friend! And let us watch leading Democrats hear to the bill's support.

Governor Barnett suggests the Mississippi Democratic National Convention delegation should meet after the national party nominee is selected and "determine the proper course of action."

The South needs to seek an effective course of action--or it will surely see both constitutional government and the South doomed to constant harassment.

Congratulations to Dr. Dodson! He is the first educator honest and realistic enough to put the civil rights matter where it belongs -- in the laps of politicians.

Since 1950 New York city's white population has dropped 600,000, its colored has gone up 320,000. Negroes are now one-third of Manhattan's total population.

Chicago's Negro population has doubled in five years, is now 750,000. Los Angeles' white population gained only 15 per cent from 1950 to 1957, its colored 49 per cent. Philadelphia's Negro vote--in 1950 it was only 75,000--today exceeds 250,000 and is 90 per cent Democratic.

Since the 1930s, the Negro vote has gone solidly (70 to 90 per cent, depending on the election), for the Democratic party.

In the electoral vote for President, the party which gets one-sixth of New York city's vote can swing as much of the total electoral vote as all of Texas, Louisiana and Tennessee combines.

The party which carries Philadelphia by a solid margin probably will carry Pennsylvania; the party which carries Chicago and Harlem probably will carry Illinois and New York. Ditto, Los Angeles and California.

The party winning New York, Illinois, Pennsylvania and California will have 186 electoral votes as a starter.

These four states are worth more electorally than Texas, Arkansas, Alabama, Louisiana, Mississippi, Georgia, Florida, North Carolina, South Carolina and Virginia combined.

It is refreshing for a New York educator to come South and tell exactly what is behind persistent clamor for civil right legislation. The reason is not ideological or spiritual. It is not for the ends of justice. It is for votes.

News From Congo

The civil righters are urging that we abandon our constitutional processes and accept forced race-mixing to impress the rest of the world--particularly the colored peoples who are in vast majority.

These civil righters should be interested in the news release relating to what will happen upon achievement of independence by Belgian Congo June 30.

The 100,000 white residents of the Congo will be denied the right to vote.

For our country, we don't believe in denying the right to vote because of race. Belgian Congo doesn't seem very impressed, or very much interested in trying to impress us. The Congolese are going to run their country the way they want to--and we believe that is their right.

Supreme Court Can Be Controlled

Dan Smoot

(Reprinted from THE DAN SMOOT REPORT)

In this generation, Supreme Court "interpretations" have taken all precise meaning out of our Constitution. This corruption of our organic law has been deliberate and purposeful: that is, the intent of the Supreme Court has been to eliminate all constitutional barriers against converting the American union of sovereign republics into a Socialistic state with all powers centralized in all-powerful government at Washington. The trend began in 1937 after Roosevelt-appointees constituted a majority on the Supreme Court. Roosevelt's appointees to the Supreme Court were New-Deal Socialist revolutionaries - Frankfurter, for example. Truman's appointees were political friends and cronies. Eisenhower's appointments have been the worst of all. Eisenhower's appointee for chief justice--Earl Warren--is the only chief justice in history who had absolutely no previous judicial experience. Indeed, it would have been difficult for Eisenhower to find an adult literate male in the United States who was more ignorant of constitutional law and of basic American political and economic principles than Earl Warren was when Eisenhower appointed him.

In the school segregation decision handed down on May 17, 1954, Warren admittedly read into the Fourteenth Amendment a meaning which was not there but which he thought should be there; overturned all judicial precedent, and reversed a previous decision, citing not law or the Constitution but the psychological opinions of foreign Socialists and domestic Communist-fronters. Since then, the Warren Court has handed down a great number of decisions which: (1) invade the legislative powers of Congress, by giving Congressional Acts a meaning which Congress specifically did not intend; (2) give aid to the sworn enemies of the United States by making it almost impossible for either Federal or State governments to prosecute (or even to withhold special privileges from) known Communists; (3) give aid to these same enemies by making it almost impossible for official agencies to investigate effectively the Communists' treasonable conspiracy against the United States; (4) destroy the sovereignty of the individual States, in violation of the intent and clear meaning of the whole Constitution; (5) invade the domain of private rights which are supposed to be protected by the Bill of Rights--even to the extent of invalidating a private will which had been probated and had stood the test of law for a hundred years.

POPULAR MISCONCEPTION

The American people sit, as if hypnotized by a snake, presuming that nothing can be done about the oligarchy of nine men who have illegally arrogated to themselves the power to make and rewrite laws for this nation. There is an almost universal misconception that the Constitution designates the Supreme Court as the "final arbiter," the last word, on the meaning of the Constitution; and that whatever interpretation the Court may decide to read into the Constitution is "law of the land" from which there is no appeal.

The fact is that the judiciary created by the Constitution is--and was intended to be--the weakest of the three branches of the Federal Government.

On Constitutional questions, the only thing the Supreme Court can do legally is to make a judicial finding as to the original meaning of the particular constitutional provision in question. It was the Constitution which the framers wrote that was adopted by the people, as organic law for this nation; and only the people can legally change it -- by the formal process of amendment which is set out in the Constitution.

SOME REMEDIES

What are our constitutional remedies against the Supreme Court's usurpation of power? Our most obvious remedy is political.

The Constitution clearly and specifically gives Congress the authority to limit and control the appellate jurisdiction of the Supreme Court. Hence, if the people would elect, in 1960, a Congress pledged to curb the tyranny of the Court, it could be done. The 85th Congress in 1958 made a considerable effort to enact legislation which would halt Supreme Court usurpation of power. The effort was defeated by the very men who are prominent now as potential presidential candidates in both political parties: Lyndon Johnson, Richard Nixon, Stuart Symington, Hubert Humphrey, John Kennedy. The people should remember this in 1960.

The people should also remember that the President appoints Supreme Court justices. If we had a President who understands and respects American constitutional principles he could, in due course, appoint to the federal courts patriots who are learned in the law, experienced on the bench, and determined to restore constitutional government.

The people also have a political remedy at the State level: elect Governors and State legislators who have enough brains and learning and character to understand and use the doctrine of interposition, Jefferson and Madison enunciated this doctrine in 1798. Calhoun refined and restated it in the 1820's. It has been invoked by individual States, both North and South, numerous times, it always works; and it is the only constitutional doctrine which enables the people to be the final arbiters, to have the last word.

Here, in essence, is the doctrine of interposition:

When any branch of the Federal Government, in a matter of great importance, does or attempts to do something which is

INFLATION MARCHES ON

A New American Party

(Reprinted from THE KINGSTON (CANADA) WHIG-STANDARD)

The United States is a country devoted to two-party government. There are no fundamental differences between the major political parties — the Republican and the Democratic — corresponding to the differences between the Labour and Tory parties in Britain, for instance. Even such issues as the tariff and the industrialization of the southern states have simply brought the two parties closer together in their views. At one time, the Republicans, mostly in the North and industrial East, called for a high tariff, while the Democrats of the South stood for a tariff for revenue only.

Certainly there are today liberal and conservative Republicans and Democrats (just as there are liberal and conservative Liberals and Conservatives in Canada) but there are few important party differences.

There have always been Americans opposed to this state of affairs. In the elections of 1956, for example, there were the Socialist Party, Socialist Labour Party, Poor Man's Party, Greenback Party and the Prohibition Party. The total vote of these parties was very small.

At the moment there is a movement on foot to whip up enthusiasm for another party in the country. In October some 800 people attended a "New Party Rally" in Chicago and those who support the idea see a "wide, deep, and determined demand for a political party to represent American constitutional principles." There was formed in Chicago an Independent American Federation of State Parties. The aim is to form fifty independent state-wide political parties with complete autonomy in each state. The binding idea is that "political constitutionalists," as they call themselves, are in revolt against what they consider to be the "international socialism" which the Government is committed to.

Because of the federal system, of course, it is necessary to have both state and national organizations for parties. In some states, such as Florida, there are laws against third parties and in others, such as Illinois it is very difficult to meet the legal requirements for third parties. The new group intends to act to get names on the ballot for the 1960 presidential elections in

A REAL CHOICE ?

by John T. Flynn
(From a broadcast on the Mutual Network)

Of course, this subject of foreign handouts is part of a bigger, and tremendously important, subject - the whole question of Federal-Government spending. Undoubtedly this will be one of the big subjects as the presidential campaign gets under way... On this score, nothing illustrates better what has happened to our two-party system. Suppose we had one party which was dedicated to reduced spending, to a balanced budget, to lowering taxes. And suppose the other party said - never mind a balanced budget or a big debt or high taxes; we'll spend on Foreign Aid, domestic handouts, more welfare-statism, if this were the case, voters who felt the prosperity and well-being - even the freedom - of the country depended on sound federal fiscal policies could vote for the first party. Other voters who felt it more important that the government take care of everybody, even at the risk of bankruptcy, could vote for the second party. There would really be a choice.

But, as of now, what happens? Each of the major parties accuses the other of being a spendthrift. And then each tries to outdo the other in proposals for more and more spending. The most serious aspect of the whole drive is that it is eating away at the very foundations of the American Republic. We must always and eternally remember that the Federal Government has nothing. Before it can give, it must take. And in taking so much, it acquires a power over our incomes, and over the sovereign States which are an essential part of our free system. This is a power which was never intended by the founders of the Republic. At the end of this road lies the all-powerful central government in Washington. Once it is complete, we can kiss our freedom - and abundance - goodbye.

Perhaps, the present situation being what it is, the only solution, so far as the coming campaign is concerned, is one suggested by several political observers. It is that the voters pay close attention to their congressional candidates, question them closely, and demand unequivocal answers. Then the voters can vote for those who more closely represent their own views, regardless of party labels. In the end, Congress is equally as important as the President - if not more so. And eventually, if Americans exercise this right of citizenship zealously and attentively, might come new party alignments so that once again free

be mere; overturned all judicial precedent, previous decision, citing not law or the Constitution but the psychological opinions of foreign Socialists and domestic Communist-fronters. Since then, the Warren Court has handed down a great number of decisions which: (1) invade the legislative powers of Congress, by giving Congressional Acts a meaning which Congress specifically did not intend; (2) give aid to the sworn enemies of the United States by making it almost impossible for either Federal or State governments to prosecute (or even to withhold special privileges from) known Communists; (3) give aid to these same enemies by making it almost impossible for official agencies to investigate effectively the Communists' treasonable conspiracy against the United States; (4) destroy the sovereignty of the individual States, in violation of the intent and clear meaning of the whole Constitution; (5) invade the domain of private rights which are supposed to be protected by the Bill of Rights--even to the extent of invalidating a private will which had been probated and had stood the test of law for a hundred years.

POPULAR MISCONCEPTION

The American people sit, as if hypnotized by a snake, presuming that nothing can be done about the oligarchy of nine men who have illegally arrogated to themselves the power to make and rewrite laws for this nation. There is an almost universal misconception that the Constitution designates the Supreme Court as the "final arbiter," the last word, on the meaning of the Constitution and that whatever interpretation the Court may decide to read into the Constitution is "law of the land" from which there is no appeal.

The fact is that the judiciary created by the Constitution is--and was intended to be--the weakest of the three branches of the Federal Government.

On Constitutional questions, the only thing the Supreme Court can do legally is to make a judicial finding as to the original meaning of the particular constitutional provision in question. It was the Constitution which the framers wrote that was adopted, by the people, as organic law for this nation; and only the people can legally change it - by the formal process of amendment which is set out in the Constitution.

SOME REMEDIES

What are our constitutional remedies against the Supreme Court's usurpation of power? Our most obvious remedy is political.

The Constitution clearly and specifically gives Congress the authority to limit and control the appellate jurisdiction of the Supreme Court. Hence, if the people would elect, in 1960, a Congress pledged to curb the tyranny of the Court, it could be done. The 85th Congress in 1958 made a considerable effort to enact legislation which would halt Supreme Court usurpation of power. The effort was defeated by the very men who are prominent now as potential presidential candidates in both political parties: Lyndon Johnson, Richard Nixon, Stuart Symington, Hubert Humphrey, John Kennedy. The people should remember this in 1960.

The people should also remember that the President appoints Supreme Court justices. If we had a President who understands and respects American constitutional principles he could, in due course, appoint to the federal courts patriots who are learned in the law, experienced on the bench, and determined to restore constitutional government.

The people also have a political remedy at the State level: elect Governors and State legislators who have enough brains and learning and character to understand and use the doctrine of interposition. Jefferson and Madison enunciated this doctrine in 1798; Calhoun refined and restated it in the 1820's; it has been invoked by individual States, both North and South, numerous times; it always works; and it is the only constitutional doctrine which enables the people to be the final arbiters, to have the last word.

Here, in essence, is the doctrine of interposition:

When any branch of the Federal Government, in a matter of great importance, does or attempts to do something which is not authorized by the Constitution which created the Federal Government, then each State government has a right, and an obligation, to interpose its own power to protect its own citizens from the illegal acts of the Federal Government. This poses a clash of authority between State governments and the Federal Government. Who is to arbitrate? The Supreme Court? Obviously not: the Supreme Court is an agency of the Federal Government. Congress can let the people arbitrate the question. Congress can propose a Constitutional Amendment, giving the Federal Government the power it has assumed. If the people approve, they can adopt the Amendment; and the Government's unconstitutional acts can be made constitutional and enforceable. If the people do not approve, they can reject the proposed Amendment.

The final remedy--the way to get rid of all present members of the Supreme Court so that they can be replaced with men who understand and respect the Constitution--is to impeach them.

The Constitution says that "all civil officers of the United States shall be removed from office on impeachment for, and conviction of, treason, bribery, or other high crimes and misdemeanors."

Any U.S. Congressman can bring a charge of impeachment against the members of the Supreme Court. I do not know of any facts which would justify impeachment proceedings against any member of the present Supreme Court on the grounds of bribery; but, according to the Supreme Court justices themselves, reasonable impeachment proceedings could be brought against all of them for all the other causes specified in the Constitution.

The essential witnesses needed in impeachment proceedings against the Supreme Court justices would be the justices themselves. The evidence would consist of: (1) the Constitution of the United States; (2) transcripts of Supreme Court split-decisions--decisions in which a majority of the Court held one way, while the minority believed another; and (3) transcripts of the minority opinions, in which the dissenting judges accused their fellow judges of usurpation of power, of invading the constitutional rights of the States, of invading private rights in violation of the Constitutional amendments, of aiding the Communist conspiracy, of violating their oath of office to uphold the Constitution. At one time or another, every justice of the Supreme Court (with the possible exception of the latest appointee, who hasn't been there very long) has been charged with one or all of these grave offenses -- charged officially by his fellow justices in their dissenting opinions.

The new group intends to act to get names on the ballot for the 1960 presidential elections in these states where it is impractable to run candidates for Congress and state officers on a new party ticket. Then, on the state level, the new party will function as a political action group to support "acceptable" democrats or republicans who may be candidates for Congressmen, Senators or Governors.

It will be interesting to see how far this evidently determined and informed group of "constitutionalists" will get. They are violently opposed to American international participation in anything that looks like "socialism" such as foreign aid. They have prepared a careful case and may well be able to influence traditional tendencies towards isolation to be found in the American nation as a whole.

Of course, this subject of foreign handouts is part of a bigger, and tremendously important, subject - the whole question of Federal-Government spending. Undoubtedly this will be one of the big subjects as the presidential campaign gets under way... On this score, nothing illustrates better what has happened to our two-party system. HAVE you ever lived higher on the hog than you're living now?", some friends and critics ask. "What're you so upset about? Relax and enjoy it!"

The road we're traveling is the road to Socialism, insolvency, and surrender. How can we avoid it? We've got to get to the *cause*. The cause of excessive spending, borrowing, and taxing is the huge, complex federal bureaucracy which has mushroomed beyond the control and comprehension of the people.

Did you know that *none* of the $38 billion collected by the federal personal income tax program is used to finance any activity which is authorized by the Constitution? That it doesn't pay a soldier, buy an airplane, or pay a single governmental salary authorized by the Constitution? Third Party Pusher Boo(s)ts Humphrey

(Reprinted from THE SOUTH BEND (Ind.) TRIBUNE)

By JAMES CARROLL
Tribune Political Writer

Kent Courtney prays every night for the Democrats to nominate Sen. Hubert H. Humphrey for president.

KENT COURTNEY

Courtney said his prayers aren't motivated by affection for the Minnesota senator. In fact, Courtney believes Humphrey is "an extremely dangerous socialist-radical."

But Courtney wants the Democrats to nominate Humphrey because it might split the party. That, Courtney believes, will benefit the new, third party movement he hopes to have in high gear by convention time next summer.

Courtney, of New Orleans, is the chairman of the independent American Federation of State Parties. He was in South Bend to organize an Indiana new party movement.

"I don't believe in calling this a third party," said Courtney. "We are building a new conservative party to once again provide Americans with a two-party choice."

Nixon 'Appeases Communists.'

"As things now stand," said Courtney, "a voter merely has a choice on election day between two socialist parties, one called Democratic and the other Republican."

Courtney said Vice-President Richard M. Nixon, the probable Republican presidential nominee, is a "weather-vane" who started out as a conservative and ended up as "chief appeaser of socialistic Communism."

Gov. Nelson A. Rockefeller, of New York, another Republican leader is "even more left-wing and socialist-internationalist than Nixon," in Courtney's opinion.

Courtney sizes up the Democratic hopefuls this way:

Sen. Lyndon Johnson of Texas —poses as a conservative but votes liberal-socialist.

Sen. John F. Kennedy, of Massachusetts — a liberal-socialist who's very soft on Communism.

Adlai Stevenson, of Illinois,— an egghead liberal.

'Protege of Truman.'

Sen. Stuart Symington, of Missouri — a protege of former President Harry S. Truman with a 100 per cent pro-left-wing voting record.

Humphrey — the worst.

Courtney said new conservative parties were on the ballots in 17 states in 1956. He said conservatives in 20 states already are positive of getting on the ballot this year.

In South Bend, Courtney met with Louis J. Hartmann, of 7245 Ford St., and Arthur J. Batchelder, of 725 Orchard St. Hartmann, a commercial artist, will serve as chairman of the committee trying to organize a new party in Indiana. Batchelder, a direct mail advertising specialist, will be executive secretary.

Courtney said Batchelder and Hartmann will work to get a slate of independent electors on the ballot in Indiana next November. He said a 1956 effort to organize a third party in Indiana failed because of "some hanky-panky."

Signatures Disappear.

"Some of the signatures on our petitions disappeared before we could file them with the secretary of state in Indianapolis," said Courtney. "But we're not going to let anything like this happen to us again."

Courtney said he had no plans to talk with Clarence E. Manion, South Bend lawyer and nationally-known conservative, at this time. But Courtney said he has hopes that another Hoosier, former U. S. Sen. William E. Jenner, may eventually seek the third party nomination for president or vice-president.

Other Contenders.

Other possible contenders named by Courtney are Sen. J. Strom Thurmond (D-SC); J. Bracken Lee, mayor of Salt Lake City, former Internal Revenue Commissioner T. Coleman Andrews and Tom Anderson, Nashville publisher.

Courtney said the party at present carries different names in different states. In Indiana, Batchelder said, it probably will be called the American Independent Party.

In Courtney's Louisiana, it's the States Rights Party. Courtney is the party's candidate for governor. [illegible] Perhaps some such an Press has taken place in Louisiana since the troops left. I'm not talking about the troops at Little Rock, either. I mean Gen. Butler's federal troops in the 1860's," said Courtney.

Seek U.N. Withdrawal.

The new party, Courtney said, stands for repeal of the federal income tax, protection of states rights, curbing the power of the Supreme Court and the withdrawal of the United States from the United Nations.

Courtney also opposes civil rights legislation and the [illegible] of "civil wrongs legislation." His list of targets includes UAW president Walter P. Reuther, Soviet Premier Nikita Khrushchev, the U.N., Fidel Castro and the National Assn. for the Advancement of Colored People.

Courtney said the conservative are a majority in the U. S. "This was proven in 1952 when the elected Eisenhower," said Courtney. "And what a mistake that turned out to be. That's why we don't intend to let that happen again. We're going to conspire against the conspirators until we get a man we can trust in the White House."

A REAL CHOICE ?

by John T. Flynn
(From a broadcast on the Mutual Network)

Of course, this subject of foreign handouts is part of a bigger, and tremendously important, subject - the whole question of Federal-Government spending. Undoubtedly this will be one of the big subjects as the presidential campaign gets under way... On this score, nothing illustrates better what has happened to our two-party system. Suppose we had one party which was dedicated to reduced spending, to a balanced budget, to lowering taxes. And suppose the other party said - never mind a balanced budget or a big debt or high taxes; we'll spend on Foreign Aid, domestic handouts, more welfare-statism. If this were the case, voters who felt the prosperity and well-being - even the freedom - of the country depended on sound federal fiscal policies could vote for the first party. Other voters who felt it more important that the government take care of everybody, even at the risk of bankruptcy, could vote for the second party. There would really be a choice.

But, as of now, what happens? Each of the major parties accuses the other of being a spendthrift. And then each tries to outdo the other in proposals for more and more spending. The most serious aspect of the whole drive is that it is eating away at the very foundations of the American Republic. We must always and eternally remember that the Federal Government has nothing. Before it can give, it must take. And in taking so much, it acquires a power over our incomes, and over the sovereign States which are an essential part of our free system. This is a power which was never intended by the founders of the Republic. At the end of this road lies the all-powerful central government in Washington. Once it is complete, we can kiss our freedom - and abundance - goodbye.

Perhaps, the present situation being what it is, the only solution, so far as the coming campaign is concerned, is one suggested by several political observers. It is that the voters pay close attention to their congressional candidates, question them closely, and demand unequivocal answers. Then the voters can vote for those who more closely represent their own views, regardless of party labels. In the end, Congress is equally as important as the President - if not more so. And eventually, if Americans exercise this right of citizenship zealously and attentively, might come new party alignments so that once again free Americans may have a free and definitive choice between the policies and candidates of the two parties.

Poor Economy

It makes little sense to submit to hundreds of billions in Social Security taxes, and then fail to spend a few millions to keep our Strategic Air Force bombers safely in the air alert, to insure that we will still be here to collect the old age benefits.

rights of the States, of invading private rights in Constitutional amendments, of aiding the Comacy, of violating their oath of office to uphold n. At one time or another, every justice of the (with the possible exception of the latest appointee, n there very long) has been charged with one or rave offenses -- charged officially by his fellow r dissenting opinions.

The above article represents excerpts from the issue of THE DAN SMOOT REPORT. Address: P. O. Box 9611, Lakewood Station, Dallas 14. ption rate: $10 for 1 year; $6.00 for six months; nths.)

the federal personal income tax program is used to finance any activity which is authorized by the Constitution? That it doesn't pay a soldier, buy an airplane, or pay a single governmental salary authorized by the Constitution? That it's used to finance 700 tax-free, rent-free, unauthorized-by-the-Constitution government corporations (such as TVA), which lose $9 billion a year? That the Federal Government could operate without the federal personal income tax?

Did you know that our government spends 1,300 times more now than it did in 1940? Have you figured out what the government is doing for you now that it did not do in 1940 that's worth this awful price? And how much more "good" you can *stand* at that rate?

Did you know that the recent great increases in federal spending have been for non-essentials, not for defense? That since 1954, expenditures outside of defense, atomic energy and foreign aid have grown from $19.1 billion a year to $33.4 billion, a 75% increase?

America's Menace: Neutrals, Within and Without

Did you know that the 271 Americans engaged in our ICA giveaway in Pakistan have been provided with 229 cars, 529 refrigerators, 650 stoves and 656 air-conditioners? That these 271 bureaucrats hired 4,021 natives as gardeners, chauffeurs, guards, clerks—and sent the bills to you? That in the past 10 years we have given $1,375,000,000 in aid to socialist-neutralist India and that India takes our gifts and then buys from Russia? That although our federal debt is larger than the combined public debt of all other nations, we are sending foreign aid to 73 of the world's 86 nations? That our past and present foreign aid programs are taking one-out of every five of our personal income tax dollars?

Did you know that 85% of the tax load is carried not by the rich, but by the people who make $6,000 a year or less? That the average American worker who makes around $4,000 a year pays about $1,200 of that in federal, state and local taxes, most of which are *hidden*? Did you know that there are 151 taxes on a loaf of bread? That even if the farmer *donated* his wheat, white bread would sell for 17 cents a loaf?

If your answer to the above is "so what?", then there is no need to finish reading this. If your answer is "Yes, I know it—but what can I do about it?", here's what you can do. Demand that your congressmen work actively to accomplish the following:

Make it illegal, in peacetime, for the Federal Government to spend more than it takes in. Kill federal aid and return to the states or to the people all those powers, rights, privileges and responsibilities not expressly delegated to the Federal Government by the Constitution. Give up all *non-urgent* government spending projects and subsidies. Put all *urgent* projects on a pay-as-we-go basis. Restore the Constitutional checks and balances between the three branches of the Federal Government by curbing the Supreme Court *and* the Executive.

Apply anti-trust laws equally against all monopolies—business, labor and cooperatives—restoring the right to compete in a free market and on an equal basis.

Redouble defense efforts to make America once again invincible. Serve notice now that should America ever face surrender or defeat, our leaders will be tried for treason.

Insist that our foreign policy be for freedom, for right and for America.

Tighten immigration restrictions by strict enforcement of the McCarran-Walter Immigration Act. Kill Civil Service, so a million unnecessary, incompetent and un-American federal employees can be fired.

Get the Government Out, Set the Farmer Free

Repeal the Agricultural Adjustment Act of 1938, as amended, and set the farmer free. Guard the integrity of the dollar just as we do our moral integrity. Support Herman Talmadge's proposed Constitutional Amendment vesting exclusive control of the public schools in the states and local governments. Prohibit mass picketing, violence, coercion, forced union membership, secondary boycotts, industry-wide bargaining, union monopolies, feather-bedding and other make-work rackets.

Teach your children Americanism, old-fashioned patriotism. See that your schools and public libraries have plenty of the books and magazines which unmask the Socialist-Communist conspiracy. Never again vote for lesser of evils. Vote for the best man, regardless of the chances. If no good man is running, try to get one to. Failing that, write-in a name.

See that the libertarian publications are placed in your doctor's waiting room, your library, your barber and beauty shop and other public places.

Read editorial pages, letters to the editor. Learn the true nature of Communism by reading several books on it, like *I Was a Slave In Russia, Witness, The Communist Manifesto, Communism and Christ, Masters of Deceit.* Join the fight with one of the several good libertarian organizations, such as Americans for Constitutional Action, The John Birch Society, Citizens Foreign Aid Committee.

We must use our greatest weapon, spirituality. Horace Greeley said: "It is impossible to mentally or socially enslave a Bible-reading people. The principles of the Bible are the groundwork of human freedom."

It's hopeless? Suppose Washington, at Valley Forge, had taken that position? And Patrick Henry and Thomas Jefferson?

til the new, third party movement he hopes to have in high gear by convention time next summer.

Courtney, of New Orleans, is the chairman of the independent American Federation of State Parties. He was in South Bend to organize an Indiana new party movement.

"I don't believe in calling this a third party," said Courtney. "We are building a new conservative party to once again provide Americans with a two-party choice."

Nixon 'Appeases Communists.'

"As things now stand," said Courtney, "a voter merely has a choice on election day between two socialist parties, one called Democratic and the other Republican."

Courtney said Vice-President Richard M. Nixon, the probable Republican presidential nominee is a "weather-vane" who started out as a conservative and ended up as "chief appeaser of atheistic Communism."

Gov. Nelson A. Rockefeller, of New York, another Republican leader is "even more left-wing and socialist-internationalist than Nixon," in Courtney's opinion.

Courtney sizes up the Democratic hopefuls this way:

Sen. Lyndon Johnson of Texas —poses as a conservative but votes liberal-socialist.

Sen. John F. Kennedy, of Massachusetts — a liberal-socialist who's very soft on Communism.

Adlai Stevenson, of Illinois — an egghead liberal.

'Protege of Truman.'

Sen. Stuart Symington, of Missouri — a protege of former President Harry S. Truman with a 100 per cent pro-left-wing voting record.

Humphrey — the worst.

Courtney said new conservative parties were on the ballots in 17 states in 1956. He said conservatives in 28 states already are positive of getting on the ballot this year.

In South Bend, Courtney met with Louis J. Hartmann, of 724½ Ford St., and Arthur J. Batchelder, of 725 Orchard St. Hartmann, to issue with Clarence E. Manion, South Bend lawyer and nationally-known conservative, at this time. But Courtney said he has hopes that another Hoosier, former U. S. Sen. William E. Jenner, may eventually seek the third party nomination for president or vice-president.

Other Contenders.

Other possible contenders named by Courtney are Sen. J. Strom Thurmond (D-SC); J. Bracken Lee, mayor of Salt Lake City, former Internal Revenue Commissioner T. Coleman Andrews and Tom Anderson, Nashville publisher.

Courtney said the party at present carries different names in different states in Indiana, Batchelder said, it probably will be called the American Independent Party.

In Courtney's Louisiana, it's the States Rights Party. Courtney is the party's nominee for governor. "It's the first time such an event has taken place in Louisiana since the troops left. I'm not talking about the troops at Little Rock, either. I mean Gen. Butler's federal troops in the 1860's," said Courtney.

Seek U.N. Withdrawal.

The new party Courtney said stands for repeal of the federal income tax, protection of states' rights, curbing the power of the Supreme Court and the withdrawal of the United States from the United Nations.

Courtney also opposes civil rights legislation on the ground it "only wrongs legislation." His list of targets includes UAW president Walter P. Reuther, Soviet Premier Nikita Khrushchev; the U.N.; Fidel Castro and the National Assn. for the Advancement of Colored People.

Courtney said the conservatives are a majority in the U. S. "That was proven in 1952 when the elected Eisenhower," said Courtney. "And what a mistake that turned out to be. That's why we don't intend to let that happen again. We're going to organize against the conspirators until we get a man we can trust in the White House."

NEW PARTY ONLY HOPE FOR TAX REFORM - J.B. LEE

(Reprinted from the LEWISTON (Idaho) TRIBUNE)

LOS ANGELES (AP)—A third party is the only hope for federal tax reform, but without an outstanding leader such a party can't get started, J. Bracken Lee said Tuesday.

Lee, former Utah governor, is the newly elected mayor of Salt Lake City. He came here to address the Freedom Club, a civic group which discusses current events.

Of Vice-President Richard Nixon, Lee said: "I couldn't vote for anyone who at one time preach against the New Deal, and t turned right around and adop it."

A long-time foe of federal come taxes, Lee reiterated a p vious prediction that the Ameri public will rebel against inco taxes and put an end to them w in 10 years.

Lee addressed the Freedom C —sponsored by the First Congre tional Church of Los Angeles.

Constitution Party Makes Debut in Texas

AUSTIN —With a platform bannered "The American eagle cannot continue to fly on two left wings," The Constitution Party of Texas Monday made its 1960 bow into state politics.

Party executives voted to hold a state convention in Austin May 30, and vowed to field a "strong slate of candidates for both statewide and local office."

A statewide campaign office will be opened in San Antonio, Bard A. Logan of San Antonio, state executive committee chairman, said.

Repeal Income Tax

Logan said the party polled one out of every 20 votes cast in the 1958 general elections and predicted there would be stronger support in 1960. The party has been active in Texas since 1952.

A party delegation, wearing red-white-and-blue buttons proclaiming "Repeal Income Tax," advised Secretary of State Zollie Steakley they would nominate candidates for office by convention rather than by primary.

In a bulletin to party worke Logan said "The Republican Democratic parties are dead."

"As far as principles are c cerned, it would make just much sense to run as a Whig 1960 as a Republican or Dem crat," Logan said.

End Foreign Aid

The party's platform sta "The Constitution Party is nee to re-establish the two-party s tem and give the voter a cl between platforms rather t just personalities."

Logan said on state's rights, party stands for the constituti principal that each state is ar dependent and sovereign repu with full jurisdiction over things, persons and activities w ing its bounds.

He pointed out the platf urges immediate suspension of relations with communist Ru and withdrawal from the Un Nations.

The platform also calls for end to foreign aid and governm regulation of agriculture.

How to Stop Big Spending

(Reprinted from THE INDIANAPOLIS STAR)

How can the American people stop the ever-growing government spending in Washington? Only by demanding that Congress reduce the taxes it imposes on them. The Congresses of the last 20 years have rarely reduced spending except by reducing taxes.

In 1960 the Federal government will spend over $100,000,000,000 including the $20,000,000,000 for trust funds for highways, social security and the like. Together with state and local taxes, government will take 30 per cent of the nation's income in 1960. The administration has been spending $8,000,000,000 in foreign aid and support programs every year. There is a Federal payroll of over $20,000,000,000. And very little has been done to save the $7,500,000,000 Congress is wasting each year by not putting the saving recommendations of the Hoover Commission into effect.

These tremendous sums of money come from nowhere else but your pocket. By 30 per cent your freedom to spend what you earn has already been taken away from you. The beginning of this fast growing expansion of Federal spending was in 1913, with the imposition of the income tax. The income tax has become since then a vast engine of burgeoning bureaucracy and an engine of government stimulated inflation. It has made possible the government establishment of tax-free businesses and industries that now comprise over 20 per cent of the nation's industrial capacity.

Every American citizen is in debt to the government by $5,700. The average tax load on every American family is $2,400 a year in all forms of taxation. The national debt is $292,000,000,000. IOUs for future payment of veterans and government employes and other retirement programs are another $350,000,000,000. The Federal government is obligated to spend an additional $98,000,000,000 on roads, public works and housing. The real total debt of your government is thus around $750,000,000,000—more than the entire national gross product and almost double the total wages and income of our people.

There is only one way to stop this growing debt, this heavier tax burden, this erosion of the people's right to spend what they earn and to be free from the prying eyes and heavy hand of the tax collector. That is to demand major surgery on the nation's tax structure, not just minor changes that might well be soon changed right back. The income tax is a dangerous tax—as can be seen by its history. It has been made even worse by adding the withholding provision, which not only forces employers to do the government's tax collecting for it—without compensation—but also seizes part of every worker's pay check before he even sees it.

Even another small cut in income taxes is not likely to stop the big flow of our tax dollars to Washington. In 1954 taxes were cut 10 per cent. Yet in 1960 government will collect almost $20,000,000,000 more in taxes than in 1954! The cost of the Federal government has increased by $16,000,000,000 since the Korean War. The national debt has increased by $13,000,000,000.

Government spending is virtually out of control. No real efforts have been made by Congress to cut either spending or taxes. A constant inflation has accompanied this massive Federal spending, cutting the value of our dollars, but not cutting the cost of our taxes. According to the Tax Foundation, a married man with $3,000 in income paid $289 Federal taxes in 1942 when the rates were about the same as today. In 1959 a man with the same income would pay the equivalent of $716 in taxes, when they are adjusted to the rise in consumer prices. Consumer prices have increased by 77 per cent. But this man's taxes have increased by 166 per cent! Inflation, caused by government spending, has in fact become an additional tax on our incomes.

Not only does the income tax seize large chunks of our incomes. It also causes us all extra expenses and extra effort just to figure out our taxes and try to avoid paying more than we owe. This is especially true of corporation income taxes. As Dr. Emerson P. Schmidt has written in "The Annals" of the American Academy of Political and Social Science, "The taxpayer, whether individual or corporate, is increasingly making his business and economic decisions in terms of minimizing his tax burden. This drains energy and ingenuity from constructive economic activity to the negative activities of tax avoidance. . . . Vast armies of high salaried attorneys as well as business executives, devote a prodigious amount of time, energy and resources to minimize the tax burden. A significant reduction or elimination of the corporate income tax would not only reduce this misallocation of resources, but would encourage industrial modernization and new investment which, in turn, would lead to lower real prices." Elimination of the personal income tax would, as we have pointed out, have the same effect.

"The cost of living today is three and one-half times as high as it was just after the turn of the century," says the Institute of Life Insurance. "By a striking coincidence, total government spending has risen three and three-quarters times as fast as economic activity during this period (which coincided with the life of the income tax)." Not only has inflation resulted, but "considering today's tax burden and its impact on savings, capital formation and incentive, excessive growth of government spending tends to become a drag on the growth of the economy rather than a stimulus."

WHY SHOULD TAXPAYERS FINANCE AN AIRLINE ?

(Reprinted from THE INDIANAPOLIS STAR)

Most taxpayers will be surprised to learn that the Federal government now operates the biggest airline in the world—the Military Air Transport Service, MATS, as it is generally known, publishes regular schedules, employs hostesses, serves meals and uses equipment identical with that of private competitors.

Senator Mike Monroney of Oklahoma recently pointed out in a Senate speech that 93 per cent of military passenger service and 89 per cent of military cargo traffic move in areas served by commercial airlines. But MATS proposes to allow only 37 per cent of its passengers and 10 per cent of its cargo traffic to go by commercial carriers. It will carry 63 per cent of the passengers and 90 per cent of the cargo in its own planes.

These passengers and these cargoes are exactly the same sort that the commercial airlines carry. The passengers are officers and men being sent overseas; the cargoes are foodstuffs and clothes and other necessities for their subsistence. MATS could route virtually all of them over commercial lines, thus leaving itself free for its primary mission of providing an airlift for military emergency and for its secondary mission of carrying oversized, explosive or classified cargo to destinations that could not otherwise be reached. Today, because MATS is so busy running a commercial airline, the Air Force does not have the military airlift needed to move and supply a single division overseas.

This is not a question of reducing the total military and commercial air service. It is a question of distribution. In case of war the private carriers would be taken over by the government just as they were in World War II. But in time of peace there is no need for the Federal government to run the equivalent of a commercial airline, any more than there is reason for it to run a railroad system. We believe it is high time for MATS to arrange an orderly transfer of its routine peacetime function to the civil airlines, and apply its own energies to the basic task of military airlift. Such a program would save the taxpayers dollars (because commercial carriers operate more efficiently) and it would strengthen the military posture of the United States in case a brush-fire war requires MATS suddenly to perform its military airlift mission.

In the Service of the State

Few supposed, when the Government's first got into farming, that it would lead to the costly, scandalous Federal regimentation we have today. Or that, when Washington first started helping the housing industry, the result would be tantamount to Government dictation of the housing market.

The list could be continued. It reveals a rule almost without exception: What the Government undertakes to help it ends up, in greater or lesser degree, running. That is all but inevitable in the nature of Government.

And so it will be with education if the proponents of large-scale Federal intrusion in this field have their way. They did, indeed, get part of their way recently when the Senate approved a far-reaching program to provide $1.8 billion in grants for teachers' salaries and school construction over a two-year period.

Now we are well aware that some people think Federal control of education would be a good thing. Also, that others scoff at the idea of Federal control coming in the wake of Federal aid... When the Federal Government is laying out billions for school construction and teachers' salaries, you may be sure the Federal Government is going to have its say.

It should not be imagined, however, that Federal control means Washington would immediately start dictating curricula, methods and political approach in schools throughout the land. These things work in subtler ways than that.

What this form of Federal interference would offer, in the first instance, is a vastly improved forum for one or another of the great school lobbies; the forum would be the Congress and the offices of the managers of the aid program - much easier to handle than thousands of individual school boards. And some of these professional education pressure groups have very definite ideas about methodology and political content, ideas against which many school boards today are rebelling because the results have been so bad.

Thus Federal control is a gradual, and consequently insidious, process. But let us carry it a step further into the future (maybe not too far at that). Suppose (it is not difficult) an Administration and Congress dominated by men bent on centralizing and solidifying the power of the State. These men would not hesitate to use their power over the schools as a means of indoctrinating future citizens in their views.

It can't happen here? Well, it's been happening for some time, thanks to the political power of the pressure groups....

The great defense, the only real defense, against such indoctrination lies in local control of the school system. Even then the infiltration occurs, but the diversity and freedom of the school districts makes it possible for them to change course when they recognize mistakes. Just such change - in a variety of forms but in the general direction of getting back to the fundamentals of education - is now taking place all over the country....

It is said that the Senate vote on this particular bill was in part a political device - designed, if the measure should get through the House, to elicit a veto from the President and thus make an election-year issue. That is undoubtedly true, but it should not cause anyone to overlook the much more serious point, which is that there are many men in our country who would like to put education at the service of an all-powerful State.

Education is indeed, in the broadest sense, a political issue. It is far too important to be entrusted to Washington politicians.

'Right to Work'

(Reprinted from FORT WAYNE NEWS-SENTINEL)

We commented the other day on the subject, "Honesty and 'Right-to-Work' Law," in which we observed that if Indiana's "Right to Work" Law is so inimical in the rank and file Hoosier workingman, as some big union bosses claim, that it is only a matter of elemental honesty that they cite "chapter and verse--name and address," as to just who has actually been hurt by this law in the approximately two years that it has been in effect. This, the proponents of "repeal" of the "Right to Work" Law have significantly failed to do.

We also made the observation that the traditional American right of freedom of choice--the right to belong or not to belong, the right to differ, the right to have a real undominated opportunity to have a voice as to one's leadership and reorganization in whatever is near and dear to us, is inextricably involved in the "Right to Work" Law.

Now there is another subject which we believe is entitled to equally fair and impartial consideration. We shall call it "The Economy and 'Right to Work'." It is as vitally important to the employee in industry as it is to everyone who is inextricably a part of our economy, which, of course, is all of us.

The "Right to Work" issue has assumed national importance, with the eyes of the entire nation, industrially, focussed upon Indiana. Keeping this law on the statute books of Indiana, has assumed the same importance at a state level, that the Taft-Hartley Law has attained nationally. To our knowledge, just as in the case of the Indiana "Right to Work" Law, no big labor leader has ever yet recited "chapter and verse--name and address" of any rank and file union member who has been hurt by the Taft-Hartley Law in the years it has been in effect.

The same tactics are being employed by certain big labor bosses in the attempt to get the Indiana "Right to Work" Law repealed as have been used in ineffectual efforts to get the Taft-Hartley Law wiped off the federal statutes. Should efforts to repeal prove successful, Indiana, understandably, would be labelled nationally as "unfriendly to business and industry," and all of us, most importantly, industrial workers among us, stand to be badly hurt, as a result.

Well indeed, may the intelligent union member weigh any harm that some labor leader may allege, but fails to document specifically, has resulted from the "Right to Work" Law, against the disastrous effect its repeal would [illegible] industry decli[illegible] elsewhere. family is $2,600 a year in all forms of taxation. The national debt is $282,000,000,000. IOUs for future payment of veterans and government employes and other retirement programs are another $350,000,000,000. The Federal government is obligated to spend an additional $98,000,000,000 on roads, public works and housing. The real total debt of your government is thus around $750,000,000,000—more than the entire national gross product and almost double the total wages and income of our people.

There is only one way to stop this growing debt, this heavier tax burden, this erosion of the people's right to spend what they earn and to be free from the prying eyes and heavy hand of the tax collector. That is to demand major surgery on the nation's tax structure, not just minor changes that might well be soon changed right back. The income tax is a dangerous tax—as can be seen by its history. It has been made even worse by adding the withholding provision, which not only forces employers to do the government's tax collecting for it — without compensation — but also seizes part of every worker's pay check before he even sees it.

Even another small cut in income taxes is not likely to stop the big flow of our tax dollars to Washington. In 1954 taxes were cut 10 per cent. Yet in 1960 government will collect almost $20,000,000,000 more in taxes than in 1954! The cost of the Federal government has increased by $16,000,000,000 since the Korean War. The national debt has increased by $13,000,000,000.

Government spending is virtually out of control. No real efforts have been made by Congress to cut either spending or taxes. A constant inflation has accompanied this massive Federal spending, cutting the value of our dollars, but not cutting the cost of our taxes. According to the Tax Foundation, a married man with $3,000 in income paid $269 Federal taxes in 1942 when the rates were about the same as today. In 1959 a man with the same income would pay the equivalent of $716 in taxes, when they are adjusted to the rise in consumer prices. Consumer prices have increased by 77 per cent. But this man's taxes have increased by 166 per cent! Inflation, caused by government spending, has in fact become an additional tax on our incomes.

Not only does the income tax seize large chunks of our incomes. It also causes us all extra expenses and extra effort just to figure out our taxes and try to avoid paying more than we owe. This is especially true of corporation income taxes. As Dr. Emerson P. Schmidt has written in "The Annals" of the American Academy of Political and Social Science, "The taxpayer, whether individual or corporate, is increasingly making his business and economic decisions in terms of minimizing his tax burden. This drains energy and ingenuity from constructive economic activity to the negative activities of tax avoidance. . . . Vast armies of high salaried attorneys as well as business executives, devote a prodigious amount of time, energy and resources to minimize the tax burden. A significant reduction or elimination of the corporate income tax would not only reduce this misallocation of resources, but would encourage industrial modernization and new investment which, in turn, would lead to lower real prices." Elimination of the personal income tax would, as we have pointed out, have the same effect.

"The cost of living today is three and one-half times as high as it was just after the turn of the century," says the Institute of Life Insurance. "By a striking coincidence, total government spending has risen three and three-quarters times as fast as economic activity during this period (which coincided with the life of the income tax)." Not only has inflation resulted, but "considering today's tax burden and its impact on savings, capital formation and incentive, excessive growth of government spending tends to become a drag on the growth of the economy rather than a stimulus."

Every attempt to make a major reduction in spending and taxing has failed—except in 1946 when the "do nothing Congress" reduced both substantially. It is obvious that merely to try to change the income tax structure will achieve little. Only a bold and all-out attack on the income tax aiming at its abolition can do this. This is the key to the whole problem.

tion. In case of war the private carriers would be taken over by the government just as they were in World War II. But in time of peace there is no need for the Federal government to run the equivalent of a commercial airline, any more than there is reason for it to run a railroad system. We believe it is high time for MATS to arrange an orderly transfer of its routine peacetime function to the civil airlines, and apply its own energies to the basic task of military airlift. Such a program would save the taxpayers dollars (because commercial carriers operate more efficiently) and it would strengthen the military posture of the United States in case a brush-fire war requires MATS suddenly to perform its military airlift mission.

In the Service of the State

Few supposed, when the Government first got into farming, that it would lead to the costly, scandalous Federal regimentation we have today). Or that, when Washington first started helping the housing industry, the result would be tantamount to Government dictation of the housing market.

The list could be continued. It reveals a rule almost without exception: What the Government undertakes to help it ends up, in greater or lesser degree, running. That is all but inevitable in the nature of Government.

And so it will be with education if the proponents of large-scale Federal intrusion in this field have their way. They did, indeed, get part of their way recently when the Senate approved a far-reaching program to provide $1.8 billion in grants for teachers' salaries and school construction over a two-year period.

Now we are well aware that some people think Federal control of education would be a good thing. Also, that others scoff at the idea of Federal control coming in the wake of Federal aid.... When the Federal Government is laying out billions for school construction and teachers' salaries, you may be sure the Federal Government is going to have its say.

It should not be imagined, however, that Federal control means Washington would immediately start dictating curricula, methods and political approach in schools throughout the land. These things work in subtler ways than that.

What this form of Federal interference would offer, in the first instance, is a vastly improved forum for one or another of the great school lobbies: the forum would be the Congress and the offices of the managers of the aid program - much easier to handle than thousands of individual school boards. And some of these professional education pressure groups have very definite ideas about methodology and political content, ideas against which many school boards today are rebelling because the results have been so bad.

That Federal control is a gradual, and consequently insidious, process. But let us carry it a step further into the future (maybe not too far at that). Suppose (it is not difficult) an Administration and Congress dominated by men bent on centralizing and solidifying the power of the State. These men would not hesitate to use their power over the schools as a means of indoctrinating future citizens in their views.

It can't happen here? Well, it's been happening for some time, thanks to the political power of the pressure groups....

The great defense, the only real defense, against such indoctrination lies in local control of the school system. Even then the infiltration occurs, but the diversity and freedom of the school districts make it possible for them to change course when they recognize mistakes. Just such change - in a variety of forms but in the general direction of getting back to the fundamentals of education - is now taking place all over the country....

It is said that the Senate vote on this particular bill was in part a political device - designed, if the measure should get through the House, to elicit a veto from the President and thus make an election-year issue. That is undoubtedly true, but it should not cause anyone to overlook the much more serious point, which is that there are many men in our country who would like to put education at the service of an all-powerful State.

Education is indeed, in the broadest sense, a political issue. It is far too important to be entrusted to Washington politicians.

Now there is another subject which we believe is entitled to equally fair and impartial consideration. We shall call it "The Economy and 'Right to Work'." It is as vitally important to the employee in industry as it is to everyone who is inextricably a part of our economy, which, of course, is all of us.

The "Right to Work" issue has assumed national importance, with the eyes of the entire nation, industrially, focussed upon Indiana. Keeping this law on the statute books of Indiana, has assumed the same importance at a state level, that the Taft-Hartley Law has attained nationally. To our knowledge, just as in the case of the Indiana "Right to Work" Law, no big labor leader has ever yet recited "chapter and verse - name and address" of any rank and file union member who has been hurt by the Taft-Hartley Law in the years it has been in effect.

The same tactics are being employed by certain big labor bosses in the attempt to get the Indiana "Right to Work" Law repealed as have been used in ineffectual efforts to get the Taft-Hartley Law wiped off the federal statutes. Should efforts to repeal prove successful, Indiana, understandably, would be labelled nationally as "unfriendly to business and industry," and all of us, most importantly, industrial workers among us, stand to be badly hurt, as a result.

World Must Be Made Aware That Monroe Doctrin Is Still In Force

(Excerpts from FT. LAUDERDALE (FLA.) NEWS)

WITH the nearby island of Cuba moving closer and closer to an outright communistic form of government, and with Soviet Russia engaged in what appears to be an all-out attempt to establish firm cultural and trade ties with the Castro regime, our own nation may soon be faced with a situation where, for our own protection, we will again have to restate the principles of the Monroe Doctrine.

It will be recalled that it was back in 1823 when President James Monroe, reacting to attempts of European powers to colonize parts of North and South America, laid down the principles of what soon became known as the Monroe Doctrine.

This doctrine declared that "the American continents, by the free and independent condition which they have assumed and maintain, are henceforth not to be considered as subjects for future colonization by any European powers." The doctrine further went on to state that if any European power tried to interfere with the American governments, the United States would consider it an unfriendly act "dangerous to our peace and safety."

That some clear-thinking Americans in high places are aware of what is going on, and are ready to take action to meet this threat, is evident from the fact that there has already been introduced in Congress a resolution which would apply the of the Monroe Doctrine to the present-day in the Americas.

Proposed by Rep. Craig Hosmer of Calif resolution sets forth these principles:

FIRST, it recognizes the vital danger to all nations of a direct or indirect interve International Communism into any of them

Second, it reaffirms the Monroe Doctrine's warning nations to keep "hands-off" the two American continents

Third, it applies the Monroe Doctrine to Internat munism, whether operating openly or under subversive

Fourth, it labels any direct or indirect intervention national Communism anywhere in the New World as peace and security of all American states, justifying exercise of these nations' inherent rights of self-defense

Fifth, it authorizes immediate individual or collective action by the American nations to forestall subversive by International Communism anywhere in the Americ

Sixth, it provides for an inter-American administra American nation so rescued from International Commun restoration to its citizens of a government of the pe people and for the people.

This is a strong resolution and one which some m bit too strong considering our own reluctance to use affairs of other nations. Yet, certainly, we cannot ignore that is arising at our back door, and if things continu the very least that should be done is to sharply remind al of the world that the Monroe Doctrine is still in force, a to it, we won't hesitate to take action in support of it

'Right to Work'

(Reprinted from FORT WAYNE NEWS-SENTINEL)

We commented the other day on the subject, "Honesty and 'Right-to-Work' Law," in which we observed that if Indiana's "Right to Work" Law is so inimical to the rank and file Hoosier workingman, as some big union bosses claim, that it is only a matter of elemental honesty that they cite "chapter and verse--name and address," as to just who has actually been hurt by this law in the approximately two years that it has been in effect. This, the proponents of "repeal" of the "Right to Work" Law have significantly failed to do.

We also made the observation that the traditional American right of freedom of choice--the right to belong or not to belong, the right to differ, the right to have a valid undominated opportunity to have a voice as to one's leadership and representation in whatever is near and dear to us, is inextricably involved in the "Right to Work" Law.

Now there is another subject which we believe is entitled to equally fair and impartial consideration. We shall call it "The Economy and 'Right to Work'." It is as vitally important to the employee in industry as it is to everyone who is inextricably a part of our economy, which, of course, is all of us.

The "Right to Work" issue has assumed national importance, with the eyes of the entire nation, industrially, focussed upon Indiana. Keeping this law on the statute books of Indiana, has assumed the same importance at a state level, that the Taft-Hartley Law has attained nationally. To our knowledge, just as in the case of the Indiana "Right to Work" Law, no big labor leader has ever yet recited "chapter and verse--name and address" of any rank and file union member who has been hurt by the Taft-Hartley Law in the years it has been in effect.

The same tactics are being employed by certain big labor bosses in the attempt to get the Indiana "Right to Work" Law repealed as have been used in ineffectual efforts to get the Taft-Hartley Law wiped off the federal statutes. Should efforts to repeal prove successful, Indiana, understandably, would be labelled nationally as "unfriendly to business and industry," and all of us, most importantly, industrial workers among us, stand to be badly hurt, as a result.

Well indeed, may the intelligent union member weigh any harm that some labor leader may allege, but fails to document specifically, has resulted from the "Right to Work" Law, against the disastrous effect its repeal would have because of industry decisions to locate elsewhere. Very obviously any "victory" which might be won by labor thereby, would be a very empty one indeed if union members find themselves with no place to work as a result.

Graphic proof of how important it is for a community, city or state to have conditions under which industry can thrive is the result of an "Economic Climate Survey," conducted last year by the Fort Wayne Chamber of Commerce in which nearly 200 major employers participated. In this survey, every national firm now operating in Fort Wayne indicated that a favorable legislative climate was one of the most important factors in management decisions to expand or locate new plants. Special emphasis was expressed on Indiana's "Right to Work" Law and its reasonable unemployment compensation laws, as a definite plus factor in future management plans.

Incidentally, this survey has been acclaimed nationally as the most comprehensive undertaking of its kind in the nation. Needless to say, officers and members of the Fort Wayne Chamber were profoundly impressed with this evidence of just how important factors like the above are in a city's ability to keep valuable industries and to attract new ones.

The implications of this on the economy of a community are not only just in providing ample employment for the community's people, but also in the great help the people get in financing their essential public services, by the augmented tax revenues which business and industry can provide when conditions are conducive to their profitable operation and expansion.

This is particularly important at this time when legislators are stressing the need for much more money for education, welfare, and many other services for the people of the state.

In addition to this interest in the economy of their community, union members of course cannot help but be interested in the fact that the only effective control that can be exercised over the leadership of any organization is the right of its members to disaffiliate, as numerous local unions here and elsewhere have "disaffiliated" in protest over leadership policy and tactics. Surely, rank and file union members should have the same right.

This, and the salutary effect it has on the economy of the community and state, are the big reasons why the Indiana "Right to Work" Law should be retained.

Don't You Want To Keep Your Job, Mr. American?

(Reprinted from THE INDIANAPOLIS STAR)

The steel industry is not alone in being hit hard by foreign competition, particularly in exports. Now the clothing industry faces a real challenge from European and Japanese clothing manufacturers. S. J. Capelin, industrial engineer and management consultant, points out that "the curve of efficiency and output in Europe (in the clothing business) continues to rise at a more rapid rate than the wage structure." In the United States, however, "productivity has leveled off while the curve of wages continues to rise." High labor costs in the U.S. plus obsolete work rules have hindered the introduction of new and more efficient methods. But in Europe, "The market for American goods . . . is definitely shaken by the ability of European manufacturers to *increase output while decreasing costs*."

What is the result? American manufacturers are losing business and lost business means lost jobs for American workers. American manufacturers have to meet this stiff competition, which combines European automation plus lower wage rates. If they cannot keep wage rates down in the U.S. because of union monopoly pressures, what do they do? They build plants abroad and export to Europe the jobs that Americans would otherwise have. Then they import these European made goods into the U.S. to compete with the higher priced but similar American goods. This again costs American workers their jobs.

At the same time the United States government, through its foreign aid program, *encourages* American manufacturers to build plants abroad. The foreign aid program provides them with buildings, gives them financial aid, and long term credits — all of which comes out of the pockets of the American worker whose job is being endangered by foreign workers who are paid only about one third of American wage rates! This is not only ridiculous. It is dangerous.

Other industries are being affected by these twin forces—labor monopoly and foreign aid. In 1950 the umbrella industry in the United States sold 96 per cent of the umbrellas bought in the U.S. In 1958 they had lost half of their market and were down to 47.3 per cent. Japan, to whom U.S. taxpayers still give economic and military aid, got almost all the rest of the umbrella business. An American industry lost half of its sales. American labor lost a comparable amount of jobs.

Already in certain fields the vaunted American standard of living is being outpaced in Europe. It takes an American white collar worker 8 hours to earn enough to pay for an average pair of shoes. It takes the West German only 6 hours to buy the same kind of shoes even at his lower wage—because prices are so much lower! What good is the high American wage when prices outpace wages so greatly?

Labor leaders not only foster the wage price cycle, they also support, most of them, the foreign aid program! We sometimes wonder who they think they are supposed to be working for. The effect of both of their policies is to lose American jobs to foreign workers.

The State Department, doing the same thing, is actually subsidizing European competition for American jobs. Not only are we still giving military foreign aid to European nations which are today richer than they have ever been. We also station our own troops and equipment there to defend them when they are perfectly capable, financially at least, of defending themselves. Let them pay the bills for their defense and stop putting it on the American worker's tax bill. It was one thing to help make it possible for Europe to recover from war destruction. It is another to help Europe take away American markets and American jobs with American taxpayers' money!

If American union leaders and union members don't wake up pretty soon it will be too late. The markets will be lost. The jobs will be gone. The task of regaining both will be done only at the heavy cost of lower wages and greater automation which could mean a drastic, if temporary, loss of even more jobs!

We suggest to union members and workers all over the nation that they do two things. Demand that their leaders stop forcing wage rates up faster than productivity increases to keep prices down. Demand that their government stop subsidizing foreign competition for American jobs through economic and military foreign aid. The sooner the better.

Walter Reuther acknowledges that the unions are "going backward."

"We represent in organization a smaller percentage of the work force of the United States than we did 10 years ago," he stated recently.

The remedy Reuther plans is a new unionizing attack on the South.

We call to Mr. Reuther's attention a sales approach used by many retail grocers today. The grocers find customers more anxious to trade with them when they make it easier to enter and to leave their establishments. They install electric-eye doors.

Mr. Reuther, on the contrary, tries to force his customers to enter, and will not allow them to leave. Even the Federal law is rigged to aid and abet Reuther's use of force to achieve union membership.

We think Mr. Reuther would do better if he installed an electric-eye door, so to speak, on union membership. Who would trade with a grocer who uses Reuther's tactics?

Foreign Motor Mogul

(Reprinted from the CHATTANOOGA NEWS-FREE PRESS)

It's argued that U.S. taxpayers must give four billion dollars a year in aid to foreign countries. Does that mean those countries, doing their best, can't collect sufficient taxes from their own people?

Sen. Stephen M. Young (Dem., Ohio) pointed out a specific case in Italy, Giovanni Agnelli is president of Fiat Motor Co. He will be required by Italy to pay only 15 per cent income tax on his $638,000 income for the past year.

Americans who are being taxed to aid Italy, however, will have to pay much more. Americans in the lowest tax bracket will pay 20 per cent tax. And those in Mr. Agnelli's bracket will pay 91 per cent.

Americans are getting skinned and played for suckers. But almost Mr. Agnelli is paying 15 per cent. Millions of citizens of European countries don't declare and pay taxes at all because foreign tax collection systems aren't so efficient as the U.S. Internal Revenue Service.

When you pay your income tax, remember that billions of American dollars are going to help foreign countries that won't tax their own people to help themselves.

Just such change - in a variety of forms but in the general direction of getting back to the fundamentals of education - is now taking place all over the country....

It is said that the Senate vote on this particular bill was in part a political device - designed, if the measure should get through the House, to elicit a veto from the President and thus make an election-year issue. That is undoubtedly true, but it should not cause anyone to overlook the much more serious point, which is that there are many men in our country who would like to put education at the service of an all-powerful State.

Education is indeed, in the broadest sense, a political issue. It is far too important to be entrusted to Washington politicians.

(From the WALL STREET JOURNAL)

resentation in whatever is best and dear to us, is inextricably involved in the "Right to Work" Law.

Now there is another subject which we believe is entitled to equally fair and impartial consideration. We shall call it "The Economy and 'Right to Work'." It is as vitally important to the employee in industry as it is to everyone who is inextricably a part of our economy, which, of course, is all of us.

The "Right to Work" issue has assumed national importance, with the eyes of the entire nation, industrially, focussed upon Indiana. Keeping this law on the statute books of Indiana, has assumed the same importance at a state level, that the Taft-Hartley Law has attained nationally. To our knowledge, just as in the case of the Indiana "Right to Work" Law, no big labor leader has ever yet recited "chapter and verse--name and address" of any rank and file union member who has been hurt by the Taft-Hartley Law in the years it has been in effect.

The same tactics are being employed by certain big labor bosses in the attempt to get the Indiana "Right to Work" Law repealed as have been used in ineffectual efforts to get the Taft-Hartley Law wiped off the federal statutes. Should efforts to repeal prove successful, Indiana, understandably, would be labelled nationally as "unfriendly to business and industry," and all of us, most importantly, industrial workers among us, stand to be badly hurt, as a result.

Well indeed, may the intelligent union member weigh any harm that some labor leader may allege, but fails to document specifically, has resulted from the "Right to Work" Law, against the disastrous effects its repeal would have on the economy of the state.

Incidentally, this survey has been acclaimed nationally as the most comprehensive undertaking of its kind in the nation. Needless to say, officers and members of the Fort Wayne Chamber were profoundly impressed with this evidence of just how important factors like the above are in a city's ability to keep valuable industries and to attract new ones.

The implications of this on the economy of a community are not only just in providing ample employment for the community's people, but also in the great help the people get in financing their essential public services, by the augmented tax revenues which business and industry can provide when conditions are conducive to their profitable operation and expansion.

This is particularly important at this time when legislators are stressing the need for much more money for education, welfare, and many other services for the people of the state.

In addition to this interest in the economy of their community, union members of course cannot help but be interested in the fact that the only effective control that can be exercised over the leadership of any organization is the right of its members to disaffiliate, as numerous local unions here and elsewhere have "disaffiliated" in protest over leadership policy and tactics. Surely, rank and file union members should have the same right.

This, and the salutary effect it has on the economy of the community and state, are the big reasons why the Indiana "Right to Work" Law should be retained.

A LABOR BOSS ADMITS

Walter Reuther acknowledges that the unions are "going backward."

"We represent in organization a smaller percentage of the work force of the United States than we did 10 years ago," he stated recently.

The remedy Reuther plans is a new unionizing attack on the South.

We call to Mr. Reuther's attention a sales approach used by many retail grocers today. The grocers find customers more anxious to trade with them when they make it easier to enter and to leave their establishments. They install electric-eye doors.

Mr. Reuther, on the contrary, tries to force his customers to enter, and will not allow them to leave. Even the Federal law is rigged to aid and abet Reuther's use of force to achieve union membership.

We think Mr. Reuther would do better if he installed an electric-eye door, so to speak, on union membership. Who would trade with a grocer who uses Reuther's tactics?

through its foreign aid program, encourages American manufacturers to build plants abroad. The foreign aid program provides them with buildings, gives them financial aid, and long term credits — all of which comes out of the pockets of the American worker whose job is being endangered by foreign workers who are paid only about one third of American wage rates! This is not only ridiculous. It is dangerous.

Other industries are being affected by these twin forces—labor monopoly and foreign aid. In 1950 the umbrella industry in the United States sold 98 per cent of the umbrellas bought in the U.S. In 1958 they had lost half of their market and were down to 47.3 per cent. Japan, to whom U.S. taxpayers still give economic and military aid, got almost all the rest of the umbrella business. An American industry lost half of its sales. American labor lost a comparable amount of jobs.

Already in certain fields the vaunted American standard of living is being outpaced in Europe. It takes an American white collar worker 8 hours to earn enough to pay for an average pair of shoes. It takes the West German only 6 hours to buy the same kind of shoes even at his lower wage—because prices are so much lower! What good is the high American wage when prices outpace wages so greatly?

Labor leaders not only foster the wage price cycle, they also support, most of them, the foreign aid program! We sometimes wonder who they think they are supposed to be working for. The effect of both of their policies is to lose American jobs to foreign workers.

The State Department, doing the same thing, is actually subsidizing European competition for American jobs. Not only are we still giving military foreign aid to European nations which are today richer than they have ever been. We also station our own troops and equipment there to defend them when they are perfectly capable, financially at least, of defending themselves. Let them pay the bills for their defense and stop putting it on the American worker's tax bill. It was one thing to help make it possible for Europe to recover from war destruction. It is another to help Europe take away American markets and American jobs with American taxpayers' money!

If American union leaders and union members don't wake up pretty soon it will be too late. The markets will be lost. The jobs will be gone. The task of regaining both will be done only at the heavy cost of lower wages and greater automation which could mean a drastic, if temporary, loss of even more jobs!

We suggest to union members and workers all over the nation that they do two things. Demand that their leaders stop forcing wage rates up faster than productivity increases to keep prices down. Demand that their government stop subsidizing foreign competition for American jobs through economic and military foreign aid. The sooner the better.

Foreign Motor Mogul

(Reprinted from the CHATTANOOGA NEWS-FREE PRESS)

It's argued that U.S. taxpayers must give four billion dollars a year in aid to foreign countries. Does that mean those countries, doing their best, can't collect sufficient taxes from their own people?

Sen. Stephen M. Young (Dem., Ohio) pointed out a specific case in Italy. Giovanni Agnelli is president of Fiat Motor Co. He will be required by Italy to pay only 15 per cent income tax on his $638,000 income for the past year.

Americans who are being taxed to aid Italy, however, will have to pay much more. Americans in the lowest tax bracket will pay 20 per cent tax. And those in Mr. Agnelli's bracket will pay 91 per cent.

Americans are getting skinned and played for suckers. But at least Mr. Agnelli is paying 15 per cent. Millions of citizens of European countries don't declare and pay taxes at all because foreign tax collection systems aren't so efficient as the U.S. Internal Revenue Service.

When you pay your income tax, remember that billions of American dollars are going to help foreign countries that won't tax their own people to help themselves.

arby island of Cuba moving closer and an outright communistic form of gov- with Soviet Russia engaged in what s an all-out attempt to establish firm trade ties with the Castro regime, our ay soon be faced with a situation where, rotection, we will again have to restate of the Monroe Doctrine.

The doctrine further went it if any European power tried to inter- American governments, the United onsider it an unfriendly act "dangerous nd safety."

e clear-thinking Americans in high re of what is going on, and are ready to meet this threat, is evident from the has already been introduced in Con- gress a resolution which would apply the principles of the Monroe Doctrine to the present-day situation in the Americas.

Proposed by Rep. Craig Hosmer of California this resolution sets forth these principles:

FIRST, it recognizes the vital danger to all American nations of a direct or indirect intervention by International Communism into any of them.

Second, it reaffirms the Monroe Doctrine's warning to European nations to keep "hands-off" the two American continents.

Third, it applies the Monroe Doctrine to International Communism, whether operating openly or under subversive disguise.

Fourth, it labels any direct or indirect intervention by International Communism anywhere in the New World as a danger to peace and security of all American states, justifying immediate exercise of these nations' inherent rights of self-defense.

Fifth, it authorizes immediate individual or collective self-defense action by the American nations to forestall subversive intervention by International Communism anywhere in the Americas.

Sixth, it provides for an inter-American administration of any American nation so rescued from International Communism pending restoration to its citizens of a government of the people, by the people and for the people.

This is a strong resolution and one which some may feel is a bit too strong considering our own reluctance to meddle in the affairs of other nations. Yet, certainly, we cannot ignore the menace that is arising at our back door, and if things continue to worsen the very least that should be done is to sharply remind all the nations of the world that the Monroe Doctrine is still in force, and if pushed to it, we won't hesitate to take action in support of its principles.

The Big Decision

The Story of Matt Cvetic

Matthew Cvetic was a placement interviewer with the U.S. Employment Service in Pittsburgh when war broke out in Europe in 1939. That was when he made application to serve with U.S. Army Intelligence. Cvetic waited two years for his answer. In 1941 he received notice of his rejection due to failure to meet height requirements. Within a few weeks of receiving his rejection notice, Matt Cvetic was quietly contacted by the FBI and asked to serve as an undercover agent in the Communist party.

It is a moot question whether Cvetic would have made THE BIG DECISION which he made if he had known that his service to his country would extend for nine long years - four years after World War II was over. During these years, all of his friends as well as his family were to desert him; his twin sons were to reject him; and his mother was to go to her grave in the heartbreaking belief that her son had betrayed his adopted country.

During the years between 1941 and 1950, Matt Cvetic, as a member of the American Communist party, attended more than 3,000 secret meetings with Soviet agents and American Communists. Finally, in 1950, he was called upon to come forth and identify Communist agents for our Congressional investigating committees. He appeared in more than 55 Congressional and judicial proceedings. His testimony furnished incontrovertible proof not only that countless American Communists, whom he identified, were attempting to overthrow the government by force and violence, but also that American Communists are closely supervised and under the discipline of Soviet Russia.

Rep. Burr P. Harrison of Virginia, one of the many Congressional committee members who extended statements of appreciation to Matthew Cvetic, stated, "I wish that every American could have the benefit of your testimony."

Today Matthew Cvetic has made his testimony available to the American people in his book THE BIG DECISION. Read this "stranger than fiction" account of one man's outstanding courage and self-sacrifice in service to America.

False Advertising

(Excerpts from an editorial by John S. Knight, Editor and Publisher of THE MIAMI HERALD)

We have, not two opposing political parties with each dedicated to a set of principles, but two philosophically indistinguishable parties committed to much the same course.

Should Nixon become President, he will be no less "liberal" in his outlook than Jack Kennedy, Stuart Symington or Adlai Stevenson.

The Vice President has other attributes which are greatly admired. But the fund solicitors who entreat the business man to kick in liberally to "stop socialism" with a Republican President are unintentionally guilty of false advertising.

Walter Finds Many Blind to Red Threat

Representative Francis E. Walter asserted on Monday that "such groups as the American Association of University Professors, some Justices of the Supreme Court and highly placed policy makers in the Executive branch of Government do not or will not understand" the threat of Communism.

The Pennsylvanian who is chairman of the House Committee on Un-American Activities, did not name individuals in his statements, made before the National Society of New England Women at the Waldorf-Astoria Hotel.

Mr. Walter castigated the "appalling gullibility of the leadership of the free world" in the face of the Communist technique, which he compared to the technique of judo.

It is, he said, "the principle of making use of an opponent's strength and weight to throw him."

Only 200 Out Of 40,000

The real purpose of conferences and hearings in our national government is to find out facts. Sometimes finding them is not easy.

Take a recent White House session as reported by HUMAN EVENTS.

Secretary of Health, Education and Welfare Arthur S. Fleming put on a big pitch for Federal aid to education, insisting that many school districts throughout the country are "in trouble."

Sen. Everett Dirksen wanted something definite: "Mr. Secretary, how many school districts in the country are in trouble?"

Mr. Fleming, after hesitation, answered: "About 200."

Then Sen. Dirksen asked: "And how many school districts are there altogether in the whole country?"

It was Mr. Fleming's time again: "About 40,000."

Sen. Dirksen had succeeded in getting the matter into proper proportion, hardly indicating a need for dangerous, costly, Federal intervention.

Aid to Reds

Despite the vast waste that has been demonstrated as a fault of the foreign giveaway programs which have taken about 60 billion dollars from the American taxpayers, the aid proponents claim they are keeping countries from going Communist.

But in the handout of American tax money to Poland, they can't make that claim. Poland is not Communist by choice of its people. Nor does Poland have "Tito-type" Communism. The Reds are in power in Poland because of Russian power, and that is all.

Yet, the United States is preparing another 40-million dollar handout to the Polish Communist governments. It will bring the total of American aid to Polish Reds to nearly one-third of a billion dollars.

Thus we have subsidized Communist domination of Poland.

FOREIGNERS CLAIMING OUR GOLD RESERVE

(From a broadcast by Dean Clarence Manion on the Manion Forum Network)

Some of the ironic side effects of our big Foreign Give-away would be amusing if they were not tragically serious. Consider these, for instance, which I have taken from the facts and figures supplied by the Citizens' Foreign Aid Committee.

Many of the foreign governments now receiving our "foreign aid" no longer need the dollar credits represented by our continued generosity. Altogether, foreign governments have accumulated nineteen billion dollars worth of these dollar credits in this country.

Please remember that these governments can collect these credits in gold at any time from our storehouse at Fort Knox, a privilege incidentally which is denied to American citizens.

TODAY, OUR GOLD RESERVE SUPPLY STANDS AT 19 BILLION, 600 MILLION DOLLARS. IN OTHER WORDS, IF THE FOREIGNERS SUDDENLY DEMANDED ALL THE GOLD TO WHICH THEIR ACCUMULATED DOLLAR CREDITS NOW ENTITLE THEM, WE WOULD HAVE JUST 800 MILLION DOLLARS IN GOLD LEFT TO SUPPORT OUR 140 BILLION DOLLARS IN BANK DEPOSITS AND CIRCULATING MEDIA WHICH WE USE FOR MONEY IN THIS COUNTRY.

According to Congressional law, we should have at least 11 billion dollars in gold reserve to support our present volume of circulating media. Instead of eleven billion, we have a mere six hundred million when foreign claims are subtracted from our present gold stock.

Can you imagine how much confidence will remain in the American dollar, here and around the world, when and if foreign gold claims are suddenly redeemed?

Why do the foreign governments leave their gold here under these uncertain circumstances? The answer is they haven't been leaving it here. They drew off three billion, three hundred and 60 million of it in 1958 and 1959.

Our Government is now pleading with them to leave their gold in America and thus prevent the collapse of the American dollar. Of course, it will cost the foreign governments money to transport their gold abroad and to store it after it gets there. What is the alternative for them? Why, our Federal bonds, of course.

As of last October, United States Government bonds held by foreigners amounted to eleven billion, three hundred and eleven million dollars, (Federal Reserve Bulletin, December 1959, pages 1548 and 1555) Of this amount, 9 billion, 397 million was in treasury bills and certificates of less than one year maturity.

These bills and certificates are currently being offered by our Treasury to yield 5 per cent interest. Thus apparently the Eisenhower Administration is glad to pay approximately 450 million dollars annually to the foreign investors in our Treasury bills and certificates, if that will keep our foreign friends happy enough to leave their gold at Fort Knox.

Follow this closely, please: Our Government borrowed this money originally in order to give it away to these same foreign governments. There are 82 billions of these "Foreign Aid" borrowings now traceable into our 290 billion Federal debt. Interest has been running on most of that 82 billion for many years. Now, the foreign recipients are buying our Treasury bills with the money we gave them as "foreign aid" and collecting 450 million more from you and all American taxpayers as interest on the same money.

Please remember that the destruction of the American dollar in ruinous inflation is the prime objective of our Communist enemies.

Do you know of anybody in his right mind who would borrow money in order to give the money to you and then proceed to borrow the money back from you at the highest rate of interest he has ever paid.

This is what is now known as "Foreign Aid."

Planners Would Cut Defense

The National Planning Association feels that U.S. defense spending should undergo a big cut in order that we may reduce taxes, and so that our economic resources can be directed toward "urgent peacetime tasks."

They caution, however, that careful planning is required in changing over from our present economy to an economy based on limited disarmament. They further state that this will require comprehensible planning to meet all emergencies.

The appealing bait dangled before the eyes of the American public by the planners in order to "sell" them on disarmament and reducing defense expenditures is "tax reduction." Why, then, do they not plead also for cutting out foreign aid giveaways; for reducing welfare expenditures, for return to a sound economy; for reducing the national debt? No, all these wild-eyed planners propose is to reduce our defenses!

If we allow birds of this feather (ostriches?) to plan for us, we had better be prepared for the costliest emergency in American history. As columnist Holmes Alexander stated recently, "There's still a war on, brother!"

MORE AND MORE

Was it really necessary for the Federal Government to have 24,025 more employes last month to do its work than were needed the month before? And what about next month? Each month, the number of employes of Federal bureaucracy goes up and up -- at higher and higher cost to the taxpayers. That's one reason taxes are so high.

Now there are 2,375,382 Federal employes. According to last month's rate, about 800 more are added each day.

PRESUMED DEA

Because American GI's captured in Korea weren't "heard of" for a year and a day, 450 of our boys have been written off by the Defense Department as "Presumed Dead," under the arbitrary Missing Persons Act.

Last October, ARGOSY magazine published a documented article charging that many of our Korean fighters, America's forgotten heroes, are known by name and serial number to be alive and in Communist prison camps.

Spokesmen for the State Department and Defense Department, replied to ARGOSY's charge, in effect, that "since the Reds say they don't have them, there's no evidence they're alive."

A follow-up story in ARGOSY's February issue, written by Edward J. Mowery, reports that a "fighting-mad public" is joining the battle to free the hundreds of GI's still held by Chinese Reds.

As recently as 1957, Congress called for presidential action to "make return of 450 American prisoners....still imprisoned by Communist forces, the foremost objective of (U.S.) foreign policy."

President Eisenhower stated in 1959: ".....We have had..... continuous discussions with the Chinese Communists trying to make them disclose where our prisoners were held...We have gotten back a few and there are still some left there." (Emphasis ours.)

Through World War II, and up to the present time, American taxpayers have had to pay patent rights to the British for use of mid-air refueling techniques and equipment. But, strangely enough, the equipment for which we pay these patent rights to the British was developed in 1928 by our own American military personnel!

Captain Ira Eaker (later a General, and now vice president of Douglas Aircraft Corp.) was pilot of the plane named the "Question Mark" in 1928 when his crew developed the mid-air refueling technique. Among members of the "Question Mark" crew were Carl A. Spaatz and Elwood Quesada, both later to serve as Generals. General Quesada is now director of the Federal Aviation Agency.

Captain Eaker and his crew were ineligible to receive patent rights on the mid-air refueling technique under old patent laws because they were members of the armed services, using government equipment in a military experiment. The British patented the process, and even

Waste in Defense Spe

One of the favorite subjects of the Big Spenders in Congress is to repeat over and over how many billions of dollars are needed for defense. No right-thinking American citizen would advocate denying his government all funds needed for necessary defense. However, are all of these billions of dollars actually being used for defense, or is an alarming amount being wasted?

For example, government auditors of the General Accounting Office last year revealed the following: The Air Force was caught in the act of spending more than half a million dollars too much fo

Through World War II, and up to the present time, American taxpayers have had to pay patent rights to the British for use of mid-air refueling techniques and equipment. But, strangely enough, the equipment for which we pay these patent rights to the British was developed in 1928 by our own American military personnel!

Captain Ira Eaker (later a General, and now vice president of Douglas Aircraft Corp.) was pilot of the plane named the "Question Mark" in 1928 when his crew developed the mid-air refueling technique. Among members of the "Question Mark" crew were Carl A. Spaatz and Elwood Quesada, both later to serve as Generals. General Quesada is now director of the Federal Aviation Agency.

Captain Eaker and his crew were ineligible to receive patent rights on the mid-air refueling technique under old patent laws because they were members of the armed services, using government equipment in a military experiment. The British patented the process, and even

One of the favorite subjects of the Big Spenders in Congress is to repeat over and over how many billions of dollars are needed for defense. No right-thinking American citizen would advocate denying his government all funds needed for necessary defense. However, are all of these billions of dollars actually being used for defense, or is an alarming amount being wasted?

For example, government auditors of the General Accounting Office last year revealed the following: The Air Force was caught in the act of spending more than half a million dollars too much for

The Costs of "Non-Recurrence"

One of the reasons it is so difficult even for a President to reduce spending is the manner in which bureaucracy manipulates those items it likes to call "non-recurring."

The way it works is this:

A department will request money for construction or some other expenditure that by its nature is not likely to recur next year. The "one-shot" expenditure increases the agency's budget by, say, $10 million.

The next year this particular $10 million will not again be an expenditure, but the bureaucrats don't want to give up the $10 million, so they try to spend it, usually by increasing some service that does recur every year.

A year or so later, along comes another "non-recurring" expenditure, and it is added to a budget that is all locked up, so that year spending rises again. And so on and on and on.

For anyone who doubts that bureaucrats operate in that manner, we recommend a glance at the 1961 Department of Health, Education and Welfare budget authorizations and expenditures. What will he see?

Well, first off he will see some pleasant words, a promise of less spending: "The budget recommends $3,431,000,000 in new obligational authority for 1961, a decrease of $56 million from 1960 and an increase of $176 million over 1959."

But a further look shows that this 1961 "decrease" in obligational authority could have been $139 million instead of $56 million, inasmuch as the 1960 budget contained that total for grants for schools for children of servicemen, grants to build waste treatment facilities, and grants for hospital construction. Uncle Sam isn't going to build those identical things again in 1961, so those costs are non-recurring.

But that amount wasn't "saved" for the taxpayers at all; some of it goes for an increase in "environmental health activities," some for a little more construction, and $40 million of it for an increase in public assistance grants which, as everyone knows, can be expected to recur as surely as the first of every month.

And the feeling of decreased costs disappears altogether, when one turns from the authorizations to the actual expenditures column. That shows that estimates for 1961 spending are $3.5 billion compared to 1960's $3.4 billion.

Or, as the budget says quite honestly, "Expenditures in 1961 are estimated at $3,517,000,000, an increase of $100 million over 1960 and $425 million over 1959."

And we think we need remind no taxpayer that, despite the argument that this or that item will only increase the budget temporarily because it is "non-recurring," it's the spending figure that the taxpayer pays. And this one increases as often as it recurs.

PRESUMED DEAD

Because American GI's captured in Korea weren't "heard of" for a year and a day, 450 of our boys have been written off by the Defense Department as "Presumed Dead," under the arbitrary Missing Persons Act.

Last October, ARGOSY magazine published a documented article charging that many of our Korean fighters, America's forgotten heroes, are known by name and serial number to be alive and in Communist prison camps.

Spokesmen for the State Department and Defense Department, replied to ARGOSY's charge, in effect, that "since the Reds say they don't have them, there's no evidence they're alive."

A follow-up story in ARGOSY's February issue, written by Edward J. Mowery, reports that a "fighting-mad public" is joining the battle to free the hundreds of GI's still held by Chinese Reds.

As recently as 1957, Congress called for presidential action to "make return of 450 American prisoners.....still imprisoned by Communist forces, the foremost objective of (U.S.) foreign policy."

President Eisenhower stated in 1959. ".....We have had..... continuous discussions with the Chinese Communists trying to make them disclose where our prisoners were held...We have gotten back a few and there are still some left there." (Emphasis ours.)

God give us men in days like these! What has America come to that a former General in our Army, now Chief of our Armed Forces, would "write off" the life of even one of our fighting men on the basis of inconclusive evidence!

ARGOSY magazine and Edward J. Mowery deserve high commendation for their persistence on this vital issue.

If President Eisenhower, instead of wining and dining Khrushchev, would sever relations with Soviet Russia and all satellite countries until Red China satisfactorily accounted for each and every one of these American soldiers, our foreign policy would command the respect of the world - a respect which presently is not only lacking, but has not been earned.

President Eisenhower, both as our President and as Commander in Chief of our Armed Forces should be held fully accountable to the families of our fighting men and to the people of America for each and every boy and girl serving our country in time of war! American families whose sons enter the service, either willingly or under forced draft, should have the assurance that the loved ones who are risking their lives for this country, will have the FULL FORCE of our Government and its officials behind each and every soldier!

It was Teddy Roosevelt who said "Speak softly - but carry a big stick!" It appears that the symbol of our diplomacy today is the golf stick!

The Open Gate in Defense

Through World War II, and up to the present time, American taxpayers have had to pay patent rights to the British for use of mid-air refueling techniques and equipment. But, strangely enough, the equipment for which we pay these patent rights to the British was developed in 1928 by our own American military personnel!

Captain Eaker and his crew were ineligible to receive patent rights on the mid-air refueling technique under old patent laws because they were members of the armed services, using government equipment in a military experiment. The British patented the process, and even today sells refueling equipment to the United States through a Baltimore subsidiary of Flight Refueling, Ltd.

The National Aeronautics and Space Act, passed by Congress in 1958, corrected the law to allow patents on equipment conditional on the right of the Federal Government to use such methods without patent charges. THE CHANGE IN PATENT LAWS DOES NOT APPLY TO EQUIPMENT DEVELOPED FOR SPACE, WHICH IS STILL GOVERNED BY LAWS IN EFFECT IN 1928.

General Elwood Quesada has pointed out that under current conditions, Soviet Russia can patent American space equipment. This will once again leave the American taxpayer "holding the bag." We could be forced to pay patent rights to Soviet Russia for space equipment developed with our tax dollars by American scientists.

That is - if Soviet Russia would permit us to use the equipment at all!

Waste in Defense Spending

One of the favorite subjects of the Big Spenders in Congress is to repeat over and over how many billions of dollars are needed for defense. No right-thinking American citizen would advocate denying his government all funds needed for necessary defense. For example, government auditors of the General Accounting Office last year revealed the following: The Air Force was caught in the act of spending more than half a million dollars too much for electronic communications equipment; a $100,000 discrepancy was found in a General Motors contract with the Air Force which led to a refund; the Mechanicsburg, Pa., Naval Supply Depot was prevented from scrapping more than half a million dollars in usable equipment.

If you think this waste of the taxpayers' money is appalling, you might stop for a moment to consider the probable waste which the GAO did NOT uncover! The GAO, after all, employs only a small number of investigators in comparison to the size of the defense establishment.

SOLID SOUTH ... From Page 1

leaders that "loyalty" to the anti-South Northern Democrat Party will not be tolerated.

This, then, is one purpose of THE SOLID SOUTH CONFERENCE AND RALLY.

CAN THE SOUTH SUPPORT LYNDON JOHNSON?

"Party loyalists" in the South are squirming as they unanimously try to hold to the fanciful view that Lyndon Johnson is a "conservative". However, as we go to press, Lyndon Johnson, the Texas "Sidewinder", has just begun to show the abysmal depths to which he intends to sink as he, impelled by all-consuming personal ambition, maneuvers to ram a totally unconstitutional Civil Rights Bill through the Senate in order to obtain Northern bloc votes for his nomination.

And yet, strange to say, there are still some "party loyalists" in the South who say that they will support "Sidewinder" Johnson for President!

EXPOSING THE RECORDS OF ALL PRESIDENTIAL CANDIDATES

Another purpose of THE SOLID SOUTH CONFERENCE and RALLY will be to expose the radical leftwingism and anti-South record of ALL candidates for President. This, we feel, is something that all voters should know when the "party loyalists" of both parties attempt to get the voters to "go along" with the candidates selected by two rigged conventions.

WILL IT BE HUMPHREY?

Most Southern politicoes, even the most ardent "party-loyalists" have stated that they couldn't support Hubert Humphrey for President. They thought they were "safe" in this statement because they figured that Humphrey didn't have a chance. But now they "like"?

HUMAN EVENTS, the authoritative newsletter from Washington, D.C., recently commented on how Hubert Humphrey, the most rabid of the leftwing Socialists, "stole the show" at a recent Democrat conclave in New Mexico, and then HUMAN EVENTS stated that this was not surprising because "the powerful and shrewd Walter Reuther strategists are pushing Hubert Humphrey and the rise of Humphrey is going 'according to plan'."

THE SOUTH COULD BE THE RALLYING POINT

If the Conservatives in the South will form a solid CONSERVATIVE VOTER BLOC and reject any candidate nominated by the Northern Liberals who control the Democrat Party....then THE SOUTH COULD PROVE TO BE THE RALLYING POINT FOR THE CONSERVATIVES OF THIS NATION - North, East and West!

CONSERVATIVE ACTION MUST BE NATIONAL

In order for the CONSERVATIVE VOTER BLOC to be effective it must be NATION-WIDE, operating from a base of Constitutional principles, with a platform of reducing the power of the Federal Bureaucracy, preserving States' Rights, reducing the Big Spending policies of both old parties - which will RESULT IN A TAX CUT FOR ALL CITIZENS, and halting the dangerous Communist-appeasing policies of both old parties.

SOLIDIFY THE SOUTH

In order to achieve a rallying point for ALL Conservatives throughout the nation, it is imperative that first the SOUTH BECOME SOLIDIFIED as a CONSERVATIVE VOTER BLOC.

That is the ultimate aim of THE SOLID SOUTH CONFERENCE AND RALLY to be held in Jackson, Miss., May 6-7, 1960.

How Loyal is Kennedy?

Carefully cultivating his presidential backing among the liberal Democrats, Sen. John F. Kennedy (Dem., Mass.) has announced he will press for early congressional action to repeal the law that requires students receiving taxpayers' money for scholarships in the name of defense to pledge American allegiance and to affirm they are not and have not been devoted to violent overthrow of the United States Government.

Even more important than the loyalty provisions of the defense scholarship act is this proof of Sen. Kennedy's eagerness to bend before the leftwingers who cry out against any step to protect America from Communist activity.

If Sen. Kennedy will bend on this issue, he might be expected to bend on others. And that could be extremely dangerous if he were President. We have only to remember that President Truman, catering to the lefties, called the case of Alger Hiss a "red herring." We do not want another President so responsive to the left.

Sen. Kennedy's stand shows clearly what elements have his ear, and to what demagogic lengths he is willing to go to to gain and hold their support.

Deplores 'Pussyfooting'

Recalling Winston Churchill's statement in 1947 that passage of the U.S. Neutrality Act 10 years earlier was one of the causes of World War II, giving Hitler the [illegible] recently cautioned that "this is no time to 'pussyfoot'" in Cuba....

Bridges proposed that tourist trade with Cuba should be halted and that we should cut off all purchase of sugar from that country. This would not be interference in the internal affairs of another country, but rather, as Senator Bridges emphasized, would "shock" the Cuban people into effecting a change in the pro-[illegible] regime.

There's only one thing wrong with Bridges' suggested solution to the problem. It takes a backbone than the State Department seems to possess.

The Conservative Side Of The News Now Available For Your Area

The Radio Edition of THE INDEPENDENT AMERICAN can be heard in your town each and every week. You can influence the thinking of thousands of your friends and neighbors when you help to have the RADIO EDITION OF THE INDEPENDENT AMERICAN broadcast over a radio station in your town.

The cost of sponsoring radio programs is very inexpensive. In some cases the managers of the radio stations have agreed to play these radio programs of news from the Conservative point of view as a public service; all the committee had to do, was to call on the owner and manager of the Radio Station and tell them that this program is available free of charge when played as a public service. This is the case in Gainesville, Florida, and in Selma, Alabama!

Write to us today for some samples of our recent radio programs on tape. Full details on how you can help get the conservative side of the news on your radio station will be sent to you by return mail!

PRESSURES APPLIED TO TRY TO STOP "THE SOLID SOUTH RALLY"

Dear Subscriber:

We have just published the March-April issue of THE INDEPENDENT AMERICAN which you should receive within the next week. It is chock-full of news concerning the latest political developments which we feel will result in the "lock-out" of Southern Conservative Democrats from the Nominating Convention and the subsequent nomination of an INDEPENDENT CONSERVATIVE CANDIDATE to head a slate of Independent Electors who will be on the ballot in the States throughout the nation.

During the past 3 weeks I have had personal conferences with Congressmen William Jennings Bryan Dorn of South Carolina, John Bell Williams of Mississippi and William Colmer of Mississippi (all of whom I interviewed and tape-recorded for broadcast over THE RADIO EDITION OF THE INDEPENDENT AMERICAN Network).

While in Washington, I also interviewed several prominent Republican Congressmen. In the past two weeks I have interviewed and visited with Governor Orval Faubus of Arkansas, and Governor Ross Barnett of Mississippi. The ideas expressed in this letter concerning the desirability of independent Conservative political action are the result of my conferences with the political leaders mentioned above, plus telephone interviews with Conservative leaders throughout the country.

THE SOLID SOUTH CONFERENCE AND RALLY

You will recall that the February issue of THE INDEPENDENT AMERICAN announced that we were sponsoring THE SOLID SOUTH CONFERENCE AND RALLY to be held in Jackson, Miss., the first week of May.

Well, it now appears that the scheduling of THE SOLID SOUTH RALLY, with its avowed aim of revealing the anti-South, pro-Socialist, "soft-on-Communism" voting records of all Democrat candidates, has caused great consternation and fear in Democrat policy-making circles. Also, it is clear that Sen. Lyndon Johnson, Democrat majority leader in the Senate, and dispenser of Federal "Aid" to the States, holds incalculable power over Congressional delegations.

SOUTH TURNS ON LYNDON JOHNSON

A large number of Southern Congressmen and Senators hoped, prior to February 15, that they could somehow manage to stay within the Democrat Party despite the anti-South policies of Paul Butler. The South planned to support Lyndon Johnson of Texas for President. However, on February 15 Lyndon Johnson, now a self-styled Westerner, stabbed the South in the back by sneaking the Civil Rights bill onto the floor of the Senate, thus proving conclusively how valueless Southern Chairmanships are! (You will recall that the December-January issue of THE INDEPENDENT AMERICAN predicted that such a maneuver would take place!)

(You will recall that the December-January issue of THE INDEPENDENT AMERICAN predicted that such a maneuver would take place!)

The result of Lyndon's trickery was that the editorials of Conservative Southern newspapers immediately blasted Lyndon Johnson, called him a "traitor to the South", etc. etc. Further, and more importantly, these Conservative Southern newspapers began to turn their attention to the Independent Elector Plan as a "way out" for the South - now that all Democrat presidential hopefuls were of the Liberal, left-wing stripe. Each day sees these Southern Newspapers, who influence millions of readers, come closer and closer to the position that there must be an INDEPENDENT PRESIDENTIAL CANDIDATE!

These Southern editorial blasts at Lyndon Johnson triggered a series of events which will have far-reaching effects.

Peter Edson, the nationally syndicated columnist printed a story about THE SOLID SOUTH RALLY which we will sponsor and dubbed it a "Get-Johnson Meeting."

BUTLER SAYS "SIGN LOYALTY OATH OR NO SEATS"

At this point, Paul Butler, rabid anti-South National Chairman of the Democrat Party did two things: First, he made a statement indicating that Senator John Kennedy was his first choice to get the Democratic presidential nomination; Butler then informed the South that only those delegations would be seated which would sign a pledge, in writing, to support any Democrat candidate chosen by the Democrat nominating convention.

BUTLER INVITES PARTY-LOYAL "RUMP" DELEGATIONS

Paul Butler realized that delegations from certain Southern States were planning to "walk out" of the Convention. Butler countered this strategy on March 28 by inviting party-loyal Democrats in these Southern States to set up rival delegations to attend the Democrat Nominating Convention.

Overnight, "fifth column" Democrats in the South who had been awaiting Butler's signal, began to openly organize their previously underground operations. In every Southern State where provisions had been made for independent (uncommitted) Democratic electors, new "Butler brigades" have been formed. In Virginia, it's called the "Straight Ticket Committee." In Louisiana, these "fifth column" Democrats travel under the name of United Democrats of Louisiana (UDOL) and comprise some of the most extreme Liberal elements in the State. The UDOL is a group which is completely under the domination of Walter Reuther and the AFL/CIO's COPE.

BUTLER "UNWITTINGLY" AIDS INDEPENDENT ELECTOR PLAN

Paul Butler has revealed the future strategy of both old parties. In other words, if the views held by a State delegation to a nominating convention differ from the established pre-packaged position of the nominating convention, then a "rump" delegation will be seated to "rubber-stamp" the unrepresentative actions of the national nominating conventions.

Needless to say, Butler's latest move proves what THE INDEPENDENT AMERICAN has been maintaining since July 1955 - which is that the strangle-hold by the Socialists on both the Democrat and the Republican parties is now so complete that any hope the Conservative element may have of "recapturing" their party is utterly futile.

Paul Butler, by his actions, is unwittingly playing into the hands of the Independent Elector--Independent Candidate movement, because he will cause a permanent split in the Democratic party and this permanent split between the Liberals and the Conservatives in the South can spread overnight throughout the nation! We are planning the SOLID SOUTH RALLY for the purpose of providing a means by which the Independent Elector plan can be firmly established in the minds of Conservative politicians in both the North and the South.

"STOP SOLID SOUTH RALLY" PRESSURE BEGINS

As you can see from the above, the South is in a turmoil.....

Several weeks ago I telephoned Gov. Ross Barnett of Mississippi and asked for an appointment. He was most cordial. The purpose of my visit with Gov. Barnett (who had in February made a rousing speech in New Orleans urging a Southern walk-out) was to invite him to participate in THE SOLID SOUTH RALLY which we were sponsoring in his capital city, Jackson, Mississippi, to support the very views he had so courageously stated in his New Orleans speech.

However, by the time our appointment date arrived, many of the previously described political events had taken place. The result: the promised 30-minute interview

However, by the time our appointment date arrived, many of the previously described political events had taken place. The result: the promised 30-minute interview with Governor Barnett lasted only 5 minutes, during which time, with a granite-faced expression, he told me that he had no intention of participating in THE SOLID SOUTH CONFERENCE because it was "unnecessary".

Knowing the kind of pressure that Lyndon Johnson can apply through his ability to withhold Federal Aid to the States, I leave it to you, the reader, to imagine the kind of pressures which are influencing any Southern Governor. To say the least, I was amazed that Governor Ross Barnett should think that a meeting to emphasize the position of the Solid South is "unnecessary."

Perhaps it is better that no Southern Governor is participating in the SOLID SOUTH RALLY. However, we know that all Southern politicians will be most interested in what the "grass roots" leaders of the Independent Elector movement will have to say at the SOLID SOUTH RALLY!

(Continued on page 3.....)

Back in 1956, there was a "hush-hush", "behind-closed-doors" meeting of Southern political leaders, including some Governors. The Southern delegations then went to the Democratic nominating convention, and the result was - the Convention picked Stevenson and Kefauver. "Summit conferences" of entrenched political leaders usually result in compromise and a "sell-out." The reason, then, for the SOLID SOUTH CONFERENCE AND RALLY to be held is for the "grass roots" leaders to tell the politicians what is demanded by the majority of the people!

Because of Gov. Barnett's opposition to THE SOLID SOUTH RALLY, whose purpose was to support the views he had previously expressed, we decided to transfer the Rally to Little Rock, thinking that Arkansas - being a "border State" - would be immune to pressure.

Via a long distance telephone call and a personal visit, full arrangements were made to transfer THE SOLID SOUTH RALLY to Little Rock.

TOP-LEVEL PRESSURE

"All was well" - and we prepared to "go to press" announcing that the SOLID SOUTH RALLY had been transferred to Little Rock when we received a letter from the hotel manager that "the group" which was occupying the space we had agreed on - had decided to extend its meetings for two more days! Therefore, the hotel cancelled our accommodations. And just who do you think that "group" was? - None other than the Arkansas Division of the WHITE HOUSE CONFERENCE ON CHILDREN AND YOUTH! As you know, this WHITE HOUSE CONFERENCE ON CHILDREN AND YOUTH is one of the most Socialist, pro-collectivist outfits of them all! Its recent meeting in Washington, D. C., came up with the conclusions that the U. S. should triple its expenditure in Federal Aid to education and that there should be established cabinet status for the department of education. Should these collectivist schemes ultimately be put into action it would mean complete Federal Control of Education!

So....you can see that the "pressure" being used to keep THE SOLID SOUTH RALLY from finding suitable hotel accommodations was now being applied from the top level!

THEY CAN'T STOP "THE SOLID SOUTH RALLY"!

So...we went to work all over again to find suitable hotel accommodations for THE SOLID SOUTH RALLY.

They have now been found - and confirmed in writing by the hotel.

THE SOLID SOUTH RALLY will be held at the Capt. Shreve Hotel, Shreveport, Louisiana.

The date has been changed to allow us full time to prepare for this two-day meeting. The new date is Friday-Saturday, June 3-4.

Louisiana is, as you know, our home State. I am a candidate for Governor on the STATES RIGHTS PARTY OF LOUISIANA ticket in the April 19 election. Shreveport is fortunate to have a forthright Conservative daily newspaper in THE SHREVEPORT JOURNAL. Accordingly, we feel that THE SOLID SOUTH RALLY has, at last, found a "safe" home.

* * * * * *

WHY DO THE LEFTWINGERS FEAR "THE SOLID SOUTH RALLY"?

This "pressure" that was exerted against THE SOLID SOUTH RALLY proves conclusively how the Socialist-Internationalists of both parties fear that an INDEPENDENT CONSERVATIVE CANDIDATE WILL BE ON THE BALLOT IN THE NORTH AS WELL AS THE SOUTH NEXT NOVEMBER!

This "pressure" that was exerted against THE SOLID SOUTH RALLY proves conclusively how the Socialist-Internationalists of both parties fear that an INDEPENDENT CONSERVATIVE CANDIDATE WILL BE ON THE BALLOT IN THE NORTH AS WELL AS THE SOUTH NEXT NOVEMBER!

They fear that the South - the last bastion of Conservatism in this nation - will furnish the rally call for Conservatives throughout the nation to join in common cause to defend this great nation of ours against the Socialist termites, of both parties, who are destroying the Constitutional foundations of our beloved America.

WHO FINANCES OUR ACTIVITIES?

Our long-time subscribers know - but in the past two months we have gained so many

(Please see other side.....)

new subscribers that it is necessary to re-iterate - that THE INDEPENDENT AMERICAN newspaper is not a "business". We depend entirely on contributions from our subscribers to finance all of our other activities in behalf of Conservatism such as:

(1) THE RADIO EDITION OF THE INDEPENDENT AMERICAN, which is now heard coast to coast over 17 stations from the State of Washington to Virginia - from Wisconsin to Texas.

(2) TAX FAX pamphlets in which we give additional information on specific subjects such as "Federal Aid Means Federal Control" in convenient, pocket-size folders.

YOUR HELP IS URGENTLY NEEDED

So very busy have we been since February 10, when we mailed out our last appeal letter, that you can imagine our shock when our bookkeeper informed us today that we are "broke" - that we only have sufficient funds left to pay the postage on this letter to all of our subscribers.

And so - until we receive additional contributions from our subscribers all of our activities grind to a halt!

And this crucial lack of funds comes at a time when the "political pot" is beginning to boil.....when there is an urgent need for THE RADIO EDITION OF THE INDEPENDENT AMERICAN to remain on the air throughout the nation....when there is an urgent need to publish two new TAX FAX pamphlets showing the Socialist, "soft-on-Communism" voting records of all presidential hopefuls of both parties....

Also, we are sure you will agree with us in view of all the behind-the-scenes information contained in the first part of this letter that it is absolutely imperative that we hold THE SOLID SOUTH RALLY at the Capt. Shreve Hotel in Shreveport, La., on June 3-4. This SOLID SOUTH RALLY will have great national significance because by mobilizing "grass roots" support for a Southern "walk-out" from the National Democrat Party, a powerful nucleus will be formed which will result in a Conservative INDEPENDENT PRESIDENTIAL CANDIDATE which will give the voters in the North, East, South and West a real choice - a chance to vote for Conservative, pro-Constitution principles next November!

Further, if the work of THE INDEPENDENT AMERICAN were not beginning to become tremendously effective, the Socialist-Internationalists would not have tried to stop our efforts as we showed in the beginning of this letter.

THE ANSWER IS UP TO YOU!

If you wish us to continue our various activities to restore America to Constitutional principles, then please contribute TODAY as generously as you possibly can so that we may meet our financial obligations and proceed with plans for THE SOLID SOUTH RALLY in Shreveport. We appeal to you to decide how much this Cause means to you and then contribute accordingly. Contributions in the amount of $25.00; $50.00; $100.00; $200.00 and more are urgently required. However, we realize that to some a contribution of $5.00 or $10.00 is as much a personal sacrifice as $100.00 is to another.

Time is of the essence - so much work must be done!

It is only our indominable faith that we are doing God's work that keeps us going in this battle for our beloved America.

Will YOU furnish the financial means by which we can continue?

Please rush your contribution to us TODAY in the enclosed airmail envelope.

What's the Difference Between the Candidates?

(Reprinted from VALLEY EVENING MONITOR, McAllen, Texas)

There probably has never been a time in American history when the American voter had so little to choose between in a national presidential election.

Great numbers of presumably conservative Americans expressed themselves as "shocked" over the outright socialistic and communistic policies presented in the Democratic Party platform.

But if conservative Americans fancy there is some kind of refuge to be found in the "good old party" of Abe Lincoln hue, they are going to have to suffer a profound disillusionment. Ever since Nixon and Rockefeller got together on that fateful day in July, the Republicans have been out and out exponents for the very same things the Democrats have called for.

Nixon and Kennedy stand for exactly the same things. The only choice open to the Americans is one based upon personalities and personal preferences. So far as issues are concerned, there isn't any difference, worthy of comment.

Let's take a good look at the Republican position.

How is it on business?

There is to be bigger than ever government with "massive new federal spending and loose money policies..." End "feather-bedding practices by labor and business" both of which objectives will require new governmental bureaus and new tax money.

How about the budget?

The Republicans want to see the budget in balance except in war or recession. In other words, government spending is to be used if the inflation halts or if war comes. No possible surcease from pain for the wage earner or the business man is to be found here under GOP control.

How about labor?

The Republicans want to "give labor-reform laws a tryout before bringing any change." They call for corrections of "defects" in the Welfare and Pension Plans Disclosure Act, with nothing done to eliminate the basic flaws. They want to compel a new minimum wage level and they seek to extend it to "several million" more workers.

They seek to assure "equal pay for equal work regardless of sex." (See the Russian Constitution for proper wording.)

How about the farm program?

AN UNINSPECTED ISSUE

(Reprinted from the WALL STREET JOURNAL)

So far in this campaign, the vital issue of atomic weapons testing has received only passing attention from the candidates. Yet the question of whether testing, suspended for almost two years, should be resumed will be one of the most important facing the next President.

Since the U.S. began its self-imposed moratorium and launched negotiations with the Soviets for a test-ban treaty, most politicians have been content to voice pious hopes for "progress" toward agreement and to let the emotion-charged issue drift. The failure of the Geneva talks, now recessed because of Soviet intransigence, has made such pat statements obsolete.

Our decision to halt testing in 1958 was based on the assumption that the Soviets wanted an effective treaty as much as we did; that such an agreement might break the disarmament deadlock and thereby would outweigh any damage the test-ban caused to our weapons technology. But our decision could be revoked, and the President has, in fact, done so. He has warned that the U.S. may resume tests, although he is not likely to order them before next January and so commit the incoming administration.

that, contrary to our assumption of 1958, the Soviets want what they already have -- an uninspected test-ban that hampers U.S. weapons' development and affords them the opportunity to test within their closed society -- and do not intend to sign a treaty that would open the Soviet Union to effective international inspection. And he will be forced to choose between continued drift, with the possibility that the Soviets are secretly moving toward a weapons' breakthrough, and a resumption of testing to improve our arsenal of tactical weapons.

This is a hard decision for politicians; neither the party platforms nor the candidates have yet moved beyond hopes of "progress" toward a treaty. What makes discussion of testing difficult is the climate of fear Moscow has inspired concerning radioactive fall-out. The U.S. could resume testing under conditions that eliminate the danger of fallout, a simple fact not grasped by those who have been bombarded by stories about Strontium-90 sifting from the skies.

So, to the extent that a decision affecting our security is shaped by fear, ignorance and near-hysteria, Moscow has won a victory. That is all the more reason why Mr. Nixon and Mr. Kennedy should take the wraps off the issue of testing and publicly air the impact of an unin-

How about the farm program?

There is to be a "crash research program" launched at taxpayers' expense. "Rigid controls" for farming are to be rejected but there is to be an increase in soil-bank activities.

What about the old folks?

Social Security under the Republicans is to be expanded and "liberalized." There will be no age minimum now on disability benefits.

What about health?

Federal aid for building schools of medicine, dentistry, public health and nursing is in the works. Government is to get more power to combat water pollution. Also, the federal government will get into the air pollution problem. More power, bigger bureaus, larger expenditures of tax money called for all around.

What about education?

Federal aid for building government schools and college buildings. Student loans and fellowship programs are to be enlarged at taxpayers' expense. A new commission is to be created to advise the president.

Natural resources?

Mining industries are to be subsidized. New water projects are to be developed. A "Mission 76" program to improve national park facilities is to be launched when the present "Mission 66" program winds up. Those bureaucrats mustn't lose their jobs.

There's to be a citizens' board to "inventory" federal lands and study future federal requirements for parks and other recreational areas. More tax money needed for these things.

If all the above looks strikingly like the Democratic Party platform we can only say that we suspect the similarity is intentional and not accidental. The Republicans have pretty well concluded that the way to win and hold office is to go the socialist route. The Democrats decided that during the days of FDR's regime.

So, where does an anti-socialist or anti-communist go?

Senator Dodd of Connecticut and Senator Eastland of Mississippi have charged that the U. Thus, the next President will be faced with abundant evidence

What makes discussion of testing difficult is the climate of fear Moscow has inspired concerning radioactive fall-out. The U.S. could resume testing under conditions that eliminate the danger of fallout, a simple fact not grasped by those who have been bombarded by stories about Strontium-90 sifting from the skies.

So, to the extent that a decision affecting our security is shaped by fear, ignorance and near-hysteria, Moscow has won a victory. That is all the more reason why Mr. Nixon and Mr. Kennedy should take the wraps off the issue of testing and publicly air the impact of an uninspected moratorium on U.S. preparedness.

The U.S. or the U.N.?

(Reprinted from THE INDIANAPOLIS STAR)

The day, hour and minute will come, probably within the next few years, when Americans must decide whether they value the United States more than they value the United Nations. The time is very close when the world organization will be anti-American in its voting, its policies and its planning. Admission of 16 more nations to the U.N. this year heralds the change.

News dispatches are already telling of the efforts of Communist Chinese agents to gain the allegiance of the new nations, including many of which the average American has never heard. Most of them are in Africa. Also, most of them are as primitive as the Congo. They know little of the philosophies of government or the principles of freedom; their motivating force is a pathological hatred of "white men." This is why Red Chinese, instead of Red Russians, are doing the missionary job for communism.

Each of the new nations will have an equal voice with the United States in the U.N. general assembly. Their combined vote, along with that of present members who oppose this country, will be enough to admit Red China to the U.N. An anti-Western, anti-U.S. majority is as certain as taxes. The dominating influence will be the Kremlin, ably seconded by its Red Chinese partners.

If the United States remains in the U.N. under such conditions, keeping its participation on the present scale, it will mean that American taxpayers will be financing a series of world-wide programs whose sole purpose is to destroy individual freedom as Americans know it. It will mean that every single U.N. agency which is largely financed by American money, including UNESCO, the World Court and others, will be turned to the task of destroying America as we have known it.

This is not an alarmist viewpoint but merely a statement of clear probabilities. Americans who for one reason or another have developed a largely emotional attachment to the supposed ideals of the U.N. will save themselves a great shock if they begin now to clear away the dreams and recognize the hard facts.

A surprising but for the most part unnoticed statement was made recently by informed sources in Washington following the launching of an Atlas missile which tied its own distance record of 9,000 miles.

At a time when the United

What possible reason could there have been for not permitting the Atlas to score a scientific breakthrough that

program winds up. Those bureaucrats mustn't lose their jobs.

There's to be a citizens' board to "inventory" federal lands and study future federal requirements for parks and other recreational areas. More tax money needed for these things.

If all the above looks strikingly like the Democratic Party platform we can only say that we suspect the similarity is intentional and not accidental. The Republicans have pretty well concluded that the way to win and hold office is to go the socialist route. The Democrats decided that during the days of FDR's regime.

So, where does an anti-socialist or anti-communist go?

Who Are the Men On the Fourth Floor?

(Reprinted from MANCHESTER (N.H.) UNION LEADER)

Senator Dodd of Connecticut and Senator Eastland of Mississippi have charged that the U. S. foreign policy which put Castro in power and brought the Communist menace to our doorstep was dictated not by President Eisenhower or Secretary of State Herter but by unnamed subordinates in the State Department, "The Men on the Fourth Floor."

Who are these men who are putting this nation in such deadly peril? Is the Fourth Floor a launching pad for subversion and treasonable policies aimed to bring about this nation's downfall?

JOE McCARTHY WAS SOUNDLY SCOLDED AND FINALLY BROKEN FOR DARING TO SAY THAT THERE WERE SUBVERSIVES IN THE STATE DEPARTMENT.

Certainly what has happened to this country since McCarthy's death indicates that there are either subversives there or some of the stupidest people that were ever born.

Entirely aside from the menace of Russian missile bases in Cuba, 90 miles from our mainland, U. S. citizens have lost a "little" matter of a billion dollars' worth of their property to this crazy beatnik who poses as the dictator of Cuba.

Indeed the American public is entitled to an answer to the question: "WHO ARE THE MEN ON THE FOURTH FLOOR?"

Who's Getting Soaked?

When the era of big handouts by government opened, the cry for financing the multi-billion-dollar programs was "soak the rich." But the rich haven't got enough to finance the huge programs. As a result, 85 per cent of the tax load falls not on the "rich" but on people making $6,000 a year or less.

The average American worker making $4,000 a year has to pay $1,200 in hidden and direct Federal, state and local taxes.

Who's getting "soaked"? Everybody! And the spenders are promising still more big spending.

Why Did The A.C.A. Voting Index Omit Certain Vital Issues?

By

Phoebe Courtney, Editor

In the July, 1960 issue of THE INDEPENDENT AMERICAN, we endorsed the ACA Voting Index, which was compiled by a non-partisan organization called Americans for Constitutional Action and published by HUMAN EVENTS of Washington, D. C.

Because of the extreme detail with which the ACA Index was compiled, and because of the high price ($15.00), it was generally assumed that the ACA Index was indeed non-partisan, and conveyed a true picture of the voting records of all Senators and Congressmen on the most important issues.

The ACA Index, when first published in May, 1960, appeared to be merely a compilation of voting records, presented in the public interest. However, on July 28th, HUMAN EVENTS published an article section entitled "You Bet I Am a Republican - Because Now I Know the Difference Between the Parties," by John J. Synon. Mr. Synon uses the ACA Index to build a case which purports to prove how very "Conservative" the Republicans in Congress are! So extreme were his statements that it caused THE INDEPENDENT AMERICAN to launch a complete in-depth re-evaluation of the "non-partisan" ACA Index, with the following results.

HOUSE VOTING RECORDS

John Synon, in his article "You Bet I Am a Republican" states that the ACA Index "takes the Senate back through 1955 and the House back through 1957; every critical vote of record on every crucial issue." The ACA chose 40 votes in the House of Representatives on which to base its index. An analysis of these 40 votes shows that 9 of these 40 votes had to do with various phases of agriculture; 6 were had to do with public works; 4 were concerned with Housing;

TRAITORS AT LARGE!

"Self-confessed traitors" was the description President Eisenhower applied to the two former National Security Agency employes who have defected to Russia, and an accurate description it is.

These men, Bernon F. Mitchell and William H. Martin, accepted positions of trust as mathematicians in the supersecret National Security Agency and then used them as a springboard to give aid and comfort to the enemy, serving Communism by attacking their native land.

Americans have grave cause to wonder how our security system could have been so poor as to allow these men to have positions of any degree of responsibility. It is reported that warnings had been issued on one of them, but no preventive action had been taken. Why? Perhaps those in authority remember the hue and cry of a few years ago in defense of perverts, traitors, spies and assorted Communists -- a cry which labeled as "McCarthyism" any effort to plug the loopholes in American security. If there had been action on Mitchell and Martin before their treason took place, perhaps there would have been the same old chorus crying "McCarthyism." What does it cry now?

Treason is among the lowest of crimes. And these are traitors who knew what they were doing and did it deliberately. The errors of no one else can justify in any way the errors of these. But as we condemn their crime against humanity let us remember that our Government through official action pretends the Soviet Union is not the evil enemy that it is. Our Government maintains diplomatic relations with Russia, permits Russian spy nests in diplomatic agencies in Washington and in the UN, ignores (except for speaking occasional critical words) Russian murder and enslavement of millions of people, participates in "negotiations" as though Russia were trustworthy, meets with Russian leaders at the summit.

Is there not something hypocritical in our official fraternization with the Reds and our condemnation of two men as traitors?

We do not believe the condemnation of treason is wrong. The wrong is the official conduct which pretends the enemies are not enemies except when despicable traitors go over to join them.

HOUSE VOTING RECORDS

John Synon, in his article "You Bet I Am a Republican" states that the ACA Index "takes the Senate back through 1955 and the House back through 1957; every critical vote of record on every crucial issue." The ACA chose 40 votes in the House of Representatives on which to base its index. An analysis of these 40 votes shows that 9 of these 40 votes had to do with various phases of agriculture; 6 votes had to do with public works; 4 were concerned with Housing; 4 with Public Power vs. Private Power; 3 with Labor; and 2 (on the same bill!) dealt with State Anti-Subversive laws. A total of 15 separate subjects were covered in the 40 votes. Thus it is seen that the 40 votes which are supposed to give scope to the ratings actually dwindle to only 15 various issues, and even a number of the 15 votes are closely related.

One interesting fact emerges from a re-evaluation of the ACA Index, and that is that National Security, i.e., State Anti-Subversive laws, carries a weight of only two out of 40. Therefore, if, for example, a Congressman voted "Liberal" regarding State Anti-Subversive laws, but voted "Conservative" on the nine agriculture issues, his over-all Conservative rating by the ACA would not suffer appreciably because he happened to vote Liberal on the very important State Anti-Subversive laws.

Of the 40 votes which form the basis for the ACA Index of the House of Representatives, only two votes (on the same bill) cover the question of the Communist menace. The balance of 38 are concerned solely with domestic Big Spending, including one vote on whether or not to increase Foreign Aid.

SENATE VOTING RECORDS

The ACA Index uses 77 votes on which to base its index of the voting records of members of the Senate. Of these 77 votes (although one prime function of the Senate is to deal with Foreign Policy matters) only 11 votes regarding Foreign Policy, Communism and National Security are included in the ACA Index. Seven votes had to do with increasing, reducing or limiting Foreign Aid; a total of 31 (out of the 77) votes were concerned with only three subjects: Public Works, Agriculture, and Labor. The balance of issues had to do with Housing (6 votes tabulated); Public Power vs. Private Power (4 votes tabulated); plus Federal Aid to Education, Civil Rights, etc.

THE INDEPENDENT AMERICAN CONSERVATIVE INDEX

On pages 3 and 4 of this issue you will find THE INDEPENDENT AMERICAN Conservative Index. Eight issues have been selected for the House of Representatives, and eight for the Senate.

INTERNATIONALISM - LEADING TOWARD WORLD GOVERNMENT

John Synon, in his article "You Bet I Am a Republican," states that the ACA Index contains "every critical vote of record on every single issue." And yet, our re-evaluation of the ACA Index brought to light the fact that the ACA Index did not contain a single vote on matters that would indicate the views of Senators and Representatives on the crucial issue of "Internationalism." Nor were any votes recorded as to how members of the House and Senate felt on legislation which could ultimately lead to World Government, under which America would lose its national sovereignty.

For this reason, THE INDEPENDENT AMERICAN Conservative Index included a vote in both the House and the Senate on a proposed NATO Conference. Sponsors of this NATO Conference

DIPLOMATIC OUTRAGE

In breaking diplomatic relations with the Government of the Dominican Republic, the American State Department has plunged to a dismal low in truckling to world communism and its fellow-traveling fringe.

The act is so brazen a defiance of the most elementary principles of sound foreign policy that it staggers the imagination.

What earthly reason could we have for aiming this calculated blow at the one remaining anti-Communist leader in the Caribbean basin? The arguments used against the Dominican Republic, and its ruler, Gen. Rafael Trujillo, are essentially two: (1) He is an authoritarian, and (2) he has of late been making accusations of perfidy against the U.S. Government.

As for the first, there seems to be little question that Trujillo is an authoritarian; but whether he is more authoritarian than other Latin American rulers, or has committed as many infamous crimes as his arch-enemy, Fidel Castro, is to be doubted. As for his fears of treachery afoot in Washington, these seem to be amply justified by the vengeful blows being aimed at him by the cookiepushers in Foggy Bottom.

But grant the two charges in full. Are we then justified in breaking off relations with Trujillo? If so, why have we not since aimed a similar rebuke at Nikita Khrushchev, who not only (1) is the most authoritarian ruler in the entire world and (2) incessantly abuses the United States in the most virulent terms, but also (3) has killed and imprisoned thousands of American citizens, and (4) is working night and day to destroy the United States and to enslave all of the people in it?

If there ever were reason to break off diplomatic relations with a foreign regime, it exists in the case of the Soviet Union. And yet our diplomats actually aid the cause of our Soviet enemy by seeking to isolate and destroy a staunch anti-Communist ally.

The diplomatic outrage against the Dominicans makes it crystal clear that America can hope to do little in the struggle against Communism until it cleans up its own State Department.

FOREIGN AID

A painstaking check of all of the issues discussed by the ACA Index in both the House and Senate reveals the fact that although votes are recorded to increase, limit, or slightly reduce Foreign Aid, not one single vote of House and Senate members is recorded on bills for the AUTHORIZATION of Foreign Aid! THE INDEPENDENT AMERICAN feels that this is a critical vote on a crucial issue, because it indicates approval or disapproval of the principle of Foreign Aid, which is not only un-Constitutional, but has been proven a tragic failure. Why did the ACA Index omit this significant issue?

RECIPROCAL TRADE

Another important issue which was omitted from the ACA Index is the Reciprocal Trade Agreement, which allows foreign nations to help set our import quotas. The Reciprocal Trade program is not "reciprocal" inasmuch as other nations do not reciprocate in kind. Under the Reciprocal Trade Agreement, the U.S. is being flooded with cheap, foreign-made goods, causing increasing unemployment.

ANTARCTIC TREATY

The Antarctic Treaty was ratified by the Senate on August 10, 1960, after the ACA Index had been published. The Antarctic Treaty was signed by the United States, the Soviet Union, England, and nine other nations. This agreement, of which the Soviet Union is a signatory, is all to the benefit of the Soviet Union, the U.S. achieving nothing.

Senators voting in favor of this Antarctic Treaty revealed by their vote that they are completely unaware that any agreement with the Soviet Union is worthless. The Communists have broken 50 out of 52 treaties in the past few years. Under the Antarctic Treaty, the Soviet Union, operating through one of its satellite nations, could establish a missile-launching base in Antarctica, only 1,000 miles

OUR POLICY

This newspaper is dedicated to the defeat of Socialist and Communist influences that now pervade the thinking and the policies of our Federal government and the two major political parties. We believe that there is no difference between a New Deal Democrat and a Socialist-Internationalist Republican.

This newspaper will continue to promote all individuals and organizations who believe that a new political party based on Constitutional States Rights is the answer to the Socialism that has captured both (formerly great) parties.

We will never align ourselves with any person or group which preaches hatred. Instead we will conserve our energy for the fight against atheistic Communism, and we pledge ourselves to LOVE OF GOD AND AN INDEPENDENT U.S.A.

OUR THANKS

Because we are political and "controversial" we have no advertising income. We therefore thank all of our readers who send donations every week so that more and more sample copies can be sent to patriots throughout the country. Without this regular support, this experiment in patriotic and political journalism would not be possible.

Is The State Dept. Selling America Down The River?

(Reprinted from ECONOMIC COUNCIL LETTER 481 of June 1, 1960, published by National Economic Council, Inc., Empire State Building, New York 1, New York.)

Eight years ago, the American people turned out of office an Administration which had been in power for twenty years with a bureaucratic and military machine more powerful than anything every known in American history before.

This incredible political victory was won in large part because Americans were enraged at the pro-communist policies pursued by the State Department. A group of Republican Senators led by Ken [illegible] pointed a brilliant spotlight on the Communist infiltration into the State Department, for which all our institutions are to be realigned so they will mesh easily with those of the Soviet Union and its satellite, Red China?

The answer is a tragic No.

There is one difference between the New Deal foreign policy in the Roosevelt and Truman Administration, and foreign policy in the Eisenhower Administration.

Our foreign policy planners have replaced open pro-communism with soft pro-communism, open arrogance with subtle double-talk, open defiance of their opponents by crafty brain-washing of the public.

"Although advertised and propagandized as an instrument that would bring peace, order, and prosperity to a war-wearied world, the U.N. was conceived as a trap. It was designed and carefully constructed to impose eventual world government upon us. We were told the U.N. could do much to bring the rest of the world up to our living standards. Instead, it has been used - deliberately - to drain us of our wealth and resources, entangle us in dangerous commitments, launch our nation into hundreds of busybody projects, and impose upon us responsibilities and obligations we never sought.

Eight years ago, the American people turned out of office an Administration which had been in power for twenty years with a bureaucratic and military machine more powerful than anything every known in American history before.

This incredible political victory was won in large part because Americans were enraged at the pro-communist policies pursued by the State Department. A group of Republican Senators led by Ken Wherry mounted a brilliant campaign to cleanse the State Department of its near treasonable taint, and to return American foreign policy to paths of honor. They were helped by Democratic Senators like McCarran of Nevada, and by many leaders outside of Congress.

Something like a national uprising ended the New Deal rule. It was assumed by Republicans and Democrats that the new Administration had a mandate to clean house in Washington.

What have the Republicans done with their stewardship?

Have we had a cleaning out of the State Department? Have we really changed our foreign policies from the gigantic boondoggle inaugurated by Hopkins and Acheson?

Have we used our great national power to roll back the communist attempt at world conquest, and to strengthen the forces, material and spiritual, of all nations wishing to be free?

Have we changed the orientation of the State Department toward a One World Socialist Government, for which all our institutions are to be realigned so they will mesh easily with those of the Soviet Union and its satellite, Red China?

The answer is a tragic No.

There is one difference between the New Deal foreign policy in the Roosevelt and Truman Administration, and foreign policy in the Eisenhower Administration.

Our foreign policy planners have replaced open pro-communism with soft pro-communism, open arrogance with subtle double-talk, open defiance of their opponents by crafty brain-washing of the public.

The men and women who, in the happy days of Truman, made too visible a pro-communist record have been removed--usually to higher positions on the staff of the UN and its cooperating agencies, in the foundations, or in the law firms engaged in international finance.

The only difference between 1950 and 1960 is that in 1950 we had a great debate on what we should do. Dissent was open and articulate. Today we have only one audible foreign policy. Critics and dissenters have been put to sleep, brain-washed, or deprived of their means of communication.

It is incredibly harder today than it was in 1950 to make clear to the American people that we have no foreign policy to safeguard our country. We are spending twice as much a year as we spent then, and we have a much higher debt. We have taken millions of years from the lives of our young men, but still we have no American foreign policy. Nothing is changed but the hush that has settled over Congress and the press.

AN OPEN LETTER TO THE PRESIDENT

"Pres. Dwight D. Eisenhower
Washington, D.C.

Dear Mr. President:

In your address before the Republican National Convention at Chicago, you proposed a world-wide referendum, whereby each nation might choose for itself whether it wishes to be free, or whether it wishes to be Communist. Your dramatic proposal met with an approving ovation from the vast audience.

While the free world views with apprehension the threatening advance of international Communism, the South views with equal apprehension the threatening advance of racial integration at home.

Mr. President, does the South not merit at least the consideration accorded foreign nations?

Surely then, in the light of the proposition you so ably stated at Chicago, there can be no objection from men of genuine good will for each state of this Union to determine for itself, in a nation-wide referendum, whether its citizens may enjoy the freedom to choose their own associates, or whether they must be compelled to integrate without regard to race, creed or color.

Your able leadership is therefore earnestly sought to implement such a referendum, as an equable solution to the racial strife being forced on our great region.

Respectfully yours,

What have the Republicans done with their stewardship?

Have we had a cleaning out of the State Department? Have we really changed our foreign policies from the gigantic boondoggle inaugurated by Hopkins and Acheson?

Have we used our great national power to roll back the communist attempt at world conquest, and to strengthen the forces, material and spiritual, of all nations wishing to be free?

Have we changed the orientation of the State Department toward a One World Socialist

been put to sleep, brain-washed, or deprived of their means of communication.

It is incredibly harder today than it was in 1950 to make clear to the American people that we have no foreign policy to safeguard our country. We are spending twice as much a year as we spent then, and we have a much higher debt. We have taken millions of years from the lives of our young men, but still we have no American foreign policy. Nothing is changed but the hush that has settled over Congress and the press.

Straight Talk

(Reprinted from FARM AND RANCH Magazine)

By TOM ANDERSON

SOUTHERN Conservatives (and American patriots anywhere) who stay in the Democrat Party remind me of the two skeletons in the closet. One turned to the other and rattled: "What are we doing in here?" "I don't know," the second skeleton replied, "but if we had any guts we'd get out!"

John Kennedy is a ruthless, cold and cocky kid trying to buy the office with his daddy's money. (Presidential elections have been bought before, but not by one family.) I am a Methodist, and if Kennedy were a poor, mature Methodist bishop from Mississippi, I wouldn't vote for him for dogcatcher because I'd be afraid he'd either socialize the kennel or give it to some foreign country. I think less of Johnson, an All-American hypocrite of such unusual ability he's a modern American menace.

The issue is not Republican vs. Democrat. The issue is not segregation vs. integration. The issue is *freedom*. Both parties are moving toward an all-powerful international Socialist dictatorship. A centralized welfare state brings slavery, not freedom. Property rights is the very basis of "human rights." The right to self-determination of associates is the essence of "human dignity." Forced equality is not democracy but dictatorship. *Equal men are not free and free men are not equal.*

Nixon and Kennedy are young opportunists on the make, riding the Socialist wave as far as it will take them. Neither has the necessary character—but then we haven't had that in any President since Hoover.

Creeping Brinksmanship

I have been a little unfair at times in the past, saying the difference between the Democrat and Republican Parties is merely "which twin has the Toni?". There is a difference, particularly now that John Kennedy has taken over. But the difference is not enough to get my vote. I don't believe in creeping Socialism any more than I do in creeping integration.

Depend on Nixon-Lodge to save this country from the international Socialists? Nixon reminds me of the airplane pilot who, with both motors on fire, donned his parachute and soothingly purred to the passengers: "Don't anybody panic! I'm going for help now." Nixon is a politician. Politicians can't save this country. They brought it to this brink of disaster and defeat.

Norman Thomas, who should know, has said that we've made more progress toward Socialism under Eisenhower than even under Truman. Facts support this statement. Norman Thomas got 267,420 votes for President in 1928 and a little more than half of that in 1948. Thomas now says that both candidates are satisfactory to him.

Nixon is lesser-of-evils. Lesser-of-evils is a wasted vote. Voting for lesser-of-evils is an *endorsement* of evil. There is no way to *win*, voting for lesser-of-evils. You are *silencing* your voice, disinfranchising yourself if you vote for lesser-of-evils.

They are for international Socialism, although some haven't the courage to call it that. If Thomas, Stevenson, or Kennedy or their like should get a chance to *install* their all-powerful federal state, then the people would have a choice. An opposition party would arise. (Of course, we might never be able to unscramble the Socialist egg.) As it is, there is no real opposition party. Both major parties are infiltrated, dominated and owned by Socialists, one-worlders, welfarers and fellow travelers.

Installment Plan Surrender

We can't save America by dragging our feet to slow down the Socialist toboggan. We *can't* win by choosing lesser-of-evils, by giving-in a little at a time, by surrendering our freedom piecemeal, by defaulting each succeeding skirmish as it occurs. In fact, it may be better to join full-scale battle now—win or lose—than to surrender on the installment plan. Otherwise, there'll be no final major battle to win. Just the firing squad. I believe in staying in any organization—and that includes my church—only so long as there is a chance to save it. The Democrat Party is not even worth talking about saving. Evidently Senator Goldwater thinks he can save the Republican Party. A party owned by Nixon, Dewey, Percy, Rockefeller, Lodge, Keating, Rogers, Javits—can't be saved from Socialism. Goldwater has as much chance of returning the Republican Party to Americanism, Constitutionalism and states rights as Neville Chamberlain had at Munich.

A platform is worth no more than the man who runs on it. And that makes both platforms virtually valueless. A platform is like a wedding dress: used only once, and even then it sometimes flies false colors.

I went to both conventions. Delegates at both had this obvious characteristic: The Party comes first. Many of them would support a Castro-Cyrus Eaton ticket if it would get the most votes. The delegates of both parties are primarily self-seeking politicians, influence peddlers and limelight junketeers without the integrity or the courage to buck the tide. Letting these people decide who should save our country in these times is like letting Beverly Aadland be Housemother in a boys' dormitory.

Don't Waste Your Vote!

In some states it is relatively easy to get somebody to vote *for* on the ballot—an independent candidate or unpledged independent electors. Your clean-cut dissent in this way makes your voice *heard*.

If Kennedy or Nixon can be kept from getting a majority in the Electoral College, the election would be thrown into the House of Representatives.

There could be 57 free electors from the South. It takes 269 electoral votes to elect a ticket. In 1948, if those 57 votes had been taken away from Truman, he'd have been 20 votes short. In that event, the House could have elected

cialist dictatorship. A centralized welfare state brings slavery, not freedom. Property rights is the very basis of "human rights." The right to self-determination of associates is the essence of "human dignity." Forced equality is not democracy but dictatorship. *Equal men are not free and free men are not equal.*

I'm not sure a Kennedy victory would be catastrophic. Just like I'm not sure the nation wouldn't have been better off if Norman Thomas had been elected in 1932, or Stevenson in 1952. These candidates are for what they call "human rights," the brotherhood of man, the welfare state, that includes my church—only so long as there is a chance to save it. The Democrat Party is not even worth talking about saving. Evidently Senator Goldwater thinks he can save the Republican Party. Some people say a Third Party can't be successful. That's not true. The most successful political party in this country is the Socialist Party. It hasn't lost an election since 1932.

Still Spying

The Navy has reported sighting one and probably two Russian submarines in the North Atlantic off Newfoundland. The undersea craft were working in conjunction with Soviet surface vessels and a balloon. It does not take much perspicacity to guess that the purpose of the voyages was to spy on the United States.

If American vessels were sighted off Soviet waters as much loud propaganda would be made of it as was made of the capture of the U-2 reconnaissance plane May day.

Possibly we not only take it for granted that the Russians have been spying on us and will continue to do so, but have become accustomed to it.

Zoo visitors were amazed to see a cage labelled "Co-existence", containing a lion and some lambs.

The zoo director explained there was nothing to it -- "just add a few fresh lambs every now and then."

Kennedy 'Deserves' It

Sen. John Kennedy recently got something that he richly deserves, the support of the big labor bosses.

He deserves it because he is "their man." Didn't he try to head off any real, significant labor reform legislation by presenting his own water-weak bill even though he had been a member of the McClellan Labor Rackets Committee that had heard first hand the evidence of how some union bosses stole from rank and file members, denied them freedom of speech and honest elections and the right to work?

Didn't Sen. Kennedy and his brother, Bobby, who was chief counsel of the committee, help head off any searching and exhaustive investigation of the violence and law-breaking by Walter Reuther's United Auto Workers, saving Reuther from being put on the spot that Hoffa had to endure?

Surely, Senator Kennedy did these things. And since no other presidential contender sold out to such an extent to Reuther and George Meany and the rest, they are for Kennedy.

Surely, Senator Kennedy did these things. And since no other presidential contender sold out to such an extent to Reuther and George Meany and the rest, they are for Kennedy.

Knowing what the Reuther-Meany crowd wants and what Kennedy stands for, it is only honest to say he deserves their support and they have picked a willing tool.

But many Americans, including many who belong to labor unions, may take a somewhat different view, since they have different interests.

Many of them will not want a President at the beck and call of Walter Reuther. Many will not want a President who is more concerned with the money and the power that the labor chiefs can deliver in an election than he is concerned with the rights of individual workers, union and non-union, to make their own decisions, to be free from dictation and extortion, to be free from goonery and blacklisting, to be free to work and earn according to merit rather than being made pawns awaiting decrees from King Reuther or King Meany or any of the rest.

Sen. Kennedy has paid for the Reuther & Co. support and has signed a promissory note to pay more in the future. He may be sure--and the American people may be sure--that if Sen. Kennedy should win, Reuther & Co. will be around to collect.

The curious preoccupation President Eisenhower has for the World Court is an idiosyncrasy the American public apparently is willing to allow him. Yet more explanation is called for than he has given as yet for his belief that if the reservation were removed, and America were to forfeit the right to determine what matters it is willing to submit to the court, world peace would thereby be advanced.

It isn't likely that Mr. Eisenhower would consider the World Court a place to take for adjudication the matter of Castro's seizure of American properties, or that he would stand still for Castro's accusing America before the court of having imperialistic designs on Cuba. Yet that is what he seems to be inviting by saying that the United States government should give up its right to determine what matters are domestic and, therefore, under American jurisdiction, and what matters are international and, therefore, under the jurisdiction of the World Court.

Peace with justice is the President's laudable aim. He sees a system of world law as necessary for gaining that aim. And he is not alone in this thinking. Most other countries see some carefully circumscribed body of world law as necessary to peace also. But what law do they see? Russian law? Congo law? American, British, French law?

America is not the only country that has a reservation on how far the World Court may go in saying how world law shall affect its domestic affairs. Britain has a strong reservation. France does too. And certainly the Soviet government would not for an instant permit a World Court ruling to affect what it considered its own jurisdiction over internal matters.

A lack of any definition of the World Court's powers over the decisions of the United States would serve the ends of greater world anarchy, not those of world order.

Without the Connally reservation what would there be to keep Red China's Mao, in time, from asking the World Court to enjoin the United States against trespass on Formosa? Our government's immigration policies have offended some nations. Why not go to court? These are domestic matters now and, under the Connally reservation we can keep them out of the World Court by refusing even to argue them. Without the reservation, almost any question of tariff, foreign aid, or the conduct of American nationals in foreign lands could be accepted by the court for adjudication, and America would be forced to defend its position on them.

How to Use THE INDEPENDENT AMERICAN Conserva

Is Your Congressman Conservative Or Liberal

Hundreds and hundreds of bills are voted on in each session of Congress. Most are of a minor nature. However, in analyzing these bills, THE INDEPENDENT AMERICAN Conservative Index selected key issues which clearly indicate where a Congressman or Senator stands -- whether he votes "Liberal" or "Conservative" on such general subjects as Big Spending, Foreign Policy, the Farm Problem, Labor, States' Rights, etc.

Some of the bills considered in this Index are of a "double-negative" character. By that we mean that some votes are "to kill" or "to recommit" a bill. Nevertheless, a vote cast by a Congressman on such bills can, of course, be classified as either "Conservative" or "Liberal." In the interest of simplicity, regardless of the wording of the bill, we have used the sign "(-)" to indicate a Liberal vote, and "(+)" to indicate a Conservative vote.

WHAT IS YOUR CONGRESSMAN'S OR SENATORS' CONSERVATIVE RATING?

All States are listed alphabetically. All Congressmen and Senators are also listed alphabetically within their States.

The first column consists of either "R", meaning "Republican," or "D", meaning "Democrat."

The second column, entitled "Conservative Rating," gives the percentage of "Conservative" votes cast by each Congressman or Senator. In other words, if your Congressman is rated "100%" in the second column, this means that he voted 100% in favor of Conservatism. On the other hand, if your Congressman is rated, say, 17%, it means that he voted only 17% of the time for the Conservative position, and voted 83% of the time in favor of the Liberal position.

When a small "o" is shown instead of a "+" or "-" in the voting columns, it indicates that this Congressman or Senator was absent, and did not vote. When "XXXXX" appears in these columns, it indicates that this Congressman or Senator was not in office at the time the vote was cast.

If you do not know the name of your Congressman, this information can easily be obtained by calling your local newspaper or public library, giving your address and asking the name of the candidates for Congress representing your Congressional District. Needless to say, the next session of Congress will be one of the most crucial in the history of this country. It is of vital importance, therefore, that you do all you can to elect Conservatives to Congress and to defeat Liberal Congressmen and Senators. THE INDEPENDENT AMERICAN Index will protect you from double-talking, issue-dodging Congressmen, who may attempt to give you an "on-the-one-hand/on-the-other" answer to any question you may ask him. This VOTING INDEX tells you exactly where he stands, and how he votes.

Description of Bills Voted Upon in House

ISSUE #1, NATO CONFERENCE

H. R. 587, apparently innocuous, called upon the House of Representatives to consider Senate Joint Resolution 170, authorizing the designation of a commission of 20 U.S. citizens to meet with citizens of other NATO countries (signatories to the North Atlantic Treaty) "for the purpose of developing paths toward greater political and economic cooperation within the alliance."

Congressman Bruce Alger pointed out that "This sounds great, but there are no guidelines or goals set out. If it means economic aid, we have already empowered 72 other countries to think up ways to give away U.S. money. If it's political, then we remember that 'One-World do-goodism' ends up with the loss of U.S. sovereignty."

Former Senator William E. Jenner of Indiana, in February, 1956, stated that NATO is a small United Nations, set up to do [illegible] believed that NATO

ISSUE #3, FOREIGN AID

H.R. 11510, covers the Foreign Aid Authorization bill. The actual appropriation bill was later passed in the bob-tail session of Congress. Congressmen voting "Yea" on this bill thus indicate that they favor the principle embodied in the Foreign Aid Program.

Although the Foreign Aid Program has been sold to the American people as a means to preserve the free world against Communism, billions of Foreign Aid dollars have been sent to Communist satellite nations. More than $88 billion in tax dollars have been sent in Foreign Aid to 73 of the countries throughout the world, and this amount has been added to our national debt. In other words, we are borrowing money in order to give it away under the Foreign Aid Program.

Further, Congressman H. R. Gross recently pointed out, "Although there was already nearly $5 billion in the so-called Mutual Security pipeline, Congress in the bob-tail session, 1960, added $3,780,000,000 in new money. Thus there will be available for spending under the Foreign Aid program alone in the remaining ten months of this fiscal year the staggering sum of $8,551,000,000. Also, the new money appropriation of this year represents an increase of more than a half-billion dollars over last year's appropriation!"

Congressman Gross then states, "Add to the foregoing the cost of Public Law 480 (disposal of agricultural products abroad), support of United Nations, and scores of other international agencies, interest on the money, plus a variety of other expenditures, and the entire Foreign Aid handout bill will run to more than $11 billion in this fiscal year."

Passed 243 - 130, April 21, 1960.

(-) means a vote in favor of the Foreign Aid Giveaway of U.S. tax dollars;

(+) means a vote against Fantastic Foreign Aid.

ISSUE #4, LABOR RIGHTS

H.R. 8342. This vote was on the Landrum-Griffin Amendment. It contained a "Bill of Rights" for Labor Union members, protection against secondary boycotts and blackmail picketing. One of the main purposes of this bill was to protect Labor Union members against corrupt practices of the Labor Bosses.

Passed 229 - 201, August 13, 1959.

(-) means a vote in favor of Big Labor Bosses;

(+) means a vote in favor of the rights of the individual Labor Union members.

ISSUE #5, STATES' RIGHTS

H.R. 3. The Right of the States to Control Communism. This was a vote on the Lindsay motion to kill the States Rights Bill, H.R. 3. The purpose of H.R. 3 was to correct the grave error made by the Communist-coddling Supreme Court when it ruled that individual States cannot protect themselves and the nation against Communist infiltration and subversion within the borders of the individual States.

Rejected 191 - 227, June 24, 1959.

(-) means a vote to deprive the individual States of the right to control internal subversion;

(+) means a vote to give the States the right to protect themselves.

ISSUE #6, PUBLIC WORKS

H.R. 7509. This vote was on the Taber motion to send the bill back to committee in order to reduce by 5% the amounts for each project costing $5 million or more. This would have resulted in a saving of approximately $30 million.

Description of this Voted Upon Issue

ISSUE #1. NATO CONFERENCE

H. R. 587, apparently innocuous, called upon the House of Representatives to consider Senate Joint Resolution 170, authorizing the designation of a commission of 20 U.S. citizens to meet with citizens of other NATO countries (signatories to the North Atlantic Treaty) "for the purpose of developing paths toward greater political and economic cooperation within the alliance."

Congressman Bruce Alger pointed out that "This sounds great, but there are no guidelines or goals set out. If it means economic aid, we have already empowered 72 other countries to think up ways to give away U.S. money. If it's political, then we remember that 'One-World do-goodism' ends up with the loss of U.S. sovereignty."

Former Senator William E. Jenner of Indiana, in February, 1956, stated that NATO is a small United Nations, set up to do everything that the U.N. does. It is generally believed that NATO is merely a military alliance of Western nations. However, Senate Joint Resolution 170 (which passage of H.R. 587 calls upon the House to consider) clearly reveals that Senator Jenner's prediction of 1956 regarding NATO entering the political and economic fields was uncannily accurate.

The Senate Committee on Foreign Relations issued a report on July 26, 1960 entitled "Strengthening Free World Security - NATO and Atlantic Cooperation - The United Nations and World Government." Included in this report is a statement by the U.S. State Department that "Much more than solely a military alliance, NATO is increasingly reflecting the pledged efforts of its members to cooperate in various long-range activities designed to enhance their political, economic and cultural institutions." Included in this publication is an excerpt from a report of the Atlantic Congress in London, June, 1959, which states "Of course, one solution would be to bring about some form of political federation of all of our States (i.e. nations)." Then, further: "There is a fundamental principle which we must acknowledge as a cornerstone of this (NATO) community; namely, that the traditional concept of the sovereignty of our countries must not be regarded as something unalterable . . . . Hence the need for us to accept limitations of the sovereignty of our States (nations)."

H.R. 587 was passed in the House of Representatives, which then passed S.J. Res. 170 which is the vote we have recorded. This Senate Joint Resolution, in effect, empowers the appointment of a "committee of 20 citizens" which can then bypass the Congress. Rep. Keith Thomson, of Wyoming, stated "Why should the Congress of the United States turn its powers or responsibilities over to any such group, and why should they do it by giving the taxpayers' money to such a group to go out and hold this Congress or Convention, or whatever you want to call it, and give these 20 citizens full discretion as to whether they report at all, and to whom they report, and so forth?....I do not want to see the Congress of the United States give up its power by adding agencies and commissions like this, to make policy as they see fit."

If your Congressman or Senator voted for this bill, it would appear that he has no conception of the dangers involved in the loss of America's sovereignty if our nation becomes involved in a world government such as NATO envisages; or, he is FOR world government.

Passed 288 - 103, August 24, 1960.

(-) means a vote for NATO, leading to ultimate World Government.

(+) means a vote against NATO, in favor of national sovereignty.

ISSUE #2. GUAM AGRICULTURAL EXTENSION

H.R. 9866 - This vote is included in THE INDEPENDENT AMERICAN Index because, even though it represents a very small sum of money ($100,000 per year), it is nevertheless a measuring stick of those who vote for fantastic, wild and completely unnecessary spending. H.R. 9866 covers the extension of agricultural services by the U.S. Department of Agriculture to Guam. This bill (which was defeated) proposed to send five employees of the U.S. Department of Agriculture to aid the farmers on the island of Guam.

Guam is 30 miles long and 4 to 8 miles wide. It consists of 225 square miles. Of that area, only 37.5 square miles are devoted to agriculture. There are 243 farmers engaged in the production of various crops, and, in addition, 174 are engaged in raising livestock. To service these 417 persons engaged in agriculture, the taxpayers of Guam maintain their own Dept. of Agriculture

The purpose of H.R. 3 was to correct the grave error made by the Communist-coddling Supreme Court when it ruled that individual States cannot protect themselves and the nation against Communist infiltration and subversion within the borders of the individual States.

Rejected 191 - 227, June 24, 1959.

(-) means a vote to deprive the individual States of the right to control internal subversion;

(+) means a vote to give the States the right to protect themselves.

ISSUE #6. PUBLIC WORKS

H.R. 7509. This vote was on the Taber motion to send the bill back to committee in order to reduce by 5% the amounts for each project costing $5 million or more. This would have resulted in a saving of approximately $30 million.

Rejected 149 - 251, June 9, 1959.

(-) means a vote to maintain high level Public Works spending;

(+) means a vote to reduce "pork barrel" spending.

SUMMARY TABLES - I

It will be noted in the table for the Senate that the average for the South is the highest in the nation on six of the eight issues; while in the House of Representatives, the South's vote was the most Conservative on five of the eight issues covered. On Issue No. 6 in the House (Public Works), Midwest Republicans, scoring 92% gave the Midwest the highest Conservative average; Eastern Democrats scored a surprising Conservative rating of 92% regarding Issue #8 (Soil Bank) - nevertheless the South had the highest over-all average for Conservatism on Issue #8, scoring 81%.

Specific attention is called to the final figure in the summaries for both the Senate and the House of Representatives, which shows that the over-all average of the South (including Democrats and Republicans) is the highest in the nation (56% in the Senate - 55% in the House). The Midwest is second, in each case, with a Conservative rating of 37% in the Senate, and 43% in the House.

ISSUE #2, GUAM AGRICULTURAL EXTENSION

H.R. 9866 - This vote is included in THE INDEPENDENT AMERICAN Index because, even though it represents a very small sum of mopey ($100,000 per year), it is nevertheless a measuring stick of those who vote for fantastic, wild and completely unnecessary spending. H.R. 9866 covers the extension of agricultural services by the U.S. Department of Agriculture to Guam. There are 243 farmers engaged in the production of various crops, and, in addition, 174 are engaged in raising livestock. To service these 417 persons engaged in agriculture, the taxpayers of Guam maintain their own Dept. of Agriculture at a cost of $148,000 per year. This bill proposed to spend $100,000 per year of U.S. taxpayers' dollars to finance sending an additional five employees from the United States to aid the 30 present employees of the Guam Dept. of Agriculture. In other words, H.R. 9866 would have provided a total of 35 agricultural employees to "farm" 417 farmers on only 37-1/2 square miles. The gross yearly product of agriculture in Guam amounts to only $200,000 per year. Had this bill passed, the total cost of providing agricultural services for Guam would have amounted to $248,000 per year, or $48,000 more than the gross agricultural product itself! And yet, 202 members of the U.S. House of Representatives voted for this unnecessary big spending bill!

H.R. 9866, considered under a "suspension of rules," would have required 2/3 vote to pass.

Rejected - 202 Yeas; 151 Nays (less than 2/3), Aug. 22, 1960.

(-) means a vote for Big, Unnecessary Spending;

(+) means a vote for economy and fiscal sanity.

(+) means a vote to reduce "pork barrel" spending.

A few "spot checks" of highly-touted GOP Congressmen and Senators on genuine Conservative issues not listed (or omitted!) in the ACA-INDEX started the ball rolling! It was Mary Helen Brengel, our Assistant Editor, who "carried the ball". All patriots will agree that possibly the patriot's reward is "only in Heaven", but we believe that Mary Helen Brengel deserves a special "on-earth" vote of thanks for her dedicated and consecrated work in giving you, the voter, a factual picture through actual voting records of how your Congressman or Senators voted.

ISSUE #7, RECIPROCAL TRADE

H.R. 12591, Reciprocal Trade was originally sold to the American public on the basis that "trade is a two-way street," and that we must import in order to export our own goods, it was stressed that if we reduced our import duties on foreign goods, other nations would do likewise on American goods entering their countries. Since 1934, U.S. tariffs have been reduced 75% and now average only 5% of the cost of the goods. More than 50% of U.S. imports are admitted duty-free. However, other nations have not "reciprocated." Average British tariffs are presently six times as great as those of the United States. Of the 36 leading "trade nations" of the world, 28 have higher tariffs than does the U.S. The tariff on foreign cars sold in the U.S. is only 8-1/2%; the British "reciprocate" by assessing a 30% tariff on American cars imported into that country.

The SOUTHERN STATES INDUSTRIAL COUNCIL BULLETIN recently pointed out that the Reciprocal Trade Program "is a two-edged sword, with both edges pointed toward us." Continuing, they pointed out "It not only deprives the American worker of his job, it drives that job overseas -- if the employer is to continue in business. And the overseas job is producing goods in competition with whatever production may remain at home. As Sen. Schoeppel of Kansas says: 'We are making the U.S. the worst place in the world to buy and the best place in the world to sell in. If we continue we will have full employment in Milan and Manila and increasing unemployment in Topeka and Detroit.' A later statement is made by a well-known Southern merchant, just returned from Europe: 'We are pricing ourselves out of many markets. They now have the know-how, modern machines, and are producing quality products cheaper than we are'."

Competition from cheap goods from foreign factories which pay laborers "slave wages" is now causing increased unemployment in the United States.

Passed 317 - 98, June 11, 1958.

(-) means a vote to continue and extend unfair foreign competition;
(+) means a vote to protect the jobs of U.S. working men.

ISSUE #8, SOIL BANK

H.R. 7441. 1958 Agricultural Appropriations Bill. This vote was on the Harrison amendment which would have suspended operation of the Soil Bank Program as of the end of the 1957 fiscal year, therefore deleting $500 million requested under this bill for the 1958 Soil Bank Program.

Sen. Williams of Delaware stated in 1957 (the year in which this bill was voted on) that the Ford Motor Company recieved $13,049.40 for not planting corn and wheat in 1957; Libby McNeil & Libby got $19,654 for not planting cotton; the Mississippi State Penitentiary received $71,000 for not planting cotton; and for resisting the impulse to plant wheat, the Kansas State University Endowment Association was "endowed" by Uncle Sam with $17,125.14 in Soil Bank payments!

Passed 192 - 187, May 15, 1957.

(-) means a vote to continue the Soil Bank program which has been proven a failure;
(+) means a vote for economy.

THE ACA INDEX VS. THE INDEPENDENT AMERICAN INDEX

The addition of votes dealing with Foreign Policy, Internationalism, Foreign Aid, and Reciprocal Trade, all of which THE INDEPENDENT AMERICAN considers highly crucial, and which were omitted from the ACA Index, reveal a rather wide area of discrepancy between the ratings achieved by members of the House and Senate under the ACA Index and the ratings achieved by these same members of the House and Senate in THE INDEPENDENT AMERICAN Conservative Index. For instance, John Synon, in his article, "You Bet I Am a Republican" states "There are 437 members of the House of Representatives. Of these, 13 have never, not once - at least, not since 1956--have never cast a vote of record on a critical issue that was in violation of the principles written into our Constitution."

ACA lists the following Congressmen, all Republicans, as having achieved a 100% ACA record: Reps. Bruce Alger (Tex.), Samuel L. Devine (O.), Charles E. Goodell (N.Y.), Edgar Hiestand (Calif.), Elmer J. Hoffman (Ill.), John A. Lafore, Jr., (Penn.), Glenard P. Lipscomb (Calif.), Wm. E. Minshall (O), Ancher Nelsen (Minn.), Alexander Pirnie (N.Y.), Howard W. Robinson (N.Y.), Gordon H. Scherer (O), and H. Allen Smith .

However, Rep. Ancher Nelsen of Minnesota (rated 100% by the ACA) achieved only a 67% rating under THE INDEPENDENT AMERICAN Conservative Index, because Nelsen voted in favor of the NATO Conference, and in favor of Foreign Aid. He was not in office for the two earliest votes recorded in the IA Index. Rep. Howard Robison of New York, an ACA 100%-er, received a 67% Conservative rating under the IA Index, because Robison voted in favor of NATO, Foreign Aid, and Reciprocal Trade. Rep. John A. Lafore, Jr., of Pennsylvania, 100% in ACA, received 67% IA rating, because he voted for NATO and for Reciprocal Trade. Rep. Glenard P. Lipscomb of California, 100% ACA, received 75% in the IA Index, because he voted for NATO and for Reciprocal Trade.

As previously mentioned, the ACA rates 13 members of Congress as 100% - and all are Republicans. However, according to THE INDEPENDENT AMERICAN Index, only 3 of these 13 GOP Congressmen rate 100%. These mutually-agreed-upon 100% Conservatives are: Reps. Devine of Ohio, Hoffman of Illinois, and Scherer of Ohio. The other 10 ACA 100%-ers rate from 88% all the way down to 67% in THE INDEPENDENT AMERICAN Index.

How can the ACA rate as 100% Conservative any member of the Congress who votes for the NATO Conference, Foreign Aid, or the other issues listed in THE INDEPENDENT AMERICAN Index?

SOUTHERN CONSERVATIVES

John Synon, in his article "You Bet I Am a Republican", states that the 113 "best" members of the House are all Republicans, and that the highest-rated Democrat in the House gets only 78% under the ACA Index. Again, ACA Index is at great variance with the voting records compiled by THE INDEPENDENT AMERICAN. Our Conservative Index lists 14 members of the House as achieving a 100% rating. Of these 14, 4 are Southern Democrats (Alexander, N.C.; Ashmore, N.C.; and Davis and Flynt, both of Georgia). The remaining 10 who are rated 100% under THE INDEPENDENT AMERICAN Index are Republicans from the Midwest and Far West.

COMPARATIVE RATINGS

The ACA Index does not rate any Southern Democratic Congressmen higher than 78%, whereas the voting records compiled in THE INDEPENDENT AMERICAN Index result in no less than 17 Southern Democratic Congressmen receiving ratings of 80% and above.

Some interesting examples of how the ACA Index apparently favors Republicans is illustrated by the fact that the ACA rates Congressman Walter Judd of Minnesota as 80%; however, because

world to buy and the best place in the world to sell in, if we continue we will have full employment in Milan and Manila and increasing unemployment in Topeka and Detroit.' A later statement is made by a well-known Southern merchant, just returned from Europe: 'We are pricing ourselves out of many markets. HOUSE AND SENATE

The tables shown below may be used to evaluate which geographical areas are the most Conservative, as well as which party is the most Conservative on each issue. They also indicate variations between areas regarding subjects such as Foreign Aid, NATO Conference, etc.

Evidence of the "working coalition" achieved by Southern Democrats and Conservative members of the Republican party is also demonstrated by this tabulation. Southern Democrats, it is apparent, are consistently more Conservative than Democrats from any other part of the nation.

In each table shown below, asterisks (*) are used to indicate that area whose average rating was most Conservative on each issue, as well as the party whose vote, among all areas, was the most Conservative. The very high ratings of Southern Republican members of the House of Representatives, although their number is few, also indicate the basic Conservatism of the South, where a Republican, to be elected, must be very Conservative.

The ACA Index does not rate any Southern Democratic Congressmen higher than 78%, whereas the voting records compiled in THE INDEPENDENT AMERICAN Index result in no less than 17 Southern Democratic Congressmen receiving ratings of 80% and above.

Some interesting examples of how the ACA Index apparently favors Republicans is illustrated by the fact that the ACA rates Congressman Walter Judd of Minnesota as 80%; however, because Congressman Judd voted in favor of NATO, in favor of extending Agricultural Facilities to Guam, in favor of Foreign Aid, in favor of Reciprocal Trade, and in favor of the Soil Bank, THE INDEPENDENT AMERICAN Index rates Judd as 38%. How can a man who has voted as indicated above be considered an 80% Conservative as the ACA Index rates Congressman Judd?

Other examples of disagreement between ACA and THE INDEPENDENT AMERICAN Conservative Index are the votes of the following Congressmen: Cramer (R., Fla.), rated 89% by ACA, but only 38% by IA; Chiperfield (R., Ill.) 92% ACA, only 43% IA; Halleck (R., Ind.) 87% ACA, only 50% IA (Halleck voted in favor of NATO, in favor of Foreign Aid, in favor of Reciprocal Trade, and in favor of the Soil Bank); Church (R. Ill.), rated 95% by ACA, earned only 50% in THE INDEPENDENT AMERICAN Index.

On the other hand, when rating Democrats from the East and Far West, the ACA Index and THE INDEPENDENT AMERICAN Conservative Index are in complete agreement in rating no less than 17 such extreme left-wing Congressmen as "0".

John Synon states in his article "The lowest rated Republican in the House rates better than 2/3 Democrats. Of 151 Republican members of the House, only three rate below the 40% Conservative level." According to THE INDEPENDENT AMERICAN Index, two Republicans (Baldwin of California, and Merrow of New Hampshire) rate "0"! The ACA Index shows Merrow as the lowest Republican, with a rating of 35%. No less than 25 Republicans rate lower than 40% in THE INDEPENDENT AMERICAN Index.

COMPARISON: ACA vs. IA INDEX IN THE SENATE

The ACA Index lists the following Republican Senators as achieving ratings from 91% to 99%: Williams (Del.), 99%; Goldwater (Ariz.), 98%; Butler (Md.), 93%; Hruska (Nebr.), 93%; Bridges (N. H.), 92%; Curtis (Nebr.), 91%; and one Democratic Senator, Byrd (Va.), 92%.

THE INDEPENDENT AMERICAN Index, on the other hand, lists only Senator Goldwater among the Republicans as achieving a rating higher than 90%. Democratic Senators who also achieve a rating above 90% in THE INDEPENDENT AMERICAN Index are: Sens. McClellan, Ark.; Russell, Ga.; Talmadge, Ga.; and Strom Thurmond, S.C.; all of whom, as in the case of Sen. Goldwater, are rated 100% IN THE INDEPENDENT AMERICAN Index.

following Congressmen: Granier (R., Fla.), rated 89% by ACA, but only 38% by IA; Chiperfield (R., Ill.) 92% ACA, only 43% IA; Halleck (R., Ind.) 87% ACA, only 50% IA (Halleck voted in favor of NATO, in favor of Foreign Aid, in favor of Reciprocal Trade, and in favor of the Soil Bank); Church (R. Ill.), rated 95% by ACA, earned only 50% in THE INDEPENDENT AMERICAN Index.

On the other hand, when rating Democrats from the East and Far West, the ACA Index and THE INDEPENDENT AMERICAN Conservative Index are in complete agreement in rating no less than 17 such extreme left-wing Congressmen as "0".

John Synon states in his article "The lowest rated Republican in the House rates better than 221 Democrats.... Of 161 Republican members of the House, only three rate below the 40% Conservative level." According to THE INDEPENDENT AMERICAN Index, two Republicans (Baldwin of California, and Merrow of New Hampshire) rate "0"! The ACA Index shows Merrow as the lowest Republican, with a rating of 35%. No less than 25 Republicans rate lower than 40% in THE INDEPENDENT AMERICAN Index.

COMPARISON: ACA vs. IA INDEX IN THE SENATE

The ACA Index lists the following Republican Senators as achieving ratings from 91% to 99%: Williams (Del.), 99%; Goldwater (Ariz.), 98%; Butler (Md.), 93%; Hruska (Nebr.), 93%; Bridges (N. H.), 92%; Curtis (Nebr.), 91% and one Democratic Senator, Byrd (Va.), 92%.

THE INDEPENDENT AMERICAN Index, on the other hand, lists only Senator Goldwater among the Republicans as achieving a rating higher than 90%. Democratic Senators who also achieve a rating above 90% in THE INDEPENDENT AMERICAN Index are: Sens. McClellan, Ark.; Russell, Ga.; Talmadge, Ga.; and Strom Thurmond, S.C.; all of whom, as in the case of Sen. Goldwater, are rated 100% IN THE INDEPENDENT AMERICAN Index.

A few comparisons between the ACA and the IA ratings of Senators are as follows: Everett Dirksen (R. Ill.) ACA 79%, IA 50%; Homer Capehart (R. Ind.) ACA 74%, IA 50%; Thruston Morton (R., Ky.) ACA 67%, IA 29%; L. Saltonstall (R. Mass.), ACA 69%, IA 38%; Kenneth Keating (R., N.Y.), ACA 72%, IA 33%; Wallace Bennett (R., Utah), ACA 84%, IA 38%.

WHAT WAS THE REAL PURPOSE OF THE ACA INDEX?

It is the view of THE INDEPENDENT AMERICAN that the ACA Index was intended as a Republican "tool" in the Presidential Election. By careful selection of issues on which votes were tabulated in the ACA Index, as discussed in this article, the ACA Index creates the impression that the Republican Party is the party of Conservatism, and that all Conservatives should therefore join the Republican Party.

THE INDEPENDENT AMERICAN disagrees, and points to the fact that although Republican Congressmen scored 64% Conservative in THE INDEPENDENT AMERICAN INDEX, and are more Conservative than the majority of Democrats, nevertheless GOP Congressmen voted 36% of the time pro-Socialist!

Finally, there is a side-effect of this ACA voting index, which could be most harmful to the future of the United States, and that is, by creating this aura of "Conservatism" for Republican incumbents, truly sincere Conservatives will hesitate to oppose them and run for office. What Republican, for example, would have the audacity to run against Congressman Judd of Minnesota, whom the ACA awards an 80% rating? And yet, as shown in THE INDEPENDENT AMERICAN voting index, Congressman Judd has voted "Liberal" and "International" on 5 of the 8 key issues recorded and received an IA rating of being only a 38% Conservative!

Only when genuine 100% Conservatives under the Republican label, the Democratic label, or a New Party label, are elected to the Congress, can Constitutional government again be restored to this nation. We do not believe that the ACA Index is speeding this day by omitting the Liberal votes of incumbent Republicans.

One final word in conclusion: A standard should be set by which any member of the Congress or Senate can rightfully be called a "Conservative." Might we suggest that only those Senators and Congressmen who vote 70% or more of the time in favor of the Conservative position according to THE INDEPENDENT AMERICAN Index are worthy and deserve to be rated "Conservative"?

DESCRIPTION OF BILLS VOTED

ISSUE #1, ANTARCTIC TREATY

In the bob-tail session of Congress, 1960, the U.S. Senate ratified the Antarctic Treaty, over the strenuous and well-documented opposition of Senators Richard Russell of Georgia, Strom Thurmond of South Carolina, Spessard Holland of Florida, Herman Talmadge of Georgia, and Russell Long of Louisiana.

The Antarctic Treaty is binding on the U.S., Great Britain, Soviet Russia, and nine other countries. The Antarctic Treaty admitted Communist Russia to the Antarctic region (Antarctica) on an equal footing with the United States and other nations which have a long history of activity and claims in the Antarctic. The main effect of the Antarctic Treaty is to freeze indefinitely the existing status of sovereign claims in Antarctica. That, of course, is tailored for the benefit of the Soviet Union, which has no claim of any kind dated any earlier than 1958.

The Antarctic Treaty involves an area as big as the United States plus all of Europe. Under this treaty, the U.S. abandons our just claims based upon our discoveries in the Antarctic. The treaty is iron-clad, in that it cannot be modified or amended except by unanimous consent on the part of all the signatories. In other words, the Soviet Union is now in a position to veto any modification whatsoever. The alarming aspect of the U.S. ratification of the Antarctic Treaty in which the U.S. joined with the Soviet Union and other nations, was voiced by Sen. Richard Russell of Georgia, as follows: "Every person of intelligence in this country knows that Russia is a ruthless, conscienceless, atheistic Communist society whose pledges are absolutely worthless, and are used only to achieve an end, without any intention of being honored."

Sen. Russell further stated in speaking against the Antarctic Treaty, "I am not willing to place any trust or reliance, in surrendering America's valid rights, on the pledged word of Russia; and I am not willing to vote to commit this country to what I regard as a most one-sided international agreement."

Sen. Russell pointed out another danger of the Antarctic Treaty, when he stated "There are 12 nations out of the 80 nations on earth which are signatories, and which would be bound, but the other nations on earth could go to Antarctica and locate to their hearts' content. They could assert claims to any extent they desired to - and who would stop them? Who would put them out?"

Sen. Spessard Holland of Florida, during the Senate debate, pointed out that one of the latest maps of the Antarctic region shows that the distance from the tip of South America to Antarctica is only 1,000 miles or less. Also, under the treaty, the Soviet Union itself, while pretending to establish scientific bases could, in reality, establish military bases from which to attack the Western Hemisphere.

Sen. Russell then brought up the point that any Communist satellite nation could move into the Antarctic tomorrow and build a military or missile-launching base and, because the aggressor was not a signatory to the treaty, we could do nothing. Thus it is seen that this Antarctic Treaty provides a way by which the Soviet Union, although supposedly bound by the Antarctic Treaty, is still free to operate through its satellite nations in any territorial conquest it may wish to make in the Antarctic.

A "Liberal" vote on this treaty (shown as "-"), is a vote to undermine our national security by entering into another worthless agreement with the Soviet Union, and thereby to further appease Communism. Such a Liberal vote reveals that the Senator is dangerously uninformed and has confidence that Communist Russia will live up to this agreement although it has broken 50 out of 52 agreements in the past. A Liberal vote (-) indicates that the Senator is unaware of the menace of Communism as it approaches nearer and nearer to the continental limits of the United States.

Passed 66 - 21, August 10, 1960.

(-) means a vote to undermine our National Security and appease Communism;

(+) means a vote to defend the sovereignty and security of the United States of America.

Passed 49 - 40, Sept. 12, 1959.

(-) means a vote to help arm our enemy by spending U.S. taxpayer dollars.

(+) means a vote to preserve our national security through refusing to send strategic war materials to satellite nations.

ISSUE #5, FEDERAL YOUTH CORPS

S. 812. This bill, which is estimated to cost around $400,000,000 per year, created a Federal Youth Conservation Corps numbering 150,000 in its first stages. It provided the organization of this Youth Corps to work on conservation projects, thus adding hundreds of thousands to the Federal payroll to perform jobs which should be handled by the individual States or private enterprise.

There is a strange similarity between this Federal Youth Conservation Corps and the Youth Bunds of Hitler in the early days of his terrorist regime of Nazi Germany. The youth of this nation should always be under the control of the family, or (if the family is unable to take proper care) such matters can be handled by religious organizations, local, City, and State charities. A Federal Youth Corps under the complete control of the Federal Government is inimical to the American way of life.

Passed 47 - 45, August 13, 1959.

(-) means a vote allowing the Government a "foot-in-the-door" towards the control of the youth of this nation. It also means a vote against the rights of individual communities and States to control and supervise their youth;

(+) means a vote for economy, because such a Youth Corps is completely unnecessary. It is also a vote to prevent Federal interference with, and control over matters which rightfully should remain within the realm of the family and the individual State.

ISSUE #6, LABOR RIGHTS

S. 1555. (See description under Issue #4 in the House of Representatives.) This Senate bill also contains the "Labor Bill of Rights," but includes a provision for criminal penalties for unfair actions against Labor Union members by Big Labor Bosses.

Passed 47 - 46, April 22, 1959.

(-) means a vote in favor of Big Labor Bosses;

(+) means a vote in favor of the rights of the individual Labor Union members.

ISSUE #7, STATES' RIGHTS

S. 654. The right of the States to control Communism. (See description under House of Representatives Issue #5.)

Recommitted to committee (killed) 41 - 40, Aug. 21, 1958.

(-) means a vote to deprive the individual States of the right to control internal subversion;

(+) means a vote to give the States the right to protect themselves.

ISSUE #8, RECIPROCAL TRADE

H.R. 12591. (See description under House of Representatives Issue #7.)

Passed 72 - 16, July 22, 1958.

(-) means a vote to continue and extend unfair foreign competition;

(+) means a vote to protect the jobs of U.S. workingmen.

NEW PARTY ON BALLOT IN THESE STATES

Only in a few States will it be possible on November 8 for voters to go to the polls and cast their ballots in favor of third party candidates, representing Conservative political views which are completely opposed to the Liberal Socialist views of the Kennedy-Nixon combine. If you are a resident of one of the following States, you will have the opportunity to vote your true convictions. You can vote for Conservative principles in the following States:

NEW JERSEY

The Conservative Party of New Jersey is running candidates for both national and local offices, including the offices of President, Vice President, a full slate of Presidential electors, a Senatorial candidate, eight Congressional candidates, and candidates for the office of County Freeholder in eight counties.

As this issue of THE INDEPENDENT AMERICAN goes to press, the New Jersey Conservatives plan that J. Bracken Lee of Utah will be their candidate for the Presidency, and Kent Courmey of New Orleans, publisher of THE INDEPENDENT AMERICAN Newspaper, will be their candidate for the Vice Presidency.

Winfred O. Perry of Montclair, N.J., New Jersey Conservative candidate for the Senate, will oppose incumbent Senator Clifford Case, Republican. Senator Case, it will be noted, scores a Conservative rating of only 25% in THE INDEPENDENT AMERICAN Conservative Index to be found on pages 3 and 4 of this issue.

In the Fourth District, comprising Burlington and Mercer counties, Howard G. Frank of Trenton, N.J., will oppose incumbent Democrat Congressman Frank Thompson, Jr., whom THE INDEPENDENT AMERICAN rates as a 14% Conservative.

In the Sixth District, Union County, John H. Wisner, Jr., of Summit, N.J., will represent the New Jersey Conservative Party against incumbent Republican Florence P. Dwyer, who votes only 25% Conservative.

In the 7th District, made up of Hunterdon, Sussex and Warren counties and parts of Bergen and Passaic Counties, Robert A. [illegible] the ballot in Michigan under the symbol of the Liberty Bell.

The Honorable Alvin Reynolds is the candidate of the Independent American Party for United States Senate. He will oppose incumbent Senator Pat McNamara, Democrat, who has a Conservative rating in THE INDEPENDENT AMERICAN Conservative Index (contained in this issue) of "ZERO".

This new party also has on the ballot 20 Independent Electors, and candidates for most of the seats in the State Legislature. Readers of THE INDEPENDENT AMERICAN Newspaper in the State of Michigan can express their disgust with the Democrat and Republican parties by voting for the Presidential Electors of the Independent American Party of Michigan, and voting for Alvin Reynolds for United States Senator and for all other candidates of the Independent American Party for the State Legislature, and other local offices.

As we go to press, we do not have the names of all of these candidates, but we suggest that Michigan readers of THE INDEPENDENT AMERICAN write to the headquarters of the Independent American Party of Michigan, 12099 Grand River Avenue, Detroit, Michigan. The Independent American Party headquarters will send you full information how you can be of help this election year in making this new Conservative party effective at the polls.

MISSISSIPPI

Independent Electors are on the ballot in Mississippi, spearheaded by actively-campaigning Governor Ross Barnett. Chances are excellent that the Independent Elector plan will carry the State of Mississippi.

TEXAS

The Constitution Party of Texas will appear on the ballot, with Charles L. Sullivan, former district attorney of Clarksdale, Mississippi who was a strong contender in last year's Democratic gubernatorial primary, as its Presidential candidate.

U.N., UNESCO and NATO All Aim At World Government

By Florence Lyons

(Reprinted from THE LEDGER, Montrose, California.)

UNesco and the entire United Nations Organization is dedicated to the end objective of transforming the present "UN" into a UN World Government.

NATO is dedicated to the end objective of transforming the present "NATO" structure into a REGIONAL World Government.

The UN-Planners, including the Communists from the USSR and the Communist Agents and sympathizers planted in the U.S. Government, carefully wrote into the UN Charter the legal provision for the formation of "regional" groups such as "NATO". They knew that these would help greatly in the final takeover, since nations which had already surrendered their national sovereignty to a POLITICAL regional-grouping would be easier to lead-by the nose into total UN World Government than would the many independent nations which exist under the present system.

POLITICAL ALLIANCE

The bait the U.S.A. swallowed whole in joining NATO, was that it was to be strictly for "defense." Only the Boys in the Backroom knew the plans were already being drawn to extend "NATO" into POLITICAL alliance.

To America this means uniting in common flag, government, monetary system, etc., with Mama England, France, Italy, Germany and the other so-called "NATO democracies."

Admittedly the North Atlantic Treaty was lobbied through the Senate by an outfit called the Atlantic Union Committee. Its Mother-Body is "Federal Union, Inc.", which enjoyed tax-exempt status, and it was to protect this tax-exempt status, AUC was formed, NON-tax-exempt, and registered as a political lobby. One of the first acts of Eisenhower's administration was to grant this admitted lobby -- on whose Advisory Board sat Milton -- TAX-EXEMPT status retroactive to its birth!

SELL-OUT SET

For years, AUC has had "Atlantic Union Resolutions" up before the Senate, demanding a Constitutional Convention be called among NATO members and other "democracies" they might want to invite, to draft a Constitution for the new "Atlantic Union." This would replace our own, of course.

Richard Nixon sponsored the AUC Resolution as one of his first Senatorial acts, January 15, 1951.

Since the tax-exempt "deal" AUC has taken to half-concealment of its political lobbying. After about nine re-writes over as many years, they finally got their S.J. Res. 170 through the Senate on June 15th. This calls for a U.S. Citizens Commission on NATO, to spend $300,000-$400,000 of taxpayer's money on a "NATO Convention" of "NATO CITIZENS:; to chat over POLITICAL means of altering NATO. (It's un-Constitutional and violates, one Senator said, the Logan Act, but what do One-worlders care?)

The only honest Boy among them--ever--is Senator Thomas Dodd, who in pitching for the Resolution said: "I have no hesitancy in saying to my colleagues that I am a world federalist." He frankly admitted the proposition was "a small step" toward his goal of world government.

Richard Nixon's continued support was stated by Cooper, quoting ex-Fund for the Republic Boy Case:

"A number of us have been working on this problem. Among them is the Vice President of the U.S., who when he was in the Senate, had a great interest in this whole area, and still re[illegible] I am AUTHORIZED BY HIM to say that he welcomes

In the 8th District, representing the balance of Passaic County, Ronald G. Timm of Paterson, N.J., will oppose incumbent Republican Gordon Canfield, who voted Conservative on only 20% of the key issues outlined in THE INDEPENDENT AMERICAN Index.

In the 9th District, comprising parts of Bergen and Hudson Counties, Arthur A. Wacker will oppose incumbent Congressman Frank C. Osmers, Jr., whom the Conservative Index rates at only 25%.

In the 10th District, parts of Essex and Hudson Counties, Frank J. DeGeorge of Belleville, N.J., will oppose incumbent Congressman Peter W. Rodino, Jr., who rates a big fat "ZERO" as a Conservative in the index of key votes.

In the 11th District, made up of a part of Essex County, Conservative candidate Josephine Underwood of East Orange, N.J., will run against incumbent Congressman Hugh J. Addonizio, Democrat, whom THE INDEPENDENT AMERICAN rates as a 13% Conservative.

The Constitution Party of Texas will appear on the ballot, with Charles L. Sullivan, former district attorney of Clarksdale, Mississippi who was a strong contender in last year's Democratic gubernatorial primary, as its Presidential candidate.

Running for Congress in the Eighth District on the Constitution Party of Texas ticket, is Robert Nesmith, Houston contractor, who is widely known throughout the country in connection with his efforts to secure passage of the 23rd (Repeal the Income Tax) Amendment to the U.S. Constitution. Nesmith will oppose incumbent Democrat Congressman Albert Thomas - who voted only 38% Conservative on the key issues tabulated in THE INDEPENDENT AMERICAN Conservative Index.

In the Sixteenth District, Constitution Party candidate Dr. Dorothy Wyvell will oppose incumbent Democrat Congressman J. T. Rutherford. Rutherford rates 63% Conservative in THE INDEPENDENT AMERICAN Index.

VIRGINIA

The Conservative Party of Virginia has qualified to be on the ballot in that State, carrying two Virginians, Edward J. Silverman, and C. Benton Coiner, as its Presidential and Vice-Presidential Candidates. Poeschel of Short Hills, N.J., will represent the Conservative Party of New Jersey in opposition to incumbent Congressman George M. Wallhauser, Republican, who managed to chalk up a 50% Conservative score in THE INDEPENDENT AMERICAN Index. However, Wallhauser voted on only four of the eight key issues recorded in the Index. It will be noted that Wallhauser was listed as "Absent" on the vote for Foreign Aid Authorization. Since Wallhauser later voted in favor of the Foreign Aid Appropriation bill, it is assumed that he would have voted "Liberal" on Foreign Aid Authorization if he had been present. In that event, his Conservative rating would be only 40%.

LOUISIANA

The States' Rights Party of Louisiana has been joined by a large number of influential and dissatisfied Democrats, and will run unpledged Presidential Electors on the Louisiana ballot. There is great likelihood that the States' Rights ticket will carry the State of Louisiana.

MICHIGAN

Tom Staffin, the organizer and spark plug of the New Party movement in Michigan has done an outstanding job in creating a state-wide political party. Mr. Staffin reports that the Independent American Party will be on [illegible] throughout the country in connection with his efforts to secure passage of the 23rd (Repeal the Income Tax) Amendment to the U.S. Constitution. WASHINGTON STATE

Merritt Curtis for President and B. M. Miller for Vice President have a possibility of being on the ballot in Washington State under the sponsorship of the Constitution Party of the State of Washington.

A telephone interview with Mrs. Margaret Hofto of Tacoma, Washington, provided us the information that the Constitution Party had obtained the signatures of 100 persons who did not vote at the last primary, and this petition is now in the hands of the Secretary of State at Olympia, Washington. Mrs. Hofto, who is an official of the Constitution Party, stated that she did not know whether the party and its candidates, Curtis and Miller, would be on the ballot, because there is a possibility that some of those persons who signed the petition may have, later in the day, voted - in which case the petition might be invalidated.

"Their embassies in this nation serve as nests of spies and intrigue, and are being used as instruments of our nation's destruction," the organization said in a resolution adopted at the closing session of its national convention in the La Salle hotel.

Income Tax "Evil"

The organization, which reelected Billy James Hargis, a Tulsa evangelist, as its national president, said the income tax law is the "root of all government evil" and recommended its repeal.

"The spiritual morale of this nation has never been lower. Juvenile delinquency, crime, and alcoholism are at all-time highs," the resolution said "our nation should have a spiritual rebirth in order to save its soul and its favor with God."

The organization called for an end to foreign aid, except to friendly nations such as Korea and Nationalist China, adoption of the Mason-Bailey bill to establish protective tariffs, and removal of all government regulation and supervision of agriculture.

"Agree" with Nikita

"We concur with the recommendation of Nikita Khrushchev that the United Nations be removed from the United States, and we further recommend that the United States withdraw from the United Nations," the organization said.

We, The People! also voted against federal aid to education, and medical aid to the aged.

Dan Smoot Hits Goldwater

Calls for Boycott of Kennedy - Nixon

(Excerpts from THE DAN SMOOT REPORT)

The Republican Convention, July 25, formally opened with conservatives all over the nation thrilling with expectation--not just of a fight, but of victory.

It was clear that the Convention was disgusted with Richard Nixon. Even the Rockefeller forces to whom he had crawled and surrendered were contemptuous of him. Nixon (with Rockefeller's New York votes now assured) still had quite enough votes to win on the first ballot - if balloting for him were the first order of business in the Convention. But it wouldn't be. The Goldwater forces had ample time and opportunity to demand a roll-call vote of the whole Convention on every leftwing plank in the Republican platform. They were loudly threatening to do this; and if they had done it, Nixon's hold on the Convention would have been broken before two roll-calls were completed.

But the conservatives (who had their first real chance in more than twenty years, and probably the last chance they will ever have, to capture control of a major political party, did not have a leader with the courage, integrity, and brains needed for the occasion.

The Platform Committee which had indignantly said it would not become a rubber stamp for Nixon and Rockefeller, broke up into working subcommittees and started rubber stamping the Nixon-Rockefeller demands.

In fact (according to a by-line article by Arthur Krock, in the July 27, 1960, issue of The New York Times) professional political writers from Rockefeller's paid staff were assigned to edit the work of the various subcommittees of the Platform Committee to be sure that the exact language which Rockefeller wanted would be included in the Republican platform. Some of Nixon's people were given similar roles, but the Rockefeller professionals had their way completely. No one representing Goldwater or his point of view was given an opportunity even to see the new platform planks being written.

For five days--from Saturday, July 23, when the Nixon-Rockefeller deal was made, to Wednesday night, July 27, when the balloting for Nixon began--Goldwater led the conservative chorus of charges against Nixon for "betrayal," "surrender," and making a "Munich-deal." For five days, the Goldwater forces had threatened to fight for their principles. And then, on Wednesday night, Barry Goldwater broke the back of the conservative forces by withdrawing. Goldwater's forces had threatened, but had made no fight at all on the floor of the Convention. Barry Goldwater pulled out of the struggle when he should have been fighting with all his strength.

REPUBLICAN PLATORM

In his withdrawal speech, Goldwater said:

"The Republican platform deserves the support of every American over the blue-print for socialism presented by the Democrats."

The Republican platform is just as much a blue-print for socialism as the Democrat platform. The Republican platform does pay more lip service to the principles of freedom and to the importance of economy and sound money than the Democrat platform does; but this is hypocrisy, because the Democrats and Republicans make essentially the same promises.

The Republicans promise one-world socialism but express some nostalgia for individual freedom and economy in governmental operations. The Democrats just promise one-world so-

ELECT CONSERVATIVES TO CONGRESS IN NOV. AND PLAN FOR 1962

One question which Conservatives frequently ask is "What has accounted for the passage of increasingly Socialistic measures through Congress in the past few years, even though there are staunch Conservative members of both the House and the Senate, and there is a 'working coalition' between Southern Democrats and Conservative Republicans?" We believe that the answer to this question is found in THE INDEPENDENT AMERICAN Conservative Index which shows that the Republicans in the House of Representatives score, as a whole, a 64% Conservative rating, and the Democrats in the House, as a whole, score a 27% rating. This means members of the Republican party in the House voted 36% of the time in favor of Socialist legislation; whereas the Democrats voted 73% Socialist.

There are 437 members of the House of Representatives, which breaks down to 277 Democrats and 160 Republicans. This nation cannot be returned to fiscal sanity and Constitutional Government as long as Democrats rate an average of only 27% Conservative and members of the Republican party obtain an over-all average of only 64% Conservative. Two courses are open in order to halt Congressional irresponsibility and Big Spending: (1) Present members of the Republican and Democratic parties must be prevailed upon by the voters back home to increase the number of times they vote Conservative, or (2) failing that, all Senators and Congressmen, regardless of party label, who score less than 70% should be replaced by Republicans, Democrats, or independent candidates who will pledge to vote 100% Conservative.

A Congressman or Senator who only votes 45% of the time, or 55% of the time Conservative does inestimable harm to the cause of Conservatism, as he is occupying a seat in Congress which could be filled by a 100% Conservative.

Therefore, it is suggested that you use THE INDEPENDENT AMERICAN Conservative Index to analyze your Congressman's voting record. If he votes 70% or more Conservative, give him as much support as you possibly can. If, on the other hand, he votes less than 70% Conservative, start now to work with other Conservative citizens in your Congressional area to find a genuine Conservative candidate for Congress to replace the Liberal or pseudo-Conservative incumbent in the 1962 Congressional elections. Specific "grass roots" action can, in this way, give the Conservatives a majority in Congress in 1962!

REPUBLICAN PLATORM

In his withdrawal speech, Goldwater said:

> "The Republican platform deserves the support of every American over the blue-print for socialism presented by the Democrats."

The Republican platform is just as much a blue-print for socialism as the Democrat platform. The Republican platform does pay more lip service to the principles of freedom and to the importance of economy and sound money than the Democrat platform does; but this is hypocrisy, because the Democrats and Republicans make essentially the same promises.

The Republicans promise one-world socialism but express some nostalgia for individual freedom and economy in governmental operations. The Democrats just promise one-world socialism.

Some conservatives say it is significant that the Republicans at least pay lip-service to American principles. Democrats don't even have enough respect for these principles to praise them. There is a point there. On the other hand, which will be more damaging to the cause of freedom: a Nixon administration which supports one-world socialism while confusing the public with rhetoric praising American principles of freedom; or a Kennedy administration which supports the same one-world socialism, without any hypocritical talk about American consitutional principles!

He is strongest and can fight most effectively who can clearly distinguish his enemies and his friends.

BARRY GOLDWATER

In his withdrawal speech, Goldwater said:

> "I've been campaigning across this country for six years for Richard Nixon. And I see no reason to change my mind tonight."

Goldwater had admitted that Nixon deceived him. He had admitted Nixon had gone "far to the left." He had accused Nixon of "surrender" and "betrayal" -- but could see no reason for not supporting Nixon. What would be a good reason in Goldwater's scheme of values?

Goldwater said: "If we (conservatives) want to take this party back--and I think we can someday-- let's get to work (and help elect Nixon)."

What Goldwater says here is, simply, that conservatives should work hard to complete the left-wing's total, tight-fisted control of the Republican Party--so that conservatives can then recapture the party!

Some conservatives defend Goldwater's withdrawal by saying that it was the only strategic thing to do: he couldn't possibly have won, after the Nixon-Rockefeller deal, and it would have hurt the conservative cause if he had left his name in nomination and members of the Republican party obtain an over-all average of only 64% Conservative. Two courses are open in order to halt Congressional irresponsibility and Big Spending: (1) Present members of the Republican and Democratic parties must be prevailed upon by the voters back home to increase the number of times they vote Conservative, or (2) failing that, all Senators and Congressmen, regardless of party label, who score less than 70% should be replaced by Republicans, Democrats, or independent candidates who will pledge to vote 100% Conservative.

A Congressman or Senator who only votes 45% of the time, or 55% of the time Conservative does inestimable harm to the cause of Conservatism, as he is occupying a seat in Congress which could be filled by a 100% Conservative.

Therefore, it is suggested that you use THE INDEPENDENT AMERICAN Conservative Index to analyze your Congressman's voting record. If he votes 70% or more Conservative, give him as much support as you possibly can. If, on the other hand, he votes less than 70% Conservative, start now to work with other Conservative citizens in your Congressional area to find a genuine Conservative candidate for Congress to replace the Liberal or pseudo-Conservative incumbent in the 1962 Congressional elections. Specific "grass roots" action can, in this way, give the Conservatives a majority in Congress in 1962!

La. Sets Up Un-American Activities Committee

Representative James H. Pfister of New Orleans was elected Chairman of Louisiana's new Joint Legislative Committee on Un-American Activities.

This new Committee of ten members is composed of five State Representatives who were appointed by the Speaker of the House, and five State Senators appointed by the President of the Senate. The Vice-Chairman of this Committee is Senator Samuel S. Broussard of New Iberia.

The Concurrent Resolution which set up the Committee outlined that the "Committee shall study, investigate and analyze all the facts relating directly or indirectly to the subject"of "subversive groups and persons under the color of protection afforded by the Bill of Rights of the U.S. Constitution which seek to destroy us and the ideals for which we fought".

The Committee has the power to investigate "groups and organizations which have as their objectives...the overthrow of the State of Louisiana or the United States by force, violence or other unlawful means."

The Joint Legislative Committee on Un-American Activities has the power to employ the necessary staff, including research and investigative personnel, as it may ties and accomplish its purposes.

Although the Committee was given sufficient power to carry on a wide area of investigation, it is somewhat hampered by one portion of the Concurrent Resolution which prohibits the Committee from investigating confidential records of the government of the State of Louisiana itself. The only records that the Committee can obtain regarding the State Government are those included in the Public Records Act. The Committee may thus find itself considerably restricted in trying to investigate evidences of Communist activity in the State Universities or in the State Department of Education. This is unfortunate because it is well known that the Communist Party is continually trying to infiltrate key positions in education.

To the best of our knowledge, Louisiana is the first State to establish a subversive investigating Committee since the Supreme Court ruled in the case of Steve Nelson that individual States did not have the right to control subversion within the State.

It will be interesting to see how the Louisiana members of the National Lawyers Guild, the Louisiana Civil Liberties Committee, and the other "bleeding-

administration which supports the same one-world socialism, without any hypocritical talk about American consitutional principles!

He is strongest and can fight most effectively who can clearly distinguish his enemies and his friends.

BARRY GOLDWATER

In his withdrawal speech, Goldwater said:

"I've been campaigning across this country for six years for Richard Nixon. And I see no reason to change my mind tonight."

Goldwater had admitted that Nixon deceived him. He had admitted Nixon had gone "far to the left." He had accused Nixon of "surrender" and "betrayal" -- but could see no reason for not supporting Nixon. What would be a good reason in Goldwater's scheme of values?

Goldwater said: "If we (conservatives) want to take this party back--and I think we can someday-- let's get to work (and help elect Nixon)."

What Goldwater says here is, simply, that conservatives should work hard to complete the left-wing's total, tight-fisted control of the Republican Party--so that conservatives can then recapture the party!

Some conservatives defend Goldwater's withdrawal by saying that it was the only strategic thing to do: he couldn't possibly have won, after the Nixon-Rockefeller deal, and it would have hurt the conservative cause if he had left his name in nomination and had thus let the nation see how few votes he would get.

If--as I have indicated before--Goldwater had fought the Republican blueprint for socialism by demanding roll-call votes on the floor, he would have gained such strength by the time his name was placed in nomination that he very probably would have won. At the very least, he could have made a most impressive showing for the conservative cause. As he handled it (far from winning great respect for the conservative cause, as is widely claimed) Goldwater convinced the nation that conservatives have little strength, and no courage or leadership to use what they have.

I could, however, forgive Goldwater for such a strategic error in refusing to fight; but I cannot forget his unrestrained (and basically dishonest) praise of Richard Nixon whom he had previously castigated in rather harsh terms.

The Americans For Constitutional Action's analysis of the voting records of United States Representatives and Senators reveals that Republicans have a far better record in Congress than Democrats. Many conservatives take this as evidence that they should vote for Republicans Nixon and Lodge in November. I take it as evidence that conservatives should not vote for Nixon and Lodge. The Republicans who have consistently made excellent records for supporting constitutional principles in Congress, did so, in large part, by opposing everything that Nixon and Lodge stand for.

If conservatives want to make their votes mean something at the polls in November, they will see to it that every good conservative in Congress (whether Democrat or Republican) gets a bigger vote in every district than either Kennedy or Nixon gets. Voters can do this by voting FOR the good Representatives and Senators, and refusing to vote for either presidential candidate.

I understand the fear which many conservatives have of Walter Reuther and of similar characters who have great influence on John Kennedy. But THE CONTROLLING influence of Rockefeller on Nixon is just as fearful. Rockefeller's determination to convert America into a socialist labor state and to submerge it into a one-world socialist government is just as great as Reuther's. In fact, Rockefeller's program is more clearly expressed and more openly advocated than Reuther's; and Rockefeller's power to get what he wants seems greater than Reuther's.

Any conservative who votes for Nixon, merely because he is afraid of Kennedy, does not show his dislike or fear of Kennedy. He merely adds to the prestige and power of the ruthless, relentless Nixon-Lodge-Rockefeller combine.

WILL WRITE-IN VOTES BE COUNTED?

Now is the time to lay your plans for whatever action you plan to take on election day. Granted, there isn't much choice between the "like-as-two-peas-in-a-pod" candidates, Kennedy and Nixon. But, what's to be done about it?

One method of protest is to go to the polls on election day and cast your votes for all Conservative candidates for Congress, but boycott Presidential and Vice Presidential candidates. If Conservative candidates for Congress should receive more votes than the Presidential candidates in a large number of Congressional Districts, a non-voting protest would certainly be apparent to columnists and political analysts following the election.

If, however, you prefer to cast a "voting" protest by writing in your choice for President and Vice-President, here is what you should do right now: Pick up your telephone and call your County Registrar of Voters. Ask him (or her) the following questions:

"Are write-in votes permitted, or - if I write in candidates for President and Vice President - will it invalidate my ballot and cancel out my other votes?"

"If write-in votes are permitted, should my vote be cast for Presidential and Vice-Presidential candidates, or for Presidential electors?"

"If I must vote for Presidential electors, how many are required, and must I indicate a party name?"

Election returns for previous years as shown in the World Almanac indicate that "write-in" votes are probably permissible in the following States:

Arkansas, California, Connecticut, Delaware, Florida, Georgia, Idaho, Illinois, Massachusetts, Michigan, New York, South Carolina and Vermont.

However, don't take our word - or even the World Almanac's word - for it! Check now with your County Registrar of Voters so that you'll know what to do when election day rolls around. And don't overlook the fact that unless you check on these details in advance, your "write-in" vote is likely to invalidate your ballot, and throw out your much-needed votes for Conservative Senators and Congressmen.

Elections have been won or lost by a one-vote margin - so insure that your votes are correctly entered by obtaining details regarding voting laws in your State NOW!

VOTER'S REBELLION IN GEORGIA

(Reprinted from CHATTANOOGA NEWS-FREE PRESS)

Georgia voters exercised excellent judgment by choosing in a statewide Democratic primary vote September 14 to put unpledged presidential electors on the November ballot rather than a slate of electors pledged to the Kennedy ticket.

The Georgians' decision for independent electors, one which all the South should have matched in its own self-interest, is particularly impressive in view of the fact that Gov. Ernest Vandiver has regrettably endorsed the Kennedy ticket.

But what Gov. Vandiver was willing to swallow without effective protest, the individual voters of Georgia were not willing to swallow.

If Georgia had simply "gone along" by adopting pledged electors, it would have given up any chance of having bargaining power. It maintains a chance, however, by having independent electors.

Admittedly, the chance is very small, as things have shaped up, that Georgia's independent electors will be effective. They are so few. Only Mississippi's and part of Alabama's electors have joined in an independent move. Mississippi has eight electors. And six of Alabama's 11 are independents. That provides a total of only 26 independent electors.

It is improbable--though still possible--that the election will be so close that 26 independent electors will hold the balance of power. But if other Southern

Break Off With Cuba—Now!

(Reprinted from MANCHESTER (N.H.) UNION LEADER)

The United States should break off diplomatic relations with Cuba immediately. It is impossible to advance any sensible reason why the United States should continue to have the property of its citizens confiscated in Cuba and submit itself to every possible insult of its diplomatic representatives and of its people.

But the question of breaking diplomatic relations with Cuba goes beyond the matter of national pride or decency. It gets down to a matter of just plain common sense. Anyone who reads about the activities of Cuban dictator Castro during his New York visit can conclude only that he is little more than a beatnik bum, backed up by Russian machine guns.

How anyone can take this man seriously and regard him as a rational, logical representative of the Cuban people is beyond belief. It is not only degrading for the United States to submit to insults by Cuba, it also is just plain ridiculous for us to have relations with this bearded beatnik.

If the United States is going to try to do business with irrational Communist puppets such as Castro and Lumumba, we might as well give up all hope of living a normal and sensible life, because these people are neither normal nor sensible. You cannot do business with them any more than

But what Gov. Vandiver was willing to swallow without effective protest, the individual voters of Georgia were not willing to swallow.

In our electoral system as established by the Constitution, each state has the number of electors equal to the number of representatives and senators it has in Congress. Georgia has 12. A total of 269 electoral votes will be needed by a presidential candidate to win.

In event of a very close race between Vice President Nixon and Sen. Kennedy, it is possible that if a sizable number of independent electors withheld their votes from both candidates, neither would have the 269 needed to win. If that were the case, the independent electors would hold the balance of power. One candidate or the other would have to make concessions to gain those independent votes, or the election would be thrown into the House of Representatives for decision.

If Georgia had simply "gone along" by adopting pledged electors, it would have given up any chance of having bargaining power. It maintains a chance, however, by having independent electors.

It is improbable--though still possible--that the election will be so close that 26 independent electors will hold the balance of power. But if other Southern electors had stood with these, it would have been possible to have a bloc of perhaps 57 or even 69 independent electors. And a bloc of that size might well hold the balance of power.

Though the Georgians' independent decision does not assure them of victory, it does constitute an indorsement of principle. They have not gone down the line for the radical candidate and platform. And they may be proud of it.

And there is this to think about: That Georgians made this decision for independence, despite their popular governor's endorsement of Kennedy, is indication that determined opposition to the radical Kennedy platform is running far stronger at the grass roots in the South than many may have believed.

You cannot do business with them any more than if you were to treat some occupant of an insane asylum as a rational individual.

The entire situation is so absurd that it defies description.

THERE IS ONLY ONE WAY TO BRING AN END TO IT AND THAT IS TO SEVER DIPLOMATIC RELATIONS WITH CUBA AND TO ASSIST EVERY POSSIBLE EFFORT OF THE CUBAN PEOPLE TO FREE THEMSELVES FROM THIS BLOOD-THIRSTY DICTATOR WHO IS SUPPORTED BY RUSSIAN GOLD AND RUSSIAN GUNS.

In his speech before the U.N. General Assembly, President Eisenhower missed a great opportunity to tell the assembled leaders of world communism that the United States is confident of eventual victory.

He could have warned that the U.S. will resist Red aggression in Cuba, Laos, Africa and every other part of the globe where Americans are threatened. He could have set forth an Eisenhower Doctrine of massive resistance -- a modern parallel to the Monroe Doctrine.

Instead, he talked of disarmament and aerial inspection--goals that are utterly unreal in an era in which Communism's leader tells the West: "We will bury you."

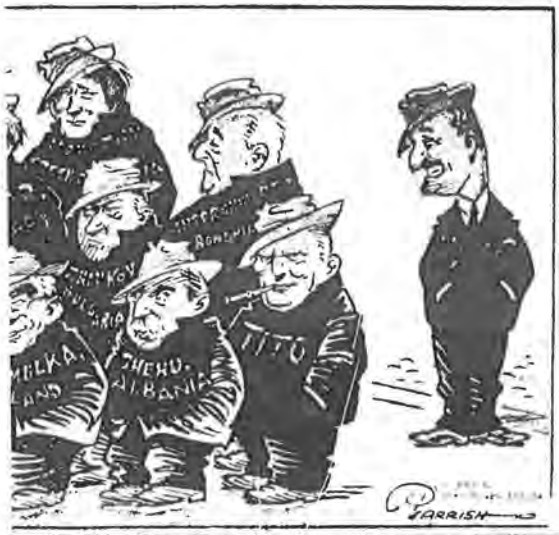
The President, unfortunately, is a captive of State Department officials who seek not victory but coexistence. He also is the captive of "liberal" opinion which places the interests of other nations ahead of the interests of the American people.

As a result, the United States always is on the defensive. Khrushchev knows that the U.S. government treats the United Nations as a kind of international YMCA, in which all members are decent, clean-living Christian gentlemen.

The U.N., of course, is a device that more often than not suits the purposes of the Soviet State. If it were not useful to the Reds, they would walk out and stay out. Americans in both national parties refuse to face that fact.

UTOPIA IN 2069

Month after month, Federal financial expert Sen. Harry Byrd (Dem., Va.) reports on increases in the number of employes in the growing Federal bureaucracy. The National City Bank of New York has figured that if the rate of government employment continues to increase in the future as it has during the past 25 years, everybody will be working for the government by the year 2069!



Of course, that would leave a little gap in productive employment that might cause even big-promising politicians some trouble.

U.S. AIDS RED POLAND

POLAND AIDS RED BLOC

By Fulton Lewis, Jr.

(Copyright, 1960, King Features Syndicate, Inc.)

WASHINGTON, SEPT. 13 -- The United States has funneled $654 million worth of foreign aid in the last four years to the Communist government of Poland in the futile hope of weaning that satellite away from Moscow.

Rather than accomplishing the expressed purpose, the American dollars have beefed up the Polish government to the extent that the nation is now going into the foreign aid business on its own.

The Poles have instituted a program of technical aid to those nations classified as either "wavering" or being solidly in the Communist bloc.

With two exceptions, the Poles are competing with the U.S. in their new enterprise. Hub of the Polish program seems to be the Prozamet enterprise, where 1,200 engineers are designing industrial complexes for Indonesia, the United Arab Republic, India, Brazil, Cuba, China and Czechoslovakia.

Polish plans and designs are responsible for two steel plants and a computer factory in India; a foundry and tool plant in Brazil; two factories in Czechoslovakia.

Negotiations with these and other nations are now underway for similar projects. Included are a factory for the United Arab Republic; a structural steel plant and a machine tool factory for India; a shipyard and a rail freight car plant for Indonesia; factories for Mongolia, North Korea and Ceylon.

A key nation in the Polish foreign aid program is Cuba, and Polish engineers are now mapping plans for eleven industrial plants in that country. The Cubans have asked for a structural steel factory, a machine tool factory, and an iron and steel foundry. Their value is calculated at $8 million.

Seven of the nations receiving Polish assistance have been the recipients of United States aid, going back many years. The American aid, however, has done little good.

India, for instance, has accepted $1.4 billion from this country; Indonesia, $408 million; Brazil, $782 million; Czechoslovakia, $191 million; Ceylon, $52 million; the United Arab Republic, $208 million; and Cuba, $63 million.

Most of those nations have been taking foreign aid from the Soviet Union as well. Communist technicians have designed and built large industrial plants in India. Both the U.S. and the Communist nations gave the Indonesian army planes, guns, tanks and other hardware for use in putting down an anti-Communist rebellion.

The Soviets are now building the second stage of the Aswan Dam in the UAR, and Czechoslovakia, too, has received aid from both nations.

KENNEDY-NIXON FOR FOREIGN GIVEAWAY

By Mary Helen Brengel

Once upon a time as election day drew near the voter was inclined to take inventory of his political beliefs, and, using them as a yardstick, would decide which Presidential candidate "measured up."

Unfortunately, there is no necessity for such self-analyses in this election year of 1960. With that November day close upon us when we may choose who is to be honored through election to the highest office in this land, it has become more and more obvious to intelligent voters that they are being offered a "choice that is no choice." Where does Sen. Kennedy stand on any given issue? That's where Nixon stands too!

Take, for example, the outrageous Foreign Aid program, with its yearly giveaway of billions of dollars to foreign countries -- dollars taken from taxpaying U.S. citizens by the increasingly heavy hand of authoritarian government. Neither candidate for the Presidency would operate in the interest of the taxpayers by whom they will be elected to office, where Foreign Aid is concerned. Both Kennedy and Nixon favor continuation of this program, and would be more apt to increase than to decrease these give-aways.

travel the roads. Also, the American taxpayer has sent expensive scientific equipment to Laos, where there is nobody able to use it. Inflation resulted from our excessive cash grants to Laos, doubling the cost of living.

"American Might and Soviet Myth," by J. G. Campaigne, Editor of the Indianapolis Star (Henry Regnery, $3.95) gives further examples of the lavish stupidity with which our tax dollars are being spent in Foreign Aid, among which are the following:

LEBANON

U.S. Foreign Aid built an orange-sorting plant for the Lebanese, but no individual orange grower has enough production to use it. The U.S. also built a housing project for the Lebanese -- too far away from the villages where the people work. The housing project is unused.

TURKEY

A big beet sugar factory was provided through Foreign Aid dollars for the Turks, who grow enough beets to operate the factory only 18 days a year!

A key nation in the Polish foreign aid program is Cuba, and Polish engineers are now mapping plans for eleven industrial plants in that country. The Cubans have asked for a structural steel factory, a machine tool factory, and an iron and steel foundry. Their value is calculated at $8 million.

Seven of the nations receiving Polish assistance have been the recipients of United States aid, going back many years. The American aid, however, has done little good.

India, for instance, has accepted $1.4 billion from this country; Indonesia, $408 million; Brazil, $782 million; Czechoslovakia, $191 million; Ceylon, $52 million; the United Arab Republic, $208 million; and Cuba, $53 million.

Most of those nations have been taking foreign aid from the Soviet Union as well. Communist technicians have designed and built large industrial plants in India. Both the U.S. and the Communist nations gave the Indonesian army planes, guns, tanks and other hardware for use in putting down an anti-Communist rebellion.

The Soviets are now building the second stage of the Aswan Dam in the UAR, and Czechoslovakia, too, has received aid from both nations.

Note: The purpose of U.S. aid to Poland, namely to help the country break away from Moscow, has not been realized. Just five days after Polish Deputy Minister Piotr Jaroszewicz returned from Washington with the promise of $150 million more in foreign aid, four months ago, Soviet and Polish diplomats celebrated the fifteenth anniversary of the Polish-Soviet "friendship treaty."

Polish diplomats in Warsaw lauded the USSR for its "much appreciated aid to solidify the socialist camp." Boleslaw Jaszczuk, Polish Ambassador to Russia, spoke over Radio Moscow to thank the Soviets for their great help in "the growth of Polish industrial potential." He went on to stress the undying alliance between the two nations, and to attack the West's position on "peaceful coexistence," disarmament, and "German imperialism."

Symptomatic of our times and particularly indicative that this is an election year, is a piece by Raymond Moley in Newsweek Magazine of recent date.

Unfortunately, there is no necessity for such self-analyses in this election year of 1960. With that November day close upon us when we may choose who is to be honored through election to the highest office in this land, it has become more and more obvious to intelligent voters that they are being offered a "choice that is no choice." Where does Sen. Kennedy stand on any given issue? That's where Nixon stands too!

Take, for example, the outrageous Foreign Aid program, with its yearly giveaway of billions of dollars to foreign countries -- dollars taken from taxpaying U.S. citizens by the increasingly heavy hand of authoritarian government. Neither candidate for the Presidency would operate in the interest of the taxpayers by whom they will be elected to office, where Foreign Aid is concerned. Both Kennedy and Nixon favor continuation of this program, and would be more apt to increase than to decrease these give-aways.

The Eisenhower-Nixon Administration has handed out $64 billion in the past eight years in this manner. Some of this money has gone to foreign nations supposedly for the purpose of "buying" the military protection of their armed forces. Our own defenses have been neglected to the same extent, and - as a result - should our so-called "allies" "pull the rug" in a moment of emergency by refusing to allow us the use of their men and materiel, we will find ourselves in a sorry spot indeed. According to Brig. Gen. Bonner Fellers, war-time aide to Gen. Douglas MacArthur, who is now serving as National Director of the Citizens Foreign Aid Committee, the program of our own Strategic Air Command is greatly hampered from lack of funds.

And where has this Foreign Aid gone? Here are some - although only a few of the many - places to which it has gone:

ITALY

American millionaires are taxed 91% of their incomes yearly while Italy taxes its millionaires only 15%. Yet the U.S. sends Foreign Aid to Italy! As a result, Italy is able to continue its low tax rates, while living on high American taxes.

LAOS

The U.S. has generously built roads in the country of Laos, where there are few vehicles to [illegible] living.

* * * * * *

"American Might and Soviet Myth," by J. G. Campaigne, Editor of the Indianapolis Star (Henry Regnery, $3.95) gives further examples of the lavish stupidity with which our tax dollars are being spent in Foreign Aid, among which are the following:

LEBANON

U.S. Foreign Aid built an orange-sorting plant for the Lebanese, but no individual orange grower has enough production to use it. The U.S. also built a housing project for the Lebanese -- too far away from the villages where the people work. The housing project is unused.

TURKEY

A big beet sugar factory was provided through Foreign Aid dollars for the Turks, who grow enough beets to operate the factory only 18 days a year!

BOLIVIA

U.S. Foreign Aid dollars pay the annual deficit of the Bolivian tin mines, which are loading their payrolls while, at the same time, decreasing tin production.

IRAN

U.S. Foreign Aid dollars built a road that leads nowhere, and financed a dam which was never built.

INDIA

A 5-year plan was financed by our tax dollars to create "a Communist type of economic structure." The Indians suffered through resulting inflation.

HUNGARY

In 1957, immediately following the October uprising of 1956, U.S. tax dollars rewarded the Hungarian boss, Janos Kadar, with more than $10 million in Foreign Aid.

Mr. Moley, who generally is considered a conservative, is deploring what he considers to be "all or nothing" postures taken by many of his "conservative friends."

He refers to those persons who have "expressed either in print or personally, great unhappiness concerning political leaders whose views and votes have not completely and specifically met their own convictions."

There are many of Mr. Moley's point of view. But we cannot help but contrast this approach to the most frightening and terrifying problems of our time with the alleged comments of the man falling from an airplace whose parachute has failed to open: "I must keep my temper when I complain to the parachute company!" Ayn Rand, in her novel, "Atlas Shrugged," has, we believe, a slightly more practical approach to the problem. She comments: "Any compromise between bread and poison, is death."

What we believe Mr. Moley has not seen is that in our own age some of the most vital contradictory policies and problems of all time have bubbled to the surface asking for solution. And these problems contain views which are totally opposed.

They are not merely varying views of how to accomplish something about which agreement exists.

They are diametrically opposed objectives which cannot be compromised, as bread and poison cannot be compromised.

And to preach against the "all or nothing" view is to advocate, at this juncture at least, that a little poison will do us no harm.

The question is this: Shall a man have a total right to own property privately?

Not a word of that question can be omitted for each one is vital to the understanding of our times.

This question must be answered YES or NO. Some seek to eliminate the word "total" from the question. They wish it to be understood that a man should have a right to own property under some circumstances; or some types of property; or property up to a certain value.

But they are unwilling to face the issue. They don't want to decide whether a man has a right to total private ownership or only a right to own that portion of what he earns that "society" or "government" decides he should keep.

But if this compromise, this halting approach is taken as an answer, then, without even facing up to the issue we have decided AGAINST private ownership and private property. For if a man has a right to own, that right is total.

If he does not have that right then any discussion about the amount of property he may be permitted to keep or the uses to which he can put it, is merely embroidery to keep us from discovering that his rights have been taken away.

In the one case, the man is free. In the other, he is kept slave, moving about with a collar around his neck and a chain extending from that collar to the hand of his master.

No man is both slave and free, any more than a man is both dead and alive.

No man owns property if others can remove it from him legally or legally restrict and harass his ownership. Either he owns it or he doesn't.

And this is an "all or nothing" problem with no possibility of compromise.

Tito–Past and Present

(Reprinted from Chattanooga NEWS-FREE PRESS)

Let us look backward for a moment:

When Yugoslavia was conquered by the Nazis in World War II, the world hailed the bravery and vigor of the Chetnik guerrilla forces of Yugoslavs who were led by Gen. Mikhailovich.

But Mikhailovich, despite his brilliant actions, was not the only guerrilla leader. There also was Marshal Tito, a Communist who was supported by the Russians.

In one of the most shameful sellouts of modern times, the support of the Western Allies was withdrawn from Mikhailovich. His unsupported forces became weakened and in time the brave fighter for Yugoslav freedom against both Nazi and Communist domination was captured by Tito. What followed was a political murder in the guise of a trial.

With Mikhailovich dead, Tito strengthened his Communist dictatorship in Yugoslavia. Tito had a falling out with Russia—but not over Communism. He simply wanted to be the dominant Communist himself.

And so foolish policymakers in our nation adopted shameful programs which have made American taxpayers subsidize the Communism of the Tito dictatorship in Yugoslavia.

Now let us look to current events for a moment:

Yesterday in New York, the President of the United States sat down to laugh and talk with Mikhailovich's murderer. The President of the United States laughed and talked in cozy fashion with a Communist dictator.

This was the same Communist who only a few minutes before had taken the floor of the UN to reiterate his full support of the Khrushchev program of uninspected "disarmament." But that, even, was not enough. He called again for murderous Communist China, the aggressor which killed thousands of Americans in Korea, to be given a UN seat. And because West Germany hasn't given in to Communist threats and coercion, Tito attacked "militarism" in West Germany.

This Tito is the man who murdered our wartime ally, his countryman. This is Tito the outright Communist, who is in his own way as evil as Khrushchev, who simply operates on a broader front.

Yet our President visits him. And every American taxpayer has his earninga taken for the purpose of subsidizing Tito.

Is there not in this example of American compromise with uncompromising evil some hint of why freedom has such a difficult time in the world today?

Cuban Launching Pad

(Reprinted from Charleston (S.C.) NEWS & COURIER)

By according Red China diplomatic recognition, Cuba gives that Asiatic tyranny a base of operations for intimidation of Chinese communities in this hemisphere. Cuba alone has 30,000 Chinese residents. Other nations in the Americas have much larger groups of native-born Chinese or citizens of Chinese descent. Many of these people have relatives in Red China.

One of the principal aims of the Chinese communists has been to subject all overseas Chinese to their control. Heretofore, they have been active against Chinese in Indonesia, Malaya and the Philippines. Now that Fidel Castro has welcomed them to Cuba, the Chinese Reds will be able to terrorize innocent Chinese in the lands to the south. Furthermore, they will have a launching pad for infiltration of Chinese communities in the United States.

DISGUSTED NON-VOTERS

Rose Wilder Lane, the famous author, suggested in a recent letter that some effort should be made to tabulate the number of persons in this coming election who refuse to vote, on principle.

She points out that there is a growing trend not of apathy, but of disgust.

Mrs. Lane has reference to the growing number of persons who find little to choose from in an election. These are not the uninformed or the apathetic. Rather, these are the persons who are particularly well informed. And, as a result of the information they have they suspect that however they vote, little will result which they would feel was desirable.

Stump Logic

(Reprinted from THE INDIANAPOLIS STAR)

By a fascinating process of illogic Chairman Henry M. Jackson of the Democratic National Committee has arrived at the conclusion that the chief difference between the two party platforms on Federal aid to education is that the Democratic platform defends the principle of local and state control of education and the Republican platform doesn't.

He arrives at this amazing interpretation on the grounds that the Democrats are in favor of all kinds of Federal aid to education, while the Republicans propose to limit Federal aid to classroom construction. From this he deduces that the Republicans "apparently believe that Congress and the Federal executive can best determine the needs."

The truth is that any kind of a Federal aid program, whether for education or anything else, is based on the presumption that the Federal Congress and whatever Federal agency is to administer the program can determine the needs in and for that program better than the states and localities can. Every Federal aid program is aimed at establishing or enlarging an activity which the states have failed to establish, or have not operated on a big enough scale to suit the Federal government.

No Federal aid program is established without specifications as to what is to be done with the money. The "liberals" found that out very suddenly after the 1958 "Defense Education" law was enacted, and they've been complaining about it ever since.

Rather, these are the persons who are particularly well informed. And, as a result of the information they have they suspect that however they vote, little will result which they would feel was desirable.

Some of them ask: "What is the point, voting for Candidate A when Candidate B has much the same policy? We are given no real choice. Both parties move along the same lines in the same direction."

A person who has accurately figured out this fact is not particularly interested either in voting or in the outcome of the voting by others. He is interested in bringing about a change which would be so sweeping as to reverse the trend he now sees. Since he cannot do this under existing circumstances, he tends, in increasing numbers, to boycott the polls.

As a matter of fact, there is no point at all voting for the "lesser of two evils." For any person who knowingly votes in favor of a lesser evil is still condoning and supporting evil. And as long as great hordes of people go rushing to the polls in November to vote for evil (lesser or greater) so long will there be no appreciable difference in policies noted at the voting places.

Another facet becoming almost a classic example and provides further reason why people who are informed will not become overly excited at the November prospects.

A bureaucracy is always characterized by the appointment and hiring of specialists and "experts" who undertake to handle certain administrative details. Customarily, these "experts" are hired by the executive or someone acting for him. Hence, the authority of the executive clings to the appointee as a sort of invisible "aura."

Over a period of time the executive or those acting for him will have almost totally lost contact with the appointee. New appointees will be hired, but the older ones will not be discharged.

Outside of government, where the grass roots of the nation live, the people may rise up in virtual rebellion. They will cry out against the mounting costs and other excesses. But their hostility will have to vent its force almost uselessly against the executive or those speaking for him. The bureaucracy, which is actually doing the damage, is remote and untouchable. No avenues are open to reach it.

This is the plight in the United States at this time. Thousands of American voters have already observed that a change in the titular head of the nation does little if anything to change policies or practices which continue to operate under the bureaucracy.

All of these are reasons why we think Rose Wilder Lane is correct, and why a tabulation of the non-voters this November would be both informative and helpful.

Congress is not going to vote billions of dollars for school aid and then just hand it out to the states with no qualifications on its use. If it did, the resulting scandals in misappropriation of funds would make the developing highway program story look like the treasurer's report of an afternoon bridge club.

Any program providing Federal funds for public education means interference with local and state control. Funds for classroom construction mean reduction of local and state freedom of choice in that field. Funds for all school purposes mean reduction of local and state freedom of choice in all facets of education for which the funds are employed.

Plainly the Republican platform calls for less Federal intervention in public school affairs than does the Democratic platform, because the Republican platform would limit this intervention to the single field of classroom construction.

FACTS PROVE COMPLETE FAILURE OF "RECIPROCAL TRADE"

(Excerpts from the September 4, 1960, broadcast of the Manion Forum Network. The following remarks are those made by Congressman Noah M. Mason of Illinois).

Our Reciprocal Trade Agreements Program has been in effect 26 years. What has it accomplished? The four reasons given for its enactment in the first place were:

(1) That it would advance world peace;
(2) That it would make for world prosperity;
(3) That it would bring about amity among the nations; and
(4) That it would remove world trade barriers.

Has it accomplished any one of these four objectives?

Has the first objective--world peace--been advanced? During the 26 years the Reciprocal Trade Agreements Act has been on the books we have had World War II. We have had the Korean War. We have had the so-called Spanish Civil War.

We have had 13 years of war in Indo-China. We have had trouble between England and Egypt, between India and Pakistan. We have had Communist Russia extending her Iron Curtain beyond her borders until she now has control and domination over 900 million people instead of the 300 million Russians at the close of World War II. Can anyone truthfully say world peace has been advanced by our Reciprocal Trade Agreements Act?

And what about world prosperity, the second objective of the Reciprocal Trade Agreements Act? Are we any nearer world prosperity today than we were in 1934 when the program was instituted?

To try to bring about world prosperity we have given away over $140 billion in the last 20 years--$60 billion lend-lease during the war and $80 billion since the war--to say nothing of the $300 billion we have spent for national defense in the cold war.

Has world prosperity been advanced by the Act? Certainly our own prosperity has not been advanced, because we are in debt today to the tune of over $275 billion, which is more than all the other nations of the world put together owe--and more than twice as much as all the nations of Europe put together owe.

Has good will and amity among men been advanced by the Reciprocal Trade Agreements Act? My answer is: Not so anybody can notice it.

Finally, have world-trade barriers been reduced or removed? Do we have a freer flow of goods today across national borders than we had in 1934?

While world tariff walls have been lowered, other obstacles or barriers more effective than tariffs have been erected in their place, such as import and export licenses, trade preferences, currency manipulations, multiple currencies, quotas, subsidies, state trading, the European common market freeze-out, and so forth.

It is a fact, and we must face it, that, under the Reciprocal Trade Agreements Act, practically every foreign country that has lowered its tariff walls has erected other barriers against United States imports--thereby nullifying the effect of their tariff concessions or reductions.

In the face of these facts--and they are cold, hard facts--can anyone say our 26 years of experience under our so-called Reciprocal Trade Agreements Act has been a success from the standpoint of its effect upon our American economy? Has it been

The Giveaway of Strength

By Thurman Sensing

(Reprinted from Southern States Industrial Council BULLETIN)

The United States will change from a "have" nation to a "have-not" nation unless it ceases to export hard-earned capital in government-to-government foreign aid. Indeed foreign aid programs are the most direct way to deprive a capitalist nation of the substance of its strength.

In a recent proposal to Congress, President Eisenhower asked for $600 million in emergency aid for Latin American countries. But that is only a drop in the giveaway bucket. Under Secretary of State Douglas Dillon disclosed that, in his judgment, as much as $10 billion of U. S. funds may have to be spent to raise Latin nations to a plane of reasonable prosperity.

For Africa, the President has already asked for $100 million for emergency use in the Congo—and that is just the beginning. The United States pays most of the UN bills, and the occupation of the Congo alone by the UN could easily last another ten years. In addition, UN officials are talking in terms of hundreds of millions in "emergency" aid to other African regimes. The new nation of Somalia, for instance, on the Horn of Africa jutting into the Indian Ocean, is utterly dependent upon subsidies. It is not difficult to see that such demands upon American capital will mushroom within the next few years. Of the new African nations (actually that word is a misnomer for they are without the means of true independence) not one is fully capable of supporting itself.

Already, the United States has nine government agencies, the business of which is to give to foreigners money which U. S. citizens earn by their labor and skills. The agencies are the Export-Import Bank, International Bank for Reconstruction and Development, International Monetary Fund, International Finance Agency, Development Loan Fund, Inter-American Development Bank, International Development Association, International Cooperation Agency, and the Department of Agriculture.

The taxpayers are tricked in some cases into believing that funds poured out by these agencies are not gifts but loans. However, anyone who inquires into the character of these "loans" finds

between England and Egypt, between India and Pakistan, we have had Communist Russia extending her Iron Curtain beyond her borders until she now has control and domination over 900 million people instead of the 300 million Russians at the close of World War II. In the face of these facts--and they are cold, hard facts--can anyone say our 26 years of experience under our so-called Reciprocal Trade Agreements Act has been a success from the standpoint of its effect upon our American economy? Has it been a benefit to American workmen? The answer to both questions, of course, is "No"!

In addition to the advantages we have given foreign nations under our Reciprocal Trade Agreements Act, during the past 15 years we have poured out to war-torn foreign nations some $75 billion to rebuild their factories; to replace their worn-out or war-destroyed machinery with our modern machinery--thus creating competitors for us in both the foreign markets and in our own American market.

So, today we face the question: Is the United States being priced out of the world market? It certainly begins to look that way. One thing is absolutely certain: The United States is facing increased competition in world markets.

Today, for the first time in our history, we have an unfavorable world trade balance. In 1958, our unfavorable world trade balance was to the tune of $3.4 billion. In 1959, it was $3.7 billion. What it will be in 1960 we do not know as yet. But we do know that no nation on earth can run a deficit in its international trade balance of this magnitude very long without going on the rocks.

Under the guise of seeking allies and friends in an unfriendly world, the starry-eyed reformers in the State Department have issued what may be termed death sentences to hundreds of American industries and destroyed millions of American jobs.

Among the American industries that have already been dealt damaging body blows by the tremendous imports that are flooding our markets today are:

> Fishing, glassware, pottery, jeweled-watch, sewing machine, fur, glove, and textile. Large imports of these manufactured goods are flooding our markets and destroying the jobs of American factory workers. There is such a disparity in labor costs between European and American labor that three workers can be employed in Europe for what it costs to employ one in America.

How can we maintain high wages for American workmen and high living standards for American people when we permit goods manufactured by foreign workmen working for low wages and farm products raised by farmers who for centuries have been living like serfs, to flood our markets and destroy the jobs upon which our workers depend?

To correct this situation I introduced H.R. 10181, if passed, my bill would deprive the President of all powers with respect to

ment, as much as $10 billion of U.S. funds may have to be spent to raise Latin nations to a plane of reasonable prosperity.

For Africa, the President has already asked for $100 million for emergency use in the Congo—and that is just the beginning. The United States pays most of the UN bills, and the occupation of the Congo alone by the UN could easily last another ten years. In addition, UN officials are talking in terms of hundreds of millions in "emergency" aid to other African regimes. The new nation of Somalia, for instance, on the Horn of Africa jutting into the Indian Ocean, is utterly dependent upon subsidies. It is not difficult to see that such demands upon American capital will mushroom within the next few years. Of the new African nations (actually that word is a misnomer for they are without the means of true independence) not one is fully capable of supporting itself.

Already, the United States has nine government agencies, the business of which is to give to foreigners money which U.S. citizens earn by their labor and skills. The agencies are the Export-Import Bank, International Bank for Reconstruction and Development, International Monetary Fund, International Finance Agency, Development Loan Fund, Inter-American Development Bank, International Development Association, International Cooperation Agency, and the Department of Agriculture.

The taxpayers are tricked in some cases into believing that funds poured out by these agencies are not gifts but loans. However, anyone who inquires into the character of these "loans" finds that repayment is to be in what economists euphemistically refer to as "soft" currencies. Another and more accurate description is "worthless" currencies.

In many instances, the vast sums given away overseas go direct to the pockets of unscrupulous politicians. In some cases, they actually help advance the communist cause. Consider Laos, the South Asian country. Only last year it was learned that tremendous waste of U.S funds was taking place in that country. Then in August there was an anti-American revolt *despite* the American financial aid. To make it all the more shocking, the leader of the anti-American revolt has recently completed a training course subsidized by the U.S. Examples of this kind of international mess can be found wherever the U.S. is dumping capital.

World communism has no more helpful tool than the American practice of taking money from citizens at home and exporting it to lands across the seas. It wins no friends for the United States and renders U.S. individuals and communities less able to add to the productive plant of the American Republic.

Unquestionably, there are friendly nations that need help. But the way to help them is for the U.S. government to encourage American free enterprise to invest in those lands, to assure those companies that investments will be protected, and to inform foreign nations that a capitalist nation believes in private aid through investment, not socialist giveaways. If U.S. free enterprise were encouraged and protected, the need for government-to-government aid would disappear. Shareholders in the United States would profit, and foreign lands would make real gains. The person-

To correct this situation I introduced H.R. 10181. If passed, my bill would deprive the President of all powers with respect to trade agreements, and transfer those powers back to the Congress and to the United States Tariff Commission, where they resided previous to the enactment of the Reciprocal Trade Agreements Act.

H.R. 10181 proposes to amend the Tariff Act by striking out the 1934 Reciprocal Trade Agreements Act, thereby returning all authority over foreign trade agreements to the Tariff Commission and the Congress where it resided previously. My bill, if passed, would halt the present trend of American capital, American industry, and American jobs to foreign lands.

The Constitution gives Congress and not the Executive the authority to set tariffs. Congress should no longer shirk its responsibility. Congress should assume the responsibility and through its arm--the United States Tariff Commission--repair the damage done by the misguided policies of the past 26 years. (EDITOR'S NOTE: The issue of "Reciprocal Trade" was one of eight issues used by THE INDEPENDENT AMERICAN CONSERVATIVE INDEX in rating Congressmen and Senators, because we believe that this issue (omitted by the ACA INDEX) is crucial. On pages 3-4 you can see how your Congressman and Senators voted on Reciprocal Trade.)

NOT SO DUMB

Following is a letter from a native citizen of the new nation, The Central African Federation, to his Tax Commissioner:

> "I have to refer to the attached form dated July 19, 1959. I regret to state that I am unable to complete the form as I do not know what is meant by filling this form. Moreover I am not interested in this income tax services of yours.

TAXES Vs. FOOD

Taxes are costing the American people more than food, reports the president of the Grocery Manufacturers of America, Inc. Last year the nation's tax bill totalled $125 billion, as against only $73 billion for food. Thirty years ago the tax bill was one-half the food cost.

the leader of the anti-American revolt has recently completed a training course subsidized by the U. S. Examples of this kind of international mess can be found wherever the U. S. is dumping capital.

World communism has no more helpful tool than the American practice of taking money from citizens at home and exporting it to lands across the seas. It wins no friends for the United States and renders U. S. individuals and communities less able to add to the productive plant of the American Republic.

Unquestionably, there are friendly nations that need help. But the way to help them is for the U. S. government to encourage American free enterprise to invest in those lands, to assure those companies that investments will be protected, and to inform foreign nations that a capitalist nation believes in private aid through investment, not socialist giveaways. If U. S. free enterprise were encouraged and protected, the need for government-to-government aid would disappear. Shareholders in the United States would profit, and foreign lands would make real gains. The personnel of U. S. corporations know much more about helping a country develop a strong economy than do the bureaucrats of Washington and the U. N.

The success of socialism in the United States is evident in the abysmal failure of the public to realize that private investment is the *only* way to help other nations. The government's policy of pouring billions into chaos will cure none of the ills of the so-called "underdeveloped" world but will, most assuredly, weaken the United States at the very time when it faces its gravest challenge from the masters of world communism. It is no exaggeration to say that the *national security* depends upon halting the great giveaway of capital.

One of the most influential posts of the American Embassy in Kenya is held by a man who had a key position in the Mau Mau organization.

The man is Joseph Thuo, who was secretary of the Kikuyu Central Association out of which came the Mau Mau murders and other atrocities.

This man is now a Press officer with the United States Information Service in Kenya.

The man's black record is exposed in a recent Colonial Office report on the Mau Mau activities.

BRAIN SHORTAGE

(Reprinted from Chattanooga NEWS-FREE PRESS)

Everybody admits the huge farm surpluses, which our foolish, vote-buying Federal programs are promoting at a cost to the taxpayers of billions of dollars a year (and storage costs of $1,000 a minute), are a real headache.

The other day after a difficult congressional committee hearing on a surplus bill, one congressman asked, "Isn't there anything we don't already have in surplus quantity?"

Quickly the committee chairman answered: "Brains, I think."

But that isn't quite accurate. We have many with brains enough to recognize the problem. The real shortage is in courage toward solving it.

WHAT IS THE PURPOSE OF RADIO FREE EUROPE?

The information given U. S. citizens is that this organization is helping the countries behind the Iron Curtain to hear the "TRUTH." The radio and balloon projects are supposed to counter the lies fed to the people under the domination of Communist Russia. All this sounds very good and in the tradition of freedom-loving Americans.

HOW DOES IT ACTUALLY OPERATE?

Radio Free Europe is manned by a strange conglomeration of persons, ranging from young kids just out of Ivy League colleges in the East, to internationally known Communists. In the past two years ten of the employees of Radio Free Europe have voluntarily returned to Czechoslovakia and have popped up in important jobs in the Communist-dominated government of that country and in other key positions in industry and commerce.

Americans through the Crusade for Freedom are asked to donate "Truth Dollars," to support the activities of Radio Free Europe. In some cities the home delivery boys of newspapers were "volunteered" into making a door-to-door solicitation for funds for Radio Free Europe. Let us see what kind of instructions were given to the staff of Radio Free Europe. Here, without change, are four typical paragraphs, in which the employees of R.F.E. are told to glorify the TITO type of Communism.

(1) "The evaluation desk for editors who deal with broadcasts concerning Communism, must prepare from their archives a list of members of the key leaders of the Communist Party who show individualistic leanings and are obviously in disagreement with Moscow's influence on the satellite countries, commenting on the character of these individuals wherever possible."

(2) "Editors who are preparing broadcasts dealing with the Communist Party are to slant their broadcasts in the future in such manner that they no longer attack Communist Party members so caustically, but appeal to their conscience and surreptitiously emphasize many of their good deeds." (Note: Does a Communist have a conscience?)

(3) "In other broadcasts it is necessary to glorify the figure of Marshall Tito in the eyes of Yugoslavia and the Western World. Tito is a hero who has saved the nation from exploitation by foreign barbarians and led them from their own possible downfall to a happy future."

[illegible] Today he has a job in the Communist government of Czechoslovakia in a military training organization. When he left Radio Free Europe he took the records with him.

Jiri Kalas was an assistant to the head of the Refugee Department at R.F.E. in Munich. In that job he questioned the newly arrived refugees in the Valka-Nuremberg Camp. He made false statements concerning real anti-Communist employees of R.F.E. causing their arrest. The charges were later proved to be false.

When he disappeared behind the Iron Curtain he stole records from Radio Free Europe and soon thereafter there were mass arrests made by the Communist Police of Czechoslovakian members of the underground who had aided refugees in leaving the country.

These two are typical of ten who at one time or another were in responsible positions in the Radio Broadcasting department of Radio Free Europe.

CHANCELLOR ADENHAUER WANTS R.F.E. OFF GERMAN SOIL

The Western German government has made repeated requests that Radio Free Europe be removed from Germany. This truly anti-Communist government must know that R.F.E. serves no useful purpose.

WHAT HAPPENS TO THE MONEY?

There is no public accounting for the funds collected in the U.S.A. although persons are exhorted to send donations in care of their local postmaster.

WHAT CAN YOU DO ABOUT THIS?

Bring these facts to the attention of your Congressman and ask him to demand an investigation of a private organization that is playing around with matters affecting our pocketbook, our foreign policy, and which could conceivably start a series of incidents that could lead to all-out war.

If there is a person in your town who has been asked to be a local "sponsor" of THE CRUSADE FOR FREEDOM, show him this article and ask him to investigate the facts as presented here and as provided through the research of Fulton Lewis Jr.

THE INDEPENDENT AMERICAN believes that every citizen should be on guard against his good name being used by an organization which has a high sounding aim and purpose but which in reality may be a "front" for those who would destroy our freedom in the name of fighting for freedom.

"Atoms for Peace"

The agency was created as a result of President Eisenhower's "atoms-for-peace" program, and the United States has donated 5000 kilograms of uranium-235 valued at $80 000,000, which will be distributed to 60 member nations under an agreement restricting the deadly material to peaceful purposes.

Russia has promised to contribute 50 kilograms, 1 per cent of the American donation, but has not yet made good on this pledge. The only other donor nation is Great Britain, which has offered a token contribution of 20 kilograms.

Reds Put One Over

[illegible] how the Soviet Union, in private negotiations at the first agency meeting in Vienna, got Gen. Loper as chairman of the board of governors remains a mystery, but several members of Congress pledged an inquiry, remarking that Russian control of the agency may, in the long run, prove a greater defeat for the United States than Russia's development of space satellites and intercontinental missiles.

The Senate ratified the treaty for American participation in the agency last June despite fears expressed by Senators Knowland (R., Calif.), Bricker (R., Ohio), Jenner (R., Ind.), Butler (R., Md.), Hickenlooper (R., Iowa) and Russell (D., Ga.), chairman of the armed forces committee.

The two-thirds majority of the Senate which approved the treaty, was assured by the State Department that the United States and its friends would have an overwhelming majority of votes in the agency to guard against misuse of nuclear fuel for military purposes.

CANADIAN TAX CUT REPORTED

OTTAWA, Dec. 7 — Canada's new Conservative government has announced a reduction of $178 million in personal and corporation income taxes and automobile purchase duties.

Finance Minister Donald Fleming announced the things would personal income tax cuts will begin next Jan. 1. Taxpayers will save an aggregate $56 million a year. Corporation income tax savings will be a total $12 million annually.

The current 10 per cent excise tax on new automobiles was cut to 7½ per cent, a move that will cost the federal treasury about 20 million dollars annually. Chrysler of Canada immediately announced price reductions on its cars ranging from about $12 to about $50 on higher-priced models.

The Conservatives promised tax cuts during the election campaign they won last summer unseating Liberals who had governed Canada for 22 years.

Ignorance Of History

Those unthinking Americans who currently are proposing that we enter into top-level "peace" negotiations with the Soviet Union display a shocking ignorance of history. Between 1917 and 1951, Russia entered into more than 1,500 separate treaties—**AND BROKE EVERY TREATY AND EVERY PROMISE EVER MADE TO ANOTHER NATION.**

In view of this record of deceit and treachery, the man who shouts for more of the same is either a fool or a traitor.

Byrd For President?

(From the Southern States Industrial Council Bulletin)

What people are wondering about is this: If both the Republican and National Democratic parties take a strong civil rights stand in 1960—and it is a foregone conclusion that they will—might it not be possible to draft Senator Byrd to run as an independent Democrat with the idea of throwing the presidential election into the House of Representatives? With him at the head of such a movement, its success would be virtually assured. At least this is the opinion now held by many experienced political observers.

Third Party . . . From Page 1

ent national crisis necessitates restriction of federal projects. So—accepting this proposition—the editorial contends that the logical thing is to put the burden back where it belongs—on the states and local areas.

In other localities there is great uneasiness over the general theory of judicial usurpation of legislative functions, with the Supreme Court taking undue liberties with the constitution.

There are several organizations, centered mainly in northern states, which are vigorously insisting on a return to constitutional principles. Non-partisan groups like the American Bar Association, the U. S. Chamber of Commerce and other elements are sounding alarms against federal encroachment upon legislative functions and upon local prerogatives.

IT must be said, again in impartial vein, that there never was such a wide-open opportunity for starting a third party, one big reason being that the old mutations of politics have created a bi-partisan program in Washington, in which party platforms have become practically meaningless.

In this mid re-alignment, federal centralization has grown apace. Comparatively few voices are raised in Washington against this centralization, which, in turn, has augmented bureaucracy, socialism and extravagant spending.

However if demagoguery and emotionalism are permitted to direct strategy, or if sectional issues are blown up into national size, the third party will go the way of all flesh, but faster.

FREEDOM

When the Government helps one group at the expense of other groups, we say it is unfair. If the Government helps all groups it must control all groups to protect its interests. If the Government controls all groups it leads to Socialism and Communism. Which would be best, less controls and more Freedom or more controls and no Freedom.

ELVIN ZANE Meade, Kansas

"Tyranny, like Hell, is not easily conquered; yet we have this consolation within us, that the harder the conflict, the more glorious the triumph. What we obtain too cheap, we esteem too lightly... It would be strange indeed if so celestial an article as freedom should not be highly rated."

Before More Is Stolen

Ben Mandel, research director for the Senate Internal Security subcommittee, suggests a new search for the sources from which Julius Rosenberg obtained American military and scientific secrets which he then turned over to the Russians.

Rosenberg and his wife Ethel, who were convicted as spies and executed in 1953, were particularly active in 1947 and 1948.

Mandel recently gave an account of what David Greenglass, Mrs. Rosenberg's brother, told him. It seems that in '47 and '48 Rosenberg told Greenglass that "we now have a space platform; one of the boys gave me the information and I gave it to the Russians."

Rosenberg also told Greenglass that the mathematics for the atomic airplane had already been worked out, and that he got it from his people and had also passed that along to the Russians.

Again we come back to the Signal Corps in Fort Monmouth—Rosenberg was an engineering inspector for the Army Signal Corps.

Mandel's suggestion seems sound. Wouldn't it be possible to trace the experts in the various plants throughout the country with whom Rosenberg came in contact during his employment? Of course it is too late to take back the information given the Russians by Rosenberg as the scientific, but let's find out who gave it to Rosenberg, then we can remove those people from any sensitive security jobs they may now still have.

CONGRESSMEN STUNNED

Red Named Chief Of "Atoms-For-Peace" Agency

BY WILLARD EDWARDS
Chief Writer

Washington—Congressional leaders reacted with dismay Thursday to the disclosure that a prominent Communist has been elected to the top administrative post in the new international atomic energy agency.

Much publicity was given recently to the selection of Sterling Cole, a New York Republican congressman, as director general of the agency. This was hailed as a triumph of American diplomacy, but only now does one know what orders from Dr. Pavel Winckler, well-known Czechoslovakian Red, elected chairman of the agency's "governing board of governors."

"Atoms for Peace"

The agency was created as a result of President Eisenhower's "atoms-for-peace" program, and the United States has donated 5000 kilograms of uranium-235, valued at 820,000,000 which will be distributed to 59 member nations under an agreement restricting the deadly material to peaceful purposes.

Russia has promised to contribute 50 kilograms, 1 per cent of the American donation, but has not yet made good on this pledge. The only other donor nation is Great Britain, which has offered a token contribution of 20 kilograms.

Shivers Predicts Growing Sentiment for Third Party

Some significant comments were made by former Gov. Allan Shivers in his speech at the dinner here sponsored by the Houston chapter, American Society of Tool Engineers. During his long tenure as governor, Shivers veered away from third party movements. He fought for the conservative viewpoint within the Democratic party, with one exception when he supported President Eisenhower.

At the dinner of the tool engineers, Shivers said that a third party movement is emerging and that it will grow stronger as the two major parties continue to cater to minority groups. He said that if the movement is broad enough in its principles and is free of hatreds and spite, it will grow. "Where else is there for conservatives to go?" Shivers asked.

Shivers said that the third party can't base its appeal on the civil rights issue alone. The appeal must be based on the broad issue of states' rights as opposed to ever-increasing centralization of government, on adherence to the traditional concepts of the Constitution, rather than on stretching the Constitution to suit the occasion.

There is, as Shivers said, a groping among millions of Americans for new leadership which will not betray the people's desire for a return to constitutional government. Limiting the movement to the civil rights issue will not bring in the nation-wide support a third party must have to be successful. A number of top conservative leaders of the country already is working on a third party movement for 1960. This group is basing its appeal on constitutional principles.

If the national movement can be tied into the Southern revolt, it will pose a threat to the major parties in 1960.

On the Back of the Stove

(Reprinted from the Richmond (Va.) NEWS LEADER)

One of the rules of politics is for public figures not to start running too fast, too soon. The best politicians are not dash men; they are distance runners, skilled in pacing themselves while the finish line is still out of sight. This is the time, so far as a third party is concerned, for them to be jogging along.

But another of the rules of politics—this is known as Gilmer's Law, after the former State Comptroller—is that every political leader should look over his shoulder now and then. If the people aren't right there behind him, he won't be a leader long. The people will have gone somewhere else, and some other fellow will be out in front.

Southern Governors, and Southern Congressmen and Senators, will want to keep Gilmer's Law well in mind over the next couple of years. For unless we mistake the omens badly, there is a groundswell of rebellion in the South against the two major national political parties; this could turn into tidal proportions with amazing swiftness, under the influence of another Little Rock, or another Civil Rights Bill, or some other provocation of similar magnitude. Some Southern leaders who regard themselves as solidly established could be swept aside in such a movement with a ruthless speed that would astonish them.

The depth of this latent feeling was revealed clearly in the recent public opinion poll conducted by Richmond Newspapers' research department. The survey asked this question: "If a conservative third party offered a suitable candidate for President in 1960, would you be inclined to vote for him?" Only 17 per cent of those who responded said flatly "no." A stunning 59 per cent answered "yes," and 24 per cent reserved an opinion. Sentiment in support of a third-party candidate was strongest among those in upper income brackets, among those of at least high school education, among persons 50 and over—but these were minor differences of degree. There is, in Virginia at least, a great body of potential voters now inclined to abandon the Republican and Democratic national parties; and a third rule of politics is that if there are votes to be had, someone will emerge to bid for them.

By every indication, the next presidential election will be a close and bitterly fought contest. Neither major party has any great popular figure to put forward. It seems probable that the electoral vote of Southern States will be an important, possibly a decisive, factor. It ought not to be committed too soon. For the time being, the best place for third-party sentiment is to be found on the back of the stove, where it can simmer along, "cooking down" for the dinner hour still far away.

Washington, D.C. - Many organizations actually Communist-dominated are able to carry on disloyal activities under a cloak of respectability because of unreasonably high standards of proof in the Communist Control Act of 1954, Senator James O. Eastland (D-Miss.) chairman of the Senate Internal Security Subcommittee said today.

A case in point, Senator Eastland said, is the American Communications Association, which represents some 8,000 employees of Western Union and RCA, and other communications firms, in the Metropolitan New York area.

"We have sworn testimony that the officers of this union have been members, at least in the past, of the Communist Party.

"We also have testimony that the great majority of the 8,000 members of this union are loyal Americans, and have no interest in the Communist movement. But to continue working in their chosen field, they must depend on Communist leadership to bargain for them. Efforts to oust the leadership have been foiled because these Communist officers control the machinery of union elections," Senator Eastland said.

The great danger of Communist domination in this case, he pointed out, is that in case of a war with Soviet Russia, certain Communists in the union would have the potential to sabotage vital communications lines running through New York.

"Witnesses told us that a small bottle of acid, sprinkled at the proper places on cables in New York, could knock out government communications so effectively that it would take weeks or months to restore normal service," Senator Eastland said.

Russia has promised to con- tribute 50 kilograms, 1 per cent of the American dona- tion, but has not yet made good on this pledge. The only other donor nation is Great Britain, which has offered a token contribution of 20 kilo- grams.

Reds Put the Over

Just how the Soviet Union, in private negotiations at the first agency meeting in Vienna, got over its choice as chairman of the board of gov- ernors remains a mystery, but several members of Con- gress pledged an inquiry, re- marking that Russian control of the agency may, in the long run, prove a greater defeat for the United States than Russia's development of space satellites and intercontinental missiles.

The Senate ratified the treaty for American participation in the agency last June despite fears expressed by Senators Knowland (R., Calif.), Bricker (R., Ohio), Jenner (R., Ind.), Dworshak (R., Idaho) and Russell (D., Ga.), chairman of the armed forces committee.

The knowledge majority of the Senate, which approved the treaty, was assured by the State Department that the United States and its friends would have an overwhelming majority of votes in the agency to guard against misuse of nu- clear fuel for military pur- poses.

On the Back of the Stove

(Reprinted from the Richmond (Va.) NEWS LEADER)

One of the rules of politics is for public figures not to start running too fast, too soon. The best politicians are not dash men; they are distance run- ners, skilled in pacing themselves while the finish line is still out of sight. This is the time, so far as a third party is concerned, for them to be jogging along.

But another of the rules of politics— this is known as Gilmer's Law, after the former State Comptroller—is that every political leader should look over his shoulder now and then. If the people aren't right there behind him, he won't be a leader long. The people will have gone somewhere else, and some other fellow will be out in front.

Southern Governors, and Southern Congressmen and Senators, will want to keep Gilmer's Law well in mind over the next couple of years. For unless we mistake the omens badly, there is a groundswell of rebellion in the South against the two major national political parties; this could turn into tidal pro- portions with amazing swiftness, under the influence of another Little Rock, or another Civil Rights Bill, or some other provocation of similar magnitude. Some Southern leaders who regard them- selves as solidly established could be swept aside in such a movement with a ruthless speed that would astonish them.

The depth of this latent feeling was revealed clearly in the recent public opinion poll conducted by Richmond Newspapers' research department. The survey asked this question: "If a con- servative third party offered a suitable candidate for President in 1960, would you be inclined to vote for him?" Only 17 per cent of those who responded said flatly "no." A stunning 59 per cent answered "yes," and 24 per cent re- served an opinion. Sentiment in sup- port of a third-party candidate was strongest among those in upper income brackets, among those of at least high school education, among persons 50 and over—but these were minor differences of degree. There is, in Virginia at least, a great body of potential voters now inclined to abandon the Republican and Democratic national parties; and a third rule of politics is that if there are votes to be had, someone will emerge to bid for them.

By every indication, the next presi- dential election will be a close and bitterly fought contest. Neither major party has any great popular figure to put forward. It seems probable that the electoral vote of Southern States will be an important, possibly a decisive, factor. It ought not to be committed too soon. For the time being, the best place for third-party sentiment is to be found on the back of the stove where it can simmer along, "cooking down" for the dinner hour still far away.

Washington, D.C. - Many or- ganizations actually Communist-dominated are able to carry on disloyal activities under a cloak of respectability be- cause of unreasonably high standards of proof in the Com- munist Control Act of 1954, Senator James O. Eastland (D- Miss.) chairman of the Senate Internal Security Subcommittee said today.

A case in point, Senator East- land said, is the American Com- munications Association, which represents some 6,000 employ- ees of Western Union and RCA, and other communications firms, in the Metropolitan New York area.

Knowland

Americans for Democratic Action, the left wing "liberal" political group, has been rating the votes of the senators and representatives in the recent session of Congress. ADA notes that whereas they rated the Republican party as 46 per cent liberal, Republican Leader Knowland voted 58 per cent, or 14 per cent more lib- eral than his party.

This is certainly an interesting perform- ance for the Republican who tries to pose as Mr. Conservative.

It confirms what this newspaper has al- ways said, that Knowland talks conserva- tive and votes liberal, if not left wing.

Senator Bridges, on the other hand, was listed by ADA as definitely anti-liberal, as were Barry Goldwater of Arizona, George W. Malone of Nevada and John J. Wil- liams of Delaware.

THIRD FORCE ... From Page 1

Chairman Paul Butler.

If there were hope of only a few Free Democrats from the South their fate might be unhappy, but with the South united as not since the War Between the States the prospect is more of a whole Southful of free Democrats, with more power than the South has had since its first armies swept the Federals back in 1861.

ISN'T IT TIME for Southern State Democratic Executive Committees of the South, or their chairmen, to get together and make their status clear?

This "third party" talk needs both conference and clarification. It needs a conference to face the nation well in advance with 130 solid electoral votes. It needs a clarification to assure all concerned that this independence includes no surrender of the Democratic name and organization at home.

You can't ignore 130 electoral votes and you can't impose party discipline on what is the whole party now in most Southern states.

The half had not been told. When you consider what caused the 1948 break-away you know re volt is many times more called for now and many times more certain.

THAT'S WHY the result this time is not of a divided South but a solid one. There can be no more of the "loyal Democrat" against States' Rights Democrat loose now, not will any politician dare to talk party discipline against Democrats who hold themselves totally free as regards the presidential election. State Committees are called upon for their declarations of (1) national independence and (2) continued control at home.

For that is the simple fact. The Democratic Party in most Southern states is made up at this moment (whether the state committees reflect it yet or not) of people far more prudently for revolt now than in 1948, and well-nigh ominously.

BEFORE ANY Southwide meeting of state Democratic executive committee representatives takes place as has been suggested here to declare for freedom in presidential elections and for holding on at home, it will be necessary to be sure the committees are in line with the Southern people—or to purge them until they become so. To say the committees are going to decide on the relationship to the national organization is to ignore a public opinion so enormous now that the committees and chairmen will oppose it at their peril.

If the South is going to bid successfully for a national balance of power, this independence and solidarity—and bold fast at home—must be made known well in advance of the presidential nominating conventions, it seems to me.

"IT'S ALL very well for you Southern Democrats to declare your freedom of inflection to take the national nominee or leave him, but what about us Southern Republicans?" asks a prominent one. It continues to seem to me that Southern Republicans can and should go as free now as Southern Democrats are proposing to go. This, in fact, may be the only way of saving any sizable remnant of the big Republican vote which had been accumulting here.

Something to remember is that, whatever their numbers or lack of numbers, Southern Republicans weigh as much in Republican conventions as Southern Democrats do in Democratic and are, by that token, as able to bargain.

In olden days they were mostly spoilsmen, looking not for victory but for patronage. But now that millions of everyday citizens and patriots have been attracted through two national elections, they are in a position to stand together in an independence which will mount for the South, the nation and the two-party principle.

MEANWHILE the South is suddenly to solid again that the solidity includes Republicans with Democrats and some are saying the inclusion should be formalized. "With National Democrats and Republicans in a rage for the rest of the country," says The News and Courier, "a Solid South could break the tie with ease. Now is the time for all Southern Democrats, original independents and old 'party of our forefathers' loyalists to join together to assert the power of the Southern states and to help save the Republic."

Amen, and would the paper and Southern Republicans and constitutional liberals (small "l") everywhere!

THE SOBER SOUTH — and there is one—proposes to win with its wits, its will, its long experience, and its dawning political balance of power if it acts wisely as one. That balance of power might come into action, for example, if Minnesota's Sen. Humphrey and company should undertake, as reported, to deny committee chairmanships to all Southerners who join or support a "third party" movement in the 1960 presidential campaign or who refuse to support the Democratic nominee. Such an effort now, as contrasted with 1948, would find the South so unanimous that any attempt to punish it in Congress would simply give Congress to the other party, costing Sen. Humphrey and company chairmanships as well as Sen. Russell and company.

The South has power in unity now both to vote as it pleases for President and to hold Democratic state organizations at home—and seniorities in the Senate and House.

Respect, Not Popularity

One of the amazing aspects of U. S. life since the war, has been the determination to be popular all over the world and to buy that popularity by spending billions. The United World Federalists, the other Internationalists and the do-gooders have somehow or other so misread history that they believe the role of the most powerful nation in the world, which the United States has been to date, is to be popular. **INSTEAD, OF COURSE, THE REAL ROLE OF A GREAT NATION IS TO BE RESPECTED, WHETHER IT IS POPULAR OR NOT.**

We Don't Need Liars

Sen. Jackson (D-Wash) says he favors reopening the security case of Dr. J. Robert Oppenheimer with a view to using his talents in the scientific race with Russia. Dr. Oppenheimer, who helped develop the atomic bomb, lied to government investigators regarding his association with Communists. He has been barred from access to U.S. nuclear secrets.

The nation can expect a campaign on the part of "liberals" to rehabilitate Dr. Oppenheimer. "Think of the brain-power we are losing," they will say.

Yes, Dr. Oppenheimer is a talented man. But so is convicted perjurer Alger Hiss. Nations are not saved by brains alone. Character also counts.

PRIVILEGED COMMUNISTS

It's apparent that some officials of the U.S. satellite program consider hardcore Communists more trustworthy than American citizens. Officials of the satellite project, Vanguard, recently permitted Russian scientists, including A. A. Blagonravov, said to be a key man in the Soviet missile program, to tour its facilities. But they refused to permit American newsmen to accompany them!

Adlai's Role As Ike's Adviser Seen As Drift Toward One-Party USA

Enlistment of Adlai Stevenson to give his counsel on American foreign policy may illustrate non-partisan, patriotic unity of Americans against their enemies. It also may illustrate the weakness of the Eisenhower government, and any attempt to spread responsibility for its mistakes of the past, present and future.

However one may view Mr. Stevenson's role as adviser to Mr. Eisenhower, the trend toward one-party government is unmistakable. The Republican and Democratic Parties have been showing marked similarities on several issues.

If national political unity is a good thing, the Russians have it. The monolithic solidarity — meaning solid as a rock—of the communist government has been hailed by Russian spokesmen as the great strength of the Soviet Union. That unity enables the Kremlin to focus the whole power of the nation on any given problem. It may explain the success of the Russians in missile development, though capture of German scientists at the end of World War II was also a vital factor.

To fight wars successfully, no doubt it is necessary for all citizens to bow to a central national will. President F. D. Roosevelt appointed Republicans to his cabinet in key defense positions to emphasize unity. President Eisenhower has ample precedent in calling for Adlai Stevenson's help.

Carried to a logical conclusion, this trend toward unity would abolish the two-party system and put the United States on a par politically with the USSR.

There may be no more room in the American Republic for flexibility for experimentation, for individual freedom, for differences in opinion. All the resources of the people may have to be directed in a win-or-lose movement to combat the organized efforts of other human beings.

The prospect, we confess, of constant struggle between rival slave peoples is not attractive. A country ruled by one party of Americans is preferable to a country ruled by one party of Russians, but we do not view the choice with relish. We fear dictatorship—an ugly name for complete national unity —even when it bears the label, "Made in America."

LET'S TALK SENSE ON THE BUDGET

This year it is reliably reported that actual spending of all activities of the Federal Government will be more than 82.5 billion dollars. This compares with the total spending of some 36.5 billions just ten years ago in the fiscal year ending on June 30, 1948.

In our 1958 spending program of 83.5 billions we know that some 43.7 billions went for national defense. If more than half of our national budget is for national defense we should certainly agree that there has been enough money supplied to do the job of defending this country.

But there is the matter of some 40 billions being spent for non-defense items. Ten years ago these non-defense items required only 23.5 billions. Some way or another we have added some 17 billions per year to our non-defense spending in the past ten years!

Various scientists who were interviewed with regard to the needs of the "crash program" to catch up with Russia on the development of rockets and rocket power have stated flatly that our failure to be first and best was not a question of money.

The Atomic Energy Commission with a total budget of some two billion per year has been authorized to spend some 250 millions on economically unfeasible peacetime power reactor plants. This type of activity could be easily set aside and the money devoted to any "crash program" that the military might need for nuclear rocket propulsion experiments.

The Hoover Report has stated that more than five BILLIONS a year could be saved from the PRESENT budget allocated to the various military services. These savings would accrue from following the non-controversial recommendations of the highly respected Hoover Commission on efficiency in Government.

There is enough money being wasted in the field of FOREIGN AID to provide more than enough funds to assume every citizen of a first-class national defense establishment.

Brigadier General Bonner Fellers, USA Retired, and National Director of FOR AMERICA recently stated in an article published in THE DAN SMOOT REPORT that proposed plans to scatter our various defense systems into more than 50 countries throughout the world is a sure method to increase the financial burdens of the U.S. taxpayer without in the least increasing the effective defense posture of this country against Soviet Russia.

George Minot writing in the Boston Sunday Herald for November 17 states that it seems foolish that in this day of prosperity that this country should be spending some 3 billions per year in welfare programs of all kinds.

Farmers and farm organizations throughout the country are beginning to realize that the farm subsidy program which is costing the American taxpayer some 5 billions per year is not only an unnecessary drain on the taxpayer but that it also hurts the farmer himself. World markets for the products of America's farms have disappeared as a result of the subsidy programs which increases the selling price to such an extent that our farmers and agricultural product exporters are priced out of the world market.

THE AMERICAN PROGRESS FOUNDATION of 8413 Franklin Avenue, Los Angeles, California, has completed a 12-year research into the cost to the taxpayers of government competing

WASHINGTON — The United States government in spite of the Hoover Commission studies, keeps right on competing with private enterprise in this country. The operations involve many billions of dollars.

Rep. Clarence J. Brown, Republican of Ohio, laments the fact that Congress and the public have not demanded further curbs to federal businesses in a nation which so strongly expresses the free enterprise system.

The congressman, who is known on Capitol Hill as a Taft Republican because he was a personal and political friend of the late Ohio senator, Robert A. Taft, is sometimes called the "father" of the Hoover Commission. He helped to draft and steer to passage the first and second Hoover Commissions. They were fact-finding commissions created in 1947 and 1953.

Busy Campaigner

Rep. Brown, chairman of the executive committee of the Republican National Committee, declares that government competition is not only unnecessary but grossly unfair. Federal businesses, generally unburdened with taxes and lacking the profit incentive, are able to attract customer dollars that should be going to private businesses, he said.

Brown has made a series of speeches on the floor of the House about government in business, and recently wrote an article on the subject for a business publication.

A member of the powerful House Rules Committee, he is usually on the side of two

LET'S TALK SENSE ON THE BUDGET

This year it is reliably reported that actual spending of all activities of the Federal Government will be more than 83.5 billion dollars. This compared with the total spending of some 36.5 billions just ten years ago in the fiscal year ending on June 30, 1944.

In our 1958 spending program of 83.5 billions we know that some 43.5 billions went for national defense. If more than half of our national budget is for national defense we should certainly agree that there has been enough money supplied to do the job of defending this country.

But there is the matter of some 40 billions being spent for non-defense items. Ten years ago these non-defense items required only 23.5 billions. Some way or another we have added some 17 billions per year to our non-defense spending in the past ten years!

Various scientists who were interviewed with regard to the needs of the "crash program" to catch up with Russia of the development of rockets and rocket power have stated flatly that our failure to be first and best was not a question of money.

The Atomic Energy Commission with a total budget of some two billion per year has been authorized to spend some 250 millions on economically unfeasible peacetime power reactor plants. This type of activity could be easily set aside and the money devoted to any "crash program" that the military might need for nuclear rocket propulsion experiments.

The Hoover Report has stated that more than five BILLIONS a year could be saved from the PRESENT budget allocated to the various military services. These savings would accrue from following the non-controversial recommendations of the highly respected Hoover Commission on efficiency in Government.

There is enough money being wasted in the field of FOREIGN AID to provide more than enough funds to assume every citizen of a first-class national defense establishment.

Brigadier General Bonner Fellers, USA Retired, and National Director of FOR AMERICA recently stated in an article published in THE DAN SMOOT REPORT that proposed plans to scatter our various defense systems into more than 50 countries throughout the world is a sure method to increase the financial burdens of the U.S. taxpayer without in the least increasing the effective defense posture of this country against Soviet Russia.

George Minot writing in the Boston Sunday Herald for November 17 states that it seems foolish that in this day of prosperity that this country should be spending some 3 billions per year in welfare programs of all kinds.

Farmers and farm organizations throughout the country are beginning to realize that the farm subsidy program which is costing the American taxpayer some 5 billions per year is not only an unnecessary drain on the taxpayer but that it also hurts the farmer himself. World markets for the products of America's farms have disappeared as a result of the subsidy programs which increases the selling price to such an extent that our farmers and agricultural product exporters are priced out of the world market.

THE AMERICAN PROGRESS FOUNDATION of 6413 Franklin Avenue, Los Angeles, California, has completed a 12-year research into the cost to the taxpayers of government competing with private enterprise. Their conclusion based on a study of the 1954 budget is that if the government were forced to get out of competition with private business that the savings would be enought to make possible the repeal of the personal income tax, without affecting the necessary tax income for the needs of national defense. Write for a copy of the AMERICAN PROGRESS MAGAZINE which contains a list of the more than 700 corporate activities of the U.S. Government which have no constitutional excuse for existence. It is your taxes that are being wasted on unnecessary activities of government.

* * * *

We can have our proper defense, earth satellites, IF WE NEED THEM, and still can expect a reduction in taxes without hurting our National Defense.

The answer to the apparent problem posed by the launching of two Russian Sputniks is NOT to spend more money but to assign qualified men to charge of our National Defense program who have the imagination and guts to out-think and out-perform the Russians.

The nation's outstanding advocate of economy in Government, Senator Harry Byrd of Virginia, speaking before the National Assn. of Manufacturers in New York on December 5 called for and END TO WASTE AND NONESSENTIAL EXPENDITURES to make way for whatever increased spending may be necessary on modern weapons, and then Senator Byrd stated:

"Our military danger is great, no doubt, but further to imperil our national security by IMPAIRMENT OF OUR FISCAL STABILITY and loss of confidence in our government WOULD BE OVERWHELMING."

* * * *

THEREFORE, IF WE:

Cut out foreign aid to Communist-Socialist countries.....

Get the government out of taxpayer-subsidized businesses which compete with private enterprise.....

Cut out unnecessary welfare programs.....

And cut out all waste and non-essential programs.....

THERE WILL BE MORE THAN AMPLE FUNDS TO IMPROVE OUR NATIONAL DEFENSE AND HAVE A SUBSTANTIAL TAX CUT, TOO!

WASHINGTON — The United States government, in spite of its Hoover Commission studies, keeps right on competing with private enterprise in this country. The operations involve many billions of dollars.

Rep. Clarence J. Brown, Republican of Ohio, laments the fact that Congress and the public have not demanded further curbs to federal businesses in a nation which so strongly expresses the free enterprise system.

The congressman, who is known on Capitol Hill as a Taft Republican because he was a personal and political friend of the late Ohio senator, Robert A. Taft, is sometimes called the "father" of the Hoover Commission. He helped to draft and steer to passage the first and second Hoover Commissions. They were fact-finding commissions created in 1947 and 1953.

Rep. Brown, chairman of the executive committee of the Republican National Committee, declares that government competition is not only unnecessary but grossly unfair. Federal businesses, generally unburdened with taxes and lacking the profit incentive, are able to attract customer dollars that should be going to private businesses, he said.

Brown has made a series of speeches on the floor of the House about government in business, and recently wrote an article on the subject for a business publication.

A member of the powerful House Rules Committee, he is usually on the side of two strong independent Democrats on the committee, Chairman Howard Smith of Virginia, and Rep. William M. Adlai's Role As Ike's Adviser Seen As Drift Toward One-Party USA

Enlistment of Adlai Stevenson to give his counsel on American foreign policy may illustrate non-partisan, patriotic unity of Americans against their enemies. It also may illustrate the weakness of the Eisenhower government, and an attempt to spread responsibility for its mistakes of the past, present and future.

However one may view Mr. Stevenson's role as adviser to Mr. Eisenhower, the trend toward one-party government is unmistakable. The Republican and Democratic Parties have been showing marked similarities on several issues.

If national political unity is a good thing, the Russians have it. The monolithic solidarity — meaning solid as a rock—of the communist government has been hailed by Russian spokesmen as the great strength of the Soviet Union. That unity enables the Kremlin to focus the whole power of the nation on any given problem. It may explain the success of the Russians in missile development, though capture of German scientists at the end of World War II was also a vital factor.

To fight wars successfully, no doubt it is necessary for all citizens to bow to a central national will. President F. D. Roosevelt appointed Republicans to his cabinet in key defense positions to emphasize unity. President Eisenhower has ample precedent in calling for Adlai Stevenson's help.

Carried to a logical conclusion, this trend toward unity would abolish the two-party system and put the United States on a par politically with the USSR.

There may be no more room in the American Republic for flexibility for experimentation, for individual freedom, for differences in opinion. All the resources of the people may have to be directed in a win-or-lose movement to combat the organized efforts of other human beings.

The prospect, we confess, of constant struggle between rival slave peoples is not attractive. A country ruled by one party of Americans is preferable to a country ruled by one party of Russians, but we do not view the choice with relish. We fear dictatorship—an ugly name for complete national unity —even when it bears the label, "Made in America."

Operation Abolition

EASTLAND

WALTER

A few weeks ago, a long-time fellow-traveler by the name of Harvey O'Connor stood smiling on the stage of New York's Carnegie Hall and told a crowd of like-minded brethren: "Those nine men of the Supreme Court have been speaking up. . . . The Supreme Court is now with us. We must now abolish those committees in Washington."

O'Connor, national chairman of the Emergency Civil Liberties Committee, spoke at the first of some 30 meetings the committee plans to hold throughout the country. It is the aim of the committee to abolish the House Committee on Un-American Activities and Senator Eastland's Internal Security Subcommittee of the Senate Judiciary Committee. These two hard-hitting investigating bodies are the prime targets of the left-wing group. Also earmarked for destruction is J. Edgar Hoover; O'Connor's outfit demands that a five-year limit be placed on the term of office of the FBI director. Should this limit be imposed, the American Communists would be doubly grateful. They would rid themselves of an alert and selfless adversary, while weakening the morale of the entire antisubversive force in America.

In addition to O'Connor, two other wheelhorses of the Communist party are prominent in the Emergency Civil Liberties Committee: Corliss Lamont and Clark Foreman, listed as vice-chairman and director, respectively. Lamont, the son of a Wall Street banker, has lent his name and considerable wealth to countless left-wing causes; Foreman, a New Deal office-holder, was active in the now defunct front, the Southern Conference for Human Welfare. In view of these names and the committee's aims, Congressman Francis E. Walter, chairman of the House Un-American Activities Committee, appears to have been just in his description of the committee as a Communist front.

This latest move against the two most effective anti-Communist forces in our government is not suprising. Indeed, it would be surprising if the Communist party did not use to the hilt the weapon the Supreme Court has provided in its recent decisions. In case after case, the Federal judiciary has stripped away safeguards against internal subversion. Admitted Communists, who defy congressional investigators while cynically wrapping themselves in "bourgeois" freedoms they despise, walk the land as free men because, in the judgment of the court, they have not yet begun the revolution they openly advocate.

No one who has dug into even a tiny portion of the mountain of information gathered by the House and Senate committees can doubt the usefulness of the two congressional bodies, or suppress a pang of regret that their scrupulously documented history of our time goes unread by most Americans and, worst of all, by their leaders.

Operation Abolition is now in motion across the country. Liberals from coast to coast can be expected to howl against the infamies of "McCarthyism," the catch-all hate-word fashioned and devilishly used by the Communists. When Congress reconvenes in January, this howl will reach a crescendo, as petitions and pickets stream into Washington. But the clear, firm voices of patriotic American citizens, expressing their gratitude to men who have worked unceasingly to uproot the Communist conspiracy, will thwart these latter-day abolitionists and silence the battle hymn of exultant error.

The Ohioan said the Defense Department's 186 commissary stores and 156 post exchanges in the United States in 1954 chalked up gross sales of $655 million employing 23,000 civilians. The same year the government operated 78 commercial-type bakeries, competing with 6800 private bakeries.

Government agencies operated 260 laundries and dry-cleaning plants employing 12,000 persons at a yearly payroll of $28,000,000.

Brown pointed out an example of how the government in business operation works. He said a government installation on the West Coast conducts a blue-printing service. It offers its service to other federal facilities in the metropolitan area in direct competition with private interests. The government blue print office charges only what is necessary to break even, he said.

We had a more salutary influence in Russia and Siam when we freed the slaves in the midst of a Civil war which consumed all our material resources. We had a more inspiring influence on Europe and Asia at the turn of the century, when we forbade the dividing-up of China by the Great Powers, and promised freedom to the Philippines. (Unquote Senator Tenner).

WHAT HAS FOREIGN AID ACCOMPLISHED?

Again, again and again, certain courageous Senators and Congressmen have proven by documented facts that foreign aid is a complete failure.

Since the end of World War II, Democrat and Republican Administrations have squandered over $80 billion taxpayer dollars in foreign aid.

Have we gained the steadfast loyalty of any single nation?

Have we accomplished anything, except perhaps the dubious distinction of PLAYING INTO THE HANDS OF THE WORLD COMMUNIST CONSPIRACY BY SQUANDERING OUR FINANCIAL RESOURCES?

Not only has foreign aid accomplished nothing, but today, 12 years since the beginning of this "experiment," Communist Russia stands more ruthlessly powerful than ever before - and we are 60 billion dollars POORER!

How long will the Democrats and Republicans continue this senseless and wicked policy of weakening the defenses of this nation by spending us to financial destruction?

Rep. Clarence J. Brown, Republican of Ohio, laments the fact that Congress and the public have not demanded further curbs to federal businesses in a nation which so strongly expresses the free enterprise system.

The congressman, who is known on Capitol Hill as a Taft Republican because he was a personal and political friend of the late Ohio senator, Robert A. Rep. Brown, chairman of the executive committee of the Republican National Committee, declares that government competition is not only unnecessary but grossly unfair. Federal businesses, generally unburdened with taxes and lacking the profit incentive, are able to attract customer dollars that should be going to private businesses, he said.

Brown has made a series of speeches on the floor of the House about government in business, and recently wrote an article on the subject for a business publication.

A member of the powerful House Rules Committee, he is usually on the side of two strong independent Democrats on the committee: Chairman Howard Smith of Virginia, and Rep. William M. Colmer of Mississippi against government spending issues. He publishes several newspapers in Ohio. Prior to entering the national political picture, he was secretary of state and lieutenant governor of Ohio.

Federal Businesses

The government competes with private businesses in such industries as printing, air lines, motion pictures, restaurants, lending, savings accounts, warehousing, shipbuilding, ice cream plants, paint factories, baking, dry cleaning, photostats, sawmills, garment making, power generation and sale, railroads, dental supplies and many more.

The Ohioan said the Defense Department's 198 commissary stores and 450 post exchanges in the United States in 1954 chalked up gross sales of $655 million employing 23,000 civilians. The same year the government operated 78 commercial-type bakeries, competing with local private bakeries.

Government agencies operated 350 laundries and dry-cleaning plants, employing 12,000 persons at a yearly payroll of $28,000,000.

Brown pointed out an example of how the government in business operates works. He said a government installation on the West Coast conducts a blue-printing service. It offers its service to other federal facilities in the metropolitan area, in direct competition with private interests. The government blue print office charges only what is necessary to break even, he said.

'Pays No Taxes'

"Under mysterious bookkeeping practices," he said, "this means that such obvious outlays as salaries are not counted. Established with tax funds, the federal business pays no taxes and little or no interest on invested capital. Meanwhile, private blueprinters, unable to match their government competitor's unrealistic prices, are cut off from a pool of potential customers, while forced at the same time to help underwrite the competition through high taxes."

Cong. Brown said the Hoover Commission studies showed that total employment in government business operations during the 1953-56 period exceeded 260,000 persons, or one out of every 10 government workers. Total capital investment approached $12 billion for some 19,000 individual government operations. But, he said, the disclosures have failed to make a marked impression on the American people.

"Clearly, free enterprise ranks as a precious possession, deeply rooted in our traditions, to be safeguarded at all costs. Thus, it becomes difficult, if not impossible, to justify governmental activities running sharply counter to our concepts of national well being and security."

Please send us names of persons whom you believe are interested in working to get their own taxes lowered. We will send them a Free Sample copy of THE INDEPENDENT AMERICAN and ask them to join in the NATIONAL TAX REVOLT.

(Unquote Senator Jenner).

WHAT HAS FOREIGN AID ACCOMPLISHED?

Again, again and again, certain courageous Senators and Congressmen have proven by documented facts that foreign aid is a complete failure.

Since the end of World War II, Democrat and Republican Administrations have squandered over 360 billion taxpayer dollars in foreign aid.

Have we gained the steadfast loyalty of any single nation?

Have we accomplished anything, except perhaps the dubious distinction of PLAYING INTO THE HANDS OF THE WORLD COMMUNIST CONSPIRACY BY SQUANDERING OUR FINANCIAL RESOURCES?

Not only has foreign aid accomplished nothing, but today, 12 years since the beginning of this "experiment," Communist Russia stands more ruthlessly powerful than ever before - and we are 60 billion dollars POORER!

How long will the Democrats and Republicans continue this senseless and wicked policy of weakening the defenses of this nation by spending us to financial destruction?

FOREIGN AID A LUXURY WE CAN'T AFFORD

Foreign aid is a LUXURY, a pet theory of the egg-heads, the do-gooders, the one-worlders, the dreamers, and yes, the Communist-Socialist sympathizers in both the Democrat and Republican parties.

Now that Communist Russia has proven that they have scientific know-how, and that his know-how could be used in an intercontinental ballistics missile which could destroy America, it's time we the voters DEMAND AN END TO THIS "LUXURY" OF FOREIGN AID. As Senator Jenner recently stated: "We shall never see the problem of Communism clearly till we end all economic foreign aid ...Let us abolish the spending bureaucracy in the United States Government, and the political machine it has built up, to keep itself in power."

DIVERT THE MONEY TO NATIONAL DEFENSE

In 1957 Congress voted 3-1/2 billion dollars for foreign aid to Communist-Socialist countries.

Think of the rockets, the air power and the intercontinental ballistic missiles that that much money would buy for our defense!

LET'S STOP HELPING OUR "FAIR-WEATHER FRIENDS" AND OUR COMMUNIST ENEMIES AND USE THE MONEY TO BUILD A NATIONAL DEFENSE ESTABLISHMENT SECOND TO NONE!

The Eisenhower Administration will exert tremendous pressures on your Congressman and Senators when Congress reconvenes in January.

Write your Congressman and Senators TODAY and tell them how you feel about foreign aid.

Wants ACLU Ousted

Special to The News

BLOOMINGTON, Ind.—Indiana University Young Republicans have asked the student senate to rescind its recognition of the American Civil Liberties Union as a campus organization.

The Young Republicans last night also disclosed plans to appeal to the I.U. Board of Trustees should the senate refuse to renounce the ACLU. Only two other United States colleges—New York University and Columbia University — recognize the group, which the young GOP chapter denounced as ultra left wing.

Endorsement of Senator William E. Jenner was voted by the Young Republicans.

At the I.U. student senate session, meanwhile, Dr. Hugh S. Ramsey, an I.U. graduate and physician, declared "the recognition of the ACLU serves only to give the university doubtful status in the eyes of many who will read about it."

NOTE TO SAC, LOS ANGELES CONTINUED:

American," a newspaper formerly known as "Free Men Speak" published by Free Men Speak, Incorporated, 7314 Zimple Street, New Orleans, Louisiana. He also furnished a pamphlet entitled "Fantastic Foreign Aid" also issued by the same organization. Correspondent also enclosed a reprint of a two-page advertisement of the Allen-Bradley Company, Milwaukee, Wisconsin, entitled "Will You Be Free To Celebrate Christmas In The Future?" This advertisement quotes the testimony of Frederick Charles Schwarz before the House Committee on Un-American Activities on 5-29-57. This same advertisement under various captions has appeared in newspapers throughout the country and has been brought to the Bureau's attention on numerous occasions. Bufiles reflect that "The Independent American" formerly known as "Free Men Speak" has been previously brought to the Bureau's attention. It is an anticommunist paper and has not been investigated by the Bureau. (105-36811)

Bufiles reflect that the Australian Security Intelligence Organisation, Melbourne, Australia, advised by letter dated 7-12-55 that Dr. Frederick Charles Schwarz is a doctor from Sydney, Australia. He was described as a consistent opponent of communism since 1949, prominent as a lay preacher and his "actions have been consistent with those to be expected of an anticommunist." In the past few years, he has toured the U. S. speaking against communism. The Bureau has conducted no investigation of him. He testified before the House Committee on Un-American Activities on 5-29-57. His statements before the Committee were very anticommunist and have been widely publicized. (100-402036)

The above is furnished for your information.

NOTE ON YELLOW:

Correspondent sent the above enclosures to the Bureau and stated he and his wife "strongly objected to the obvious Un-American intent." He inquires "will something be done about this Communist matter."

FOREIGN AID DOLLARS HELP OUR ENEMIES!

The advocates of Foreign Aid state that its prime purpose is to defend the Free World against Communism by sending economic and military aid to our friends overseas.

If this is true, then WHY ARE WE SENDING FOREIGN AID TO OUR MORTAL ENEMIES– COMMUNIST NATIONS?

Below is a list of Communist countries who have received Foreign Aid from the United States. These billions of dollars of Foreign Aid to Communist nations were paid for by YOUR INCOME TAX DOLLARS!

Here is where some of your tax dollars went:

FOREIGN AID TO COMMUNIST COUNTRIES
July 1, 1945 – June 30, 1957*

COUNTRY	TOTAL
Albania	$ 20,444,000
Czechoslovakia	215,410,000
East Germany	17,339,000
Hungary	31,938,000
Poland	442,698,000
Soviet Union	687,929,000
Yugoslavia	836,354,000
Total Aid To Communist Nations	$2,252,112,000

RECENT FIGURES ON FOREIGN AID TO REDS*
Aid During Fiscal Year
July 1, 1956 – June 30, 1957

East Germany	$ 21,000
Hungary	10,166,000
Yugoslavia	45,241,000

*SOURCE: LEGISLATIVE REFERENCE SERVICE OF THE LIBRARY OF CONGRESS

– – – – –

Not only has the United States sent more than 2¼ BILLION DOLLARS TO AID COMMUNIST COUNTRIES since 1945 . . . . . but –

In addition: Communist Poland has recently received $193 millions in gifts from the United States – $95 millions in 1957 and $98 millions in February 1958. The transfer of these U.S. dollars to Red Poland was handled in a special transaction.

YOUR TAX DOLLARS STRENGTHEN GRIP OF COMMUNIST DICTATORS

Poland, East Germany, Hungary and Yugoslavia are each controlled by loyal-to-Moscow dedicated Communists. Foreign aid to such countries merely strengthens their control of the slave-citizens of these countries.

Mark well that the United States gave over $10 million dollars in Foreign Aid to Communist Hungary WHERE THE RED ARMY CRUSHED THE VALIANT FREEDOM FIGHTERS!

FANTASTIC WASTE OF FOREIGN AID FUNDS

Not only have your income tax dollars aided Communist nations abroad, but MILLIONS of Foreign Aid dollars have been scandalously wasted on fantastic projects.

A FEW EXAMPLES OF THE WANTON WASTE IN FOREIGN AID!

YOUR tax dollars were spent to pay for:

(1) Sending high-priced "rock and roll" jazz bands to South America and the Far East, weight-lifters to the Near East and opera singers to Western Europe.

(2) Five expensive airfields in Afghanistan, where most inhabitants can only afford to travel on the backs of camels.

(3) Grass seed to Great Britain.

(4) Direct support of Communist-sympathizer Nehru's second Five Year Plan for India.

(5) An $18 million dollar highway for the 9,000 automobiles of Siam.

(6) Electronic microscopes to the Philippines where there was no power to operate them.

(7) Paving highways in Saudi Arabia so that billionaire King Saud can drive his 100 gold-plated Cadillacs to and from his winter and summer palaces.

AMERICA'S ECONOMIC STRUCTURE BEING WEAKENED

No nation can continue to squander its money abroad – giving aid to its enemies and its "fair-weather" friends – and still remain financially strong and able to defend itself in time of war.

Eugene Castle, author of "The Great Give-away", stated in a recent speech that we have given away approximately $70 billion dollars in Foreign Aid in the last 13 years.

$70 billions is equal to:
(a) Seven times the money we have spent on all atomic energy projects.
(b) It is equal to the total assessed value of our 26 largest cities.
(c) It is equal to the INCREASE in our National Debt in the last 13 years.

So . . . not only are American taxpayers now saddled with **supporting the world** via Foreign Aid programs at the rate of about $4 billions per year, but **also** we taxpayers must continue to pay **interest** on the National Debt for these $70 billions squandered abroad. This interest is now costing us about $2 billions each year.

FOREIGN AID MUST BE STOPPED IF AMERICA IS TO SURVIVE AS A NATION!

YOUR INCOME TAX DOLLARS FINANCE TAX CUTS ABROAD!

Socialist Great Britain and former enemy Japan have both recently reduced the personal income taxes of their citizens! You, Mr. and Mrs. American Taxpayer, made this possible because millions of your hard-earned tax dollars have been used to bolster the financial structure of Great Britain and Japan.

Congressman Noah Mason of Illinois puts it this way: "American Foreign Aid has helped European nations reduce their own national debts, balance their annual budgets, and reduce taxes for their citizens."

11-28-00 505-K/TMB 929512

CUT FEDERAL SPENDING SO OUR TAXES CAN BE CUT

Continuation of the present policies to **TAX** and **SPEND** and **WASTE**, will result in a ruinous inflation for this country, and a devastating depression.

YOU can help to stop this fantastic waste of your hard-earned tax dollars.

Congressmen and Senators will vote **against** Foreign Aid **provided** the "folks back home" deluge Congress with letters and telegrams **DEMANDING AN END TO FOREIGN AID** to Communist and Socialist countries abroad.

The billions of dollars that would be **saved** would give a TAX CUT to EVERY CITIZEN in the United States!

Write or wire your Congressman and your two Senators **today!** Have your club, group or organization pass resolutions to stop all Foreign Aid to Communist and Socialist countries abroad. Remind your Congressman that he is up for re-election in November and that **you are watching his voting record!**

Write letters to the editor of your local newspaper urging that everyone write his Congressman and Senators to **STOP FOREIGN AID.**

One-Party Rule Throwing U. S. Into Depression

As the unemployment figures continue to rise past the 5 million mark, the nation witnesses the spectacle of both the Democratic and Republican Parties calling for more and more Government spending - a return to the old boondoggling days of WPA, which method of curbing a recession has proven to be a failure.

The two major parties are now completely indistinguishable. Both favor a tax cut - because they think it will gain votes for their side. Both favor more spending, for the same reason.

The only way you can have BOTH "more spending" AND a "tax cut" is to increase the national debt.

This means increasing inflation and the cheapening of the dollars in every citizen's pocket-book. It will not be too long before a loaf of bread costs $1.00 following such faulty economic reasoning.

Of course, the only sound way to have a tax cut is to CUT SPENDING ALSO.

* * *

In February 600,000 more men lost their jobs bringing the total unemployment figure to some 5,100,000 according to official reports. Of these, some 3.2 million are drawing unemployment compensation. Various reports from several Government departments indicate the jobless figures will continue to rise.

And what is the cure being proposed by spokesmen for BOTH political parties? "Borrow more money by increasing the national debt, spend the money on W.P.A.-type projects that take men and money out of wealth-creating production." This is the kind of medicine that will prolong the illness, and possibly kill the patient.

We are suffering from the dying pains of Socialism which has been tried and which is a failure.

HIGHEST NON-DEFENSE BUDGET YET!

Eisenhower's budget of 73.9 billion dollars is actually misleading. When such "non-budget" items as payments from social security trust fund and the highway trust fund are included, the total comes to nearly 87 billion.

Even though we have put our own space "moonlet" in the sky, we are still suffering from a sputnik psychology of panic spending.

Including the highway program of some 2.5 billion dollars, we now have a NON-DEFENSE spending program of 30.6 billion dollars, which is the HIGHEST NON-DEFENSE program in our history.

Lenin, who wrote many of the books that planned the expansion of Russia's International Communism, stated that the United States would be forced to spend itself into destruction and that seems to be the pattern we are following. We must put a halt to the wasteful and unnecessary spending being perpetrated by the power-hungry bureaucrats in Washington.

Along these lines, THE INDIANAPOLIS STAR says:

"A healthy civilian economy in a free nation cannot depend for long on government spending without risking destruction. To argue otherwise is to claim that the nation's workers are better off when their wages are paid in money which was theirs in the first place, before it was taken from them in taxes. YET, WE ARE TOLD BY PRESIDENT EISENHOWER THAT SUCH AID IS JUST AS "URGENT" AS THE U.S. BALISTIC MISSILES PROGRAM! IN LESS CRITICAL TIMES SUCH A STATEMENT WOULD BE LAUGHABLE. IN THE POST-SPUTNIK ERA, HOWEVER, IT'S TRAGIC.

"There is not one word in the Constitution which empowers the Federal government to tax the people of this country to pay the bills for running other countries." - John T. Flynn - Author

All the billions of dollars which have been given away to foreign ingrates during the past two decades would have, if kept at home and spent for our own protection, made us invulnerable to attack from all the combined nations of the earth. Let us laugh that off if we can.

TAX CUT NECESSARY

INFLATION AND YOU

By John T. Flynn

(Excerpts from Broadcast M-10 over the Mutual Broadcasting System as published by America's Future, Inc.)

* * *

You do not have to be told, I am sure, that the cost of living - which means the cost of everything you buy - is at an all-time high. That's what is meant by inflation. The dollar that once bought a dollar's worth of groceries, now buys only about forty-five cents' worth - in some cases not even that much. Inflation affects not only everything you must buy for everyday living, but it cut in half or more the money you have put aside in investments, savings banks, insurance policies for a rainy day, or your old age, or for the time when you can't work so hard. For instance, take the man who twenty years ago started saving in an insurance fund. He figured he would put aside enough to buy a policy that would pay him today two hundred dollars a month. Twenty years ago that looked like a nice sum on which to get along. Now he starts collecting his two hundred dollars a month. But it will buy only a hundred dollars' worth, or less, of groceries, rent and clothes.

Now that is inflation. It is blamed on all sorts of things, but the primary and underlying cause of inflation is government spending of borrowed money. Even Mr. Eisenhower recognized this fact - not once, but on a number of occasions. In nineteen fifty-two, he told us: "You cannot pile deficit on deficit and have left the kind of economy that we have known." Four months after he became President in nineteen fifty-three, he declared: "As you know, government deficits of past years have been the main cause of the cheapening of our dollar by half its value." And as late as nineteen fifty-six - less than two years ago - he said: "You cannot continue to spend on a deficit basis without hurting your dollar." But now the President has forgotten not only his own words, but the fact that it is deficit spending which at one time or another has wrecked every government in Europe and will wreck us too if we do not put a stop to it. When the President decided he wanted the debt limit raised, he said that some "necessary deficit" would be better than raising taxes. Well, neither one would be necessary if we could get our Federal government back where it belongs - attending to the affairs of the United States of America instead of the entire world.

OUR POLICY

This newspaper is dedicated to the defeat of Socialist and Communist influences that now pervade the thinking and the policies of our Federal government and the two major political parties. We believe that there is no difference between a New Deal Democrat and a Socialist-Internationalist Republican.

This newspaper will continue to promote all individuals and organizations who believe that a new political party based on Constitutional States Rights is the answer to the Socialism that has captured both (formerly great) parties.

We will never align ourselves with any person or group which preaches hatred. Instead we will conserve our energy for the fight against atheistic Communism, and we pledge ourselves to LOVE OF GOD AND AN INDEPENDENT U.S.A.

OUR THANKS

Because we are political and "controversial" we have no advertising income. We therefore thank all of our readers who send donations every week so that more and more sample copies can be sent to patriots throughout the country. Without his regular support, this experiment in patriotic and political journalism would not be possible.

Adlai, The Atlantican

By Phoebe Courtney

Remember the story of the mythical kingdom of ATLANTIS? Atlantis was supposed to have been a large island which existed in the middle of the Atlantic Ocean. Theories have it that the nation, the people, and the island suddenly and mysteriously disappeared. It is supposed to have sunk into the ocean.

Now Adlai Stevenson the so-called head of the National Democrat party is ready to sink the independence of the United States into the ATLANTIC UNION!

AMERICA A MERE SATELLITE

According to Lyle C. Wilson in a recent United Press dispatch: "If it is news when a great public figure joins an organization dedicated to alter substantially the sovereign status of the U. S. government, then a recent move by Adlai E. Stevenson has been strangely overlooked. The February edition of "Freedom & Union" states that Stevenson recently became a member of the Council of the Atlantic Union Committee."

Thus Adlai proves for once and for all that he is NOT INTERESTED IN STATES' RIGHTS under the Constitution - why, this man is NOT EVEN INTERESTED IN THE SOVEREIGNTY OF THE UNITED STATES OF AMERICA!

[illegible] would be only ludicrous if this man Stevenson

PARTIES GROW MORE SIMILA

(Excerpts from an editorial by John S.Knight, Publisher of THE CHICAGO DAILY NEWS.)

BACK IN 1956, when I said that the philosophies of the two major parties had become almost indistinguishable, many of my Republican friends were furious.

But they are hard put today to define the differences or where they exist—except in degree—in foreign policy, big spending, taxation or even pump-priming in a recession.

Quite probably, we have passed the stage in our history when sharp conflicts are possible. Nearly every politician seems to believe that he must please the people rather than exercise leadership and express his true convictions.

Thus we see each party striving to out-promise the other, constantly expanding social benefits, trying to get the credit for a tax cut, and coming up with a variety of fake nostrums to end the business slump.

The cardinal precept in America today is comfort when it should be concern. The fashionable code word is relax.

It is unfair to blame the people for this state of mind. The fault lies with our leaders who have lured them into the belief that a nation can remain strong without work and sacrifice.

This is the loose political mora that has reduced France and G Britain, once great powers, to t tions of constantly declining influ and prestige.

Independent Thinkers Give Way to Parrots

WE OFTEN TALK with s assurance of our bipartisan fo policy, as if it were sacrosanct not to be debated.

But it ought to be debated in turn strengthened by the exch of conflicting points of view.

The Republicans, once disc ful of the Truman-Acheson poli are now applauding the exter of them through Mr. Eisenh and Mr. Dulles.

Unhappily, there are no Jim or Borahs in the Senate to cha the wisdom of our course. Th who have done so either made n lic impression or were discredi their colleagues.

The courageous and individu men of the past gave vitality republic.

Today, our strength is b sapped by political leaders who ly conform to what they belie people want.

FREEDOM FOR LABOR UNION MEMBERS

By Thurman Sensing

(Reprinted from the Southern States Industrial Council Bulletin)

Slaves quite often have many privileges, but when it comes to rights they have none at all. The same observation can be applied quite generally to members of labor unions. It is a reflection on the people of a free nation that this situation is allowed to exist.

There is only one way in which the slavery of unionism, as now practiced in this country, can be abolished—and that is by abolishing compulsory unionism in all its forms. As long as the union gets members by compulsion and not on its own merits, the labor bosses can fix the rules to suit themselves.

nation, the people, and the island suddenly and mysteriously disappeared. It is supposed to have sunk into the ocean.

Now Adlai Stevenson the so-called head of the National Democrat party is ready to sink the independence of the United States into the ATLANTIC UNION!

AMERICA A MERE SATELLITE

According to Lyle C. Wilson in a recent United Press dispatch: "If it is news when a great public figure joins an organization dedicated to alter substantially the sovereign status of the U. S. government, then a recent move by Adlai E. Stevenson has been strangely overlooked. The February edition of "Freedom & Union" states that Stevenson recently became a member of the Council of the Atlantic Union Committee."

Thus Adlai proves for once and for all that he is NOT INTERESTED IN STATES' RIGHTS under the Constitution - why, this man is NOT EVEN INTERESTED IN THE SOVEREIGNTY OF THE UNITED STATES OF AMERICA!

Actually it would be only ludicrous if this man Stevenson were just an egg-head lawyer with strange interests in theories on World Government. But he becomes ominous and even dangerous as the head of a national political party that may succeed to total power in the U. S. in the next presidential election.

This Atlantic Union organization in which he helps to form policy seeks to merge the nations of the West into a Federal Union to be known as the United States of the Atlantic. And get this: All the citizens would be knows as "ATLANTICANS"! If Adlai Stevenson has his way we would no longer be known as AMERICANS,but would be mere Atlanticans, members of a Partial World Government in which the United States would be completely outnumbered and have only one vote!

Well, if this foolishness should ever come to pass - all that can be said is that we, the citizens of this great nation, would no longer deserve the proud name of AMERICANS,and I suppose "Atlanticans" is as good a name for "Slave" as any other!

MORE STEVENSON FOOLISHNESS

The latest antics of Adlai Stevenson put us into a quandary as to whether he is Public Enemy No. 1 of this nation, or merely a fool, and a very dangerous one at that!

According to an editorial in the INDIANAPOLIS STAR (which you will find elsewhere in this issue), it is reported that Adlai Stevenson said that FOREIGN AID WAS MORE IMPORTANT THAN MISSILES OR ATOM BOMBS!

The only people who would agree with that statement would be the Communist Russians! Indeed it is more important to THEM that we continue to send Foreign Aid to their Communist satellites than build missiles and atom bombs for the defense of America.

* * *

ATTENTION SOUTHERN DEMOCRATS

The Southern Democrats would do well to carefully note this latest move by Adlai Stevenson because he is, after all, the titular head of the Democratic Party - a title he keeps because of the support of a like-minded World Socialist (a Vice-President of the United World Federalists)...none other than Walter Reuther!

How can the South, which cherishes States Rights, HOPE TO HAVE ANY INFLUENCE AT ALL in the policy-making decisions of a Party which is completely controlled by two men, who not only scorn the sovereignty of the States but also scorn the SOVEREIGNTY OF THE UNITED STATES OF AMERICA!

THE INDEPENDENT AMERICAN
GOES ON THE AIR

This newspaper, through the contributions of its subscribers, is now going to have its own radio program.

These programs will be put on the air once a week in cities which have left-wing newspapers or which are represented by so-called "liberals" in the Congress. We can thus bring to the Americans in these areas the kind of pro-Constitution news and editorials as found on the pages of THE INDEPENDENT AMERICAN.

Slaves quite often have many privileges, but when it comes to rights they have none at all. The same observation can be applied quite generally to members of labor unions. It is a reflection on the people of a free nation that this situation is allowed to exist.

There is only one way in which the slavery of unionism, as now practiced in this country, can be abolished—and that is by abolishing compulsory unionism in all its forms. As long as the union gets members by compulsion and not on its own merits, the labor bosses can fix the rules to suit themselves.

It is galling to a sincere and patriotic citizen who is a member of a labor union to live under such domination, and the Labor Law of the land should be amended to free him from it. Making compulsory unionism in any form illegal on a national scale would not only free the union member from labor boss control, it would also protect all workers and would be one of the best things that could happen to the welfare of the nation as a whole.

The situation outlined above is perhaps understood better by labor union members than by the public at large. In fact, better even than by some members of the Congress. One of the senators on the committee investigating labor practices said the other day that union members themselves could do a lot to clean up the practices which his committee had uncovered if they would only "stand up for their rights."

But if he were asked to define these rights, that is, the rights of members within the labor unions. he would have a great deal of trouble doing so.

It is true that in some labor unions the members do have the privilege—not the right—of voting for their union officers, and that if things don't go to suit them, they can "throw the rascals out" and get some more; officers, that is, not rascals—we hope.

In some labor unions the members have the privilege—not the right—of learning what becomes of the money collected in dues. In others that is not so at all; the financial affairs of the union are all a great mystery to the members. A union member with the brashness to walk into union headquarters and ask for information about the finances of the union would not only not learn anything, he would probably not ask again!

As it is, if the labor bosses decide to back one political party and help finance this political party, they have the power to do so even though many of their union members may favor and vote for the other party and even though many of their members would desire that the union take no stand for either party. And if the union bosses decide to donate large sums of money to such organizations as the N.A.A.C.P. or the A.D.A. or any other organization, they can do so without asking their members their desires in the matter *—even though it is the members who are furnishing the money.*

The latest antics of Adlai Stevenson put us into a quandary as to whether he is Public Enemy No. 1 of this nation, or merely a fool, and a very dangerous one at that!

According to an editorial in the INDIANAPOLIS STAR (which you will find elsewhere in this issue), it is reported that Adlai Stevenson said that FOREIGN AID WAS MORE IMPORTANT THAN MISSILES OR ATOM BOMBS!

The only people who would agree with that statement would be the Communist Russians! Indeed it is more important to THEM that we continue to send Foreign Aid to their Communist satellites than build missiles and atom bombs for the defense of America.

ATTENTION SOUTHERN DEMOCRATS

The Southern Democrats would do well to carefully note this latest move by Adlai Stevenson because he is, after all, the titular head of the Democratic Party - a title he keeps because of the support of a like-minded World Socialist (a Vice-President of the United World Federalists),..none other than Walter Reuther!

How can the South, which cherishes States Rights, HOPE TO HAVE ANY INFLUENCE AT ALL in the policy-making decisions of a Party which is completely controlled by two men, who not only scorn the sovereignty of the States but also scorn the SOVEREIGNTY OF THE UNITED STATES OF AMERICA!

THE INDEPENDENT AMERICAN GOES ON THE AIR

This newspaper, through the contributions of its subscribers, is now going to have its own radio program.

These programs will be put on the air once a week in cities which have left-wing newspapers or which are represented by so-called "liberals" in the Congress. We can thus bring to the Americans in these areas the kind of pro-Constitution news and editorials as found on the pages of THE INDEPENDENT AMERICAN.

These radio programs will start during the month of March and will continue as long as funds are available.

We hope that some of our subscribers, who own businesses of their own, will want to sponsor THE VOICE OF THE INDEPENDENT AMERICAN radio program in their own home towns, by advertising their products on this program.

The first program will be an interview between Senator George W. ("Molly") Malone of Nevada and the publisher of THE INDEPENDENT AMERICAN, Kent Courtney. The subject will be: "How the Reciprocal Trade Treaties Are Causing Unemployment in This Country."

Programs will consist of interviews with prominent Conservatives, excerpts from public statements by right-wing Congressmen and Senators which are rarely quoted in the left-wing press, plus quotations from editorials of pro-Constitution newspapers in various parts of the country.

Courtney, who will be the commentator on the weekly radio programs, has had experience in the fields of radio and television. These programs will be produced and distributed under the supervision of a nationally-recognized advertising agency with headquarters in New Orleans.

committee had uncovered if they would only "stand up for their rights."

In some labor unions the members have the privilege—not the right—of deciding whether to go out on strike. In others the order to strike simply comes down from above, and whether members like it or not they are on strike.

It is very clear to anyone who seriously studies the matter that most union members live under dictatorial control, that for Congress to simply pass laws to regulate their pension and welfare funds—as now seems might be the result of the committee investigation—is not going to help them much, that their only recourse is to exert the right which they do have, in common with all other citizens, of insisting that their unions and their union bosses *be subject to the same laws that govern other organizations and other men.* Monopoly and compulsory unionism must be abolished.

Foreign Aid Farce

The most accurate description we've heard of the White House Foreign Aid Conference this week came from Representative Gross of Iowa. "Democrats and Republicans," said Gross, "at each others' throats over the weekend, plan a temporary truce during which they will bury their hatchets in the taxpayers' heads."

He is so right. This bipartisan extravaganza, played with all the stops pulled out, from God to Mother to country and back again, was nothing but a gigantic attempt to bamboozle Congress and the American people into abstaining from all criticism or examination of foreign aid.

Participants, dominated by New York bankers and exporters and special interests, were told by Eric Johnston, the President's stooge, that they were there "for a schooling." But they got slogans, not facts. They got propaganda, not debate. The top political figures of both parties joined together in a massive attempt to silence all questioning of the huge $4,000,000,000 foreign aid request for next year.

Adlai Stevenson said that foreign aid was more important than missiles or atom bombs! Secretary of State Dulles said one reason for keeping up foreign aid was because it employs 600,000 people. All speakers but one told us that in this "shrinking" or "complex" or "dangerous" world we have to support and defend 73 out of the 106 nations we have been aiding, or "disaster" will follow.

But nobody raised this question: "How come, after spending $70,000,000,000 during 10 years on foreign aid, the Soviet Union is stronger and more threatening, the United States is weaker and less supported by our Allies? Why, when President Truman says we need "bold new ideas," do we stick with the same old foreign aid program that failed to provide the nation with either security or strength? If foreign aid is so good why hasn't it made things better for the American people?

All the speakers agreed that the American people are willing to spend all the money needed for national defense. They also agreed that the American people are *not* willing to spend more money for foreign aid—so they must be sold. It doesn't occur to them that the people oppose foreign aid because it didn't achieve what its supporters promised. Instead they are trying to pump hot air into a punctured balloon that is so full of holes it could never get off the ground.

Nobody pointed out this fact, either: The State Department has $9,000,000,000 in *leftover* funds which could be spent for foreign aid this year! If we add $4,000,000,000 more that will make $13,000,000,000 available. Douglas Dillon did admit, when asked by one excited lady if the $4,000,000,000 would be enough, that

Where Kennedy Is Wrong

Sen. John F. Kennedy, a young Massachusetts politician who apparently is going places in the Democratic Party, came to Phoenix Monday and expressed himself clearly and unequivocally on the general proposition of right-to-work laws. He's against them. He doesn't believe in right-to-work laws on either the state or the national level. "They drive down wages, working conditions, and fringe benefits," he said.

That's exactly where the senator from Massachusetts is wrong. Right-to-work laws do not lower wages or destroy the level of working conditions. To the contrary, the worker is making more gains in states with right-to-work laws than in states without right-to-work laws. In the 18 states with right-to-work laws in 1956, personal income increased on an average of 61.2 per cent between 1947 and 1955. In the 30 states without right-to-work laws, personal income increased on an average of 58.6 per cent during the same period. Hourly wages rose 20.9 per cent in the right-to-work states, 18.6 per cent elsewhere.

Senator Kennedy said that union abuses had been corrected in Massachusetts without resort to right-to-work legislation. Perhaps they have been. But from 1947 to 1955, personal income in Arizona (a right-to-work state) jumped by 117.2 per cent, while in Massachusetts (which has no right-to-work law) the increase was only 52 per cent. During the same period, non-farm employment rose 30.9 per cent in the right-to-work states and 19.1 in the other states. Arizona non-farm employment rose 67.4 per cent; in Massachusetts the increase was 8.4 per cent.

We could extend the list almost indefinitely. Besides wages, personal incomes, and total employment, the right-work states show a larger proportional increase in bank deposits, private motor vehicle registration, retail sales, and population than the rest of the country. Even union membership has grown faster in the right-to-work states (192.1 per cent to 187.8 per cent) between 1939 and 1953. While Massachusetts union membership grew 161.4 per cent, Arizona unions grew 257.1 per cent.

Senator Kennedy is clearly wrong in believing that right-to-work laws downgrade workers in pay, fringe benefits, or working conditions. These laws do make it possible for the average worker to exercise some sort of control over the local

If we add $4,000,000,000 more that will make $13,000,000,000 available. Douglas Dillon did admit, when asked by one excited lady if the $4,000,000,000 would be enough, that it would provide "all the money we could spend" for foreign aid.

Every speaker stressed the point that the real problem abroad is not military, it is economic and political. *Yet the administration budget proposes three times as much money for military activities as for economic!* How come? Even if the State Department is kidding the people and Congress by calling some economic aid "defense support"—as seems likely—the bulk of aid is still military not economic.

President Eisenhower calls those of us who stress these persistent facts "ostriches," and implies that we are somehow betraying our country for opposing a program that has failed, is wasteful, is mismanaged and costly. But wasn't it the President himself who said in 1952, when we elected him, "The United States cannot be an Atlas; it cannot by its financial sacrifices carry all other nations on its shoulders and we should stop give-away programs." What happened since 1952 to persuade the President that the foreign aid program works? Are our Allies united? Is Russia weaker? Is the United States stronger by comparison than five years ago? Adlai Stevenson says, "The Soviets are succeeding in India and the Middle East" and in other parts of the world. But they have spent only $2,000,000,000 since 1950 and we have spent $50,000,000,000. If foreign spending makes us successful against the Russians, how does one explain these figures?

Dulles says we have to keep up foreign aid spending because the Soviets are now increasing their loan and aid programs. Foreign aid prevents communism, he says. But if foreign aid prevents communism, then the Communists are preventing communism with their foreign aid! Why not let them take over our job of preventing communism and save all that money?

Of course, this sort of reasoning is ridiculous. But the whole argument for foreign aid is ridiculous. It is built on such non sequiturs.

We send military aid to Saudi Arabia and economic and military aid to Iraq and Iran. All three of these lower wages or destroy the level of working conditions. To the contrary, the worker is making more gains in states with right-to-work laws than in states without right-to-work laws. In the 18 states with right-to-work laws in 1956, personal income increased on an average of 61.2 per cent between 1947 and 1955. In the 30 states without right-to-work laws, personal income increased on an average of 58.6 per cent during the same period. Even union membership has grown faster in the right-to-work states (192.1 per cent to 187.8 per cent) between 1939 and 1953. While Massachusetts union membership grew 161.4 per cent, Arizona unions grew 257.1 per cent.

Senator Kennedy is clearly wrong in believing that right-to-work laws downgrade workers in pay, fringe benefits, or working conditions. These laws do make it possible for the average worker to exercise some sort of control over the local union boss. If the worker has freedom to join a union or stay out of it, the union leaders will obviously be under greater obligation to serve the worker well than if membership is compulsory and dues payments are a requisite for getting a job.

If Senator Kennedy wants to strengthen the hold of union bosses on labor, he should continue to oppose right-to-work laws. But he shouldn't use untrue economic arguments as the basis for his support of compulsory unionism.

OCTAVE AND HIS HAWGS

Of all the farmers who have registered disgust with various and sundry agricultural relief programs concocted by the federal bureaucracy, none deserves a greater pat on the back than Octave Broussard.

Maybe that's not really his name, but if Ellis P. Butler can get by with declaring that "Pigs Is Pigs" why can't we go along with the report from Washington that this fellow's name really is Octave Broussard?

At any rate, here's the story as spotted in a metropolitan paper up north by B. E. Doughty and relayed to me with quite a chuckle:

The name of Octave Broussard has assumed immortality; it is in the Congressional Record. As long as the Record is preserved the name shall live in history. All because Mr. Broussard wrote a letter to Sen. Barry Goldwater, an Arizona Republican.

* * * *

HE'D START ON SMALL SCALE

"Dear Mr. Senator," the letter started, with no inkling of the paradoxical.

We send military aid to Saudi Arabia and economic and military aid to Iraq and Iran. All three of these countries have oil running out of their ears. Why can't they pay for their own aid?

We send military aid to France to kill Algerians. We send military aid to Britain so the British won't have to finance their own defense. We send it to Germany which is today the richest country in Europe. The truth is that western Europe is today richer than ever before in its history. The December Fortune in an article titled "Europe's New Age of Abundance" notes that productivity is rising faster in Europe than in America, that European nations are today better off than at any time in history. Before the war they paid for their own defenses. Why can't they do it now when they have higher living standards than they ever had?

The truth also is that the "ostriches" in America are the people like President Eisenhower and his advisors who refuse to face these facts. They refuse to admit that this foreign aid program is a failure when all the evidence proves it. They believe their own slogans and their own propaganda. If the President would pull his head out of the bureaucratic sand for a moment he could see this—as he saw it in 1952.

We don't believe the people of this country are going to fall for all this synthetic whoop-de-do about "disaster" if we don't continue foreign aid. But who is going to represent the people in this matter? We have only one party in Washington when it comes to foreign affairs. The people's only hope lies in Congress—in men and women there who refuse to be ballyhooed into "burying their hatchets in the taxpayers' heads." Why not write them and tell them so.

Why Not Let Us Decide?

By Helen P. Corson

Assuming that they know better than we do how and where our hard-earned salaries and wages should be spent, our bureaucrats and socialistic big-spenders have persuaded the President to ask Congress to authorize during 1958 the spending of about $2-billion of our money for Post Office modernization, highways, urban renewal, etc.

$2-billion is about 5% of all the money confiscated from us through income taxes during 1957.

Wouldn't more prosperity be generated if the Internal Revenue Department simple refunded to each and every one of us income taxpayers 5% of our 1957 income tax payment and let us taxpayers at the grass roots decide whether we would modernize the local Post Office, etc. or spend the refund on some small improvement to our own homes or a permanent wave; or perhaps buy a new tire for the car or shoes or an over-coat; or pay for an installment on the TV set or school bus fares for the kids; or just plain save and invest it to create more jobs?

Maybe that's not really his name, but if Ellis E. Butler can get by with declaring that "Pigs is Pigs" why can't we go along with the report from Washington that this fellow's name really is Octave Broussard?

At any rate, here's the story as spotted in a metropolitan paper up north by B. E. Doughty and relayed to me with quite a chuckle:

"Dear Mr. Senator," the letter started, with no inkling of the paradoxical.

"My friend Bordeaux over in Pima County received a $1,000 check from the government this year for not raising hogs. So I am going into the not-raising-hogs business myself next year.

"What I want to know is what is the best kind of farm not to raise hogs on and what is the best kind of hogs not to raise. I would prefer not to raise razorbacks, but if that is not a good breed not to raise, I will just as gladly not raise any Berkshires or Durocs.

"My friend Bordeaux is very joyful about the future of his business. He has been raising hogs for more than 20 years and the best he ever made was $400 until this year, when he got $1,000 for not raising hogs.

"I plan to operate on a small scale at first, holding myself down to about 4,000 hogs which means I will have $80,000.

"Now another thing; these hogs I will not raise will not eat 100,000 bushels of corn. I understand that you also pay farmers for not raising corn.

"So will you pay me anything for not raising 100,000 bushels of corn not to feed the hogs I am not raising?"

NOT SO FUNNY TO SOME

Senator Goldwater's office was asked for Mr. Broussard's address. I understand it wasn't available. Rep. Ashton Thompson or Rep. E. E. Willis, who represent Southwest Louisiana, perhaps should have been consulted.

But an aide to Mr. Goldwater had this to say: "We suspect the name is fictitious. But the senator thought it was funny so he put it into the Record. And he sent a copy of the letter to Secretary of Agriculture Ezra Taft Benson."

Funny, did the man say?

Millions of Americans, on and off the farm, who have followed the razzle-dazzle with which the bureaucrats play the farm football game will see more realism than humor in the satire.

After all, isn't Uncle Sam paying hundreds of thousands of people every year not to raise this crop and that — and without reducing the farm output at that?

* * * *

SURPLUS OF UNRAISED CROPS NEXT?

I see where the Farm Bureau, at a meeting here in Alexandria this week, showed it hasn't quit trying to get Uncle Sam out of the farmers' business. You'd think by now they would be ready to throw in the towel.

It seems the people up in Washington don't understand the farmer's straight-shooting language. Maybe more of them should resort to the Octave Broussard type of approach.

It is said the satirist has won more battles than the armored knight; everything else has been tried on the so-called farm problem. If enough Octaves query the government as to potential payments for not raising, we would either accumulate the greatest surplus of unraised crops and animals or we would pay the most astronomical amount in for-not-raising benefits in history.

"Let Reciprocal Trade Act Expire," Says Sen. Malone

Sen. Geo. W. Malone

Senator George W. M ne of Nevada pictured above will be the first Senator interviewed over the new radio program sponsored by the subscribers of this newspaper.

While on a recent trip to Washington, D. C., Kent Courtney, publisher of the Independent American, interviewed Senator Malone on the subject of the renewal of our Trade Agreements Act. We quote below from this radio tape-recorded broadcast:

Q. Is there a relationship between the unemployment being suffered in the U. S. today and our low tariff policy?

Sen. Malone: Yes, there is. The so-called Reciprocal Trade Agreements Act is not reciprocal at all. It acts to make it easy for low-cost labor countries to dump their goods in this country thus harming our own industries and workingmen. We export our money and import unemployment under this scheme that was dreamed up and passed back in 1934 during the first term of the Roosevelt New Deal Administration.

Q. Well, if this is called Reciprocal Trade, does not the U.S. also benefit?

Sen. Malone: The "gimmick" in this Trade Agreements Act is that the foreign country does not have to live up to its bargain at all. They have an "escape clause" which states that they do not have to open up their markets as long as they suffer from a shortage of dollar exchange. And they will ALWAYS be short of dollars as long as they can manipulate their currency, adopt restrictive banking laws, or until such time as we have DIVIDED ALL OF OUR WEALTH WITH THEM.

Q. What is the purpose of the tariff?

Sen. Malone: As set up in our Constitution in Article I, Section 8, the Congress has the right and duty to regulate the foreign commerce of the nation and to collect duties. Until 1934 the Congress did just that. The "tariff" as it is called, was set up to protect domestic industries. It is meant to be flexible. The tariff is supposed to guarantee protection but also to set up a standard of FAIR COMPETITION. The tariff takes into account the cost of living of the chief competing country for each particular product. It figures the COST OF PRODUCTION in the United States and then requires that the incoming product pay a duty that will PROTECT THE JOBS OF THE WORKINGMEN and the investments of the people who set up the industry. As the standard of living in the foreign country goes up, then the

LAY-OFFS INCREASE. . FROM P. 1

labor of 13¢ per hour is putting Georgia textile workers out of jobs which were paying these American workmen from $1.35 to $1.50 per hour.

SACRAMENTO, CALIFORNIA

The California Legislature objects to the extension of the Reciprocal Trade Agreements Act because importations of live cattle, frozen and canned beef from Mexico, Canada, and New Zealand is hurting domestic industry. Low rates of duty blamed.

NEW ENGLAND AREA

Congressman Antoni Sadlak reported on February 24, 1958, over his regular radio broadcast to his district in Connecticut that over 20[illegible],000 people in the United States have lost their jobs in the textile industry due to overseas competition from 15¢-an-hour labor. Mr. Sadlak recommended that the tariff be increased to protect the remaining 225,000 textile worker jobs in the New England area.

SAN DIEGO, CALIFORNIA

In 1949 the tuna fish industry here in this great Southern California port employed some 5,500 persons. There were 320 ships in the tuna fleet and the industry supplied some 80% of the U. S. market for tuna fish.

Due to a treaty made with Japan by the U. S. State Department under the broad provisions of the Trade Agreement Act of 1934, the fleet now numbers only 225 ships. Three canning factories have been dismantled, one is on a stand-by basis, one is operating part-time and another is operating full-time. 2,750 persons have lost their jobs and this California industry now furnishes only about 46% of the entire U. S. Market. During this same period, Japan's shipments of canned tuna have increased from 645,000 pounds to over 32 million pounds. In 1948 Japan shipped two million pounds of frozen tuna but by 1955 they had increased their shipments to this country to reach a total of more than 112 million pounds of frozen tuna.

Low-cost Japanese labor has been getting the money from the U. S. consumer and the American workingman has been thrown out of a job.

STAINLESS STEEL FLATWARE

Our Trade Agreements Act of 1934 has made it possible for Japan to invade the Stainless Steel Flatware industry. Today 93% of the total stainless steel flatware comes from Japan. In 1953 Japan sent in 883,000 dozen pieces; in 1957 this figure had increased to 12 million dozen pieces. This increase compared with the U. S. production shows that today more than 75% of the entire sales of stainless steel knives, forks, and spoons sold come from Japan. Workers in this industry in the U. S. have been feeling the effect of this unfair competition.

GENEVA, SWITZERLAND

was dreamed up and passed back in 1934 during the first term of the Roosevelt New Deal Administration.

Q. Well, if this is called Reciprocal Trade, does not the U.S. also benefit?

Sen. Malone: The "gimmick" in this Trade Agreements Act is that the foreign country does not have to live up to its bargain at all. They have an "escape clause" which states that they do not have to open up their markets as long as they suffer from a shortage of dollar exchange. And they will ALWAYS be short of dollars as long as they can manipulate their currency, adopt restrictive banking laws, or until such time as we have DIVIDED ALL OF OUR WEALTH WITH THEM.

Q. What is the purpose of the tariff?

Sen. Malone: As set up in our Constitution in Article I, Section 8, the Congress has the right and duty to regulate the foreign commerce of the nation and to collect duties. Until 1934 the Congress did just that. The "tariff" as it is called, was set up to protect domestic industries. It is meant to be flexible. The tariff is supposed to guarantee protection but also to set up a standard of FAIR COMPETITION. The tariff takes into account the cost of living of the chief competing country for each particular product. It figures the COST OF PRODUCTION in the United States and then requires that the incoming product pay a duty that will PROTECT THE JOBS OF THE WORKINGMEN and the investments of the people who set up the industry. As the standard of living in the foreign country goes up, then the tariff applied to the particular product will go down, insuring fair competition.

Q. What has been the effect of the Trade Agreements Act of 1934 which will expire this coming June 30?

Sen. Malone: The Trade Agreements Act put our economy right back into the hands of some 36 European and Asiatic countries. We are really a colony again as we were before our Declaration of Independence in 1776.

Q. In what way do foreign countries control our international trade and commerce?

Sen. Malone: Under the Trade Agreements Act of 1934, the power was given to the State Department through the Executive to use the tariff as a bargaining agent for other kinds of treaties. This was extended in 1947 to an organization in Geneva called The General Agreement on Tariffs and Trade (GATT). Under this arrangement some 36 other countries can sit down IN SECRET in Geneva, Switzerland, and DIVIDE UP THE MARKETS OF THE U. S. AND DESTROY VARIOUS INDUSTRIES AND CREATE UNEMPLOYMENT IN THE U.S.

Q. Well, what can we do about this situation?

Sen. Malone: All that needs to be done is FOR THE CONGRESS NOT TO VOTE FOR ANY EXTENSION OF THE TRADE AGREEMENTS ACT OF 1934. Then the power to control foreign trade and to protect our workingmen's jobs and our industrial investments WILL REVERT BACK TO THE CONGRESS where it belongs as provided in our Constitution.

STAINLESS STEEL FLATWARE

Our Trade Agreements Act of 1934 has made it possible for Japan to invade the Stainless Steel Flatware industry. Today 83% of the total stainless steel flatware comes from Japan. In 1953 Japan sent in 883,000 dozen pieces; in 1957 this figure had increased to 12 million dozen pieces. This increase compared with the U. S. production shows that today more than 75% of the entire sales of stainless steel knives, forks, and spoons sold come from Japan. Workers in this industry in the U. S. have been feeling the effect of this unfair competition.

The West gave Russia the A-Bomb by the hands of Canadian, British and American traitors.

The West gave Russia the basic principles of Sputnik, the earth satellite, at the hands of Julius and Ethel Rosenberg.

The West gave Russia the ICBM - Intercontinental Ballistic Missile - when captured German missile scientists were handed over to Russia at the end of World War II.

The West gave Russia the presently unbeatable snorkel submarine when Germany's invention was turned over to the Reds.

There is no end to the gifts that flow from West to East - at the sacrifice of the freedom and lives of our friends. Smaller gifts are given, too. Communist Russia protested the finger-printing of visitors to the United States - so that security regulation has been lifted. (The Army officer has to be finger-printed; the traveling Communists agent does not.)

Courtney stated that he believed that the Supreme Court's recent decisions which are favorable to Communists, are "based on their terrifying ignorance of World Communism - and also on their ignorance of the U. S. Constitution."

As one possible remedy, Courtney suggested: "Although I, and my paper, firmly oppose Federal Aid to Education, there is one program of 'Education' which I believe that Conservatives throughout the country would enthusiastically support.

Two Standards Of Justice In One-Party System

The friends of the spendocrats in the White House and State Department have now launched one of the most stupendous propaganda campaigns in the past 10 years to sell its pet program: "Foreign Aid Forever."

At the kick-off rally in the last week of February were Harry Truman, President Eisenhower, Adlai Stevenson, Dean Atcheson, Vice-President Nixon and John Foster Dulles,..all speaking on behalf of continuing Foreign Aid. This is the perfect example of the ONE PARTY SYSTEM at work!!!

The purpose of the Foreign Aid Rally was to make plans to raise $1,700,000 in private contributions for the "Committee for International Economic Growth" and the "Foundation for Education on International Economic Relations."

Of course, the question immediately arises: "If the past 10 years prove that Foreign Aid is really good for America WHY DOES IT HAVE TO BE 'RE-SOLD' NOW?"

TWO STANDARDS OF JUSTICE

In order to facilitate the raising of this $1,700,000 to "sell" the American people on "approving" the continuation of sending tax dollars to Communist and Socialist countries, the Internal Revenue Service has made several ambiguous statements, all calculated to GIVE THE IMPRESSION to prospective donors that any contributions to this Foreign Aid campaign will be TAX-EXEMPT.

This Democratic-Republican-sponsored drive to "sell" America on continuing the squandering of taxpayer daollars abroad is clearly a lobbying operation, planned for the sole purpose of INFLUENCING CONGRESS.

And yet, while the Foreign Aiders get "tentative" approval from the Internal Revenue Service for tax exemption on donations, this same Internal Revenue Service has refused tax exemption to a Conservative organization such as "FOR AMERICA" by stating in a letter to "FOR AMERICA" that "Your (For America) purposes and objectives are primarily directed to molding public opinion to an acceptance of your views."

It is a bit difficult to understand why contributions to promote more and bigger Foreign Aid are deductible and contributions to those organizations which are against Foreign Aid are NOT DEDUCTIBLE!

Maybe we have a two-party system in this country, after all. . . THE BUREAUCRATS AND THE TAXPAYERS!!

JENNER BILL WOULD CURB RED-CODDLING HIGH COURT

Recent decisions of the U.S. Supreme Court have set free some 59 persons associated with the Communist Conspiracy in these United States.

Senator William E. Jenner of Indiana has written a bill to curb this Supreme Court under the authority of Article 3, Section 2 of the Constitution.

Here are the cases decided on by the Supreme Court which have set the Communist Party free to wreck our beloved country. The Communist Party members exulted and called these decisions their own "bill of rights." Who can deny the influence of Communism when they read the following decisions?

In WATKINS vs THE U.S., Watkins was found guilty of contempt of Congress by his boldness in challenging the basic authority of a Congressional Committee to make any investigation into his "private life." The Supreme Court ruled in Watkins' favor with the result that any suspected Communist can now refuse to answer any questions put to him by a Congressional Committee.

In NELSON vs. PENNSYLVANIA, Steve Nelson had been convicted of sedition by a State Court. The U.S. Supreme Court invalidated the sedition laws of some 42 States.

In SLOWCHOWER vs THE BOARD OF EDUCATION OF NEW YORK the Supreme Court ruled that municipalities could not control subversives on the payrolls, or inquire into their Communist affiliations.

In JENCKS vs. THE UNITED STATES [illegible] in a jubilant mood and one of them stated, "Now, we are on our way!"

THIS ONE STATEMENT BY LEADERS OF THE COMMUNIST PARTY IN THE U. S. SHOULD BE WARNING ENOUGH FOR ALL LOYAL CITIZENS AND FOR THE MEMBERS OF THE CONGRESS.

The Jenner Bill proposes to curb the Communist-Coddling Supreme Court by limiting the type of cases upon which the Court can rule. The Constitution says that the Congress has the authority to do this.

If Senate Bill 2646 is passed, then the Supreme Court could not overrule:

1. Action against a witness for contempt of Congress.
2. Action of the Federal Government in firing a security risk as long as the firing was done under an Act of Congress.
3. Legislation in any State for the control of subversive activities in any State.
4. Action of any school or college to control subversive activities within its teaching body.
5. Regulation of any State concerning admission of persons to practice law within the State.

But we have been told by a reliable authority in Congress that there are not enough Senators on the Judiciary Committee of the U.S. Senate who will vote for the Jenner Bill (2646) so that it can be argued on the floor of the Senate. ONLY ONE VOTE IS NEEDED TO VOTE THIS BILL OUT ON THE SENATE FLOOR

Within the next few weeks America will be deluged with Foreign Aid propaganda. . .over your radio. . .flashed on your TV. . .full page ads in your daily newspaper - all extolling the "virtues" of Foreign Aid, and all calculated to scare you to death with dire threats of what will happen unless the Foreign Aid bill is passed by Congress.

But note carefully in this propaganda barrage that no mention will be made of the millions of dollars that have been given to Communist countries; of how Great Britain has been able to reduce her personal income tax for her citizens because of our Foreign Aid to them; of the fantastic waste abroad in taxpayer funds, and how, even though the American taxpayer has paid out $70 billion in Foreign Aid funds in the past 10 years, America today is weaker abroad and Communist Russia is stronger!

WRITE YOUR CONGRESSMAN

Unfortunately, the subject of Foreign Aid has not been put to a vote of the individual voter, because if it were, there is no doubt that it would be overwhelmingly REJECTED.

The Liberals, the left-wingers, the Internationalists of BOTH Democrat and Republican parties are worried about the opposition that is building up in this country against continued Foreign Aid. That is why the fat-cat bureaucrats and their friends are carrying on this gigantic propaganda campaign.

The vote on this vital question lies in your Congressman's and your Senators' hands.

In JENCKS vs. THE UNITED STATES, the conviction of Clinton Jencks, a confessed Communist and a convicted perjurer, was reversed because the confidential files of the Federal Bureau of Investigation were not made available to Jencks.

In the cases of SCHWARE vs. NEW MEXICO and KONIGSBERT vs. STATE BAR OF CALIFORNIA, the U.S. Supreme Court in effect denied to these two States and all other States the right to effectively regulate through local laws, boards, and regulations, the practice of the profession of law in the respective States.

Just imagine what these cases mean to the members of the Communist Conspiracy! After five convicted Communists in California were freed as the result of these and similar decisions, the Communist leadership were photographed

All readers of this newspaper are urged to write to BOTH OF THEIR SENATORS and demand that they use their influence to get this bill on the floor of the Senate for debate. President Eisenhower is slowly moving toward another disastrous "Summit conference" with the Russians. According to Press Secretary Hagerty, the President would like to have "a serious, honest" Summit meeting to thresh out issues threatening world peace. How one holds a "serious, honest" conference with those who don't know the meaning of the words, Hagerty didn't say.

To make a mistake, as the President did in going to Geneva, is one thing, but to fail to learn from one's past mistakes is entirely another. The least that should have been learned from the Geneva fiasco is that Soviet Russia enters into these conferences only as a "we take - we give" basis. The Communists are not interested in reaching enforceable agreements. Their purpose is to reap propaganda advantages, to disrupt Western unity, to stall for time, to weaken our will to resist. They seek only to plant the seed of doubt as to whether our course of preparedness is a correct one - and then let our domestic "peace at any price" appeasers take it from there.

Our income tax and big government are Siamese Twins. One grabs your money, the other throws it away.

The history of liberty is the history of the limitation of government power, not the increase of it.

We must face the stark economic fact that if we succumb to the current pressures for further deficit spending, the savings, insurance policies, bank accounts and retirement programs of all Americans—which already have been reduced 50 per cent in value by deficit financing since 1939—are going to be further eroded and threatened with complete liquidation.

CONGRESS OF FREEDOM TO HOLD CONVENTION

Thurman L. McCormick, President of the Congress of Freedom, announces their annual Convention will be held at the Continental Hotel, 11th and Baltimore Streets, Kansas City, Mo., on Thursday, Friday and Saturday, April 17, 18 and 19.

According to Dr. A. G. Blazey and Dr. James L. Doenges, Program Co-Chairmen, the convention will open at 9 a.m. on Thursday, April 17 for registration. The main speaker in the morning will be Robert LeFevre on the subject: "The Educational Picture in This Country." In the afternoon, R. Carter Pittmen, outstanding Southern attorney, will speak on "Supreme Court Usurpation of Power." Also in the afternoon Eugene Castle, noted author and industrialist, will speak on the subject of foreign aid.

At 7 p.m. there will be a banquet with Jessica Payne as mistress of ceremonies. The speakers at the banquet will be the nationally famous humorist, Clayton Rand of Mississippi, speaking on the subject: "Freedom is Never Free." The other speaker of the evening is Thurman McCormick on the subject: "Making the World Safe for Communism."

On Friday, April 18, the speakers and their subjects are: Mrs. Willard Hedrick - "Collectivism in the Churches" and Harry Everingham - "Minute Man Network, A Tool for Victory." Mary Cain, the fighting publisher of the SUMMIT (Miss.) SUN will address the luncheon meeting in her usual firey style. The title of her speech is "Full Speed Ahead."

The afternoon session will feature Willis Stone, President of the American Progress Foundation, speaking on behalf of repeal of the income tax and Dr. Noel Smith of Springfield, Mo. on the subject of "Morals and Good Government."

On Friday night at 8 p.m. a gigantic public rally is planned in the Music Hall at the Civic Auditorium. The master of ceremonies will be D. B. Lewis, President of the Organization to Repeal Federal Income Tax (ORFIT). The speakers at the rally will be Dan Smoot on "Scaring Freedom to Death," Gen. Bonner Fellers on "Better Defense for Less Money," Jessica Payne - "Wrap Up."

On Saturday, Prof. Russell Kirk will speak on "Method for Conservative Unity." The second speaker of the morning will be Prof. Anthony Bouscaren on the subject, "U.S. Foreign Policy."

The convention will conclude with a final business session starting at 2 p.m.

In a press release received from George Thomas, the Executive Director of the Congress of Freedom, we note that the public which registers and attends will be invited to participate in the discussions as time is provided after each major address for a 15-minute discussion period.

If you wish to attend the Congress of Freedom Convention, please write Mr. Thurman McCormick, Suite 910 Rialto Building, Kansas City, Mo.

The $100 Billion Budget

(Reprinted from THE WALL STREET JOURNAL)

* * *

Right now we are much closer to a $100 billion budget than is generally realized. The Government's total outlays in fiscal 1959, including those from trust funds, are projected at nearly $87 billion. That, rather than $74 billion, is what the Administration actually plans to spend.

Not the least of the implications of the $100 billion budget which we are rapidly approaching is what it will do to the Government itself. After last year's abortive economy drive the fiscal atmosphere in Washington today is lax.

Britain To Share Our Atom Secrets With Reds

* * *

On October 23, 1957, a British government official announced that a trade delegation from Red China was in London to inspect England's model atomic energy plant. The reactor in this plant produces electrical power for general use and also produces plutonium, which is used for triggering H bombs. The British official said the Communists could buy this atomic power plant (or one like it) for about $47,600,000.

Few paid much attention to that bit of news. Most of the newspapers which ran the story at all put it somewhere in the back pages.

The big news on October 23, 1957, was the arrival of British Prime Minister Harold Macmillan in Washington for conferences with President Eisenhower. During their widely publicized talks, the two heads of state agreed that America and England should unite their scientific resources: they should more freely share with each other their atomic energy secrets.

The purpose? Why, to strengthen "free world" defenses against Communism, of course!

To a thoughtful person, this may seem an odd way to fight Communism: we share our atomic energy secrets with allies who share them with Communists; we give or lend our allies enough money to build atomic energy reactors, and our allies then offer the reactors for sale to Communists.

But Americans are not given much opportunity to be thoughtful about such things: they are kept too busy soaking up scare propaganda about how they had better settle down and do everything government asks of them, if they expect government to defend them against Communists.

Let's review a little.

On November 7, 1957, the President, in a radio-tv speech to the nation, stressed the importance of sharing scientific information with our allies and said he would request legislation of Congress "to remove legal barriers to the exchange of appropriate technological information with friendly countries."

On December 3, 1957, Congressional leaders met at the White House and learned that the administration would propose a major revision of America's Atomic Energy Law - so that the President could share atomic secrets and weapons research data with Britain and other nations.

On the evening of December 11, 1957, Vice President Nixon attended a private-meeting in Washington with several former new-deal, fair-deal officials - who now serve as a special advisory group to the National Security Council.

The December 11, 1957, meeting which Nixon attended was held in the home of William C. Foster who was foreign aid administrator under Truman.

In 1958, great sums of your money will be spent on a major propaganda effort to scare you into accepting the administration's schemes for spending your money.

There's nothing new in all this. It happens every year. The 1958 campaign is bigger and better organized than usual. More money is involved, and more emphasis than heretofore is placed on SCARING the public into quiet submission.

Yet, from it all, patriots should take heart: it shows the importance of public opinion.

Long before Prime Minister Macmillan arrived in Washington last October 23, the President knew he was going to propose the sharing of atomic energy information. The President also knew that the Atomic Energy Act of 1954 forbids such sharing.

Why didn't he first ask Congress to change the Atomic Energy Law so that he could legally make the "sharing" proposal? If Congress approved, the President could have called Macmillan

Not the least of the implications of the $100 billion budget which we are rapidly approaching is what it will do to the Government itself. After last year's abortive economy drive the fiscal atmosphere in Washington today is lax.

The Administration could not steel itself to keep fiscal 1959 spending plans even at this year's peace-time record. It failed to cut non-essential activities enough to make up for the increase in defense spending.

Congress, for its part, ridicules even the modest economy proposals the Administration did make. The lawmakers plainly intend to pile on top of the mounting military expenditures all the pork-barrel and other projects they can think of for wasting the people's money. "Anything goes" is the mood; indeed, "everything goes."

In this new era of fiscal license, then, the people will get not only bigger Government but slovenly Government. Waste and corruption will flourish as never before. And when we reach a $100 billion budget, that same fiscal license will guarantee that it will not stop there.

Even so, those are not necessarily the worst effects of a $100 billion budget. That sum is one-fourth of the gross national product - the total output of the nation's goods and services. In fact it is more, because much of the rise in the G.N.P. in recent years has been price increases rather than increases in physical volume.

When the Government accounts for one-fourth of the nation's "product," it is not adding one-fourth to the product for most of the Government's activities are unproductive. In a very real sense it is subtracting from the total product, taking money and resources that individuals could otherwise use productively.

For this reason Government spending of such magnitude though it sends a lot of money spinning about, is actually a huge deterrent to economic growth. And it involves a further depressant, for unless we are to abandon ourselves to runaway inflation, the spending must be paid for out of higher taxes, which are not only burdensomely high now but Marxist in construction - designed to penalize individual initiative and business efficiency.

Perhaps the people and the economy can stand all this, having already stood so many decades of abuse from official spendthrifts. But before the day of the $100 billion budget arrives, the people owe it to themselves to ask whether that is what they really want.

At the rate we are going, there is not much time left for asking.

In 1958, great sums of your money will be spent on a major propaganda effort to scare you into accepting the administration's schemes for spending your money.

There's nothing new in all this. It happens every year. The 1958 campaign is bigger and better organized than usual. More money is involved, and more emphasis than heretofore is placed on SCARING the public into quiet submission.

Yet, from it all, patriots should take heart: It shows the importance of public opinion.

Long before Prime Minister Macmillan arrived in Washington last October 23, the President knew he was going to propose the sharing of atomic energy information. The President also knew that the Atomic Energy Act of 1954 forbids such sharing.

Why didn't he first ask Congress to change the Atomic Energy Law so that he could legally make the "sharing" proposal? If Congress approved, the President could have called Macmillan on the telephone to make the proposition. There is nothing really complicated in the idea. Macmillan journeyed across the Atlantic with a boatload of aides. Our State Department used perhaps half its annual whiskey fund on official entertainment. There was, in short, much expenditure of time and money to bring Eisenhower and Macmillan together for a discussion that two reasonably intelligent men could have handled on the telephone in an hour.

Why?

Public opinion! Eisenhower wasn't going to ask Congress to change the Atomic Energy Act until public opinion was PREPARED for the change.

Macmillan's state visit was part of the preparation.

All this happened in October, but in late January, 1958, when the new session of Congress was in its fourth week, the President's formal request for a change in the Atomic Energy Act was not yet under discussion. In the interim there had already been a staggering amount of propaganda for the "sharing" idea, but not quite enough. Congress must not take up the proposal formally until public opinion is ready.

What is public opinion? It's what you and your friends and neighbors and relatives and business associates think.

If the Internationalists can prepare public opinion to accept the preposterous notions that we must defend ourselves against Communism by sharing our vital defense secrets with nations that share them with Communists, and by bankrupting our own economy in order to give aid to foreign Communists and socialists - why can't patriots prepare public opinion for a return to sanity and freedom under American constitutional government?

They can as soon as enough of them realize that every individual who has an idea is an important force in shaping public opinion.

J. BRACKEN LEE EYES SENATE RACE

By Syd Johnston

(Reprinted from the ORLANDO (Fla.) SENTINEL)

A former Republican governor of Utah said yesterday he is considering running for the U. S. Senate in Utah this year and if elected would do everything in his power to repeal the federal income tax law.

J. Bracken Lee, who was the first Republican to be elected to a state office in Utah in 24 years when he became governor of that state in 1949, said the federal Government will ultimately destroy the wealth of the nation if left with the power of unlimited taxation.

"The present war scare is being used to spend and give away more money," Lee said. "That's the only way any Government which wants to control the people can stay in office."

Lee, who is chairman of "For America" a group whose purpose is "to return constitutional Government to the people," said if the U. S. keeps going as it is the Government will be the only customer industry has left and a complete breakdown in the economic life of the nation would follow.

Lashing out at the income tax law in an interview yesterday, Lee said:

"It is the most dangerous, dishonest and immoral law in the history of this country which hurts the working man who earns less than $6,000 a year."

Lee also had some positive statements to make on national politics. He feels that in this year's elections the Republicans are going to be defeated in nearly every race where they have opposition.

If Lee makes the Senate race in Utah this year he will have a primary battle against Sen. Arthur V. Watkins, a Republican who is completing 12 years in the U. S. Senate.

"The Republican Party in Utah is falling apart," Lee said. "I have always gotten a lot of Democratic support and will no doubt be supported by some Democrats if I enter the Senate race."

When questioned on how he would go about repealing the income tax law, Lee said: "Every Congressman would be on safe grounds in advocating a referendum to repeal the law because he would then be putting it before the people and both sides of the question would be widely known."

Citizen Action Needed To Preserve Jobs For Americans

The House Ways and Means Committee is now holding hearings to determine if the United States should extend the Trade Agreements Act of 1934. The Administration wants the Trade Agreements Act extended for five years. The Trade Agreements Act is one of the causes of increasingly wide-spread unemployment throughout the U.S. (Please see other articles in this issue on this vital subject.)

Now here is what you can do to make sure that this TRADE AGREEMENT ACT IS NOT RENEWED.

Let your own Congressman know how you feel about this act. Let him know that you back him up and that control over tariffs, which affect so many of our industries, SHOULD BE RETURNED TO THE MEMBERS OF THE CONGRESS.

Write to both of your own Senators and tell them you are in favor of protecting our U.S. job opportunities and that foreign goods should not be allowed to come in and put American workmen out of jobs. Tell your Congressman that we should protect American industries from cheap foreign labor so that we can keep our own industries in top-operating condition in preparation for any emergency that may arise.

Here is a list of the members of the House Ways and Means Committee which is now considering whether or nor to extend the Reciprocal Trade Agreements Act of 1934.

Perhaps you or your club or organization will wish to write one or more members of this Congressional Committee and tell them your views on this most important subject.

TAX CUT . . . From Page 1

before the House Ways and Means Committee through its spokesman, Mr. Clarence D. Laylin of Columbus, Ohio, called for an end to our income tax rate structure which destroys incentives, retards development and expansion, encourages evasion, and generally acts as a drag on the efficiency of the free opportunity enterprise system.

Mr. Laylin stated: "We believe strongly that the tax reductions of 1954 and the tax revision of 1954 helped materially in turning around the recession which started in the fall of 1953 and ended in the summer of 1954.

"We are equally convinced that tax rate reductions at this time would have a similar effect on the current recession."

CUT OUT WASTE

The Hoover Commission has stated repeatedly that at least 5 billion dollars per year could be saved merely by reorganizing the armed services' purchasing practices alone. Many experts have testified that we could materially reduce the cost of our necessary missile research, and that we could achieve better results if the entire program could be rescued from the wasteful duplication of inter-service rivalries.

CUT OUT THE PORK BARRELS

The ALEXANDRIA (La.) TOWN TALK states that last ditch fights will be made in Congress to "get maximum appropriations for welfare, grants to States, socialized power projects, greater farm subsidies, pork-barrels as usual, and all manner of handouts. ....This isn't a question of whether we shall have guns or butter. It is a question of whether vast gobs of political butter will be slathered onto the guns."

THE FUZZY-MINDED SOLUTION OF EGGHEADS

The Socialist planners on the left who have gathered themselves together in something called THE AMERICANS FOR DEMOCRATIC ACTION under the terrifying leadership of such as Mrs. Roosevelt, Walter Reuther, and Adlai Stevenson have declared themselves for a big tax cut and for increased spending of the W.P.A. variety. Senator Gore of Tennessee is the stooge for this scheme, as one might expect after a close examination of his voting record. Follow this suggestion to its implied conclusion and we could just keep printing more and more money and not pay any taxes at all! This is the kind of reasoning that has destroyed free and powerful nations before!

The frightening aspect of the above "philosophy" of the A.D.A., etc, is that President Eisenhower goes along with it too!

THEY ADMIT THEY DON'T NEED ALL THE MONEY THEY HAVE!

Eisenhower said that if the recession gets a little worse, that possibly taxes should be cut.

IF THE GOVERNMENT ADMITS THAT A TAX CUT IS POSSIBLE THEN THEY ARE ALSO ADMITTING THAT THEY DO NOT NEED THE MONEY THEY ARE NOW GETTING!

ONLY A NEW PARTY CAN SAVE HIS COUNTRY FROM BANKRUPTCY

We need to set our economy free once more. If both old political parties will not face this economic and political reality, then a new national political party based on free enterprise, restricted government, reduction in taxes, and Constitutional States Rights will be the only sensible answer. If both old political parties will not face this economic and political reality, then a new national political party based on free enterprise, restricted government, reduction in taxes, and Constitutional States Rights will be the only sensible answer. This will not be a "third party." This will be a new second political party that will oppose the Socialism now being practiced by both old political parties.

A new "second" political party could attract millions of voters by organizing now and having its spokesman declare loudly and often that taxes could be reduced without hurting our defense needs. This could be accomplished by denying money to the tax wasters.

In the December 3rd issue of the DAN SMOOT REPORT we noted a clear call for effective political action that will give the people of this nation a real chance to choose between candidates who will actually represent the people and not [illegible] bureaucrats.

And we quote Dan Smoot: "We must not sit from 1956 to 1960, as we sat from 1952 to 1956, feeding on the vain hope that 'conservatives' can capture the 'liberal' administration and guide it toward pro-American policies.

"We must begin to organize now, at the community level, so that there will be some outspoken, organized opposition to every governmental program which violates American constitutional principles. There must be organized support for every genuine conservative who offers himself for public office; and there must be organized opposition to every politician who refuses to take a forthright and satisfactory stand on important issues."

A new political party must be started by responsible and practical people in each State according to the laws of that State. The organization must be ready and operating by January of 1959, less than a year away. There should be an organizational meeting of the new national party in the first part of 1959. This new political party can win the 1960 presidential elections only if the men of political experience and courage will start now.

A NEW SECOND POLITICAL PARTY IS THE ONLY ANSWER TO THOSE WHO NOW COMMAND BOTH OLD POLITICAL PARTIES AND WHO PREACH THE DOCTRINES OF STATE SOCIALISM AND INTERNATIONAL SOCIALISM.

(Reprinted from the MONTROSE (Calif.) LEDGER)

One evening when George Washington was having dinner in his tent an Indian came in, walked around the table and seized a large joint of hot roast beef. When some moved to give the Indian the bum's rush, Washington ordered him left alone, laughed and said it was apparently only the fellow's dinner hour . . .

Another time an Indian entered a room while Washington was holding a council of war. This time, Washington rose, coolly took the Indian by the shoulders, and put him outside the door.

The moral? Where war's involved, keep the enemy or potential enemy **OUTSIDE.**

George Washington, during the Conway Cabal, wrote: "If General Conway means, by cool receptions, mentioned in the last paragraph of his letter of the 31st, that I did not receive him in the language of a warm, cordial friend, I readily confess the charge. I did not, nor shall I ever, till I am capable of the arts of dissimulation.

"These I despise, and my feelings will not permit me to make professions of friendship to the man I deem my enemy, and whose whole system of conduct forbids it."

The moral? **An enemy is an enemy, and should be recognized and treated as such.**

Last week, a Godless, Dedicated Enemy of the United States boarded a plane with a treaty in his briefcase, a treaty his superiors in the Kremlin had ordered him to obtain to further the interests of the international Communist conspiracy and to hasten the destruction, from both within and without of the United States of America.

The 1958 President of the U. S. grinned before the press, "hailed" this monstrous Kremlin-ordered "cultural exchange treaty" and expressed the "hope" that it would lead to a "better understanding" between Americans and their avowed enemies, the USSR Communists.

That same day, this same President asked Congress for power to give vital American scientific and military information, materials, etc. to the identical nations whose criminal laxity in informing themselves about Communism permitted them to send their nationals, **who were actually Soviet-Communist agents,** to America during World War II. Here, working with domestic traitors and their collaborators, they successfully stole the critical secrets of the A-Bomb.

Mr. Eisenhower's administration has consistently totally disregarded, and in this case, evidenced brazen contempt for the findings of Congressional Committees in regard to the Communist conspiracy.

For years these Committees have received sworn testimony from experts in Communist activity, from victims whose own countries had been infiltrated and taken over by Communism, from ex-Soviet military, intelligence, and diplomatic officials, etc. and without exception each testified: "You can't do business with Communism!"

These witnesses, asked about "exchange of persons" with the USSR, to a man answered as did this witness: "All the testimony and facts we know support this conclusion, that all the Soviet people, practically all, going abroad are agents for the Soviet Government, not only for the Soviet Government but the most of them for the secret police. They are especially trained, have special instructions, and if they are diplomats, they are diplomats only secondly; first they are agents."

As to the composition of "delegations" such as will now swarm all over the USA, a few are normal citizens who have families the Communists hold as hostages. These are used as "camouflage", and they "are accompanied by the special people as advisers, or interpreters, and so on who assume the role to watch them and to do the spying work."

The Veterans of Foreign Wars' "Guardpost for Freedom" December 1, 1957 (610 Wire Bldg. Washington, D.C.) details both the Soviet and American methods of operating these so-called "cultural" exchanges and scores the result.

"Results in favor of the U. S.: ZERO. Results in favor of Soviet Russia and Communism: MANY."

The VFW adds: "Moscow has also used the visitors-exchange program as a means of weakening U. S. security regulations," and points to Mr. Eisenhower's success in demanding elimination of the alien finger-printing section of the McCarran-Walter Immigration Act as a specific example.

The loyal Poles, Czechs, and Hungarians and others read warning items like this — DID NOTHING TO PROTEST — and wound up in Communist Slave Camps!

This new political party can win the 1960 presidential elections only if the men of political experience and courage will start now.

A NEW SECOND POLITICAL PARTY IS THE ONLY ANSWER TO THOSE WHO NOW COMMAND BOTH OLD POLITICAL PARTIES AND WHO PREACH THE DOCTRINES OF STATE SOCIALISM AND INTERNATIONAL SOCIALISM.

The American people deserve better than they have been getting.

New Assault On Our Schools

By John T. Flynn

***

At the moment, the Department of Health, Education and Welfare is busy cooking up a plan to give nation-wide tests to youngsters to see if they show an aptitude for science, and then setting up scholarships for them to pursue their studies - all financed by the Federal Government. This brought an immediate warning from a state superintendent of schools in Illinois. He said the program would force students into scientific studies whether they were fit for them or not - because of the Federal dollars dangled before their eyes - and that it would open "the door to the Federal Government's dictating what's taught in our schools."

Admiral H. G. Rickover, who heads the Naval Reactors Branch of the Atomic Energy Commission, put his finger on the real trouble in our educational system - something that can't be corrected by all the billions of dollars in the world. The trouble is in this thing called "progressive" education. Admiral Rickover suggests setting up a private council - not a government one - to set standards of excellence to be met by high school graduates. Then, he said, "if the local school continued to teach such pleasant subjects as 'life adjustment' and 'how to know when you are really in love,' instead of trigonometry, French and physics, its diploma for all the world to see, would be inferior."

It seems everyone is becoming aware of what's wrong with our public schools or at least many of them - except the Federal spenders and the Leftists. Even the scientists, as represented by the National Science Foundation, declared that what the schools need is not Federal aid, but much more emphasis on the fundamentals of education.

The Federal spenders, of course, are also trying to entice the teachers into their camp with promises of Federal aid for better salaries and better training. I hope the majority of our teachers, who are hardworking and dedicated souls, will not fall for this politicians' gimmick. The States and cities could well afford to pay their teachers decent salaries if they could get the hand of the Federal government out of their pockets. And as for training better teachers, there would be no trouble on that score if the teachers colleges concentrated on really training teachers - training them in all the subjects that go into the teaching of a well-educated youngster. Instead, the teachers colleges spend most of their time teaching teachers how to be baby-sitters to "life-adjusted" little savages.

SUBJECT: MR. KENT COURTNEY
PUBLISHER
THE INDEPENDENT AMERICAN
7314 ZIMPEL STREET
NEW ORLEANS 18, LOUISIANA

We have received a letter dated August 26, 1958, from Courtney in which he requests a copy of the Director's speech, "The Law and the Layman," and permission to quote from it at length in his newspaper. He enclosed a pamphlet captioned "Needed: An American Policy Not A 'Foreign' Policy" which opposes the U.S. foreign policy and urges the formation of a new party composed of conservatives from both the "old" parties. Bufile 105-55211-102, enclosure page 3, shows Courtney was reported to be a member of the Ku Klux Klan. This information was furnished the Bureau in December, 1957. Bufiles show The Independent American was preceded by a publication known as "Free Men Speak." Bufiles reveal this publication is dedicated to the defeat of socialist and communist influences and to promote individuals and organizations believing that a new political party based on constitutional state rights is the answer to socialism.

On March 9, 1955, Mrs. Kent Courtney contacted the New Orleans Office and stated "We are what certain groups call 'super patriots.'" The Bureau has conducted no investigation of this publication; however, several individuals have furnished us copies of it, a review of which indicates it is strongly in favor of state rights and violently opposed to foreign aid.

RECOMMENDATION:

That Courtney's letter not be acknowledged.

A NEW PARTY IS THE ANSWER

Both the Democrat and the Republican parties advocate our present "foreign" policy which is year by year weakening this nation.

Only a NEW PARTY, composed of Conservatives of both "old" parties can give this country an AMERICAN policy – not a "foreign" policy... An AMERICAN POLICY – one that will not squander our taxpayers' dollars abroad – but one that will preserve and conserve, the financial strength of this nation so that we can be strong enough to combat and eventually overcome atheistic International Communism and domestic Communism.

WHAT YOU CAN DO

You can alert Americans to the need for a NEW CONSERVATIVE POLITICAL PARTY which will support a real AMERICAN POLICY.

You can use the material in this pamphlet to write letters to the editors of your local newspaper, so that others may know how you feel.

You can order EXTRA COPIES of this pamphlet, TAX-FAX No. 4 and send it to your Congressman, your Senators, your doctor, grocer, customers, employees, suppliers, friends, civic club members, etc.

AMERICA'S FOREIGN POLICY IS YOUR BUSINESS

Errors in the conduct of a Nation's foreign policy can lead to war in which hundreds of lives are lost.

Therefore, the policy of the United States in its relations to foreign countries should be of vital concern to every citizen.

OUR INTERVENTION IN LEBANON

What was President Eisenhower's excuse for landing American troops on the beaches of Lebanon and by this action, risking a major war?

The President gave two reasons:

(a) To protect American lives.

(b) To preserve the independence of Lebanon from "indirect agression" (meaning Communist infiltration).

PROTECT AMERICAN LIVES?

When the President sent American troops into Lebanon, the Lebanese rebellion was in its 68th day. **The approximately 2500 Americans residing in Lebanon had already had more than 2 months in which to leave that country, if they thought they were in danger.**

The President uses American troops to "protect American lives" in Lebanon where it was not necessary, but he refuses to take effective steps to rescue the more than 450 American soldiers that were captured during the Korean War and **are still being held captive by the Communist Chinese!**

PRESERVE LEBANON FROM COMMUNIST INFILTRATION?

If the President considers Communist infiltration a sufficiently dangerous enemy to justify the risking of the lives of American soldiers by invading Lebanon, then he has identified International Communism as America's enemy.

FIGHT COMMUNISM IN THE U.S.A.

If International Communism is America's mortal enemy – **and it certainly is!** – why not root out and **destroy Communist infiltration in America itself?**

CURB THE RED-CODDLING SUPREME COURT

Let us take steps to curb the Supreme Court whose decisions during the past few years have, for the most part, been in favor of the theory of Communism, and in favor of individual Communists in this country.

STOP FOREIGN AID TO COMMUNIST COUNTRIES

President Eisenhower and the leaders of both the Democrat and the Republican parties try to "sell" Foreign Aid to the American people as a way to "fight Communism".

And yet, under the Foreign Aid program, millions of your hard-earned tax dollars are being shipped to Communist Poland and Communist Yugoslavia!

DOES OUR FOREIGN POLICY HELP OR HURT AMERICA?

The Yardstick

There is only one way to decide whether any policy is good or bad, and that is to ask the question: **"Does this policy help America and hurt World Communism"?**

Has our sending of American troops into Lebanon helped America? Has it made friends for us? Has it gained respect for us? Has it strengthened America and weakened Soviet Russia?

The answer to these questions is **NO!**

Our intervention in Lebanon has played directly into the hands of Communist Russia. The Communists are now screaming their propaganda to the world that America is an "aggressor" nation.

ARAB NATIONALISM

Arab nationalism is becoming an increasingly powerful factor in the Middle East.

THE INDIANAPOLIS STAR says: "Speaking one language, sharing one religion for the most part, and sharing also a common history of colonial domination, the Arabs have in this century decided to be free and independent; to try to create an 'Arab nation' to fulfill their desire for economic and social progress. The rise of Nasser in Egypt is an expression of this new Arab awakening. So is the Iraqi revolt. This is not a pro-Communist movement, though the Communists encourage it to discomfit the West. When we fight against it, we drive them (the Arabs) from us toward the Soviet Union."

NATIONALISM Verses ONE-WORLD GOVERNMENT

"Nationalism" is a word used contemptuously by those who favor a **One-World Government under the control of International Communism.** Under this system the United States would lose its freedom and independence and be a mere satellite nation.

"NATIONALISM" – be it American nationalism or Arab nationalism – IS THE ONLY FORCE THAT STANDS IN THE WAY OF ONE-WORLD GOVERNMENT!

NEEDED AN AMERICAN POLICY

As long as the United States has a foreign policy that refuses to recognize the danger of COMMUNIST INFILTRATION AND COMMUNIST SYMPATHIZERS IN AMERICA . . .

As long as we have a foreign policy that continues to ship hundreds of millions of your tax dollars overseas to Communist Yugoslavia and Communist Poland . . . we will continue to lose every round in this fight for Freedom until it is TOO LATE!

ATTENTION: SAC, OMAHA

Enclosed is a copy of correspondent's letter. Bufiles contain no identifiable data concerning the correspondent.

Correspondent enclosed four pieces of literature issued by "The Independent American," Post Office Box 4223, New Orleans 18, Louisiana, which are extremely critical of tax, laws and policies of the United States. Included in this material is a statement indicating that the Maryland Petition Committee, Units of For America, The Tax Cut Party of Michigan, The Ohio Coalition of Patriotic Societies, The Conservative Party of New Jersey, and many leaders of national patriotic organizations are cooperating in holding "Tax Protest Tea Parties." The correspondent apparently has reference to these named organizations in requesting whether the organizations are un-American.

Bufiles contain no identifiable data concerning the organizations named in the above-mentioned literature except the Maryland Petition Committee. This organization is a citizens council-type organization and while previously under investigation, it is not the subject of a current Bureau investigation. (105-415566)

Bufiles reflect that "The Independent American," formerly known as "Free Men Speak," is a publication issued by Kent and Phoebe Courtney, 7314 Zimpel Street, New Orleans 18, Louisiana. This publication is allegedly dedicated to the defeat of socialist and communist influences and to promote individuals and organizations believing that a political party based on constitutional states' rights is the answer to socialism. The publication has not been the subject of a Bureau investigation." (105-36811)

This data is furnished for your information only.

NOTE ON YELLOW:

Correspondent enclosed the literature of "The Independent American" and inquires if any of the organizations mentioned in the literature are listed as being un-American.

Since we have investigated one of the organizations listed and nothing is known of the others, it is believed the above reply to the correspondent will best serve the Bureau's interests.

NEW CONSERVATIVE PARTY NEEDED NOW!

There are, of course, staunch Conservatives in both the Democrat and the Republican parties, but their effectiveness is diminished, because they are outnumbered and outvoted by the Big Spenders in both parties.

There is only one way to stop this fantastic Federal squandering of your tax dollars, and that is **A POLITICAL REALIGNMENT . . . WITH ALL THE CONSERVATIVES ON ONE SIDE AND ALL THE BIG-SPENDING LIBERALS ON THE OTHER.** This can only be accomplished by the formation of a new Conservative political party composed of the Conservatives of both "old" parties.

As soon as a new Conservative political party is established, the Conservative members of the Republican and Democrat parties will have a vehicle by which they can **MOBILIZE THE AMERICAN PEOPLE TO DEMAND AN END TO FEDERAL WASTE AND SQUANDERING . . . and to demand a much-deserved TAX CUT!**

WHAT YOU CAN DO

Your Government Does NOT Need All The Taxes It Collects

"Whether you believe it or not, everybody is being overtaxed, and the middle class is being taxed out of existence....."

-- T. Coleman Andrews, Former Commissioner of Internal Revenue

THE NATIONAL DEBT HAS A RUBBER CEILING!

The Big Spenders in Congress have discovered a very "convenient" way to finance all their wasteful spending programs. First, they appropriate billions of the taxpayers' dollars for unnecessary Federal spending programs, knowing that tax receipts by the Federal Government cannot possibly pay for this extravagance. Then, in order to pay for this wasteful spending, Congress merely votes to raise the ceiling of the national debt once again. The interest on the national debt is almost $8½ billion per year. This means that before any of your tax dollars can be used for essential purposes, such as National Defense, $8½ billion have to be used just to pay the interest on the national debt.

There would be NO national debt ... America would be solvent ... our National Defense could be improved ... and YOUR INCOME TAXES COULD BE REDUCED IF Congress could be forced to cut out unnecessary spending!

DEFENSE SPENDING IS AN "UMBRELLA"

The Bureaucrats and the Big-Spending Congressmen have attempted to fool the American people into believing that all this Big Spending is for National Defense. But this is simply not true! Treasury Department figures reveal that Defense spending for the first four months of the fiscal year of 1959 is up over $37 million compared to the similar period in 1958, but "WELFARE-STATE" SPENDING HAS GONE UP OVER $800 MILLION!

The term "National Defense", as used by the Big Spenders, is merely an umbrella under which they try to group all sorts of domestic, "Welfare-State", wasteful spending. (Example: The "National Defense" Education Act provides Federal funds to students to study such subjects as sociology and anthropology!)

WHERE CAN THE FEDERAL BUDGET BE CUT?

The simple answer is: IN EVERY SINGLE DEPARTMENT (except National Defense), and the complete abolishment of many Federal agencies whose functions can be performed by the individual States and by private enterprise in a more efficient manner and at considerably less cost.

Here are a few examples of where Budget cuts amounting to billions of dollars can be made. The result would mean that YOUR INCOME TAXES COULD BE DRASTICALLY REDUCED!

(1) **Cut out the Foreign Aid giveaway of the taxpayers' dollars to Socialist and Communist countries overseas.** (Why should we aid our enemies - Communist Poland and Communist Yugoslavia, or help finance India's Socialist Five-Year Plan?)

(2) **Cut out all "Federal Aid" to the individual States.** (This is a "hoax", because the Federal Government has no money of its own ... it only has those tax dollars which it collects from the citizens of the individual States. WHY should the Washington Bureaucrats "take their cut" on this money transaction? LET THE STATES USE THEIR OWN TAXES TO AID THEMSELVES!)

(3) **Get the Federal Government out of competition with private enterprise.** (The Government is engaged in thousands of manufacturing and service functions - from paint-making to tailoring. Why should the taxpayers finance the losses that occur each year in these inefficiently-run Federal "business" enterprises when Private Enterprise can not only do a better job, but will PAY TAXES, too!)

(4) **Cut out "Federal Aid to Education" projects.** (Federal "aid" means Federal "control" of education. Education can and should be handled by the individual States.)

THREE ALTERNATIVES

(1) **INFLATION:** If the present Big Spending continues, ruinous inflation will sweep this country. This means that your savings account, your insurance policy, your pension or your weekly paycheck will be worth less and less. Each month it will COST MORE to buy the essentials of life.

Three Alternatives (Con't)

(2) **INCREASE IN TAXES:** This Big Spending by Congress must be paid for in some way. So, ... be prepared for INCREASED TAXES to pay for this wasteful and unnecessary spending.

(3) **BUDGET CUT AND A REDUCTION IN TAXES!** There is only one way to reduce taxes and that is to cut Federal spending.

ONLY AN AROUSED CITIZENRY CAN STOP THIS WASTEFUL SPENDING

Over-taxation has led to the downfall of many once-powerful nations. America is fast becoming a nation of TAX SLAVES, whose only function, apparently, is to support wasteful spending.

Senator William E. Jenner said; "Nothing in the New Deal, nothing in World War II, and nothing in the post-war years of Korea is anything like as outrageous as the spending spree of 1958. If I had to reduce everything I have learned in the last 14 years to one sentence, I could sum it up in these words. PLEASE DO NOT GIVE YOUR GOVERNMENT SO MUCH MONEY!"

Senator Harry Byrd said: "We must reverse our march to the horrors of inflation and national bankruptcy before it is too late. It is urgent that the basic sentiment of the American people be mobilized to reduce federal spending and debt."

But HOW can the American people be mobilized to reduce unnecessary Federal spending?

BOTH PARTIES "BIG SPENDERS"

The Democrat Party and the Republican Party are under the complete control of those who advocate BIGGER AND BIGGER SPENDING. Actually, the Republican Party, which swept into office in 1952 on a Conservative platform of "Economy in Government", has SQUANDERED MORE OF THE TAXPAYERS' DOLLARS in 6 years (including the projected 1959 Budget) than Roosevelt or Truman! And remember, Roosevelt's era covered World War II and Truman's era covered the Korean War. Our "peacetime" Republican Administration has, indeed, out-New Dealed the New Deal!

With the 1959 Congress under the complete control of the Big Spending, Liberal Democrats we, taxpayers, can expect more and more wasteful spending, as the Democrat New Dealers will attempt to out-spend the Republican New Dealers!

"Interview with U.S. Representative John R. Pillion of Buffalo, New York"

"THE MENACE OF HAWAIIAN STATEHOOD"

"The Communist Affiliation of Castro of Cuba"

FIRST ANNOUNCEMENT.....

COURTNEY: Good evening Fellow Americans.....Now that Alaska has become the 49th State of the Union, you will soon begin to hear the propaganda about the need to admit Hawaii as the 50th State.

I recently inquired of the Senate Internal Security Subcommittee their official position in regard to the admission of Hawaii as a State. I received the following letter from Senator James O. Eastland, Chairman of the Internal Security Subcommittee:

"Responding to the request contained in your letter...I am enclosing a statement prepared at my direction by the staff of the Internal Security Subcommittee on the question of Statehood for Hawaii."

And that letter to me was signed by Senator Eastland. Here are the highlights of that report:

"Hawaii should not have statehood before it has broken the grip the Communist octopus now has on the Islands. The plain fact is that to admit Hawaii as the 50th State while Communists continue to exercise great influence there would be perilous to the internal security of this Nation.

"Forces of the Communist world conspiracy, by their control of the International Longshoremen's and Warehousemen's Union and of the United Public Workers, are in a position to choke off the flow of all ocean-borne commerce on which these Islands depend. They can, with the turn of purely political winds, disrupt the entire economy of the Islands. They command an influence on the political life of the Islands that is most significant.

93 MAR 9 01959
RECORDED - 105-36811-17
NOT RECORDED
117 MAR 2 1959

"The dominant member of this nest of vipers is Harry Bridges, president of the ILWU, who has been a carrier of the Red baccillus throughout a whole generation. As long ago as 1934, he and his fellow Communist agents threw the people of San Francisco into the convulsions of a general strike. American Communist leaders boasted of the deeds done in that general strike. when they went to Moscow in 1935 to attend the infamous 7th world congress of the Communist Internationale.

105-36811

"In 1950, a Federal jury found that Bridges had committed perjury when he swore that he had never been a member of the Communist Party. Everything in his record proclaims that he

(Continued on page 2.....)

is a mortal enemy of the United States, and of the whole free world.

"The Bridges union was thrown out of the CIO eight years ago because it had always been a servant of the communist world conspiracy. And yet, because of his naked power over the people of the Islands, company and governmental officials must sit down at the bargaining table with this man Bridges as if he were a worthwhile member of society.

"Bridges' chief assistant for Hawaii is Jack Hall, a man who was convicted under the Smith Act of teaching and advocating the violent overthrow of the United States Government. Bridges and Hall are backed up by a long list of other Red functionaries, many of whom were unfriendly witnesses before the Senate Internal Security Subcommittee at hearings in Honolulu in late 1956."

The report continues: "Besides the union's ability to close down the sugar industry and ports of Hawaii, another potent weapon is the tremendous bloc of votes available in the membership of ILWU. If Hawaii became a State, it is inevitable that some candidates for public office would not be able to resist the temptation to accept the support of Bridges and his sinister henchmen. Thus we are faced with the possibility that men obligated to [redacted]munist leaders may come and sit in the halls of the United States Senate, or the House [redacted]Representatives."

[redacted]his official report concludes: "It is incredible that anyone could doubt the danger of admitting Hawaii to the union under present conditions. The facts fairly scream out: First, a certain small group of men have the power to bring about disastrous disruption of the economy of Hawaii. Second, this group of men also plays a distressingly significant part in the political life of the territory. And finally, each member of this small group is an identified Communist with a list of nefarous activities as long as your arm, each dedicated by the very nature of the Communist conspiracy to the violent overthrow of the [redacted]ited States Government. They are merely waiting for the Kremlin to throw the switch."

[redacted]d that, Ladies and Gentlemen, is the official opinion of the Senate Internal Security [redacted]ubcommittee as to why Hawaii should not be admitted as the 50th State!

And now we will introduce our guest, Congressman John Pillion of New York after this message from your announcer.....

SECOND ANNOUNCEMENT.....

[redacted]URTNEY: Ladies and Gentlemen, I recorded the following interview in Washington, D. C. [redacted]use on this program. We are glad to welcome to the program this evening Congressman [redacted]n Pillion of Buffalo, New York, the 42nd Congressional District of New York State, who has served three terms in this Congress. The subject for discussion this evening is whether or not the United States should consider adding the island chain of Hawaii as a State. To discuss that with us we have Congressman John Pillion. Welcome to The Radio Edition of THE INDEPENDENT AMERICAN, Congressman Pillion.

PILLION: Thank you Kent.

COURTNEY: Congressman Pillion, what are some of your views concerning adding Hawaii as a State? Would there be any factor of unequal representation if we allow Hawaii to come in as a State?

PILLION: Yes, there would be a fantastic differential in the rights of the people of the 48 States in their voting effectiveness. For example, in [redacted] States the citizens there have one Senator to roughly a population of a million and a half. In the event of Statehood, the people of Hawaii would have a distinct advantage and a disproportionate representation in the United States of approximately one United States Senator for each 250,000 people.

FEB 27 1959

(Continued on page 3.....)

COURTNEY: Well we covered the aspect of population and unequal representation, Congressman Pillion, now let us look at who would run Hawaii. Who is the most powerful person or what is the most powerful group of people on the islands of Hawaii?

PILLION: The most powerful person of course is Harry Bridges, who while his headquarters are in San Francisco he is President of the ILWU which is the International Longshoremen Warehousemen's Union. He has a union there that is a well-knit disciplined group of about 25,000 members. They control in my estimation the politics of the island -- they are stronger and more effective than either the Democratic or Republican party in politics, he pretty well controls the economy of the islands. He controls the docks, no ship can come in or go out without the consent of Mr. Harry Bridges, of course as you know Harry Bridges is one of the powerful factors in the Communist Party of the United States and also in the international Communist movement.

COURTNEY: When the CIO got rid of the Communist unions did they expel any of these unions in Hawaii?

PILLION: Oh yes, the ILWU was expeled in 1950 on the grounds that it was Communist dominated. In addition to that they also expeled the UPW, the United Public Workers union, which is also a big factor in Hawaii. They have a membership of about 3,000 people and they are public workers in the municipal fields of transportation, water works, and they work and collaborate very closely with Harry Bridges as one movement, one unit.

COURTNEY: Now would you say that in case that the United States was attacked by Russia and got itself into the third world war which some people have predicted, would you say that Mr. Harry Bridges would be inclined to fight on the side of the United States or would he probably use his power to hinder the United States in its war efforts.

PILLION: He has publicly stated that he would oppose the United States in the event of entry of the United States into a war with the Soviet Groups or with Red China. He has publicly stated that-- its no secret. He is an outright Communist and an outright leader of the International Communist Movement.

COURTNEY: Congressman Pillion, I noted that you were on another nation-wide network program recently, and you made a statement that seems to indicate that Mr. Bridges' power extends all the way to Washington, D. C. Is this true in the field of appointments.

PILLION: I believe so - I believe that the appointments in Hawaii while they probably don't have to be cleared directly with Mr. Bridges, but unless a person has the backing, political support of the ILWU he has a difficult time getting appointed even by the Republican administration to a federal position in the Hawaiian Islands.

COURTNEY: Thank you very much Congressman Pillion for being the guest on The Radio Edition of THE INDEPENDENT AMERICAN.

PILLION: I certainly enjoyed being here, Kent.

COURTNEY: Havana, Cuba: Fidel Castro, the new Cuban Dictator, is a long time revolutionary, with a history of arrests for murder and insurrection.

Fidel Castro, who has spent his entire life plotting and executing the Communist conquest of his native land, Cuba, was a member of a Communist mob which reduced a large part of the City of Bogata, Columbia, to ashes on April 9th, 1948.

Fidel Castro was arrested for murder in Bogata and is reported to have boasted, "I did a good day's work today, I killed a priest."

Ten years later on April 9, 1958, Fidel Castro celebrated his participation in the sack of

(Continued on page 4.....)

Bogata by calling a general strike against the Batista Government.

Our State Department helped the cause of Fidel Castro by calling for an embargo of all arms to Cuba's Batista. Castro had already received all the arms he needed from his Communist friends in Venezuela.

In 1956 Castro went to Mexico where for two months he and his brother and some eighty-two other revolutionaries were trained by Brigadier General Alberto Bayo, a veteran of the Communist forces of the Spanish Civil War. Second in command to Castro is an well known Argentine Communist by the name of Ernesto Guevara.

During the summer of 1958, our former Assistant Secretary of State for Latin American affairs, Spruille Braden, warned the American people as follows:

"Rebel Chief Fidel Castro is a pawn in the Kremlin's international intrigue. He is backed by Red agents who are plotting to bring Cuba under Communist domination. Through insidious propaganda the Reds have made a hero out of Castro and fooled the American public."

And who, Ladies and gentlemen, is the source of all this shocking information. It is Dr. J. B. Matthews, one of our government's top consultants in the field with regard to the Communist International conspiracy. His article appears in the February issue of "American Opinion", a Conservative magazine.

Fellow Americans, do we now have a Communist dominated government right at our front door?

"IS RUSSIA'S MECHTA (DREAM) A PROPAGANDA NIGHTMARE?"

COURTNEY: Is a Russian planet really revolving around the sun or is it all a hoax? Who are the friends of Nelson Rockefeller? I'll have the details of these stories and more news about the growing national tax revolt after this message from your announcer.

FIRST ANNOUNCEMENT:.....

CCURTNEY: Baltimore, Maryland: Colonel Ulius Amoss, Editor of the widely read newsletter INFORM has a unique service. Most of his news comes from observers of the International scene who are located outside of the United States. His reports and predictions concerning the activities of the Communist Russians throughout the entire world are almost always correct. On January 12th his newsletter raised the question of whether or not the Russians really had shot a vehicle into space.

You will recall that Life Magazine came out with a full page scale drawing of the universe which indicated where MECHTA, the Soviet planet, was supposed to be revolving around the sun. You will also recall that the Russians called it LUNIK for the first day or two when they thought that the missle would reach the vicinity of the moon.

But Colonel Amoss now has compiled a world wide reaction to this Russian shot at the moon and declares it is a fake and a hoax. Space vehicle tracking stations in Britain, France and Australia, were unable to locate LUNIK as it supposedly took off from Russia into outer space.

No one outside of the Iron Curtain has any data that can identify whether or not the Russian space missle is actually in space or not!

The embarrassing thing about all of this is that President Eisenhower quickly sent a message of congratulations to the Russians for having conquered outer space!

Today no one can be found here in the United States who will admit that we have any definite proof that the Russians put a vehicle into outer space!!!!!!

It seems that an immediate investigation is in order as to who exactly advised the President concerning this Russian moon shot which now has been publicly labeled as the most complete and grandest hoax ever perpetrated in modern times.

In his newsletter of January 19, Colonel Amoss says that the Russians did make a shot at the moon, that the vehicle blew up before it left the atmosphere of the earth, and that the Russians apparently then decided to check whether any of our tracking stations in the United States were alert enough to track an unannounced missle firing. And that's the opinion of INFORM.

It looks like most of our newspapers and magazines in the United States fell hook line and sinker for this false propaganda coming out of Russia.

THE INDEPENDENT AMERICAN Newspaper asks this question? Who was responsible for all of the news stories coming out of Washington, D. C. for the ten days following January 2nd when the Russians fired their missle that missed the moon?

And now of course another frightening and almost ridiculous thing has happened as a result of the Russian hoax. The Big Spending boys in the Congress have already said that we must spend more money to surpass the Russians in conquering outer space.

Yes, Ladies and Gentlemen, everything that happens is being used as an excuse for more spending by your government. And it is time to call a halt.

New York City: The Wall Street Journal had a very interesting editorial the other day about what reduction in government spending can mean to the average taxpayer. If all of us taxpayers really put the pressure on our Congressmen and Senators to reduce unnecessary government spending by just one billion dollars it would mean that the average family could get a $20 dollar reduction in personal income taxes.

Let us look at it this way. Suppose that a nation-wide, grass-roots demand from every taxpayer would result in a cancellation of the Foreign Aid program. This would reduce government expenditures by at least 5 Billion dollars per year. And it would mean that each family in the United States would have 100 dollars more to spend or save.

You can help in this drive for reduced taxes. Just write to your Congressman and ask him to cut down on unnecessary spending.

A radio audience measuring service tells me that there are 100,000 people listening to this program! Therefore, if everyone who is listening to this program tonight and who really wants to reduce his own taxes will write to his Congressman tonight, within a few days more than 100,000 letters will arrive in Washington.

Now to make your protest against high taxes even more effective put a tea bag on your letter. Add the slogan REMEMBER THE BOSTON TEA PARTY. NOW is the time to protest against the spending plans of this Congress!!!!!!

Washington, D. C.: Eisenhower has presented his budget for the fiscal year beginning July first 1959 to the Congress. The Government plans to spend 77 Billion dollars during the next year!

One project that Eisenhower is insisting on is another 5 Billion dollars worth of Foreign Aid....some of it going to Communist Yugoslavia and Communist Poland. Do you realize that every time you pay 100 dollars in income taxes that 20 dollars is used in the Foreign Aid program? Therefore, if you paid out $500.00 in personal income taxes last year, 100 dollars of your money was sent to support Socialist and Communist governments.

In other words, your government which is supposed to be fighting the agents of Communism everywhere in the world is actually using some of your income tax money for the support of Communist governments which have declared they intend to destroy us and our way of life.

Don't you think it is time to sit down and write a letter to your Congressman and ask him to vote against the Foreign Aid program? We have been told that the purpose of the Foreign Aid giveaway is to buy friends who will stand with us in case of war with Communist Russia. ...But Eisenhower this year is recommending that we cut down on military aid to foreign countries and increase the non-military aid.

Does this make sense to you?

(Continued on page 3.....)

Albany, New York: Nelson Rockefeller now occupies the post of Governor of the State of New York. We have news that Rockefeller is being praised by all sorts of people. It appears that Rockefeller is quite the darling of the Liberals. You know what a Liberal is, Ladies and Gentlemen - that is a person who is always making plans to be liberal in spending your money.

Now one of these Liberal outfits is something called THE NATIONAL COMMITTEE FOR AN EFFECTIVE CONGRESS. Their whole idea is to raise money from Liberals throughout the United States and elect so-called Liberals or left-wingers into the Congress.

Now a left-winger usually finds himself in groups that oppose true Americans who wish to fight Socialism and Communism in our government. These left-wingers are against those patriots who fight atheistic Communism.

The American Legion has published a newsletter called THE FIRING LINE. This news letter is devoted to exposing those individuals who join up with Communist Fronts. The American Legion's newsletter THE FIRING LINE has published the Communist Front records of six of the members of the board of directors of THE NATIONAL COMMITTEE FOR AN EFFECTIVE CONGRESS.

Now that we have indicated what kind of an organization that THE NATIONAL COMMITTEE FOR AN EFFECTIVE CONGRESS really is, let us take a look at what they have to say about NELSON ROCKEFELLER.

According to Willard Edwards who writes for the Chicago Tribune Press Service we learn that THE NATIONAL COMMITTEE FOR AN EFFECTIVE CONGRESS says the following: "Rockefeller's emergence has had a liberalizing effect on everybody." The report goes on to say that with Rockefeller in the Governor's chair that both major political parties will be driven further to the left!

The Indianapolis Star in reporting on this same subject stated that THE NATIONAL COMMITTEE FOR AN EFFECTIVE CONGRESS had declared that Rockefeller has swept the banner of modernism away from Vice President Richard Nixon.

Digging back into the previous activities of the NATIONAL COMMITTEE FOR AN EFFECTIVE CONGRESS we find that they raised and spent more than 70 thousand dollars in order to engineer the censure of the late, great Senator Joe McCarthy!

So we see that a left-wing group of individuals with shady backgrounds are praising the man NELSON ROCKEFELLER.

Richmond, Virginia: The Richmond News Leader in an editorial brings up a good point with regard to House Minority Leader Joe Martin. The Republicans in the House of Representatives at Washington have had Joe Martin as their leader for a good number of years. This year they decided to change the leadership and voted in a younger man by the name of Charles Halleck of Indiana as House Republican Leader.

The minority leader has certain extra privileges, such as a chauffeur driven Cadillac, and about 13,000 dollars a year extra to hire special assistants and clerks. But after Joe Martin was defeated this year, The House of Representatives under the direction of Democrat Sam Rayburn voted to allow Joe Martin to retain his Cadillac and his $13,000 a year for extra assistants. Joe Martin does not need assistance now that he is no longer minority leader.

The Richmond News Leader editorial comments that this is wrong and immoral and then says: "IT MAKES NO DIFFERENCE THAT HIS SERVICE IS LONG AND THE SUM IS SMALL. THIS IS THE PEOPLE'S MONEY....HE IS NOT MORALLY ENTITLED TO IT."

This is a bad precedent Ladies and Gentlemen, for the House of Representatives to pay out money to a politician who has lost a political battle. The Congressmen did not vote this

(Continued on page 4.....)

out of their own pockets....they used your money.

New Delhi, India: Under the foreign aid program, the United States has just granted India another 350 million dollars this year! During the last ten years the United States Government has sent to India one billion 375 million dollars in Foreign Aid.

Another news dispatch from India reports that a new oil field has been discovered. Naturally we would think that India would turn to us to purchase the oil well equipment, drilling rigs, and refineries needed to convert the raw oil into useful petroleum products. No, you guessed it....India is ordering her oil field equipment from Soviet Russia. India will have an oil refinery built by the Communist Russians.

Also it is interesting to note that India usually votes in favor of the Soviet Union's position in the United Nations.

When will our State Department experts wake up? When will our Congress realize that charity begins at home?

* * * * * * *

Last week, Ladies and Gentlemen, we told you about the growing national protest against high taxes. There is a modern Boston Tea Party now going on. People all over the nation are sending cards and letters of protest against unnecessary government spending to their Congressmen and Senators. To give added emphasis to their protest they are enclosing tea bags in their envelopes along with their letters and cards.

The following groups are now participating in this nation-wide AMERICAN TAXPAYERS TEA PARTY: A business and professional women's club in Wisconsin; Units of the Maryland Petition Committee; State units of FOR AMERICA; The TAX CUT Party of Michigan; The Ohio Coalition of Patriotic Societies; The Conservative Party of New Jersey, and many other groups and thousands of individuals.

One chain of newspapers has published an editorial two columns wide and the full length of the page commenting on the effectiveness of sending tea bags to Washington when complaining about taxes.

The Fort Worth Press of January 20th featured an article from its Washington News Bureau to the effect that Congressmen from Texas had received enough tea bags to give them a years supply.

Willis Stone has written a column which has appeared in more than 200 newspapers talking about the spreading protest against taxes and mentions the TAX PROTEST KIT being offered by THE INDEPENDENT AMERICAN Newspaper.

Whether you belong to a group or not you can join in this nation-wide, non-partisan protest against unnecessary government spending and high taxes. For just two dollars you can receive a TAX PROTEST KIT which will aid you and your friends as you send letters protesting the wasteful spending plans now being proposed in Congress by members of both political parties.

Here is what you will get when you send two dollars for your tax protest kit:

First, a four-month subscription to THE INDEPENDENT AMERICAN newspaper which sponsors this radio program.

Second, we will send you an outline of how you can effectively participate in this nation-wide, non-partisan protest against taxes, either as an individual or as a member of a group.

Third, you will receive a set of 25 TAX PROTEST CARDS showing a picture of a modern day AMERICAN TAXPAYERS TEA PARTY. This is the card to which you tie a tea bag when you mail your protest against high taxes to Members of the Congress.

(Continued on page 5....)

Fourth, we will also send you for your $2.00 25 copies of a pamphlet which outlines why your high taxes are not necessary!

This then is your complete TAX PROTEST KIT....a three dollar value for only two dollars.

Send your two dollars to THE INDEPENDENT AMERICAN, Box 4 2 2 3, thats box four two two three, New Orleans, Louisiana.

Ladies and Gentlemen, this national, non-partisan protest against high taxes is growing and we will have more news about these developments again next week.

The tea bag attached to a letter to your Congressman will become a symbol of protest against high unnecessary taxes. Send for your TAX PROTEST KIT today. Send your two dollars to THE INDEPENDENT AMERICAN, Box 4 2 2 3, that's box four two two three, New Orleans, Louisiana.

You will receive for your $2.00 - 25 tax protest cards plus 25 pamphlets telling you all the facts why high taxes are not necessary. You will also get an outline how you can participate in this national tax protest movement, and you will also receive a four-month subscription to THE INDEPENDENT AMERICAN newspaper which brings you this radio program.

Send two dollars for the TAX PROTEST KIT to THE INDEPENDENT AMERICAN, Box 4 2 2 3, that's box four two two three, New Orleans, Louisiana.

Please tell your friends about this tax protest movement and tell them to listen next week at this same time over this same radio station to THE RADIO EDITION OF THE INDEPENDENT AMERICAN.

If you believe that these programs should be heard in your area on a regular basis - please contact Kent Courtney, and complete details as to local sponsorship by an "INDEPENDENT AMERICANS" Committee will be sent to you by return mail.

"Fidel Castro - Hitler, Jr., of the Caribbean"
plus
"Interview with Congressman H. R. Gross of Iowa"

COURTNEY: Is Fidel Castro the Adolf Hitler of The Caribbean? Will Cuba become the base for Soviet Russian Conquest of Latin America?

Congressman Gross of Iowa talks about Fantastic Foreign Aid. I'll be back with the details of this exciting news after this word from your announcer.

FIRST ANNOUNCEMENT.....

COURTNEY: Dictatorship, whether it wears a Charlie Chaplin mustache or a beard, is still dictatorship, and it is an ugly thing because its sole aim is the enslavement of the citizens. Dictatorship is like a vampire - it feeds on the blood of the freedom of individuals.

Americans thought we had "made the world safe" from theatrically-inclined dictators....after Hitler's childishly-dramatic self-cremation in Berlin when the Allied troops were advancing. But no! We now have a "Hitler, Jr." in the Caribbean. He sports a beard, which made sense when he was a guerilla in the hills, but now we see that it is merely an affectation - he is trying to establish it as a "trademark" like Hitler's mustache!

America's leftwing press is enamoured of young Castro. Doubtless you've read the innane stories in the nation's press headlined as "Rise of a Country Bumpkin--Fidel's Student Days Recalled." BUT.....America's leftwing press is strangely quiet when it comes to giving the American people the TRUE FACTS concerning Castro!

However, there are a few newspapers in the United States who see Castro of Cuba in his true light. Here's what the Charleston, S.C. NEWS AND COURIER has to say: "Premier Fidel Castro of Cuba said last week that revolutionary justice is based not on 'legal precepts,' but on the 'moral conviction' of the people. We do not know the source of Premier Castro's ideas about law. But we recall that another successful revolutionist, Adolf Hitler, also rejected legal precepts. He based the Nazi state on what he called the 'will' of the German people."

And now let's examine some other actions of this junior Hitler of the Caribbean, Castro. Few can deny that Senor Castro has the blood lust. Somehow in his warped brain he has developed the theory that power is determined by the number of people you murder (by "legal" means, of course!)

And so, Castro, "the Bearded One' has now decided that courts and judges and legal procedure are a luxury that the citizens do not deserve. Accordingly, Castro, in true dictator-style over-ruled the decision of his own revolutionary court when it acquitted 44 flyers. These men were members of the armed forces of Cuba. They were assigned a job to do. The airmen had pleaded not guilty. Castro's own revolutionary court acquitted these men but Castro, the juvenile dictator, in an unprecedented action, appealed the acquittal - so great is his blood lust.

It is to the credit of the Cuban Bar Association that they protested this flagrant travesty on justice.

However, as it always happens in "Dictator-land", the 44 flyers were not released. Even though wiser heads prevailed and Castro was prevented from murdering these 44 airmen, he, nevertheless succeeded in sending them to long prison terms.

HE'S NOW AFTER THE PRESS! In true Hitlerian style, Castro doesn't like criticism. He has an answer for critics - a simple answer - DEATH! Here is what the HOUSTON CHRONICLE recently stated: "Fidel Castro justifies his wholesale executions on the ground that the victims of his purge were 'war criminals'. But among those sentenced to death, although not yet executed, so far as has been announced, is Ernesto de la Fe, who cannot possibly be labeled 'war criminal'. As a matter of fact this outspoken journalist was the object of persecutions when Fulgencio Batista was dictator.

"De la Fe is described as 'the greatest of the Cuban anti-Communists' by Enrique Farias, columnist of the Mexico City newspaper El Universal. He was in charge of the Havana office of the Inter-American Confederation for the Defense of the Continent, Latin-America's great anti-Communist congress. The fact that Castro has Communist backing is well known. Presumably it is this element that has succeeded in getting De la Fe sentenced to die. The El Universal writer urges anti-Communists in Latin America and the United States to protest vigorously the carrying out of this indefensible miscarriage of justice."

Castro, Cuba's juvenile delinquent, is now beginning to flex his muscles, because he knows that he has the backing of Soviet Russia. And who is he flexing his muscles against? That's simple: against the "yanqui" investors in Cuba. In true Communist fashion, Castro, who egotistically believes that he is "calling the shots", is, by his pronouncements carrying out many of the planks of the world Communist conspiracy.

FREEDOM'S FACTS AGAINST COMMUNISM, a publication of the All-American Conference to Combat Communism, states: "Fidel Castro's younger brother, Raul, now chief of the Armed Forces of Cuba, on February 11, 1959, called for a war against 'vested interests,' warned against 'many enemies, domestic and foreign,' and declared: 'The basic strategy of the revolution must begin with agrarian reform'." Shades of Red China! Remember when the American people were told that Mao-Tse-Tung, and his henchmen were merely "agrarian reformers"?

And then FREEDOM'S FACTS AGAINST COMMUNISM continues: "On February 10, 1959, the Soviet news agency TASS reported that the People's Socialist-Communist-Party of Cuba had just demanded a law on land reform and 'suggested that all burdensome concessions granted by former governments to foreign companies be cancelled'."

Castro, Moscow's puppet, has hastened to do the bidding of the People's Socialist-Communist-Party of Cuba, and accordingly we find a recent Associated Press dispatch stating that Castro's government has taken over control of the Cuban Telephone Co., an affiliate of the International Telephone & Telegraph Co. Also, the pro-Communist newspaper, REVOLUCION, has now started a series of articles blasting the United Fruit Company. Other U. S. corporations with important enterprises in Cuba, who can expect to receive similar treatment from Castro, include Electric Bond & Share, Freeport Sulphur, and the King Ranch of Texas.

(Continued on page 3.....)

A COMMUNIST SATELLITE ON OUR DOORSTEP? Commenting on the subject of Castro's control of Cuba and the proximity of Cuba to the United States, THE INDIANAPOLIS STAR says: "This country cannot afford the luxury of a Red-controlled government operating in Cuba which sits astride a major sea-lane from the Gulf of Mexico to the Atlantic seaboard."

U. S. EDITORS TO WELCOME CASTRO. In view of the foregoing facts, it is indeed shocking to learn that George W. Healy, Jr. (Editor of the New Orleans TIMES-PICAYUNE) and President of the American Society of Newspaper Editors has tendered an invitation to Castro to speak at the annual meeting of the American Society of Newspaper Editors in Washington on April 17. However, George Healy has had a wee bit of "difficulty" with the U. S. State Department. It seems that the trouble arises over a detail of protocol concerning the official welcoming of Castro to the U. S. The State Department wants to be very sure that Senor Castro, the Hitler, Jr. of the Caribbean, is received with full honors in Washington!

And now I'll be back interviewing Congressman H. R. Gross on the subject of Foreign Aid after this message from your announcer.

SECOND ANNOUNCEMENT.....

COURTNEY: Today we are honored to interview once again the Honorable H. R. Gross who has spent ten years in Congress. He is from the 3rd District of Iowa, now serving his sixth term in the Congress. We are glad to welcome you once again to The Radio Edition, Congressman Gross.

GROSS: Thank you Mr. Courtney, and I am pleased to see you in Washington again and to know that you are continuing your fine campaign by radio and through your newspaper to preserve this form of Constitutional Government.

COURTNEY: I see where Paul Hoffman, one of those "modern Republicans" has landed a job with United Nations to give our money away to underdeveloped nations. What do you think about giving money away through the UN versus giving it directly?

GROSS: Well, of course I would reduce the Foreign Giveaway program to a few hundred million dollars a year taking care of those areas where we have a stake and those countries which have demonstrated their willingness to cooperate with us. I would cut it from billions down to comparatively a few millions each year. That is number one. Of course, I am not willing to put a single dollar through the United Nations.

COURTNEY: Do you think the United Nations has been successful in stopping the march of Communism?

GROSS: Of course not! Evidence is all to the contrary.

COURTNEY: How much money is involved in this special United Nations Fund? How much money a year is that going to cost the taxpayers of the United States?

GROSS: 2 to 5 billion dollars a year and we know very well that the bulk of the money regardless of the fact that they apparently fixed a 40% contribution on the part of the United States, we know very well that there isn't that kind of money floating around loose anywhere in the world -- take a look at France today -- busted. The British will be back in our laps again in a short time, and if there isn't money in those countries to help establish this so-called "special fund", then where in the world are they going to get it elsewhere?

COURTNEY: I noticed that President Eisenhower has stated that he wants another 5 billion dollars for us to use in our own direct foreign aid program this year. Add that to the 5 billion dollars that Paul Hoffman wants for the U.N. and it looks like the United States

(Please see other side.....)

taxpayers are going to have their foreign aid bill, direct and indirect, doubled this year. Where is it all going to end?

GROSS: The whole scheme now is to use some other device for putting out the money, such as this United Nations "special fund", and to call them "loans". But they are not loans because we know that they are uncollectible.

COURTNEY: Well Congressman Gross, its indeed been a pleasure to have you again as a guest on The Radio Edition of THE INDEPENDENT AMERICAN.

GROSS: It has been my pleasure to be with you, Mr. Courtney.

FINAL ANNOUNCEMENT.....

"Why is Russian Technical Equipment Being Used to Teach American High School Students?"

COURTNEY: Should American school children be using Russian made scientific instruments in the High Schools of America?

What does Foreign Aid really cost you, the taxpayer? And there are signs of a growing revolt against high taxes.....

I'll have these and other news items after this message from your announcer.

FIRST ANNOUNCEMENT.....

COURTNEY: If the day comes when we have to rely on the Communist system for anything, then that day will go down as the saddest and darkest one in the history of mankind.

Last week, a national business magazine stated that the Russian-made equipment now being brought into this country includes instruments called spectrometers; and a recent report concerning Government surplus activity listed spectrometers as one of the many kinds of items piling up today in our warehouses where surplus goods are stored.

One of those who viewed the first Soviet shipment was quoted as saying that the Russian-made spectrometers were offered at about one-third the price of the cheapest similar item on the U. S. market today. But by just paying warehousing and transportation costs, the same articles could be obtained out of U. S. surplus!

The National Defense Education Act of 1958 authorizes the sum of $280 million for grants to State educational agencies for just this very thing -- laboratory equipment.

This challenge, which faces us today, cannot be treated in the same way that we might treat an economic situation with a friendly nation. The Soviets have declared war on our economy; and this matter of school equipment is just one phase of it. But this phase strikes at the very roots of one of the greatest American enterprises -- the educational institution.

Therefore, so far as the National Defense Education Act is concerned, it would be well to consider amending it in such a way that these funds could not be used to buy this Russian-made equipment.

Fellow Americans: Perhaps you will recall that several months ago this radio program exposed the so-called NATIONAL DEFENSE EDUCATION ACT and how Congress last year appropriated almost a billion of your tax dollars for the purpose of giving needy American students an education in science subjects to fit them for the space age. At that time we pointed out that this so-called NATIONAL DEFENSE EDUCATION ACT was a clever "dodge", and that it's real

(Continued on other side.....)

ENCLOSURE

ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED DATE 01-26-2010 BY SP2 AMW/RC

function was to be the first step in the drive to give the Federal Government control of all education. We also pointed out that this NATIONAL DEFENSE EDUCATION ACT provided funds for students studying such non-defense subjects as anthropology.

These Big Spending Congressmen have the idea that if they put the tag "Defense" on any law that they can pass that law, whether the funds are for defense or not!

Well, here's the latest development on how your tax dollars are being used in this so-called NATIONAL DEFENSE EDUCATION ACT which was passed by Congress last year.

Senator Styles Bridges of New Hampshire recently stated on the floor of the U.S. Senate that some of these NATIONAL DEFENSE EDUCATION funds were used to - and get this - buy Communist Russian laboratory equipment for American high schools!

Here's what Senator Styles Bridges had to say: "Just for a starter, the Russians are sending to this country 6,000 pieces of school laboratory equipment to help us educate our youngsters. Items such as microscopes, projectors, and electronic devices, we are told, are scheduled to be sold to our schools by the Russians at prices as low as one-fifth of the prevailing prices for comparable American-made items.

"There are many reasons why this matter should concern all of us. First of all, what of the students themselves -- the American boys and girls who will use this equipment? What will they think? What will Johnny Smith think--the Johnny Smith who represents the hope and the future of our country. Will he go home and think about it, and then come up with the conclusion that perhaps the Russians are better than we are? If he does, God help us!" And that is the view of Senator Styles Bridges.

Indianapolis, Indiana: And what about the billions and billions of your tax dollars that are being squandered on Foreign Aid?

The INDIANAPOLIS STAR recently stated: "Why not tell the American people how much Foreign Aid goes to every country in the world....including Communist countries? Why have the American taxpayers been kept uninformed of where and why $85 billions dollars of their hard-earned money has gone in the last 10 years!"

"On grounds of 'security' even Congress has not been fully informed of how the taxpayers' money is spent abroad. The STAR not long ago, discovered that since 1946 over 2 billion dollars has been sent to Communist countries alone. Even as late as 1957 the captive East German Government got millions of American foreign aid funds! The Hungarian Government, a Red renegade government that cooperated in the brutal murder of its patriot countrymen during the Hungarian revolt got more money from the United States after that revolt was crushed than it did before!" And then the Indianapolis Star continues:

"Why can't the people know these facts and many more about Foreign Aid? The President is asking for 4 billion dollars more of your money this year for foreign governments. What have we got for the 85 billion dollars we have already given away. Has our Foreign Aid bought us the support or admiration of our beneficiaries? Did it in Bolivia? In Yugoslavia? In Poland? In Czechoslovakia? In Hungary? In France? In Iraq? In India? In Italy?

"Has it reduced Communism in these countries? Italy and France have the largest Communist parties in Europe. Iraq is virtually Communist. Yugoslavia, Poland, Czechoslovakia and Hungary, to all of which we have given aid as late as last year, are more tightly tied to Moscow than before.

"The interest on the Foreign Aid part of our staggering 283 billion dollar National Debt is 2 billion dollars a year. And the American debt is bigger than the combined national debts of every other country in the world! Yet we, with 6% of the world's population, are being forced to give the equivalent of 20% of our tax money to these countries, including some

(Continued on page 3.....)

Communist ones. It is presumptuous, stupid and ridiculo[illegible]o think we can carry the whole world on our shoulders."

Then THE INDIANAPOLIS STAR concludes: 'Foreign Aid, disbursed in secret, has been wasteful, has encouraged Socialism, has produced corruption in foreign countries, has turned friends into enemies, has been spent on the very Communists it is supposed to oppose, has lulled our friends into indifference and our own people into a sense of false security. It is a scandalous misuse of American taxpayers' money. It causes inflation at home. It weakens the American dollar. It produces unemployment by financing foreign competition. It has failed to win friends, weaken enemies or strengthen the United States of America. It should be abolished." And that is the editorial position of THE INDIANAPOLIS STAR.

San Francisco, California: Teamsters try to organize the Girl Scouts.....A spokesman for the Bakery Drivers Union is reported to be withholding some four thousand dollars in contributions from the UNITED CRUSADE, a local public welfare group, until the Crusade officials whip the Girl Scouts into line. This Teamster's Union wants the Girl Scouts to discontinue selling non-union cookes and to sell union baked cookies in the future. The Teamsters may have run into something rougher than a Congressional Committee this time.

I'll be back with more news of interest to all taxpayers after this message from your announcer.

SECOND ANNOUNCEMENT.....

COURTNEY: Washington, D. C. Senator Styles Bridges of New Hampshire and head of the powerful Republican Steering Committee of the U. S. Senate will push for an investigation of Russia's LUNIK, that rocket which the Russians say they shot way out into space among the planets.

Listeners will recall that during the first week of FEBRUARY, we posed certain questions concerning the Russian claims. On this radio program we asked for an investigation as to whom in our government advised the President to send congratulations to the Russians for an achievement of which the scientists of the free world had absolutely no information.

Now Senator Bridges has taken up the fight and is asking for sworn testimony as to the proof of all Russian announcements of their alleged rocket and missle developments. Senator Bridges wants to know why it is that our tracking stations were not ordered to monitor LUNIK.

Senator Bridges on behalf of the American people wants to know if our tracking stations are on the alert. He wants to know why congratulations were sent to Russia by the President before there was any confirmation by our own reliable scientists? The Senator from New Hampshire suspects that the Russians may not be as advanced in the rocket field as they claim and that we should not be so gullible about announcements coming from the Kremlin.

We are glad that a man with the integrity and stature of Senator Styles Bridges has taken up the investigation which we suggested during the first week in February.

Ladies and Gentlemen, those of you who have been listening to this program for the last year know that THE INDEPENDENT AMERICAN newspaper has been reporting the growth of a nationwide tax revolt. The citizens of this country are getting tired of more and more taxes and more and more inflation....now they are doing something about it.....

May I suggest that you get a pencil and paper while I quote from an editorial in a Texas paper, THE HOUSTON CHRONICLE....I am asking that you get a pencil and paper so that you can note down the address to write to in order to get more information about how citizens all over the United States are joining in a resistance movement against inflation and high taxes..

Now here is the Editorial from THE HOUSTON, Texas, CHRONICLE....

The headline from the Houston Chronicle reads....ANTI-TAX REVOLT MUSHROOMS IN THE STATE OF WASHINGTON.

(Continued on other side.....)

"A nonpartisan taxpayers' revolt that has mushroomed suddenly from the grass roots in the State of Washington may spark similar revolts all over the country. There is a prophetic aspect to the Washington movement which public officials at all levels of government in the United States should note.

"The revolt was not started by big-name citizens. It all began on Feb. 11 when a salesman from Wenatchee, Wash., made a speech on government and taxes to members of the Lions Club in Ritzville, Wash. (population 2200). Some of the listeners were so impressed they decided to discuss the matter further over coffee the next morning. Twenty men showed up and soon were joined by another 40. Among them were Republicans, Democrats and independents. They raised $300 to print some form letters, to be signed by citizens and sent to the governor and members of the Legislature.

"Within two weeks legislators had received more than 10,000 of the letters and Gov. Albert D. Rossellini had received 1358.

"Gov. Rosellini replied with a form letter of his own, saying that the revolters should be realistic enough to know that increased taxes are necessary to maintain a minimum of services already rendered. His letter just added fuel to the fire. The revolt started quickly in Spokane, where a goal of 75,000 letters was set. Aberdeen, Bellingham and other smaller towns joined the revolt. Plans were announced to carry the campaign into Seattle, the State's biggest city.

"There are signs that the movement already is having its effect on legislators. The letter campaign has reached proportions which the solons dare not ignore. The campaign also has alerted all of the citizens of the state to the tax situation and, even more important, has provided a means by which average citizens can voice their protests.

"This is grass roots democracy in action. It is the most effective way, outside of defeating offenders at the polls, of forcing public officials to heed the will of the people." And that is the editorial position of THE HOUSTON CHRONICLE.

The editorial you just heard is printed in full in the April issue of THE INDEPENDENT AMERICAN newspaper. Now if you want more information about how you can join in a nationwide movement against high taxes and inflation, take down this address: THE INDEPENDENT AMERICAN, Post Office Box 4 2 2 3, that's box four, two two three, New Orleans, Louisiana. Send just one dollar to THE INDEPENDENT AMERICAN and you will receive a four month subscription to THE INDEPENDENT AMERICAN newspaper and you will also receive a copy of a pamphlet entitled HIGH TAXES NOT NECESSARY, plus a TAX PROTEST kit showing you how you can participate in this nationwide drive to reduce taxes and fight the enemy of the working man...inflation.

To be an effective fighter against high taxes and inflation you must be informed as to the causes of high taxes. Your subscription to THE INDEPENDENT AMERICAN will keep you fully informed about what other patriotic American citizens are doing and you will find out how yoy can participate in this nation wide movement to prevent waste and big spending by your government which is the cause of high taxes and inflation.

"Should American Students Attend Communist Youth Festival?"

COURTNEY: Good Evening, Fellow Taxpayers. With this program we celebrate the beginning of our second year on the radio. For the past 52 weeks we have been bringing you the Conservative side of the news so that you can judge for yourself the truth concerning the vital issues that affect your future and your pocketbook.

We talk on this program mostly about political affairs affecting your business, your children's education, and the activities of your government which is taking so much of your hard earned money away from you in taxes.

We have interviewed outstanding Conservative leaders of this nation during the past year. We have been honored to have on this program Senator Jenner of Indiana, Senator Goldwater of Arizona, Senator Bridges of Massachusetts, and many others whose views are in accord with our Constitution. We have interviewed many Conservative Congressmen from both political parties, men such as Gross of Iowa, Hoffman and Johansen of Michigan, Colmer and Williams of Mississippi, Hiestand of California, Timothy Sheehan of Illinois and many many more.

We brought to you the voice of Governor Orval Faubus of Arkansas and so many of you write in asking for copies of his talk that we played the same program again.

In response to our program we have received letters from listeners in 28 States, all the way from Texas to New York, and from Minnesota to Florida.

Our advertising agency tells us we have at least 125,000 regular listeners to this program. And so we say thanks for listening.

And if you want to help us keep this program on the air please subscribe to THE INDEPENDENT AMERICAN newspaper. Just send one dollar to THE INDEPENDENT AMERICAN, Post Office Box 4 2 2 3, thats Box four - two - two - three, New Orleans, Louisiana. Your four month subscription will begin right away.

Now lets talk about the news.....

A DISTURBING REPORT FROM THE 49th STATE -- ANCHORAGE, ALASKA.....The Anchorage Daily Times reports a most dangerous development that is taking place. Remember we were all sold on the idea of admitting Alaska to the Union, on the basis that we had to have Alaska as a member state because Alaska was and is an important bastian against the Russians, an important defense against Russian over the North Pole flights which could result in bombings of Chicago, Milwaukee, South Bend and other cities along the Great Lakes.

ENCLOSURE

Now the Daily Times of Anchorage reports that the State Department has made an agreement to

(Continued on other side.....)

ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED DATE 11-28-97 BY SP2 AUC/STP
9295/2

let our military bases be used as a landing place for a Soviet Russian Air Line.

All this came about because of that infamous agreement which the State Department signed with the Russians allowing the Russians to send spies throughout our country as farmers, as ballet troups, as musicians, as factory workers. No Russian is allowed out of Russia unless he is ready and willing to spy for Communist Russia in every way he can.

But getting back to Alaska...The Elmendorf Air Force Base has been suggested by the Russians as the place where they wish to refuel as they fly toward the United States in their jet airliner, the TU 104. The Russians do not want to use the new ANCHORAGE INTERNATIONAL AIRPORT... they have requested that they be allowed to land at our most security conscious air force base in Alaska.

Remember, fellow taxpayers, the pilots of Russian passenger service jet planes will be the ones that the Russian Air Force will send over to bomb this country when Russia is ready for War...and the State Department is reported ready to sign away some more of your protection for which you work so hard in order to pay so much taxes.....

INDIANAPOLIS, INDIANA.....The American Legion puts out a very valuable newsletter every two weeks concerning the current activity of persons who are doing the bidding of the Communist Party. In a recent issue of THE FIRING LINE all parents of students in college are warned concerning the coming World Youth Festival to be held in Vienna, Austria. This is another in a series of meetings of Communist-led young people. Two years ago the World Festival of Youth was held in Moscow, Russia.

There is a drive on now in the United States to recruit young impressionable men and women to attend the Seventh World Festival of Youth. The American organization which is trying to lure U. S. college students to attend this meeting which is to be held in Vienna from July 26th to August 4th, is called the United States Festival Committee. College committees have been established at the following universities according to the FIRING LINE.....The University of Arizona, Antioch College in Yellow Springs, Ohio, the University of Chicago, Brandeis University in Massachusetts, Indiana University at Bloomington, Indiana, and several more.

Ladies and Gentlemen of the radio audience....if you have a boy or girl attending a university and if they are being recruited to attend this World Festival of Youth in Europe this summer, be sure to warn them that this is part of a world-wide Communist Front movement. The American Legion warns that these organizations are doing the bidding of Moscow and that association with the groups in any way is very dangerous.

And The All-American Conference to Combat Communism has this to say in their just published newsletter for April----"Some non-Communist youth will attend the Festival -- some from curiosity; some with the hope that they can argue down the Communist professionals there; some with the dream that they can work to make future Festivals truly free exchanges of opinion and a real forum for world youth.

"These are largely wasted dreams and hopes. Youth Festival financing, organization and direction are in Communist hands. The Festival is a Communist event. Those attending it have little chance to convert Communists; their presence can be exploited to extend Communist propaganda aims."

RICHMOND, VIRGINIA -- The Farm Bureau Federation has resigned from the International Federation of Agricultural Producers. The head of the Farm Bureau, Charles B. Shuman, in making the announcement that it had withdrawn support and membership from the International Organization emphasized that it had done so because the International Organization was on record as being in favor of government interference and control of the farmer.

The Farm Bureau Federation is, of course, the largest organization of independent farmers in the United States. This is a Conservative organization and very well represents at least three out of four farm families in the United States.

(Continued on page 3.....)

The Richmond, Virginia TIMES DISPATCH editorially applauds the Farm Bureau on removing itself from the international organization because then it would no longer be in the helpless position of being a "captive conservative".

Additionally, President Shuman of the Farm Bureau pointed out that failure to withdraw would have implied that his own organization approved of principles and policies with which it sharply disagreed.

THE INDEPENDENT AMERICAN agrees that THE FARM BUREAU should be warmly congratulated on taking an independent stand against the further encroachment of government in all fields of free enterprise.

CHICAGO, ILLINOIS....Ladies and Gentlemen, there is a new plot afoot to take away more local self government from you. It all started at the University of Chicago when Robert Hutchins was Chancellor -- that's a fancy name for President.

Now you have seen how the Federal Government has been taxing the citizens so much that the local governments do not have the power to take any more money away from the citizens. So the city fathers of our great cities go hat in hand to the Federal Government and get some of the money back from the bureaucrats in Washington, D. C.

So what happens....Over at 1313 East 60th Street on the South Side of Chicago is a building built by the Rockefeller brothers. In this one building are 22 national organizations... all of them in cahoots to organize every type of elected and appointed official who runs our cities. The daddy of these outfits is the American Municipal Association. There are specialized associations for Planning Officials, Public Works employees, Tax Administrators, City Managers, Assessing Officers, State Budget Officers, Municipal Clerks and many more.

But you get the idea. What a wonderful way in which to control the thinking of all of the employees of all of the cities...and all these Associations are housed in one building right near the University of Chicago where all the State Socialism and Central Planning boys have been trained for the past twenty years!

The whole idea that these groups are trying to promote is that under the guise of efficiency the American people should give up their right to govern themselves, that they should turn over all functions of government to appointed officials.

This is the way things are run in Russia! Ladies and gentlemen, here is your warning...if someone is trying to abolish an elective job and put in its place an appointive job, watch out. For more facts about this dangerous un-American movement be sure to subscribe to the newspaper which sponsors this program.

By the way, get your pencil and paper handy right away so that you can make a note at the end of this program where you can subscribe to THE INDEPENDENT AMERICAN newspaper which brings you this program of Conservative news and opinion.

FORT WORTH, TEXAS.....Ladies and Gentlemen, at this point I would like to make a personal report on a very enjoyable experience. On April 3rd I spoke before the 16th Annual meeting of the Association of American Physicians and Surgeons, meeting in Fort Worth, Texas. Now here is an organization of medical men who are vitally concerned about the preservation of personal freedom and liberty. The main purpose of their organization is to preserve the kind of government which was established by our forefathers when the Delcaration of Independence and the Constitution of the United States was written and adopted.

Now you might think that a meeting of doctors would be devoted to long scientific papers on various areas of progress in scientific research. This was not the case with the Association of American Physicians and Surgeons. The speakers during the three day meeting were patriots and doctors whose main concern is the preservation of individual liberty and freedom.

(Continued on other side.....)

My subject when I addressed the doctors was IT'S TIME FOR A NEW DECLARATION OF INDEPENDENCE.

These medical men from all over the United States have one project which is most inspiring. This is an essay contest for high school students. The purpose of the essay contest which has been carried out for thirteen years is to inspire students to write essays on the subject of the advantages of the system of the private practice of medicine or the preservation of the private enterprise system.

To carry out this project the doctors make up a library of books which are donated to the schools where the essay contest takes place. This library of books devoted to selling the benefits of the private enterprise system is an excellent one. If you would like to have more details about this library on freedom, personal liberty and free enterprise, just drop a post card or letter to THE INDEPENDENT AMERICAN, Post Office Box 4 2 2 3, thats box four two two three, New Orleans, Louisiana. We will repeat the address at the close of the program.

CHICAGO, ILLINOIS.....Did you know that your government is going to send one million two hundred thousand dollars more aid to Poland during 1959?

One of the listeners to this program wrote in the other day complaining about something that I said. From time to time I have reported that your Federal Government has been taxing you to support the Communist Governments of Poland, Yugoslavia, East Germany, and other Iron Curtain countries.

In one broadcast, speaking about FANTASTIC FOREIGN AID, I indicated that about 100 million dollars of foodstuffs have been sent to Poland. I also indicated that several newspapers throughout America thought that this was a bad deal because the Polish government merely uses the food to bribe the Polish people into subservience to the Communist controlled government of Poland.

Now this Polish gentleman from Chicago wrote to tell me that I should not criticize the Polish people, that the Polish people needed the food that was being sent to Poland. This listener missed the point which I was trying to make, and that is the Polish people are not getting the food which our government is sending to their Communist-controlled government. The Polish people are getting only slavery from their Red Russian masters. And the longer we send any kind of help to any Iron Curtain country, the longer all those brave people will be kept in subjection.

THE INDEPENDENT AMERICAN Newspaper believes that the best way to achieve freedom and liberty and independence for the Polish people and the Yugoslavs, and the Bulgars, and the Hungarians, is to cut off all trade with the Iron Curtain countries so that the Russian Empire of Slave Nations will fall of its own internal difficulties. This was the solution urged by Senator Joseph R. McCarthy of Wisconsin....This was the solution urged by the Republican platform of 1952, this is the solution now being recommended by the Assembly of Captive European Nations, this is the solution being urged by the Veterans of Foreign Wars.

Now my good Polish friends and all of you who have ties with the old country....we should not feed our enemies, we should not send supplies of any kind to the nations which have declared that they intend to bury us....and we should not support Socialist and Communist governments who trade or deal with Red Russia or Communist China.

I have a very interesting pamphlet available to any of you radio listeners who wish to read about the possibility of liberation for the Iron Curtain Countries...it is called LIBERATION WITHOUT WAR. If you would like to have a free sample copy of LIBERATION WITHOUT WAR....just send your name and address to THE INDEPENDENT AMERICAN, Post Office Box 4 2 2 3, New Orleans, Louisiana.

(Continued on page 5.....)

Now Fellow Taxpayers, is the time to get that pencil and paper ready...

If you want to join with thousands of taxpayers throughout the United States who are doing something about high taxes and big government spending, then you will want to subscribe to THE INDEPENDENT AMERICAN Newspaper.

The regular subscription price is three dollars per year, but to our radio listeners we make a special offer.

You can receive THE INDEPENDENT AMERICAN newspaper for the next four months for just one dollar. Send your dollar to THE INDEPENDENT AMERICAN, Post Office Box 4 2 2 3, thats Box four, two, two, three, New Orleans, Louisiana. Your four month subscription will begin right away.

In addition we are making a special offer today. When you subscribe we will send you absolutely free a copy of the Constitution of the United States...We will also include a booklet entitled LIBERATION WITHOUT WAR which proves that the Iron Curtain Countries can be free without involving the United States or Europe in War. In addition we will send you a copy of the speech mentioned earlier in this program - IT'S TIME FOR A NEW DECLARATION OF INDEPENDENCE!

All of this you will receive when you send in just one dollar for a subscription to THE INDEPENDENT AMERICAN Newspaper.

Send your dollar to THE INDEPENDENT AMERICAN, Post Office Box 4 2 2 3, thats box four, two, two, three, New Orleans, Louisiana.

Now this is Kent Courtney, the Publisher of THE INDEPENDENT AMERICAN, inviting you to listen at this same time next week over this same radio station to the Conservative side of the news as brought to you by THE RADIO EDITION OF THE INDEPENDENT AMERICAN newspaper.

"IS FOREIGN AID A FANTASTIC FRAUD?"

COURTNEY: Why is RICHARD NIXON, the vice president of the United States going to Moscow, Russia . . . . . We will also discuss the fact that FOREIGN AID IS A FANTASTIC FRAUD. I will be back with the details after this message from your announcer.

FIRST ANNOUNCEMENT . . . . . .

COURTNEY: WASHINGTON, D. C.

It has been announced that NIXON, the vice president of the United States is going to Moscow.

Why do our highest officials seem to think that they must make the trek to Communist Russia?

Why does the maximum publicity attend the visits to Moscow of such men as Hubert Humphrey, who is an acknowledged candidate for President of the United States?

Are these men going to Moscow, the seat of the most bloody dictatorship the world has ever known to obtain their passes to get into a nominating convention?

And why were the American people not told of the preparations for the Vice President to go to Moscow?

Was the Senate Foreign Relations Committee consulted about this trip of Richard Milhaus Nixon to see the brutal masters of the Kremlin who used the full might of their armies to crush the freedom fighters in Hungary and East Germany?

Why are the American people told by their President that we must sacrifice and pay high taxes in order to fight International Communism and yet we see our elected Senators and now Vice President Nixon beating a path to the Kremlin as if we were on the friendliest of terms with the rulers of the largest empire of slave nations that the world has ever known?

When the American people are being burdened by the most tremendous military budget of all time for the purpose of fighting the Russians, why do we allow them to maintain their nests of spies in this country?

ENCLOSURE 105-36411-

Khruschev has warned that he will crush us, that we will be buried, that our grandchildren will live under his kind of Socialism, therefore, why do we treat him as a

(Please see other side)

friend, and why do we send foreign aid to countries that he has conquered?

Why is Vice President Nixon going to visit the Kremlin? * * * * *

Ladies and gentlemen, we will discuss FOREIGN AID IS A FANTASTIC FRAUD in just a moment. But please let me remind you to get pencil and paper to make a note of the special offer we are going to announce at the end of this program.

SECOND ANNOUNCEMENT

COURTNEY: AND NOW FOR FACTS ON FOREIGN AID

There are 86 nations in the world. We are giving "aid" of one kind or another, financed by your tax dollars, to 73 countries and territories.

Our national debt of 283 billion dollars is 47 billion more than the debts of all of the nations of the world put together!

"If we continue dissipating the wealth of the United States, we may wind up in a worse condition than a great majority of those countries we are now helping," says Congressman George W. Andrews of Alabama.

Every billion dollars that goes overseas for so-called "Economic Aid" to "under-developed" countries means that investment capital which could provide jobs for 10,000 Americans at home has been lost forever!

In 1958 when Congress voted $3.3 billion in new money for Foreign Aid there was a total of $8.2 billion of unexpended funds in the pipeline! The new $3.3 billion was completely unnecessary!

Great Britain has again cut income taxes and sales taxes. This new British tax cut was made possible because of the billions of your tax dollars shipped to Britain in Foreign Aid!

COURTNEY: HERE ARE SOME EXAMPLES OF FANTASTIC FOREIGN AID

Your tax dollars were spent to finance the following:

During the last 10 years India has received $1.3 billion dollars in aid from American taxpayers. In early 1959 India discovered oil and immediately made arrangements with Russia, not the United States, to build an oil refinery in India and agreed to purchase oil drilling equipment from Communist Russia!

A $500,000 sawmill, shipped to Iran 3 years ago is still crated and apparently will never be used.

Three huge irrigation pumps destined for Pakistan are being stored in Japan because the Pakistan government has shown no inclination to build a pump-house to put them in.

$300 million of your dollars was spent in Iran for a road that went nowhere and a dam that didn't materialize.

Millions of dollars went to Jordan to relieve Jordan's budget deficit. What about the budget deficit of the United States?

Millions of dollars to the tiny "under-developed" country of Kuwait whose sheik is now boasting of his new palace which has 90 air-conditioned rooms and a 20 room section for a harem whose occupants will enjoy an elaborate swimming pool

(Continued on Page 3)

For the 271 members of the American Foreign Aid staff in Pakistan, your tax dollars bought 229 automobiles, 539 refrigerators, 650 stoves, 666 air conditioners and hired 1021 Pakistan natives as gardeners!

FOREIGN AID IS UNCONSTITUTIONAL

John T. Flynn, Author and Radio Commentator, says "There is not one word in the Constitution which empowers the Federal Government to tax the people of this country to pay the bills for running other countries."

AND SECRECY CLOAKS OUR FOREIGN AID PROGRAM

Why have the American people been kept uninformed regarding where $85 billion of their hard-earned tax dollars have gone in the past 10 years under the Foreign Aid program? Even members of Congress cannot obtain the full facts and figures!

The promoters of Foreign Aid, in years past, tried to "sell" the American tax-paying public on the idea that the purpose of Foreign Aid was to "preserve the Free World against World Communism."

However, the "phony" sales line has now been completely exposed, because in 1958 the Legislative Reference Service of the Library of Congress revealed the fact that . . . . .

YOUR TAX DOLLARS ARE BEING USED TO "AID" COMMUNIST COUNTRIES

During the period July 1, 1945, to June 30, 1957, over $2½ billion of your tax dollars were sent to Communist or Communist dominated countries such as Albania, Czechoslovakia, East Germany, Hungary, Poland, the Soviet Union and Yugoslavia!

Dictator Tito of Yugoslavia, who frequently pledges his loyalty to the Soviet Union, now has the fifth largest airforce in the world - an airforce that can be used against the Free World - an airforce that was financed by your tax dollars in so-called Foreign Aid.

Also, under Dictator Sukarno, pro-Communist Indonesia is using $300 million of our Foreign Aid to defeat the anti-Communist forces in that country.

Another slogan of the "Foreign Aid" advocates is that we must "build up resistance to Communism." Over a period of years we have given almost a billion dollars in Foreign Aid to India, Indonesia, Egypt, Finland and Afghanistan. And yet, when a vote was called for in the United Nations to condemn Communist Russia for its brutal, repressive measures against the people of Hungary in the uprising of 1956, how did these "dollar-bought friends" vote? They abstained from voting! If these countries dare not state their views on such a clear-cut issue as Russian terrorism in Hungary, would they be dependable allies in any conceivable war situation?

Now that it has been revealed that Foreign Aid dollars, supposedly to be used to "fight Communism," are actually being sent to "aid" Communist countries, the Foreign Aid promoters have had to find a new "sales gimmick" for the Foreign Aid Program.

This new "angle" is that poor, undernourished countries provide a hotbed for Communist infiltration, and that, therefore, Foreign Aid should be used to help these under-developed countries so they can resist Communism. This is a very clever technique. It arouses the sympathies of generous Americans, but it is simply NOT TRUE!

The Citizens Foreign Aid Committee, sponsored by many of the leading Conservative figures in America today, has brought out the fact that not poverty but "Red armies, aided by local traitors and fifth columnists" have provided the means of Red take-overs. And then the Committee report states that some of the world's poorest countries, such as

(Please see other side)

Turkey, Greece, Tibet and South Korea are the most courageous fighters against Communism and our most stalwart allies.

THE DEVELOPMENT LOAN FUND IS ANOTHER FALSE APPROACH

There is another "front" utilized by the promoters of Foreign Aid to squander your tax dollars abroad. It is called the Development Loan Fund and lends money to assist American business firms in the establishment of overseas factories. The investments made by the Development Loan Fund are so risky that private industry refuses to gamble its stockholders money! Therefore, the Foreign Aiders take your tax dollars to finance these risky business ventures overseas, and in many cases your tax dollars are used to build factories which employ low-cost foreign labor who make products that compete with those made by our own patriotic American workmen!

IT'S A PHONY "ECONOMIC WAR"

Still another "gimmick" used by the Foreign Aid promoters is to state that the Soviet Union has "declared economic war" on the United States, and that therefore billions of taxpayers' dollars should be spent in Foreign Aid to combat this threat.

The U.S. State Department says that since 1954, Soviet block countries have concluded agreements with under-developed countries outside the Soviet block for an estimated amount of $2.4 billion dollars for intermediate and long term credits and loans; and that we should meet this threat of "economic penetration" by spending more on Foreign Aid to under-developed countries.

But THE INDIANAPOLIS STAR has pointed out how fraudulent this new "approach" is. For example, the purported $2.4 billion Soviet "aid" program is based on the Soviet rate of exchange of 4 rubles to a dollar, when actually the U.S. dollar is worth between 25 to 50 rubles! If we use the rate of 24 rubles to a dollar we find that the "economic war" launched by Communist Russia actually means they are lending only about $400 million for a four-year period or $100 million a year; whereas, the United States is giving away about 50 times as much - 5 billion a year!

ALSO: United States private industry and business invests about $2 billion a year in foreign countries, and private charities send about a half a billion dollars overseas each year to "backward" areas. Therefore, we see that U. S. private industry and private charity are sending $2½ billion dollars overseas each year whereas the Soviet Union's "economic war" threat amounts to only about $100 million dollars a year!

CERTAINLY THERE IS NO NEED FOR ANY FOREIGN AID EXPENDITURES FOR THE PURPOSE OF FIGHTING AN "ECONOMIC WAR" WITH RED RUSSIA!

And now let's take a look at what the various Presidential Candidates' attitude is, regarding FANTASTIC FOREIGN AID . . . . .

First the Democrat lineup . . . . .

> The four top-running candidates of the Democrat Party, Hubert Humphrey, John Kennedy, Lyndon Johnson and Stuart Symington, all voted in 1958 to send strategic war materials to Communist-dominated countries! (See Congressional Record, June 5, 1958, Page 9291.)

And on the Republican side . . . . .

> Vice President Richard Nixon leads the assault on the taxpayers' pocketbook, as he continues to actively urge maximum and continued Foreign Aid. Nelson Rockefeller, the other G.O.P. candidate, is even more extreme in his left-wing tendencies than Nixon, and could be expected to increase

(Continued on Page 5)

Foreign Aid!

FOREIGN AID A FAILURE

THE INDEPENDENT AMERICAN believes that FOREIGN AID IS A FAILURE by any measurement, by any sensible standard!

Foreign Aid during the last 13 years has not halted the onward march of Communism.

In fact, we have seen that those in the State Department who administer these funds which are voted by your Congressmen and Senators have used Foreign Aid to support and aid pro-Communist governments.

Foreign Aid has squandered America's wealth to the four corners of the Earth, and if continued can bankrupt these United States.

SUBJECT: KENT COURTNEY
INFORMATION CONCERNING
(INTERNAL SECURITY)

Kent Courtney, Chairman, American Legion Free Enterprise Committee, New Orleans, Louisiana, by telegram 6-3-59 requested a statement from the Director concerning the advisability of American college students and others attending the World Youth Festival in Vienna. This statement is to be used in connection with a seminar to be held 6-6-59 on benefits of American enterprise system, danger of communist subversion and to warn youths against lending prestige to the festival by their attendance.

The festival is the seventh affair held biennially sponsored by two international communist youth organizations with headquarters behind the Iron Curtain and such has been widely publicized. The "Washington Daily News," 3-18-59, contained an article indicating that State Department stated the purpose of the festival was to further aims of international communism and the policy of the United States was to discourage participation in the festival.

While Bufiles contain no identifiable data of a subversive or derogatory nature concerning correspondent, he is the editor and publisher of "The Independent American," formerly known as "Free Men Speak." The publication is allegedly dedicated to the defeat of socialist and communist influences and to promote individuals and organizations which believe that a political party based on constitutional states rights is the answer to socialism. Neither Courtney nor his publication has been investigated by the Bureau.

RECOMMENDATION:

It is recommended that receipt of correspondent's telegram be acknowledged and he be furnished the above publicly available information and be advised the Bureau cannot furnish him the advice he has requested. Attached is a suggested letter to the correspondent.

—Your Right To Own Property Is

THE BULLDOZERS ARE COMING!

HAVE AMERICANS LOST THE RIGHT TO OWN PROPERTY?

Have you wondered why the American public, for the past few years, has been subjected to a barrage of propaganda urging the need for "slum clearance", "renewing blighted areas", etc.?

This publicity build-up has only one purpose in mind and that is to provide a camouflage-screen for the Socialists in their attack on the right to own property.

The name of this Socialist assault on the property-owning citizens of this nation is called URBAN RENEWAL. We are told by the propagandists that Urban Renewal means Slum Clearance – a worthy aim, to be sure, because all citizens are for cleaning up unsightly slums. However, THE DAN SMOOT REPORT recently stated: **"Urban Renewal is not slum clearance. Urban Renewal is a Federally-financed program of city planning which requires city government to seize homes and other private property from some citizens and re-sell them, at below cost, to real estate promoters and other private citizens for developments that the city planners consider desirable."**

URBAN RENEWAL IS A TWO-PRONGED ATTACK

What is the ultimate aim of the URBAN RENEWAL program?

(1) To provide a foothold for **FEDERAL INTERFERENCE IN LOCAL AFFAIRS.**

(2) To **DESTROY THE RIGHT TO OWN PRIVATE PROPERTY.**

HERE'S HOW THE FEDERAL URBAN RENEWAL PROGRAM OPERATES:

First, a local "authority" or "commission" is set up. This is staffed by "experts in city planning". **They rule that a certain section of the city be considered a "slum area", whether it is actually a slum area or not!** Immediately the orders go out that the area is to be cleared and all homes, business establishments and churches are to be torn down to make way for the URBAN RENEWAL program.

But where does the city get the money to finance these property-condemnation proceedings and clear the land to make way for URBAN RENEWAL?

Congressman Bruce Alger of Texas, a former realtor well-versed in real estate matters, provided the step-by-step procedure in a 60-minute speech before the U. S. House of Representatives on March 17, 1959. Congressman Alger stated that "The URA (Urban Renewal Administration) lends large sums, to acquire by condemnation under power of eminent domain, and otherwise, land and buildings now belonging to private citizens and used for their homes and businesses. The local authority generally demolishes and clears all the structures from the project. The cleared land is then offered for sale, generally at tremendous loss, for **RE-USE BY OTHER PRIVATE CITIZENS FOR SITES FOR THEIR BUSINESSES AND HOMES."**

And then Congressman Bruce Alger continues: "The loss – the difference between what the cleared land will bring when re-sold and the cost of acquisition, demolition, preparation for re-use, plus all project overhead – **is made up by the taxpayers.** One-third of the loss is paid by taxpayers in their local taxes, as a so-called local grant-in-aid. The other TWO-THIRDS IS PAID BY TAXPAYERS IN THEIR FEDERAL TAXES."

SMALL BUSINESSMEN CAN BE RUINED

Nothing can stand in the path of the bulldozers once an Urban Renewal plan is underway. Small businessmen, store owners who have spent a lifetime building up a small business are ruthlessly uprooted.

Thus it can be seen that not only is a **taxpaying citizen forced to sell his property** at a fraction of what it is worth, but that **shopkeepers face a loss of their means of livelihood** as well, when the Master Planners of the Urban Renewal Commission condemn property in order to turn it over to favored real estate developers.

"But how," you may ask, "can this be possible? I bought my property – I own it – it's mine and the U. S. Constitution guarantees my right to own property."

Yes, that is TRUE! But . . . you should also

In Jeopardy——

bear in mind that the U. S. Supreme Court, under Earl Warren, has a very poor record of upholding the Constitutional rights of LOYAL American citizens.

SUPREME COURT AIDS CONFISCATORS

Congressman Bruce Alger stated in a speech on the floor of the U. S. House of Representatives on March 17, 1959: "The private ownership of property is a basic right to be jealously guarded as we do our personal freedom. The Supreme Court upset this protection in 1954, in the case of Berman against Parker – in reinterpreting the traditional application of eminent domain. In this case in a district court, the owner of a department store challenged the validity of the act which gives the local redevelopment authority the right to condemn property which is **NOT SUB-STANDARD OR SLUM PROPERTY, MERELY BECAUSE THE PROPERTY IS PART OF AN OVERALL REDEVELOPMENT PLAN.** The Supreme Court then upheld this right to take property, because in its concept of public welfare . . . "

> At this point Congressman Alger entered in the Congressional Record the following words of the SUPREME COURT'S ruling: "The concept of the public welfare is broad and inclusive. The values it represents are spiritual as well as physical, esthetic as well as monetary."

And Congressman Bruce Alger then stated: **"I SAY LOSING YOUR PROPERTY UNDER EMINENT DOMAIN BECAUSE OF SOMEONE ELSE'S JUDGMENT OF A 'SPIRITUAL' OR 'ESTHETIC VALUE' IS UNCONSTITUTIONAL AND WRONG."** And Congressman Alger added: "This (Supreme Court) decision means that the courts, generally the final repositories of the people's rights against arbitrary action of the legislature, **ARE NOT AVAILABLE TO YOU WHEN YOUR PROPERTY IS TAKEN AND DESTROYED FOR REDEVELOPMENT PURPOSES."**

PRIVATE DEVELOPERS TAKE OVER YOUR PROPERTY

What it all boils down to is this: Under

(Continued on other side)

URBAN RENEWAL PROMOTER SHOWS HIS CONTEMPT FOR PROPERTY OWNERS

In December 1958, a man by the name of William Zeckendorf delivered a speech before the New Orleans Chamber of Commerce. Zeckendorf is president of Webb & Knapp, Inc., one of the nation's largest real estate developers and in a position to profit handsomely from the URBAN RENEWAL program.

Here's what Zeckendorf had to say when addressing the leading business and political figures in New Orleans:

"(1) You must have a master plan . . . . .,
(2) You must be able to dedicate or to pledge the responsibility for the re-development concept in the hands of an objective-minded . . . . . commission that will declare what areas are blighted and what are sub-standard; what areas must be re-zoned and re-developed for the benefit of the community."

And then Zeckendorf shows his utter contempt for property owner by saying:

"This is the only area in which I say you must depart from the pure form of democracy in which the individual rights must be observed. This is the case where the community right is more important than the individual because it is a matter of license rather than a matter of privilege for any one individual to be allowed to flourish excessive worship of the idea of private property, to be able to stand our against the development project which is in the interest of the community."

In discussing those property owners who are being "bull-dozed" out of their property and are protesting the "token" settlements they receive, Zeckendorf stated contemptuously: "avarice in some people is a form of disease and they are not concerned with public interest."

It can be readily understood that the average American property holder is, indeed, not concerned with Mr. Zeckendorf's version of "public interest", which MEANS CONFISCATION OF PRIVATE PROPERTY FOR THE PURPOSE OF TURNING IT OVER TO "FAVORED" REAL ESTATE DEVELOPERS.

And then Zechendorf concluded: "They (the property owners) must be condemned at a fair price. **WE SHOULD TAKE AWAY FROM ONE MAN AT FAIR VALUE WHAT HE IS NOT PREPARED TO DEVELOP AND GIVE IT TO SOMEBODY WHO WILL."**

The above-quoted arrogant statements by Mr. William Zeckendorf, clearly reveal the utter ruthlessness of this sinister scheme and the lust for power that apparently governs some of the men who are promoting Urban Renewal.

Federal Urban Renewal, the local Urban Renewal commission, financed by Federal taxpayer dollars, can seize your property, pay you a small part of what it is worth, and **then turn over your property,** together with the property of others, **to a Real Estate Developer,** and this Real Estate Developer will get a loan from the Federal Government to **develop your property for his profit!**

URBAN RENEWAL CONCENTRATES CONTROL

The only people who will benefit from Urban Renewal are: A few favored local contractors, real estate developers, bankers, and architects who will do the bidding of the Big Planners in order to make the fantastic profits that have been promised them for their services of "selling out" the American taxpaying citizen.

If you own property, whether it be a modest home, an expensive home, a small business or a big business in your local community, **your property now may be in jeopardy.** You can no longer sit back and say to yourself: "I own it – it's mine." **The Socialist Planners have decided otherwise and have the Socialist Supreme Court to back them up!**

The small real estate agent, the small home loan firm, the small banker will suffer tremendous business losses because the "URBAN RENEWAL PROFITEERS" may be able to dominate the most profitable areas of the real estate business.

HOW TO FIGHT THIS SOCIALIST SCHEME

Federal Urban Renewal cannot gain a foothold in your city . . **cannot infiltrate your city and condemn your property UNLESS YOUR STATE LEGISLATURE has passed an enabling law.**

If your State has already passed a law to accept Federal Urban Renewal funds, then the property owners of your State should mobilize immediately to demand that this law **be repealed** by the State Legislature.

If, however, your State has not as yet passed such an enabling law, then property owners should work through property owners associations and civic clubs to let all the members of your State Legislature know the dangers of the Federal Urban Renewal program.

ORGANIZE OR JOIN A PROPERTY OWNERS ASSOCIATION

Join a local property owners association composed of respected members of your community, men who can't be "bought off" with Federal Aid dollars – men who are vitally interested in preserving private ownership of property of every individual. If such a local organization does not exist in your community, then band together with like-minded citizens and organize a property owners association.

WHAT YOU CAN DO

Remember, the only reason that this Urban Renewal Program has fastened itself on some cities in the United States, is **because the taxpaying property owners did not know the true facts regarding Urban Renewal.**

Use the facts in this pamphlet as background material to write your State Representative and State Senator regarding the dangers of the Urban Renewal Program. Write letters to the editor of your local newspaper, thereby alerting additional thousands of property owners.

Help to PRESERVE THE CONSTITUTIONAL RIGHT TO OWN AND CONTROL YOUR PROPERTY by buying and distributing as many copies of this pamphlet as you possibly can.

HAS THE METRO PLAN TAKEN OVER YOUR CITY?

WHAT IS "METRO"?

From border to border, from the Atlantic to the Pacific, a giant project is underway to (a) deprive American citizens of the right of local self-government and (b) to destroy the Constitutionally-guaranteed rights of the individual States by merging parts of several States into one urban region to be governed by an appointed Manager. **This SOCIALIST SCHEME is called METROPOLITAN GOVERNMENT . . . or "METRO" for short.** "METRO" government is centralized government of a large urban area.

Jo Hindman writing in AMERICAN MERCURY magazine states: **"Merging is the basic pattern of Metro:** governmental merging of (1) City-County (that may result in abolishment of the political identities of cities)
(2) County-Regional (obliterating county lines)
(3) Regional-State (fusing the States . . .)

"There is no single pattern of Metro; its policies and program, goal and methods appear in a variety of forms, usually piecemeal .... Miami-Dade County is an example of 'Metro' Step No. 1 (City-County, as completed). Southeast Michigan represents No. 2 (County-Regional, in formation). Northeast Illinois represents No. 3 (Regional-State, where the States of Wisconsin, Indiana and Illinois are implicated.)"

WHAT IS THE "BAIT"?

The "bait" offered by the promoters of Metropolitan Government is that the greatly increasing population of the United States is demanding more and more services such as paving and maintenance of roads, sewerage disposal facilities, more parks and playgrounds, etc., and that these "benefits" can be provided only if a "METRO" Plan of Government is installed. **"METRO" then merges surrounding areas into one centralized region controlled by an appointed Manager, who is an "expert" in such matters.**

THE MISLEADING CLAIMS OF THE "METRO" PROMOTERS

The "METRO" Plan promoters say that "METRO" is "home rule." But METRO is **not** "home rule". It is the **opposite** of home rule. METRO concentrates the power of government in the hands of all-powerful APPOINTED OFFICIALS rather than ELECTED OFFICIALS.

"METRO" advocates are now urging local communities to adopt the "METRO" Plan because it is "efficient", will "do away with political corruption and graft", and finally, "will lower taxes because of its efficient methods".

"METRO" DOES NOT REDUCE TAXES

The Socialist Planners who are promoting "METRO" attempt to deliberately mislead the American public by stating that "METRO" will reduce taxes, but this is **not true!** The "METRO Plan" increases taxes! A study made in Evanston, Ill., which is governed by an appointed manager under the "Metro Plan", showed that the municipal tax rate in Evanston is more than double the average rate for mayor-run towns in Cook County!

THE IMPORTED SOCIALIST "EXPERTS" TAKE OVER

Because this "Metro Plan" is a PART OF AN OVER-ALL PLAN BY THE SOCIALISTS TO CONTROL THE ENTIRE NATION, the appointed manager who puts "Metro" into operation in a locality is usually not a local citizen. These city managers, for the most part, have been trained by "Metro Headquarters" (1313 East 60th St., Chicago) in "social engineering and "city planning". To be city manager of any city is merely an assignment for these "experts". (For instance, the appointed "Metro" manager of Dade County, previously was city manager of San Diego!)

LOCAL SPENDING INCREASES

The claim that these imported city managers will "reduce taxes" is false. Discussing this point THE DAN SMOOT REPORT states: "The main reason why city managers do not save citi-

ELECTIVE JOBS TO BE ABOLISHED!

zens money is that the managers, having become a specialized occupational group, need big-spending records for themselves so that they can move on to bigger salaries in bigger cities. If he can show that in five years be quadrupled a city's budget for 'services,' he proves himself an agressive and effective manager."

HERE IS HOW THE "METRO" PLAN OPERATES IN DADE COUNTY

Below is an analysis of some of the dangerous aspects of the Metro Charter for Dade County, Florida.

The "METRO" government of Dade County, Fla., is composed of an elected Board of County Commissioners.

This Board of Commissioners then appoints a County Manager who is then in complete control of the administrative branch of the "METRO" government.

Besides the usual powers exercised by a city government, the "METRO" Charter contains some alarming additional powers such as:

POWER TO ESTABLISH A "METRO" COURT

The Metro Charter provides for the establishment of a Metropolitan Court to be staffed by appointed, not elected, judges. **The establishment of this Metropolitan Court places in jeopardy the Constitutional rights of all the citizens.** For example, the Dade County Metro Charter provides that "arrests, complaints, prosecutions and convictions shall be instituted and processed in a manner provided by the rule of the Court." **This is completely unconstitutional because the Fifth Amendment to the Constitution of the United States** (other parts of the Bill of Rights adding thereto) **provides the manner in which all Courts in the United States shall operate in order that the rights of the citizens are protected.**

Another unconstitutional aspect of this Metro Court in Dade County, Fla., is that in listing punishment for violation of any Metro ordinance, if the fine exceeds $500 or imprisonment in the county jail for more than 60 days, then, and only then, is a citizen of Dade County entitled to a trial by jury! This is a direct violation of the 6th and 7th Amendments to the U. S. Constitution which preserve the right of trial by jury to all citizens.

POWER TO CONTROL BUSINESS FRANCHISES

Section 8.05 affects business firms. It states: "All lawful franchises, contracts and licenses in force on the effective date of this Charter shall continue in effect **until terminated or modified in accordance with their terms or in the manner provided by law or this Charter.**"

Insofar as the Metro-created Metropolitan Court will "decide" the "law", one can see what a club this can be over the heads of local businessmen.

POWER TO ABOLISH LOCAL ELECTIVE OFFICES

Section 1.01 of Article I gives the "METRO" Charter the power to: "By ordinance, abolish or consolidate the offices of Sheriff, Constables, or any county office created by the Legislature . . " (with the exception of Superintendent of Public Instruction and Circuit Court or any other court provided by the Constitution.)

Under Article 8.01 the following offices are abolished and the powers and functions of such offices transferred to the appointed Manager: County Assessor of Taxes, County Tax Collector, County Surveyor, County Purchasing Agent, and County Supervisor of Registration. And then, just to be sure that they haven't overlooked abolishing some other elective offices, the Metro Charter states: "In the event that other elective offices are abolished by the Board, the Board shall . . "

(Continued on other side)

ORGANIZE NOW TO OPPOSE METROPOLITAN GOVERNMENT

POLITICAL PARTIES TO BE ABOLISHED

Section 2.03 of the Dade County Metro Charter states: "All elections for the Board shall be **non-partisan** and no ballot shall show the party designation of any candidate." This sentence makes it possible for a Communist to be elected as a Commissioner. At the same time it, for all intents and purposes, abolishes political parties.

THE ALL-POWERFUL "METRO" MANAGER

The Metro promoters, when "selling" a community on the idea of Metro, attempt to delude the voters into thinking that these elected Commissioners will have administrative powers.

Actually, Section 3.05 of the Metro Charter clearly states that the power of the Commissioners is limited to "purpose of inquiry" only and that the Board and its members shall deal with the administrative service solely through the Manager." Thus it is seen that the voters' elected representatives are mere "scenery" on the stage of this drama of despotic power with all control and power in the hands of the METRO MANAGER.

THE DICTATORIAL METRO MANAGER NEED NOT BE A RESIDENT

Section 3.02 of the Metro Charter for Dade County states: "At the time of his appointment he need not be a resident of the State." This method of "importing" outsiders to run a local community also applies to other appointees **who replace previously elected officials.**

WHAT CAN BE DONE TO PROTECT A COMMUNITY AGAINST "METRO"

If the "Metro Plan" has not as yet fastened its tyrannical tentacles on your community, you can be sure that the "advance men" for "Metro" will soon be visiting your city trying to "sell" the voters on this dangerous and deceitful scheme.

WHAT YOU CAN DO

(1) WATCH FOR THE SLOGANS OF THE "METRO PLAN" PROMOTERS.

The favorite catch-phrases used by the Metro Planners are:

"Home Rule" – But METRO is not home rule!
"Tax Reduction" – But METRO actually increases taxes!
"More Public Benefits" – But financed by increased taxes!
"Greater Efficiency" – A prison is efficient because all power is concentrated in the hands of the Warden.
"Eliminate Duplication of Services" – Government is consolidated and elective jobs are abolished.

(2) HELP SPREAD THE WORD OF THE DANGERS OF "METRO".

Don't let what has happened to Dade County, Florida, happen to your community . . . . Spread the word in your area of the need for voters to reject any METRO PLAN to take over and destroy your local self-government.

(3) BUY COPIES OF THIS PAMPHLET FOR YOUR DISTRIBUTION.

Buy as many copies of this pamphlet (TAX FAX No. 13) as you possibly can and distribute to your friends and neighbors; urge your club or organization to also purchase large quantities to distribute to their members.

(4) ALERT THE POLITICIANS IN YOUR AREA.

Send copies of this pamphlet to all ELECTED politicians in your city, county and state. Alert elected officials to the fact that METRO abolishes almost all elective positions, replacing them with imported "appointees". **When local political leaders realize that "METRO" is a SOCIALIST SCHEME to abolish their jobs, they will UNITE WITH CONSERVATIVES TO OPPOSE "METRO" AND PRESERVE LOCAL SELF-GOVERNMENT.**

* * * REMEMBER, IN THOSE AREAS WHERE THE CITIZENS WERE ALERTED, "METRO" WAS DEFEATED!! * * *

"KHRUSHCHEV TALKS OF PEACE WHILE MAKING PLANS FOR WAR"

COURTNEY: While Premier Khrushchev and President Eisenhower are exchanging letters of mutual admiration and talk of a "new peace" for the world, Communist troops are moving in to take over the important Asian country of Laos. Reports from that faraway area tell us that Communist forces, armed with the latest instruments of modern warfare, are attempting by brute force to seize Laos and to turn it into another Red Satellite.

The small democracy of Laos is not the only country that is under attack from the Reds at the present time. Communist military forces are making hostile moves toward the country of Nepal, which lies just north of India, between that country and Tibet. The Chinese Communists are confident that they will capture Nepal and even some of the northernmost territory of India. They boasted of this confidence recently when they printed maps showing Nepal and northern India as already belonging to the territory of Red China.

And while the Communist military attack on Laos and Nepal continues, back in Washington extravagant plans are being laid to roll out the plushest of Red Carpets to welcome the very dictator who is directing these military attacks in Asia. Premier Khrushchev has announced that he will come to the United States as a "man of peace." And Senator Dirksen of Illinois has told us that the main goal of President Eisenhower is to see peace achieved in our time. But what is the price of peace? The Reds have told us over and over again that only when a world totalitarian Communist dictatorship is established and the Free World eliminated then will there be "peace." The only way we can achieve "peace" with the Soviets is to surrender -- and we must never do this. How is it possible therefore, that our President could invite Khrushchev to dine in the White House, knowing that the Russian dictator, who says he wants peace, is at the same time directing savage military attacks against two small democratic countries in Asia? Is Eisenhower blind to the fact that Khrushchev is merely using his visit to this country as a smokescreen to cover up his military attacks in Asia?

Let us remember that only a few months ago the Soviets savagely put down a revolt in Tibet against the Communist dictatorship there. And let us not forget that at the very time the Russian soldiers were massacring thousands of innocent Tibetan citizens, our own Secretary of State was sitting with his Russian counterpart in Geneva discussing what the Reds had asked us to discuss -- the Berlin question.

After weeks and weeks of negotiation with the Soviets in Geneva, what was the result? Certainly the Berlin question was not resolved. Nor was there any attempt on the part of our own government to force the Russians to talk about the Captive Nations or about the savage suppression of the revolt in Tibet. The blunt truth is -- like Will Rogers said a few years back -- " our country never lost a war and never won a conference."

In dealing with the Soviets we should always keep in mind those revealing words uttered years ago by a former High priest of Communism, Josef Stalin.

"Words have no relation to actions -- otherwise what kind of diplomacy is it? Words are one thing, actions another. Good words are a mask for concealment of bad deeds. Sincere diplomacy is no more possible than dry water or wooden iron."

And those were the words of Josef Stalin, who during his lifetime became a master at getting the most for Russia out of the two American Presidents with whom he had diplomatic dealings. Neither President Roosevelt nor President Truman ever realized the corruptness of Soviet diplomacy while serving in office. Today it is President Eisenhower who is showing that he is no match for Soviet diplomacy.

NIXON'S "DO IT YOURSELF" TRAP

The coming visit of Khrushchev to this country has made one thing certain: the political career of Vice President Nixon is doomed. Never has Nixon's political stock been so high with the left-wing appeasers of Communism as it is today; but never has his political stock been so low with the majority American voters.

Whether Nixon knows it or not, he has fallen into a trap of his own making. And who is to benefit from this trap? Nelson Rockefeller, Nixon's rival for the Republican presidential nomination.

The story of this trap was revealed a few days ago by Congressman Wainwright of New York, Governor Rockefeller's unofficial campaign manager. Appearing on a recent television program, Wainwright served notice that Rockefeller plans to turn the tables upon Nixon by the skillful use of the Khrushchev visit. Rockefeller knows that Nixon has now earned the title of "appeaser of communism" and that a great segment of his former supporters no longer trust Nixon after his trip to Russia. Rockefeller knows this and hopes to play upon this theme when the public's opinion of Nixon begins to turn sharply against the Vice President because of his appeasement policy.

The strangest part of this whole trap, which Nixon laid for himself by inviting Khrushchev to this country, is that Governor Rockefeller is even a bigger left-winger and appeaser of communism than is Nixon. Rockefeller is carefully trying to avoid being labeled an appeaser of communism -- but at the same time wants to pin this label on Nixon.

"FORCED BOND BUYING"

COURTNEY: Congressman Noah Mason of Illinois has let us in on the newest gimmick the High Tax Boys have planned for the American taxpayer. Congressman Mason recently pointed out that the Federal Government has been going deeper and deeper into debt for the last 20 years. Each year as the Government has gone deeper into debt, it has become harder to raise money through the sale of Savings Bonds.

You don't have to be an expert in high finance to realize that nobody is going to buy a Bond if when the maturity date rolls around the bond will be cheaper and worth less than when it was bought. Yes, that is what is occuring today. If you paid $18.75 for a $25 Saving Bond ten years ago, you would only get $12 when you turned it in today because inflation has shrunk the dollar about 50%.

That is the reason the American public has virtually stopped buying Savings bonds today. The Government knows this and in order to encourage new Bond buyers it offers today twice the interest which was offered two years ago. But even with the higher interest rate the American public has been slow to buy Bonds.

(Please see page 3.....)

That is the reason the High Tax Boys and the Big Spenders in Washington have dreamed up a new scheme to promote inflation and deficit financing. What is this scheme? Congressman Mason told us recently. The Government is considering forced bond buying. That's right; first, the income tax was passed and its rates were raised higher and higher; then the With-holding Tax was passed; and now the Big Spenders want to put the American citizen in an economic strait jacket by requiring him to use some of his paycheck each week towards buying a bond. We would have no choice; we would have to buy bonds to support the programs of the Big Spenders. Unless inflation is halted so that there will be normal buying of Savings Bonds, then the Government may ask Congress to pass a law to force Bond buying. Let us hope that day never comes.

WASHINGTON, D.C. Reaction to the announcement by the AFL-CIO Committee on Political Action that it had drawn up a list of ten Conservative Senators to defeat in the coming 1960 elections is still being heard in Washington. Earlier this week Senator John McClellan of Arkansas, the head of the Senate Labor Rackets Committee, issued his reply to the Labor Bosses' threat.

This is what Senator McClellan said:

"I am not at all surprised to find that the Committee on Political Action of the AFL-CIO has marked me for defeat in the election next year. I hope every citizen in Arkansas may know about it. This group is not my master. I cannot be subservient to their will and domination. I do not believe that the people of Arkansas want that kind of Senator."

We at the INDEPENDENT AMERICAN are thankful that there is in the Senate today a statesman and leader of the great stature of Senator McClellan.

"MORE NEWS ON NEW PARTY RALLY"

And now, Ladies, and Gentlemen, for more of the details I promised you on the last INDEPENDENT AMERICAN radio program about our mammouth convention to be held in Chicago. The dates of the INDEPENDENT AMERICAN convention are October 23 and 24. Mark these days on your calendar. The headquarters for the convention will be Chicago's Hotel Morrison. And the speakers -- well, there has been assembled the finest list of outstanding Conservative leaders ever gathered for a single event in the last decade. Just listen to some of the outstanding conservative leaders who will speak on the first day of the convention -- on Friday, October 23. There will be William F. Buckley, Jr., Editor of NATIONAL REVIEW magazine; Robert Welch, Boston publisher of AMERICAN OPINION; Tom Anderson, famous conservative publisher of FARM AND RANCH magazine; Clayton Rand, the noted American humorist; and Willis E. Stone, President of the National Committee for Economic Freedom.

Saturday, October 24, the second day of the convention will be devoted solely to the planning and discussion of the formation of a new political party for the 1960 Presidential election. Outstanding legal experts and new party leaders from throughout the Nation will be gathered at this time to chart the plans for entering a Conservative New Party candidate in the Presidential race next year. Two of those speakers scheduled to address the New Party Rally are Dan Smoot, the famous news analyst and editor of DAN SMOOT REPORTS; and J. Bracken Lee, former Governor of Utah who won the admiration of millions of Americans when he refused to pay his income tax because he believes it to be unconstitutional.

There are millions of Americans today who are disillusioned with the two major political parties; there is no difference today between the Republican Party or the Democrat Party. Both are the parties of the Big Spenders and Appeasers of Communism. THE INDEPENDENT AMERICAN rally to be held in Chicago's Hotel Morrison on October 23-24 may well be the first step toward the formation of a new political party, one which will be dedicated to

restoring those freedoms guaranteed under the Constitution.

Now this is Kent Courtney, the publisher of the Independent American newspaper, asking you to invite your friends to listen next week at the same time over this same radio station when we will again present the Conservative side of the news as heard over the RADIO EDITION OF THE INDEPENDENT AMERICAN.

"GOVERNOR J. BRACKEN LEE INTERVIEWED CONCERNING THE KHRUSHCHEV VISIT"

COURTNEY: Good evening, Ladies and Gentlemen. Our program today marks a special occasion for the Radio Edition of the Independent American. We have as our guest for a portion of the broadcast, the Honorable J. Bracken Lee, National Chairman of FOR AMERICA and the noted publisher of THE AMERICAN STATESMAN. J. Bracken Lee, a staunch believer in Conservatism, is the former Governor of Utah.

I will bring you my interview with Governor Lee after this short message from your announcer.

COURTNEY: Ladies and Gentlemen, before bringing you the words of J. Bracken Lee, I wish to advise that the interview with Bracken Lee was tape recorded last week when I visited him in Salt Lake City. Governor Lee devotes most of his remarks today to the invitation to Khrushchev to visit this country.

So great has been the revulsion of the American people to Khrushchev's visit that there are indications that the "appeasers" in our State Department may be looking for a convenient excuse to call-off the Khrushchev visit to this country.

I personally have received all sorts of letters and communications from outraged Americans all over the country who have written me denouncing the "appeasers", who invited Khrushchev.

Shortly after it was announced by our State Department that 400 Russian flags -- bearing the hammer and sickle on a Red background -- are to be flown on Washington's main streets during the Khrushchev visit, I was reliably informed that members of Congress were swamped with letters from their constituents at home protesting this base act of welcoming the Butcher of Budapest. There have been other manifestations of the public's indignation. A poll conducted by the largest newspaper in the State of New Hampshire, the MANCHESTER UNION LEADER, last week revealed that 96% of those polled were completely opposed to the Khrushchev visit. The Committee Against Summit Entanglements, headed by Robert Welch of Massachusetts, has published full-page newspaper ads in over 20 daily newspapers protesting the visit. The Committee for Freedom for All Peoples -- which includes among its leaders Senator Thomas Dodd of Connecticut and Senator Styles Bridges of New Hampshire, is sponsoring a petition drive against the visit of Khrushchev. Several powerful national organizations will hold anti-Khrushchev rallies within the next few days.

It is because of this tremendous spontaneous revulsion of the American people against the Khrushchev visit that has prompted the indications that the Khrushchev visit might be called off. For that reason, I wish to advise those listening that this program was recorded last week in Salt Lake City and since then the Khrushchev visit might have been cancelled. In the event it has been called off, the reason will be clearly evident. It is because the American people -- and such leaders like J. Bracken Lee -- were appalled

by this greatest of appeasement moves and reacted quickly.

And now may I present the Honorable J. Bracken Lee.

GOV. LEE: Thank you Kent.

COURTNEY: Well, we're interested in talking about the current issues facing the American people, Governor. We're one of the top items of course is the visit of Premier Khrushchev of Russia. I notice that both Senator Morse, a Democrat, and Senator Javits, a Republican, have both approved the Khrushchev visit. What is your opinion concerning this visit?

GOV. LEE: I do not believe that it is wise to invite Khrushchev over here. Like most people who know something about his record, I do not believe anything can be gained. Khrushchev and the Communists have notified our country and our leaders what they intend to do. They intend to take this country over and turn it Communistic. They have told us they will do it through high taxes, and spending and destroying our economy, and will eventually make a Communist nation out of the United States. We have had something like 3,000 meetings with the Communists since we recognized them in 1933, I believe. We have had 52 agreements with these people -- they have violated 50 of the 52 agreements. When we set down with people who have a record of the mistreating of human beings such as we have with this man Khrushchev and his party, and then turn around and bring him over here and treat him as an equal, it is my opinion we are destroying the respect that we might hold in the eyes of enslaved peoples all over the world. We are letting them down, we are letting the American soldiers down who are prisoners of the Communists, we are letting down these boys who have been shot down by the Communists, and I think we've had something like 15 or 16 planes shot down - many boys killed - we have many other civilian Americans who have been in prison for years for no other reason than the fact that they are American citizens and I think we are letting these people down. Of course, if I had my way, I would sever all diplomatic relations with Russia - I would not deal with dishonest, immoral people.

COURTNEY: Well Governor, if you severed relations with Russia wouldn't that bring on a war or something?

GOV. LEE: I don't think it will, I think unless we do sever diplomatic relations that we are eventually going to be involved in a war. I think all you have to do is look back at just recent history where we gave in and the English and French gave in to Hitler on every request that he made, and eventually we went to war. The only thing these people understand is strong statements and show of strength and we are not showing that- we are showing a weakness. We act like we're afraid of these people.

COURTNEY: Do you thinkthat Roosevelt would have invited Hitler and given him the run of the country the way Eisenhower is giving Khrushchev the run of the country?

GOV. LEE: No, I do not believe he would.

COURTNEY: Thank you, Governor Lee, for these timely and penetrating remarks on the Khrushchev visit. I am sure that every patriotic American is in agreement with you on this vital subject.

May I remind our radio listeners that J. Bracken Lee will be one of the principle speakers at the INDEPENDENT AMERICAN NEW PARTY RALLY which will be held in Chicago next month. The dates of the two-day INDEPENDENT AMERICAN RALLY and convention are Friday, October 23, and Saturday, October 24. The place is the Hotel Morrison, in Chicago.

Other speakers who will address this Conservative Meeting are Dan Smoot, the former FBI agent who now has his own nation-wide television show and publishes the DAN SMOOT REPORT; Tom Anderson, the publisher of FARM AND RANCH magazine. Mr. Anderson will speak on the

(Please see Page 3.....)

importance of having a farm program free from Government control and interference. He will also speak on the need of a new political party.

William F. Buckley, Jr., Editor of NATIONAL REVIEW and Robert Welch, publisher of AMERICAN OPINION will also address the INDEPENDENT AMERICAN FORUM.

Everyone is invited to attend this convention on October 23 and 24 at the Hotel Morrison in Chicago. If you wish to attend, just drop a postcard to let me know and I will send you the full details. Just address your postcard to THE INDEPENDENT AMERICAN, P. O. Box 4223, New Orleans, Louisiana.

WASHINGTON, D.C. The decision by President Eisenhower to extend the ban on atom bomb tests for an additional two months is arousing great criticism in the Nation's capital. Many political observers are commenting that the President, by pushing back the deadline from October 31 to December 31, has played right into the hands of the Soviets.

These same political experts have found fresh support for their fears in the recent findings of a prominent group of nuclear physicists. This group of leading scientists has found that all the talk about the dangers from atomic fall-out has been greatly exaggerated and that radiation does not pose a deadly peril today.

Thus there are great fears on the part of our military and nuclear leaders that while the United States lives up to its part of the bargain by not testing any nuclear weapons, the Soviets -- who have said they will not shoot off any test either -- might be firing nuclear explosions in Siberia without our knowing about it, because the explosions are set off underground.

This ability to fire nuclear explosions underground has virtually eliminated the meaning of a nuclear test ban. It is this reasoning that has prompted so many of our military leaders and political experts to voice criticism over the President, voluntarily pushing back the testing ban deadline until December 31st.

JACKSON, MISSISSIPPI: The recent election of Ross Barnett as the new Governor of Mississippi has been hailed all over the South as the signal that the States Righters are on the march again. Barnett, who campaigned on a Conservative, States Rights platform, defeated the nominee of former Governor Coleman's machine in Mississippi, which wanted to remain loyal to the National Democrat Party.

The importance of the Barnett victory and the revolt of the people in the South against the "party loyal" forces, gains added significance with the meeting on September 16 of the Democrat National Committee in Washington. The meeting has been called by Paul Butler, the national chairman of the Democrat Party.

Butler has announced that he will try to stop all those Southern delegations from being seated at the Democrat Presidential convention in Los Angeles next year who refuse to take a Loyalty oath.

Six Southern States now have the Independent Elector Plan which allows them to not endorse the national Presidential candidate of the Democrat Party if the candidate holds anti-South views. Paul Butler has warned that these six States will not be seated at the Democrat convention next year unless they take a Loyalty oath.

This demand by Paul Butler has caused an uproar in the South. The newly elected Governor of Mississippi has announced that he plans to hold regional conferences with other Southern leaders to lay strategy and plans for future Southern action. Likewise, the leaders of the Democrat Party in South Carolina have indicated that they, too, favor a plan of co-operation among the Southern delegations.

(Please see other side.....)

If Paul Butler has his way and these six Southern states [illegible] seated, signs point to a walkout from the Democrat convention. This walkout will be different from the 1948 "bolt." Southern observers predict that the dissatisfied Democrats will refuse to back the left-wing socialistic Democrat Presidential candidate and will form a coalition with Conservative Republicans in the North who can see only disaster if Nixon or Rockefeller are nominated by their party. The result of this coalition of Southern Conservative Democrats and Northern Conservative Republicans would be a new political party -- not a sectional party but a national party. It would unite the Conservatives all over the country into a new Conservative party. As each day passes, more and more Americans realize that there is no difference between the two major parties today, that both the Republican and the Democrat Party are dedicated to socialism, and that a new political party is the only answer.

REVIEW OF 1959

The Bureaucrats Continue to Conspire Against the Taxpayer

COURTNEY: GOOD EVENING, FELLOW AMERICANS:

As the year 1959 draws to a close let's look back over some of the major events which took place and what bearing they may have on the future of this country. 1959 was the year that saw the following major developments:

(1) The continual "softening up" of the United States by International Communism...more and more appeasement being advocated by the Democrats and Republicans.

(2) The continued and now even accelerated Big Spending by the bureaucrats of both parties in Washington.

(3) The continuance of Fantastic Foreign Aid which squanders your tax dollars all over the world and which has been proven over and over again to be a colossal failure, but which the Big Spenders of both parties still promote.

105-36811-

(4) Statements made in 1959 by all candidates for the presidency of both parties are as alike as peas in a pod, clearly indicating that you, the voter, will be offered a choice between a candidate of Socialist Party "A",formerly known as the Democrat Party, and a candidate of Socialist Party "B", formerly known as the Republican Party.

NOT RECORDED
21 JAN 21 1960

(5) And last, the establishment of a Communist satellite nation on the doorstep of the United States. Of course I refer to Castro's Cuba.

AND NOW AFTER A BRIEF WORD FROM YOUR ANNOUNCER, I'll be back with a review of 1959. The material used on tonight's program is taken from this year's issues of THE INDEPENDENT AMERICAN newspaper, the sponsor of this program.

ENCLOSURE

(Continued on page -2-.....)

FIRST ANNOUNCEMENT.

CASTRO'S CUBA - A COMMUNIST SATELLITE

COURTNEY: In the February issue of THE INDEPENDENT AMERICAN, while a large portion of the nation's press was loudly proclaiming Castro as the "liberator" of Cuba, we exposed the pro-Red background of Castro. In that issue we asked the question: "Aside from America's revulsion at Castro's blood bath of Cuba, the question is: Is Castro's take-over of Cuba a "local" affair concerning only the citizens of Cuba; or do his actions directly MENACE THE SECURITY OF THE UNITED STATES?" And in the March-April issue of our paper we carried an article entitled "IS CUBA'S CASTRO A CARIBBEAN HITLER?" Well, 10 months later both questions have been ominously answered. Cuba has now become a Communist satellite on the doorstep of the United States. Communist Russians are training Castro's military forces. It has been reliably reported that Castro is receiving nuclear weapons from Red Russia. Castro is now seizing church property and private property in true Communist fashion. Castro has indeed become a "Caribbean Hitler", complete with ranting and raving broadcasts and blood baths.

And what does our appease-crazy State Department do about the frightening situation in Cuba? The answer is exactly nothing! No, I'll take that back. The only "policy" the State Department advocates regarding Castro is to give this Cuban maniac more of your tax dollars in so-called Foreign Aid!

We don't have to land Marines in Cuba to clean up the mess. All that is necessary is that we break diplomatic relations with Cuba, sever all trade with Cuba, and above all stop sending Foreign Aid and other money to Cuba. In other words, we should quarantine the mad-dog,Castro of Cuba,before he enflames all of Latin America.

But will the State Department do this? I doubt it. And because both the Democrat and Republican parties are equally committed to appeasement policies of Communism, no hope can be expected from that quarter.

That is just another reason THE RADIO EDITION OF THE INDEPENDENT AMERICAN continues to say that the only hope for this nation is the establishment of a new conservative political party which will defend this great nation of ours from our enemy, International Communism.

KHRUSHCHEV'S VISIT CASTS GLOOM ON SOVIET SLAVE STATES

The August-September issue of THE INDEPENDENT AMERICAN carried an editorial by J. Bracken Lee which was first printed in THE AMERICAN STATESMAN. J. Bracken Lee, former Governor of Utah, was recently elected Mayor of Salt Lake City as an independent. This editorial by J. Bracken Lee sums up in a few words the disastrous foreign policy which reached a height of infamy when President Eisenhower invited Khrushchev, the Butcher of Budapest, to be his honored guest at the White House.

Following is the editorial by J. Bracken Lee:

"What kind of people do we have running our foreign policy when we continue to sit down on equal terms with Russian leaders? ...

"If we believe it was wrong for the Russian leaders to murder millions of their people for political reasons then we should never cease pointing out to the world this tragic record.

"If we believe it is wrong for the Russian leaders to enslave, murder, and mistreat the citizens of Poland, East Germany, Hungary, and many other countries, then why in the name of everything decent don't we tell the Communists and the whole world that we will not waste five minutes talking to them on any subject until they have freed every one of these enslaved people?

"What have we said in protest or by our actions in condemnation of Communists for the rape and murder of the little nation of Tibet?

(Continued on page -3-....)

"What may we ask, has our government done to obtain the release of hundreds of our American boys who have been imprisoned by the Communists. Have we so much as lifted our hands in an effort to put a stop to the shooting down of our planes and our boys by the Communists?

"With this disgraceful record on the part of the Communist leaders, we not only rush to every meeting they call and spend our time defending ourselves against Communist charges but fall all over ourselves to entertain these leaders when they visit our capital. Such a display of weakness on the part of our government can have only one effect upon nations and people all over the world, and that is an eventual complete lack of respect. ..."

THE INDEPENDENT AMERICAN wholeheartedly endorses the courageous statement by J. Bracken Lee. Can an independent thinking American like Bracken Lee support any nominee of the Republican Party in 1960? Because, remember, the Liberals are in complete control of the Republican Party and it is they, and they alone, who formulate Republican foreign policy.

SECOND ANNOUNCEMENT.

EXAMPLES OF SPEND-CRAZY WASTE

COURTNEY:
And now let's look back over the 1959 record of the spend-crazy policies of both "old" parties. The last session of Congress raised the debt ceiling to 295 billion dollars. Can you visualize how much money that really is? Well, here's one way: One million dollars is a stack of $1,000 bills approximately four inches high; one billion dollars is a stack of bills 333 feet high. In other words, America's national debt would require a stack of $1,000 bills more than 18 miles high to pay it off!!!!

Now here's an example of how the Big Spenders in both "old" parties are wasting your tax dollars.

During a period of two months this year the Federal Government spent seven million of your tax dollars to buy up egg surpluses resulting from overproduction. At the same time the Federal Government paid out 1.1 million of the taxpayers' dollars to help more people get into the egg production business, thus inviting bigger surpluses! Does that make sense to you?

And while we're on the subject of the farm program, here are some more fantastic facts concerning farm subsidies: The Agriculture Department has tried to propagandize the American people that farm subsidies help the "small farmer." But that is simply not true. For example, Senator Williams of Delaware made public a long list of persons who received $1 million or more in farm payments in 1957. Rice Mills received $1.4 million in price supports for rice, and Delta and Pine Land Company got $1.1 million for price supports on cotton. The Ford Motor Company received $13,649 for not planting corn and wheat in 1957. The Mississippi State Penitentiary received $71,000 for not planting cotton. While out in New Mexico and Colorado a number of operators have leased conservation reserve lands from the States for 25 cents an acre and then have rented the land back to the soil bank - collecting from $7 to $9 per acre from the American taxpayers through the farm program.

All of this disgraceful waste is not paid for by the Federal funds, you know. The Government has no money of its own. It has only that which it collects from you, the taxpayer. There is no such thing as Federal Aid. This is YOUR MONEY - your tax dollars that these spend-crazy bureaucrats are wasting!

In the presidential campaign next year we shall see the Republicans try hard to convince the American people that they are the party which stands for the sound dollar. The Republican party will try to create the image that they are fighting inflation. But, fellow Americans, don't be misled! This is a cruel hoax that they will try to perpetrate on you. The fact is that the Republicans have even out-spent the Democrat New Dealers! The national debt at the end of the Truman Administration was $265 billion and the annual interest was less than $6 billion with government bonds selling at par. (And, remember during that period we financed the Korean war). Now after six years of the Eisenhower Administration - most of those years of peace - the national debt is $285 billion, the annual interest is more than $8 billion and Government bonds are selling below par on the open market.

(Continued on page -4-.....)

And this Big Spending will continue and will increase until the economy of this nation is destroyed by inflation - until America is bankrupt - because both the Democrat and the Republican Parties stand for more and more wasteful spending. That's why every day more and more Americans throughout this land are coming to the realization that a NEW NATIONAL CONSERVATIVE PARTY IS THE ONLY ANSWER - a new party which will put economy back in Government - a new party which will cut wasteful spending so we can all get a much-deserved tax cut!

FOREIGN AID AIDS COMMUNISTS

In 1960 President Eisenhower will advocate bigger and bigger Foreign Aid spending. The Big Spenders have for years been trying to fool you, the taxpayer, into believing that the purpose of Foreign Aid is to build up the Free World against Communism, to help under-developed countries grow strong enough to resist Communism, as they say.

To illustrate how false is this propaganda being fed the American people by the advocates in both parties who promote Foreign Aid here are some facts which appeared in an article in THE INDEPENDENT AMERICAN which we reprinted from THE INDIANAPOLIS STAR:

Most of your Congressmen do not know how U.S. foreign aid funds are spent, who gets the money, or why. How can they? The State Department will not make an item by item report. But, we do have some figures on who got how much money during the last 12 years from the U.S. taxpayer. They come from the Library of Congress.

> Communist Albania got $20,444,000; Communist Czechoslovakia got $185,827,000; Communist East Germany (yes that's what we said) got $17,339,000; Communist Hungary got $17,723,000 plus $15,917,000 credits; Communist Poland got $365,017,000 plus $88,000,00 credits; Communist Yugoslavia got $789,732,000 plus $55,900,000 credits.

That total for Communist countries outside the Soviet Union since 1946 is $1,585,482,000 from the American taxpayer. Did it ever occur to you that this is almost as much as the Communists have spent since 1946 for their entire foreign aid program outside the Soviet captive states? Did it ever occur to Congress and the President that the United States has provided enough money to finance the entire Communist "economic offensive" announced by Communist boss Khrushchev? Man! What fools we are! As late as 1955 we sent $2,374,000 to Communist Czechoslovakia. Between 1954 and 1958 we sent a total of $17,339,000 to Communist East Germany! In 1955 before the Hungarian revolt we sent $3,496,000 to Communist Hungary! Then after the Hungarians revolted and were smashed by the Reds we sent the Red Hungarian government $11,867,000! Apparently American tax dollars were used to rebuild Hungary after the Russians had smashed a revolt against communism with Soviet troops! Between July and December of 1957 we sent Communist Poland $49,890,000 of the U.S. taxpayers' money and more was sent in 1958. Note that Red boss Gomulka has just lined up solidly with Red boss Khrushchev and has publicly condemned the United States! From 1955 to 1958 we sent $170,000,000 to Communist dictator Tito. He is still a Communist. He still votes with the Soviets in the U. N. He still sells the Communist line in the Middle East and Asia. He still imprisons anti-Communist critics.

Is this the foreign aid program the new Congress will support? Is this what is being described as the answer to the "economic offensive" of the Communist world? Do we intend to send to Communist countries just the amount of money they say they are spending in order to "bury us"? What sort of inverted thinking produces such insanity? Why doesn't Congress stop it? What is wrong with the President and Secretary of State who permit this betrayal of American interests?

IS RICHARD NIXON A TRUE CONSERVATIVE?

NEW ANTI-CASTRO REVOLT IN CUBA

FIRST ANNOUNCEMENT:.....

COURTNEY: GOOD EVENING, FELLOW AMERICANS:

ALBERT LEA, MINNESOTA. On December 23 a Federal Court held that Gov.Freeman of Minnesota had exceeded his authority when he used the National Guard of his State to accomplish the goal that a mob of labor union gangsters had been unable to accomplish. Gov.Freeman had used the National Guard to shut down the Wilson & Co. meat packing firm in Albert Lea, Minn., and to suspend the constitutional freedoms of all of the citizens of that town - by declaring martial law.

All of this was brought about by riots which occurred in Albert Lea, Minn. on the nights of December 9th and 10th when a mob of 1,000 union members hurled stones at the non-union workers, overturned cars and beat and bullied the replacements - all this while the unionized police stood by watching and laughing. At this point Governor Freeman of Minnesota decided to use the National Guard to force the closing of the plant and the unemployment of the law-abiding workers rather than forcing the mobsters to desist from their law violations. Wilson & Co. then went to Federal Court to get an order lifting the pro-mobster martial law imposed by Gov. Freeman. In ruling that the Governor had exceeded his authority, the Federal Court admonished Gov.Freeman that "free people do not surrender to mob rule until all means available to the city, county and State to enforce the laws, have proved futile."

105-36811-

In commenting on these events, the CHATTANOOGA (TENN.) NEWS-FREE PRESS stated: "Gov.Freeman's use of the power of the State to support the lawbreakers, surely will gain him the support of the bosses of organized labor's political power. freedom cannot coexist with the kind of injustice Gov.Freeman imposed in Minnesota.

CIUDAD TRUJILLO, DOMINICAN REPUBLIC. From an article by James H. Winchester in THE HERALD OF THE DOMINICAN REPUBLIC we learn that a counter-revolutionary, anti-Castro underground organization is now operating in Cuba and is gaining new recruits each day. The name of the anti-Castro group is "White Rose". The head of "White Rose" is Dr. Rafael Diaz Balart who was once a close law school friend of Castro. Dr. Balart's sister was once married to Castro and is the mother of Castro's 10-year old son. It is said that there are now approximately 30,000 Cubans enrolled in anti-Castro "cells" inside Cuba. Those who used to be engaged in the tourist business in Cuba, which is now extinct, are said to be high among these Castro dissenters, as are those whose property has been confiscated by Castro, in true Communist fashion. One of the underground leaders recently stated: "When the revolt starts, we will depend mostly on our friends inside the army for major munitions and arms. For the immediate present informed underground sources state, sabotage will be the main effort of these "cells". The sabotage program of the anti-Castro underground will be aimed at places and things such as factories, bridges, and sugar cane fields and not against people.

It is heartening news, indeed, to learn that the people of Cuba are not willing to cowardly permit a Communist dictatorship to be fastened on their country. While these patriotic Cubans are risking death to fight Communist-dominated Castro, the U.S.Government continues, in effect, to subsidize Moscow's puppet, the bearded dictator of Cuba, through Foreign Aid funds to Cuba, paid for, of course, by your tax dollars.

WASHINGTON, D.C.

Here is how the Government uses your tax dollars. Here are some additional facts on waste in Government. Auditors employed by the General Accounting Office of the Federal Government recently caught the Air Force in the act of spending more than half a million dollars too much for electronic communications equipment. They found a $100,000 discrepancy in a General Motors contract with the Air Force which led to a refund. They prevented the Mechanicsburg, Penna., Naval Supply Depot from scrapping more than a half million dollars in usable equipment and caught the Air Force in the act of wasting more than $10,000,000 because the Air Force was going to replace worn-out vehicles instead of merely repairing them.

If you think this waste of the taxpayers' money is appalling, you might stop for a moment to consider the probable waste which the General Accounting Office did not uncover. The GAO after all, employs only a small number of investigators in comparison to the size of the defense establishment.

I wonder how many more millions of our tax dollars are being wasted by "spend crazy" bureaucrats!

FT. LAUDERDALE, FLORIDA

And speaking of the Big Spending policies of both the Democrat and the Republican parties, here's an idea advanced by the FT. LAUDERDALE NEWS: "There's a thought-provoking idea being kicked around these days about changing income tax day to a date that coincides with national election time in November. The purpose behind this idea is quite simple. Briefly put, it is felt that if the voters had to pay the tax collector their share of the cost of running the Federal Government on the same day they had to go to the polls to vote for candidates seeking public office, they might be inclined to give more thought to the qualifications and the platforms of those seeking their support." And then the FT. LAUDERDALE NEWS continues: "It has always amazed us how people in this nation swallow the guff that the Federal Government can spend billions of dollars on handout programs without tapping the pockets of the taxpayers for the money to pay for the handouts.

"Every election year we see scores of political candidates promising the voters all kinds of expensive government services and programs without going into any detail, whatsoever, about where the money to pay for the services and programs will be secured.

(Continued on page -3-.....)

"If somebody questions them on this point, the odds are that the office seeker will have some kind of an answer ready, cleverly designed to give the questioner the impression that only the taxpayers in the higher brackets will pay for the programs."

And then the FT. LAUDERDALE NEWS concludes: "This is a fallacy pure and simple, yet, it is surprising how many people in the nation still share the illusion that the bulk of the tax load is being borne by taxpayers in the upper income brackets."

The Tax Foundation, Inc. recently released the results of a study that had been made of the Federal Government's 1957 tax collections. This showed that 61% of the total yield of the income tax came from - not the upper income brackets - but from the first bracket - the lowest bracket - the 20% bracket!

You can see, therefore, that the income tax, which was sold to the American people as a "soak the rich" tax, is in actual fact a tax to "soak the poor"!

SECOND ANNOUNCEMENT :.....

IS NIXON A CONSERVATIVE OR A LIBERAL?

COURTNEY:
Conservative Republicans would do well to do some quiet thinking before they jump with joy at the recent announcement that Rockefeller has withdrawn from the race, thereby leaving a clear field to Nixon for the Republican nomination in 1960. "Party loyal" Republicans who stick to the formerly-Conservative Republican Party regardless of how Liberal or Socialist the GOP candidate may be should take a long look at Mr. Nixon, his activities in the past few years, and his public statements in the recent months.

Here are a few questions which every Conservative Republican - or every person who voted for Eisenhower in 1952-should ask himself:

(1) Is Nixon still a Conservative? Or has Nixon completely embraced the "Modern Republicanism" now practiced by Eisenhower which is a carbon copy of the New Dealism of the Democrat Party?

(2) Why did ultra-Liberal Rockefeller withdraw? Does his withdrawal mean that the Conservative element has recaptured the Republican Party?

Did Rockefeller withdraw because he is now sure that Nixon will support fully the views of Rockefeller and the Eastern internationalists? Did Nelson Rockefeller withdraw because he has the promise of Richard Nixon that Nixon as President will carry out fully the plans of the Internationalists to place the government of the United States in a One World Government? Did Rockefeller withdraw from the race for President because Nixon has now become Rockefeller's puppet to the same alarming degree that Eisenhower has become the puppet of the Internationalists?

Is Nixon still a Conservative? You will recall that Nixon gained nation-wide fame in the Congressional investigations which led to the exposing of Alger Hiss and his pro-Communist connections. For this one activity Nixon was dubbed an anti-Communist - and, unfortunately too many party-loyal Republicans remember that one fact and conveniently forget all of Nixon's "soft-on-Communism" activities since he was elected Vice President. For example, in the early part of 1959 Nixon addressed the Fordham College Alumni Association dinner and stated: "Let us speak LESS OF THE THREAT OF COMMUNISM and more of the promise of freedom. LET US ADOPT AS OUR PRIMARY OBJECTIVE NOT THE DEFEAT OF COMMUNISM but the victory of plenty over want, of health over disease....."

Now I ask you, fellow Americans, can Nixon still be considered an anti-Communist - can Nixon still be considered a Conservative when he advises his listeners to "speak less of the threat of Communism" and when he advocates that we "adopt as our primary objective NOT the defeat of Communism"?

If America is to survive we must speak not "less" as Nixon advocates but more and more about the threat of Communism.

(Continued on page -4-.....)

Nixon believes that our primary objective should not be the defeat of Communism. Fellow Americans, International Communism is America's mortal enemy. If America is to survive as a free nation of God-loving individuals, then Communism must be defeated. For the past few years both the Republican and the Democrat parties have advocated "peaceful coexistence" and that policy has failed disastrously. Soviet Russia is stronger today and more of a menace to America today than every before!

Now let us consider Nixon's recent record: His position with regard to the visit of Khrushchev.. His position on the subject of the supremecy of World Law....

Nixon supports the ban on nuclear testing, which ban is opposed by some of our leading general officers of our Defense Department as being ruinous of our lead in nuclear defense over that of the Soviet Union. The Communist Party supports the ban on nuclear testing. Nixon supports the Warren Supreme Court in its invasions of the rights of the States. He has not criticized the Supreme Court decisions which are favorable to the Communist cause. Nixon was the conscious errand boy for Eisenhower in arranging the visit of Khrushchev to the United States. He admitted as much when he refuted the allegation made by Senator Barry Goldwater that Nixon was surprised at the invitation to Khrushchev. Nixon joins with Eisenhower in support of the World Court, by abolishing the Connally reservation clause. This would destroy American sovereignty and independence by turning over certain heretofore domestic American issues and cases to a World Court. This watering down of our Constitutional protections is another aim of world Communism. Nixon has echoed Eisenhower in the use of the phrase that "war is unthinkable" which simply means that surrender to Russia is preferable to war.

No, we do not believe that Nixon is a Conservative.

In conclusion, The Independent American newspaper believes that true conservatives cannot support Richard Nixon....who has now apparently become the tool of Rockefeller.....True Conservatives cannot in good conscience support Nixon who stands for dealing with the Russian butchers who hold in slavery millions of peoples behind the iron curtain. We cannot support Nixon who believes in the Big Spending and foreign aid policies which have been adopted by both political parties....Nixon is a part of the bi-partisan conspiracy between both parties to deny the American voter a choce at the voting booth. Yes, Ladies and Gentlemen, we believe that true Conservatives must look to a new political party to provide the really conservative answers to these important issues which face the United States today.....To keep up with the news of the fast growing new party movement, subscribe today to the Independent American newspaper which brings you this radio program....for details on how you can subscribe... here is your announcer...

"THE SPIRIT OF CHRISTMAS"

COURTNEY: This is the Radio Edition of THE INDEPENDENT AMERICAN.

Ladies and Gentlemen, a Merry and a Holy Christmas to all of you. In the spirit of this Christmas Season we are going to announce a free gift at the end of this program. While you get your pencil and paper we will play some Christmas music, after which I will be back with a special Christmas message.

(Music.....

COURTNEY: GOOD EVENING, FELLOW AMERICANS. The other day I saw a big sign board on a busy street in New Orleans. The sign board was sponsored by one of the largest retail stores in Louisiana. It showed an inspiring painting of the Virgin Mary and the Child Jesus... and the words on the sign were "KEEP CHRIST IN YOUR CHRISTMAS."

It is a tragic commentary on life in the United States today that the Holy Season of Christmas, commemorating the birth of the Prince of Peace, has been so flagrantly commercialized that the religious aspects of Christmas are being brushed aside and ignored...so much so,that it is necessary to forcefully remind us by signboards of the religious significance of the day!

The celebration of the birth of Jesus Christ is accompanied by the giving of gifts. This is done in remembrance of the gifts brought by the THREE WISE MEN of the East who visited the manger of the infant Jesus. And there are those who believe that the giving of gifts at Christmas Time should be in memory of the many priceless and eternal gifts which Jesus Christ gave to men of Good Will.

Let us discuss two of these gifts of Christianity.

There is the gift of everlasting life, promised to those who lead a life patterned after that of Jesus Christ,and following the precepts of his teachings as handed down to us through the pages of the Holy Bible.

ENCLOSURE

(Continued on Page 2.....)

Another most important gift is that the religion of Christianity is one which states that the individual is important in the eyes of God. Christianity emphasizes the value of the individual who possesses an immortal soul.

America from the outset was founded as a Christian nation.

Consider, for example, the MAYFLOWER COMPACT: The date was the beginning of the winter of 1620. Those Mayflower Pilgrims decided to write and adopt a Compact of Government for themselves. The Mayflower Compact recognized man's individual relationship with God in the following ways:

It starts off..."In the Name of God, Amen..."and a little later on the Mayflower Compact indicates the purpose of the settlement with these words --- "...having undertaken for the Glory of God and the advancement of the Christian Faith and the honor of our King and Country, a voyage to plant the first Colony in the northern parts of Virginia, do by these presents solemnly and mutually in the presence of God and One another covenant and combine ourselves together into a civil body politic."

In 1776, in the Declaration of Independence our forefathers wrote a document which contained the essence of Christianity because the Declaration of Independence recognizes the intrinsic value of the individual.

The basic principle of the Declaration of Independence is that men derive the power to govern themselves directly from God. Here are the words used in the Declaration..."We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty, and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men....."

This was the most revolutionary idea in the history of written Documents. In essence, the Declaration of Independence destroyed the myth of the Divine Right of Kings or Dictators to rule the masses of humanity.

And now we come to the Constitution of the United States: The spirit of the Christian Idea that the individual man is the most important part of human society is contained in the United States Constitution.

And where do you find the essence of this spirit of the individual rights of individual persons? It is contained throughout the entire first ten Amendments to the Constitution known as the Bill of Rights.

Men like Patrick Henry of Virginia would not accept the Constitution, as carefully a written document as it was, without having restated in simple language that the purpose of the Government was to protect the rights and liberties of the people. And further than that, the first ten amendments contain a re-statement of the importance of the individual citizen, by listing those things which the government shall NOT do to individuals.

And finally to make more certain, the two last Amendments in the first ten contain the phrase that all powers not specifically allocated to the central government should remain with the States or with the people.

The central revolutionary idea is that men derive all their power from God and that they allocate some of this power to the State Government, and that the States in turn give some of their power to the central government, through the written and defined limitations of the Constitution.

This most revolutionary idea in government since the beginning of written history could not have been possible without the heritage of the Christian civilization of more than 1,700 years.

But, fellow Americans, these sacred rights bequeathed to us by our valiant forefathers are now, not only under attack, but the United States of America is being menaced increasingly by International Communism.

2.

(Continued on Page 3.....)

Why is Communism America's mortal enemy?

Because the goal of atheistic World Communism is to wipe Christianity from the face of the earth. Only America, with its concept of the God-given rights of the individual, stands in the way of complete domination of the world by atheistic Communism.

In a booklet by Reuben H. Markham, we read: "From the day Karl Marx launched modern Communism 100 years ago, it has been against Christianity in every form; wherever Communists have siezed power they have fought the Church more bitterly than any other type of government has fought Christianity since the early Roman Emperors. This total onslaught against Christianity now is moving toward a climax in most Communist-ruled lands. It is a fight to the finish." (Let me interrupt this quotation in order to point out one very concrete example, by mentioning the barbaric torturing and murdering of Christians in recent years by the Communist Chinese.) And now back to Mr. Markham: "Communism, from the very nature of its basic philosophy, must oppose Christianity; Communism rests on unconditioned materialism, and furiously denies the existence of spirit in any form...Communism claims absolute authority for its dictators, and shudders at the idea of an individual man or woman standing alone before God and drawing authority from God alone...Communism has associated the worship of man en masse with the worship of individual leaders such as Lenin and Marx." Those are the words of Reuben H. Markham.

And here's what W. C. Vollmer, President of the Texas and Pacific Railway Company, has to say on this subject:"This Marx-bred philosophy is an anti-God concept of life...Under the Marxist idea, man has only one right - the right to follow blindly and unquestioningly the dictates of the State - and to slave and die uncomplainingly for it...This is a conflict between human dignity and godless tyranny - between freedom and slavery - between God-given rights and State-granted privileges." And that is the message from the President of the Texas and Pacific Railway.

And how is International Communism waging war against Christianity? Well, as we all know, the Communists have found that their most effective weapon is INFILTRATION. Therefore, they are attempting to infiltrate the churches of America. No denomination, no faith, is immune from Communist attempts at infiltration.

One method of infiltration is to prevail upon certain pastors to enter the field of the "Social Gospel". In this way, the minister finds himself so involved in civic work, and acting as a Chairman of this civic committee and that one, that time does not permit him to devote his full time to spiritual problems of his flock. Communists and their fellow travelers lure preachers into all sorts of "World-Brotherhood"-type of activities where, tragically the minister frequently finds himself associated with those who believe in peaceful "co-existence"... "co-existence" that is, with atheistic Communism!

A third method of infiltration and distraction from the essentials of Christianity is the Communist method of setting one religious group against another, and the substitution of various kinds of social activities in place of religious observances.

America is also being led away from the value of Christian principles of religion and government through the various agencies of the United Nations.

One example is that of THE UNITED NATIONS EDUCATION SCIENTIFIC, AND CULTURAL ORGANIZATION, called UNESCO, which has presumed to tell teachers how to teach American history so that patriotism and love of country would disappear in the United States. At one time UNESCO was under the chairmanship of an avowed and militant atheist.

And of course many authorities have pointed out that the United Nations has yet to begin a session with prayer. Imagine trying to work for peace without calling on the Prince of Peace for guidance and understanding.

And so we see that in the final analysis,this battle against World Communism is a battle against atheistic Communism. As I mentioned on a previous radio program, the Communists have gone so far as to recently establish another University of Atheism!

(Continued on Page -4-.....)

3.

This is a conflict which, unless Americans stand firm, will mean the end of the United States of America, as we love it.

Here's how J. Edgar Hoover puts it: "There is no place in America for part-time patriots. If our nation is to live, if we are to continue to enjoy the fruits of liberty, we can do no less than follow the example of the men who won that freedom for us. Freedom, while a heritage,must be re-won for each generation....The menace of Communism is no simple forthright threat. It is a sinister and deadly conspiracy which can be conquered only by an alert, informed citizenry dedicated to the preservation of the principles on which America was founded. If our nation is to retain its liberty in the future, now, as never before, its citizens must understand that THE INESCAPABLE PRICE OF FREEDOM IS ETERNAL VIGILANCE". And those were the words of J. Edgar Hoover, Director of the Federal Bureau of Investigation.

Yes, fellow Americans, at this Holy Christmas season it is well to ponder these things...to stop rushing around with preparations for the materialistic side of Christmas and dwell for a few moments, on the spiritual aspects.

This is Kent Courtney, Publisher of THE INDEPENDENT AMERICAN, a national newspaper devoted to the preservation of the spirit of our Constitution and our Declaration of Independence wishing all of you a very Merry Christmas which will be Merry when you keep it Holy in memory of the Prince of Peace whose birth we are celebrating.

In keeping with the Spirit of Christmas, my wife Phoebe and I wish to say thanks to all of you who have been instrumental in keeping this program on the air. We wish to thank all of our subscribers for the opportunity of serving them. We thank all of our financial supporters for their faith in this work we are doing in bringing to more than 200,000 listeners the Conservative Side of the News ---

"SENATOR KENNEDY LIKES WALTER REUTHER"

We have some dramatic news about war plans from behind the Iron Curtain.

Senator Kennedy says that Walter Reuther, head of the United Automobile Workers would make a fine candidate for President.

Final preparations are being made for the big two day meeting of the INDEPENDENT AMERICAN FORUM in Chicago at the Hotel Morrison.

Now for the details.

Let us move out into the mysterious areas North of India, to one of those buffer countries that stands between Russia and the great subcontinent of India. In listening to this news it will be well to remember that Lenin, the master strategist of the Soviet Communists, has outlined in detail how they plan to conquer the world. He first stated that the road to Paris is by way of Peking, the capital of China. We see all too well that the Moscow trained Chinese Communists have indeed conquered the great country of China.

Then Lenin said that India would have to be over-run, and then Africa. Following these moves Europe would fall into their control and the last bastian would be the United States after the governments of South America had been subverted and controlled.

Now to the specific news:

KANDAHAR, AFGHANISTAN The Russians are very cleverly exploiting the naive craving of the Afghans for anything modern and power-inspiring. The Russians, playing on this desire of the Afghans for a modern airport, told the Afghans that if an airport were built, big enough to accommodate Jets, that the European-Japan jet air services would be glad to use a modern airport in Afghanistan! They were told they would thus be able to take the business which now goes into the long established airport at Karachi, Pakistan. So with the help of Russia Technicians, a mammoth airfield was built at Kandahar. It is now standing there, in the middle of the desert, with no prospect of it being used.

Ah, but wait just a minute. There is more to the story.

The Afghans have been building with Russian technical help, splendid military roads, bridges crossing rivers, bakeries, hospitals, grain elevators, water reservoirs, railway networks, and when the whole system of public works is spread out on a map it can easily be seen that all of this activity can help only one country... and that is not Afghanistan... no the only

country that can benefit from all of this construction is Russia who needs to have this all built when she decides to move her military forces into India, on her well prepared plans of attack.

It just so happens that this large airport is suited for use in patrolling the air over Iran, Pakistan, Kashmir, Tibet, and out over the Indian Ocean and the Arabian Sea. We have another later report that the Russians are now apparently training a few Afghanistan pilots. The ratio is about ten Russian airmen to one Afghan Pilot. The so-called training flights include long photographic missions and aerial surveys over all of the passes that lead from Russian Central Asiatic Republics down into India. The Russians flying planes out of Afghanistan and Soviet Tadzhikistan, taking photographs of the historic passes through the Himalayas into India.

Ladies and gentlemen, we will have more news in just a minute. If you like the way the Conservative side of the news is presented on this radio program, then you can help keep this program on the air by sending in a free will offering or a subscription to THE INDEPENDENT AMERICAN Newspaper....For details on how you can subscribe, here is your announcer.

ATLANTIC CITY, NEW JERSEY Well, as might be expected, Senator John Kennedy, the Irish youngster from Boston, made a pilgrimage to his lord and master, Walter Reuther, when Reuther's own union THE UNITED AUTO WORKERS were holding a convention in Atlantic City.

The whole farce of the labor investigation in the Senate during the last two years has shown nothing but the ugly fact that Walter Reuther used the power and glory of the U.S. Senate to persecute Jimmy Hoffa.

Probably James Hoffa and his teamster Union needed a good airing, and a good labor bill finally came out of the Congress. The Landrum Griffin Bill is a step in the right direction of eliminating some of the more obvious gangsters and gangster methods in the labor union movement.

But the worst gangster of them all is none other than Walter Reuther himself. When Walter was 27 years old, he made a prolonged trip to Russia where he worked in the factories there. His letters to his relatives in the United States indicated that he really believed he was in a worker's paradise. He sometimes signed his letters as follows, "Toward a Soviet America." These letters have been published in The Saturday Evening Post and in the Congressional Record.

Upon his return from Russia, Walter Reuther used Communist techniques in organizing the automobile workers Union. Walter Reuther has been the chief architect of one big Union for all American workmen. And he is the most powerful man in that largest of Unions known as the AF of L - CIO.

But Jimmy Hoffa and the teamsters are big and growing. Jimmy Hoffa is coordinating his moves with Harry Bridges, the pro-Communist leaders of the West Coast Longshoremen. And Jimmy Hoffa and Bridges are teaming up with the National Maritime Union. A great transportation Union monopoly is in the making. But Reuther does not control it.

And now we get to the point of this news story coming out of the United Auto Workers Convention in Atlantic City....Young John Kennedy comes to make a speech before the Union which belongs to his friend Walter Reuther. Being passed out at the entrance to the Convention hall are some handbills which suggest "Reuther for President".

Now you know that these handbills would not be passed out without the consent of Walter Reuther, himself!

Kennedy in his speech before the applauding and cheering labor union chiefs, volunteered the information that Reuther would do very well as a candidate!

(Please see Page 3.....)
